

# BACKGROUND

1. Neighborhood Traffic Management Program(NTMP) includes the traffic calming tools for various road types.

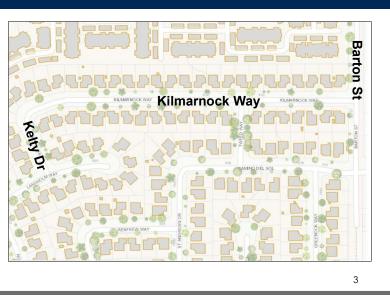

2. In 2014, use of speed humps were discontinued.

3. On May 2024, the City Council reinstated the use of speed humps as one of the alternatives in the secondary options of the NTMP.

### LOCATION MAP

Request for speed humps along Kilmarnock Way between Kelty Drive and Barton Street.

# **DISADVANTAGES OF SPEED HUMPS**

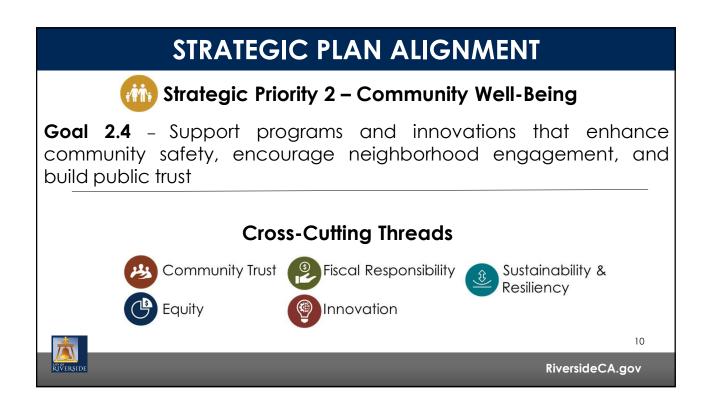

Disadvantages of speed humps include:

- Capital cost (minimum 2 to 4 speed humps per street);
- Tendency to speed in between humps;
- Noise from braking
- Potential delays to emergency vehicle response times (Type II)
- Diversion of traffic
