INCIDENT SUMMARY: (For specific details, see Detective Adcox Incident Report

On May 8, 2021, Officers Mann and Cuevas, along with Riverside Code Enforcement Officer and two CityNET employees, all with the Public Safety Engagement Team (PSET), organized and planned to check specific locations in the City of Riverside where they have received numerous complaints of transients camping on the sidewalks, and leaving trash and miscellaneous debris around them. The PSET has two sworn police officers, one Code Enforcement Officer, and Two CityNET (homeless outreach) workers.

Code Enforcement staff organize the locations where the Team will conduct investigative checks. Code Enforcement develops the lists based on complaints from community members and businesses. Code Enforcement officers handle city code violations at the sites. The CityNET team works with homeless individuals in order to find alternative housing for them. The police officers are present for safety purposes, and check individuals for any warrants before they are provided with alternative housing.

On this particular day, the PSET met at City Hall. This is their typical protocol on Saturdays. The Code Enforcement Officer provided the officers and CityNET workers with three locations where new complaints had been made. The complaints were in an area referred to as the Elizabeth Corridor, that includes the area of Magnolia and Elizabeth, as well as the immediate surrounding area. According to Code Enforcement, the Elizabeth Corridor has been one of the most problematic areas for homeless camps and trash.

Just after 8:00 a.m., the Code Enforcement Officer led the way from City Hall with CityNET behind him, and the police officers behind CityNET. When they arrived in the 3700 block of Elizabeth that curves from Magnolia, the Code Enforcement Officer activated his rear flashing lights as he turned the corner. This alerted the officers that there were potential homeless subjects at the location. The Code Enforcement Officer pulled to the right curb to park his truck, followed by the CityNET vehicle. When the officers rounded the corner, they saw a couple of occupied vehicles parked along the curb across from where the other PSET members were. They also saw a male subject, later identified as Felix Marquez, sitting on steps of a law office. There was a “no trespassing” sign affixed to the wall behind the steps Marquez was sitting on. There were blankets, trash and a disassembled bicycle situated adjacent to where Marquez was sitting.

RPD Case #21-0012809
Riverside County Sheriff Case #MB-21-128-0001

Officer Mann was driving a marked black and white police unit with Cuevas seated in the front passenger seat. Both officers were dressed in police uniforms marked in bold letters, POLICE. As Mann stopped the police unit, Marquez immediately stood up and initially began to walk toward the officers.

As Mann exited his unit, Marquez turned around and began to walk in the opposite direction of the officers. Marquez was wearing a black hoodie sweatshirt with the hood covering his head. Based on Marquez' actions with getting up right away when the officers arrived, then walking toward them but turning to walk in the other direction, they felt that he was trying to avoid contact with them. As Marquez began to walk away from the officers, he was told to stop several times, and to show his hands, but did not comply. The officers proceeded to follow Marquez on foot with the intent to contact him. The Code Enforcement Officer also had exited his truck about the same time the officers did, and began to walk across the street toward Marquez. As Marquez proceeded to walk away from the officers, he turned his head to look in their direction a couple of times, but did not stop. The officers felt that Marquez may try to run from them based upon his behavior.

Mr. Marquez reached toward his front waistband as he had his back to the officers. He then pulled a black pistol from his waistband and began to turn his head back to look toward the officers. At about the same time, he was moving his right hand from his waistband with a black pistol in it up and toward the direction of the officers. At this point, Officer Mann feared for his life, and that of Officer Cuevas, as well as the PSET members, and people seated in vehicles, and fired his duty weapon at Marquez. Officer Cuevas and the Code Enforcement Officer also saw Marquez pull a black pistol from his front waistband, with his right hand. Cuevas feared for his life, and that of Officer Mann, the PSET members and other people in vehicles, and fired his duty weapon at Marquez. Marquez then fell to the ground. The officers stopped firing their weapons once Marquez fell to the ground, and no longer posed an immediate threat. Officer Mann believed he fired 4-6 rounds, and Cuevas believed he fired twice.

Once Marquez fell to the ground, he was slightly moving his body. The pistol could be seen underneath his arm. Since Marquez still posed a potential threat with a pistol within reach, the officers did not approach, and took up positions of cover behind a vehicle parked on the street near them. The officers held Marquez at gunpoint until other officers could arrive to assist in taking him into custody. Officer Mann called out to Marquez and told him to keep breathing and that help was on the way. Marquez can be heard in the officer's BWC moaning while lying on the ground. He was told by the officers not to touch the gun. Other officers and supervisors arrived at the scene, and a tactical plan was organized by Sergeant Collopy to take Marquez into custody. Fire/Paramedics were called at the time of the shooting.

RPD Case #21-0012809
Riverside County Sheriff Case #MB-21-128-0001

When the officers felt it was safe enough to approach Marquez with a ballistic shield and sufficient officers, they proceeded to make physical contact with him. Marquez was moved away from the gun and taken into custody. As soon as the scene was rendered safe by the officers, paramedics approached and provided aid to Marquez. Marquez was then transported to Riverside Community Hospital where he later succumbed to his wounds and was pronounced deceased.

The crime scene and perimeter were secured. As per the proper protocol for officer involved shootings, the RSO Force Investigations Detail was requested, along with RPD homicide detectives, and members of the Riverside County DA's office. A joint investigation was subsequently initiated. Refer to all attached reports, audios, videos and photographs for further specific details of the shooting. The pistol that Marquez used in this incident was discovered to be a black air-soft BB pistol. (See attached photographs for specific details of the pistol).

During their interviews, Officer Mann estimated he fired 4-6 rounds toward Marquez, and Cuevas estimated he fired 2-rounds.

FACT SHEET

The fact sheet is numbered and designed to point you to important factual information located in both the RPD and RSO criminal casebooks that will help guide you in the review process. It is designed to keep you focused on the report numbers that contain important information that you must review.

The Reports that are labeled as "Non-Essential," do not necessarily need to be reviewed since they do not contain information that applies to the evidence or facts of the case. An example would be an officer that simply staffed a perimeter position at a crime scene. You may certainly look at these reports if you choose to do so. It is imperative however that you review all reports outside of those listed as "Non-Essential."

As you open the case in laserfische, you will find six categories listed as follows:

- 1. Audio – 08 Audio Tapes – Total Time = 02 hours 03 min**
 - a. 11 min 06 sec – Witness interview (Interview by Detective conducted at the scene).
 - b. 22 min 30 sec – Witness interview (Interview by Detective conducted at the scene).
 - c. 17 min 06 sec – Witness interview (Riverside Code Enforcement Officer)
 - d. 24 min 43 sec – 2 Witness interviews (Two City Net Employees. Interviewed separately).
 - e. 00 min 10 sec – Completion of interview with Officer Cuevas. (From #h below). No questions asked.
 - f. 22 min 51 sec – Interview of Officer Mann
 - g. 00 min 20 sec – Conclusion of above interview with Officer Mann. No questions asked.

- h. 20 min 52 sec – Interview of Officer Cuevas
2. **Photos (Four photo books are listed as well as six separate crime scene videos).**
- a. Photo Book #1 – 96 Photographs – Scene evidence. Clothing, Airsoft gun used by Marquez, Officer Cuevas and his duty weapon.
 - b. Photo Book #2 – 99 Photographs – Photographs of Officer Mann and his duty weapon and ammunition, crime scene photographs
 - c. Photo Book #3 – 98 Photographs – Misc crime scene photographs.
 - d. Photo Book #4 – 98 Photographs – Misc crime scene photographs.
 - e. Crime Scene Video #1 – 00 min 03 sec – Video shows placard with case number. Non-essential video.
 - f. Crime Scene Video #2: 04 min 56 sec – View of street of occurrence and focuses on shell casings.
 - g. Crime Scene Video #3: 03 min 10 sec – Crime scene. At the 02 min 24 sec mark to the 02 min 31 sec mark, the video camera zooms in on the airsoft gun used by Marquez. It is laying on the pavement in a pool of blood. This portion of the video is blurred in order not to show the graphic nature of the blood, however you can see the outline of the gun.
 - h. Crime Scene Video #4: 00 min 20 sec – Specific view of pooled blood on the sidewalk where Marquez fell. This portion of the video is blurred as part of the redaction process so as not to show the graphic nature of the video.
 - i. Crime Scene Video #5: 00 min 39 sec – 360 Degree view of the street where the incident occurred.
 - j. Crime Scene Video #6 – 02 min 03 sec – Crime scene. This video is specific to showing trajectory of a round that traveled down the street from where the officers fired the weapons to where a live round struck the lawn in the front yard of a building and a chip in bricks where a round had apparently struck the brick wall and fragmented the brick surface.
3. **Reports (These are reports generated by RPD personnel) The RPD Reports are listed in the order of 210012809-001 OR through 210012809-031 OR. The OR stands for Officers Report. There is one report listed as 210012809-002 CR. The CR stands for Case Report. The Case Report is the primary report for a criminal investigation. OR reports are all supplemental to the CR. It is imperative that you review the CR report in this case before reading all others. (Refer to RSO Report Section E-1)**
4. **RSO Casebook** (These reports are generated by RSO Personnel however, most of these reports are an RSO cover page that includes the RPD reports that are in item #3 above. It is for this reason that it is best to follow the Table of Contents in the RSO criminal casebook so that all reports are accounted for.

5. **Video (BWC/Dash Cam).** There are two categories listed in the “Video” section. The first category is labeled as “Response Videos,” and the second as “Shooting Videos.”

The response videos are from the officers that responded to the scene after an officer involved shooting was reported. The shooting videos captured the BWC from officers Mann and Cuevas, as well as the dash cam of their police unit.

These videos should be the first that you review. There are five shooting videos. The total viewing time of all five videos is 02 hours 16 min.¹

SHOOTING VIDEOS: 05 Videos – Viewing Time Appx 2-hours 15 minutes (See RSO E-7 Report for specific details).

- a. 21 min 40 sec – BWC Officer Cuevas. Video begins with the officers in the unit driving to the assignment location in the 3700 block of Elizabeth Street. You can see the upper parts of the buildings on the street from Cuevas’ BWC as he is seated in the passenger seat. The unit stops at the 19 sec mark and Cuevas opens the door at the 20 sec mark. He types something into the MDT for a few seconds. As he does this, he is still seated in the unit. There is a partial view through the windshield where you can see the head of Marquez walking away from the unit. You can also see part of Officer Mann’s head as he walks in the direction of Marquez. At the 30 sec mark, Cuevas is out of the unit and you can see Marquez walking away from Officer Mann. You can also see the Code Enforcement Officer (Witness) walking across Elizabeth toward the sidewalk where Marquez is walking. From this point on, continue the review of the entire video.
- b. 01 min 18 sec – BWC Officer Cuevas. This is after the shooting occurred and Marquez secured. Cuevas is standing with another officer and then spoken to by Sergeant Collopy. At the 04 sec mark, Collopy tells him to turn the audio off on his (Cuevas’) BWC. There is a brief discussion between Collopy, another sergeant, another officer and Officer Mann. At the 30 sec mark, Collopy appears to tell him to turn the audio back on. Cuevas walks to his unit with Collopy and retrieves his cell phone and drink. Collopy passes by a couple of officers who are speaking to witnesses that are seated on the curb. Collopy confirms with the officers that they are obtaining “block outs,” from the witnesses. The term “block out,” refers to obtaining identifying information from each witness only. No interview. The video then concludes.
- c. 21 min 42 sec – BWC Officer Mann. Video begins with Officer Mann driving the marked police unit on Elizabeth Street. You can see the tops of buildings on the street from the BWC viewpoint. Elizabeth Street curves from one direction to another.

¹ See RSO Casebook – Item E7 for time marker details and brief summary of all videos.

Riverside County Sheriff Case #MB-21-128-0001

You can see the turning movement from the position of the camera. At the 18 sec mark, Mann begins to open the driver door before he comes to a complete stop and shifts the unit from “drive,” to “park.” Mann steps out of the unit at the 21 sec mark and walks up on the sidewalk where you can see Marquez initially walking toward the unit then quickly turning around and walk in the other direction.

At the appx 26 sec mark, you can see Mann’s right hand in the lower right-hand corner and motioning as to say “come here.” Marquez continues to walk away. He slightly turns his head to the left to look back and then turns his head to the right and look toward Mann. You can see a white bag in Marquez’ left hand. He is slightly gesturing with his right hand outward as though he would appear to be asking “why” or questioning what Mann is saying. The audio comes on at the 30-sec mark. You hear one of the officers say, “stop.”

At the 31-sec mark, you can see Marquez quickly reach into his waistband and has his head looking back over his shoulder. You hear an officer say, “let me see your hands.” This is the point where Marquez can be seen pulling something out of his waistband with his right hand. A shooting then takes place. Review this entire video. I provided you with certain time points where you may want to freeze frame the video and then start it again and watch frame by frame after watching the entire shooting portion. When you watch Cuevas’ BWC, and the dash cam, you will see different viewpoints of the same event.

- d. 43 min 00 sec – Dash Cam Video. The video begins with the unit leaving the city hall parking lot and drive towards Magnolia. The video captures the drive from city hall all the way to the 3700 block of Elizabeth Street where the shooting incident occurs. The unit is following the code enforcement truck to the location on Elizabeth where they planned to conduct their check for a homeless encampment on the sidewalks. They turn left onto Elizabeth Street at the appx 03 min 40 sec mark. As they approach the curve on Elizabeth to turn right, you can see the rear facing yellow flashing lights activated on the code enforcement truck. This is done before the officers round the corner where you can see Marquez.

At the 04 min 04 sec mark, you can see Marquez get up from a seated position from some steps. This is where the encounter with Marquez begins. After the shooting, the video is blurred by the redaction process. You see witnesses escorted in front of the marked unit and standing around it until given further directions by officers. The witnesses are moved away from the front of the unit and out of view at the appx 21 min 56 sec mark. At the 22 min 02 sec mark, the redaction blur is removed and you can clearly see to the front of the unit. **There is no need to watch the video past the point of where witnesses are standing in front of the unit since activities of officers can be viewed on their BWC.**
