I. Annual Report Introduction

The City of Riverside has prepared this annual progress report (APR) for submission to the Governor's Office of Planning and Research (OPR), and the California Department of Housing and Community Development (HCD). This report has been prepared to satisfy Government Code Section 65400(a)(2), and reflects the programs and actions undertaken to implement the City's General Plan between January 1, 2019, and December 31, 2019. The State of California Government Code Section 65400 requires jurisdictions provide an annual review to their legislative body (in this case City Council), the Governor's Office of Planning and Research (OPR), and California Housing and Community Development (HCD) on the status of the City's General Plan and progress. The report highlights completed areas of the General Plan and future priorities and amendments. State law requires that the annual report be completed and submitted to the State by April 1 of each year. The City Council reviewed and approved the APR on March 3, 2020.

The City of Riverside's "General Plan 2025", was adopted in 2007, and contains an accounting of past and current (2007) conditions, and the vision of the future (2025). General Plan 2025 is available online at <https://riversideca.gov/planning/gp2025program/general-plan.asp>. As shown in Figure 1 below, General Plan 2025 contains twelve (12) elements, two (2) neighborhood plans, 191 objectives and 982 policies. The City's General Plan includes the seven (7) mandated elements, as per the California Government Code, and is consistent with the OPR 2003 guidelines. A list of objectives from 2007, listed by element, is contained within the General Plan's Executive Summary (see Appendix A). Table 1 below summarizes the number of objectives and policies in General Plan 2025, as adopted and amended.

Table 1 - Contents of General Plan 2025

Element	Number of Objectives	Number of Policies
Land Use and Urban Design	89	286
Circulation and Community Mobility	13	88
Housing	4	29
Arts and Culture	7	66
Education	5	33
Public Safety	11	85
Noise	4	22
Open Space and Conservation	10	76
Air Quality	8	139
Public Facilities and Infrastructure	10	46
Park and Recreation	3	18
Historic Preservation	7	24
*University Neighborhood Plan	7	30
*Eastside Neighborhood Plan	13	42
Total	191	982

* Appendices of the General Plan

The Housing Element of the General Plan must be updated every eight years. The 5th Cycle Housing Element for the City of Riverside was adopted in October of 2017 and subsequently reviewed by the California Department of Housing and Community Development (HCD). The mid-cycle update was adopted by the City Council in June 2018 and deemed by HCD to be in full compliance with state housing element law on July 18, 2018.

Looking forward, the City is currently in the process of preparing a comprehensive update to General Plan 2025, having released a Request for Qualifications (RFQ) in October 2019 and a Request for Proposals (RFP) in January 2020. Proposals are due to the City in Spring 2020 with a consulting team being selected early Summer 2020. The overall goals of the update include:

- 1) Removing barriers to development in the City;
- 2) Aligning City priorities with government processes;
- 3) Reducing administrative/government redundancies; and
- 4) Identifying implementation programs that enhance key public services.

The General Plan update is expected to update the City's planning documents and processes within the City. The major components of the General Plan Update work plan include:

- 1) A comprehensive update of the City's General Plan, including the Housing Element;
- 2) Revision of the Zoning Code and corresponding update of other development-related codes;
- 3) An evaluation of, and revisions to, the Citywide Design and Sign Guidelines and the Citywide Residential Historic District Design Guidelines;
- 4) An evaluation of the City's 19 existing Specific Plans, including plans that may be eliminated or revised (see Section C.3 below);
- 5) A Program Environmental Impact Report;
- 6) Updated mapping of the City's arroyos; and
- 7) Strategic guidance on sustainability and resilience issues.

The funding for the General Plan update is principally from Measure Z, a one-cent transaction and use tax adopted in November 2016 to help pay for critical unfunded city programs and services. A portion of the revisions to the Housing Element update will be funded by the State's SB 2 Planning Grant Program.

II. General Plan Implementation

General Plan 2025 contains an Implementation Program, including "tools" that help the City achieve the objectives and policies within General Plan Elements. The Implementation Program is included (Appendix B) for reference. The Implementation Program was amended in June 2018 to include updates to programs and policies with the Mid-Cycle Housing Element Update. Aside from updates related to the Housing Element, many of the tools within the Implementation Program were adopted in 2007, or shortly thereafter.

Table 2 below identifies the goals, policies, and implementation measures of General Plan 2025 that were significantly addressed in 2019. "On-going" efforts, or those which rely on standardized processes (i.e., California Environmental Quality Act (CEQA) compliance; building permit review, etc.), are generally not included, unless a noteworthy achievement was accomplished in 2019. The list of tools below is intended to provide a snapshot of significant programs or targeted efforts.

Annual Progress Report - 2019

Table 2 - Specific Implementation Tools for 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
Arts & Cultural Affairs – Community & Economic Development Department			
No A&C Tools	The Arts & Culture Element establishes an objective to capitalize upon the arts and culture opportunities offered by the educational community, by partnering with education organizations and through private organizations, to market arts and cultural events, and the use of municipal resources to promote diverse arts programs, by promoting collaboration of joint-use arrangements, and strengthen collaborations among artists, arts organizations, teachers, school administrators and others responsible for arts curricula.	AC-1 AC-1.1 AC-1.2 AC-1.3 AC-1.4 AC-1.5 AC-1.6 AC-1.7 AC-1.8 AC-2.7	In 2019 the Arts & Cultural Affairs Division regularly showcased on Riverside TV content students created, promoted internships to creative students, and shared local artist and educational content on social media feeds. City held the Insect Fair for the 5th year, in collaboration with UCR Entomology Department, with over 18,000 attendees. The Fox Foundation had 5,000+ total student participants, including: Tour Guests, Tickets for Students and Seniors, Master Classes for High School Students, Live Tech Workshop for students and adult leaders, RUSD Honors Musical, REEF Best Event Ever. Arts & Cultural Affairs Division continued to participate with the RUSD Arts Plan, RUSD's Career and Technical Education (CTE) Pathways, Smithsonian Affiliation, Heritage House Schools Tours, STEM/STEAM programs, the Riverside Arts Academy and Harmony Project, Live Nation partners with UCR interns, and RUSD's Career & Technical Education (CTE) Pathways. The City participated in the Gage Middle School mural unveiling.
No A&C Tools	The Arts & Culture Element establishes an objective to celebrate the diversity of Riverside's neighborhoods and residents, using arts and cultural programs to build neighborhood identity and mutual acceptance, by using public art and cultural programs to help support neighborhood identity and foster neighborhood pride, outreach programs to bring art into every area of the community, engaging neighborhood leaders, and using city facilities to increase visual and performing arts.	AC-2 AC-2.2 AC-2.2 AC-2.3 AC-2.4 AC-2.5 AC-2.6	The Arts & Cultural Affairs reviewed and issued over 120 special events permits in 2019. The City participated in or hosted many successful community events in 2019, including the Chinese Moon Festival, the Victorian Christmas Open House, La Posada, the Ice Cream Social, Downtown's Lunch Fest July events, Neighbor Fest (220+ participants), Chalk the Walks, and Post-It Art Show & Contest (300 participants). 2019 saw numerous Public Art Installations, including the Harada Mural in Ward 1, the Carniceria Mural in Ward 5, Trash Cans at parks, Communitrees in all wards, Mariposa Alley in Ward 1, and Angela's Wings in Ward 1. The Fox and RMA reflected diversity in its 2019 programming, including events such as Leslie Odom, Jr., Ramon Ayala, La Villa de Santa Claus (first time in the US), and US Naturalization ceremonies. The City supported three temporary art installations in 2019, including Tio's Tacos and A Nature of Things installation during the Long Nights of Arts & Innovation, Connecting 5 Points Art Tree, and Communitrees at the Festival of Lights.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
No A&C Tools	The Arts & Culture Element establishes an objective to strengthen Riverside's identity as the cultural and arts center for the Inland Empire, and to comprehensively promote and market Riverside's arts and cultural attractions.	AC-4 AC-4.1 AC-4.2 AC-4.5 AC-4.8 AC-4.15 AC-4.22 AC-4.23 AC-4.24 AC-5 AC-5.1 AC-5.2 AC-5.7 AC-5.9 AC-5.10	In 2019 the City held its 27th Mission Inn Hotel & Spa Festival of Lights, which highlights the Arts and Culture of the Holiday season through décor, two live entertainment stages, Artisan's Collective showcase, etc. The Festival drives economic growth in the restaurant, hotel and entertainment district of Downtown Riverside. It also provides a stable income for 20+ vendors ranging from food, carriage rides, attractions, and many local contracted service companies. The last Economic Impact Report (2017) showed a \$129.7 million impact. The City also sponsored funding of \$146,150, to approximately 75+ organizations; and provided Emerging Artists Grants of \$500-\$1000, with a total budget of \$10,000. In 2019 Arts & Cultural Affairs Division granted out \$280,000 to arts and cultural institutions for operational support. Arts and Culture was regularly highlighted in the EXPLORE Magazine, sent to 112,000 households. City's partnership Riverside Art Museum for The Cheech received a substantial amount of funding from the state, donors and corporations in 2019.
Code Enforcement – Community & Economic Development Department			
H 5	Continue implementation of Code Enforcement services including the following: Neighborhood Livability Program (NLP) – In conjunction with other City departments, Code Enforcement coordinates and investigates neighborhood livability concerns related to illegal group homes, parolee boarding houses, unlicensed massage parlors, non-permitted homeless encampments, and other severe public nuisance violations in the community.	H-1 H-1.2	Approximately 12,000 complaints were received and investigated in 2019. In 2019 the City created the Public Safety Engagement Team to address public safety, health and welfare problems associated with homeless encampments. The City continues to maintain a coordinated partnership among the City Attorney, Code Enforcement, Planning, Building, Fire, Police and other departments to address livability issues. The Code Enforcement Division also participates in the Ward Action Teams (WAT) for each Council Ward which focuses on a multi-disciplinary and inter-departmental approach to solving specific problems in each Ward.
Fire Department			
PS Policy	Ensure that sufficient fire stations, personnel and equipment are provided to meet the needs of the community as it grows in size and population.	PS-6.1	The City Fire Department purchased a significant number of new emergency response apparatus in 2019. The City also approved two new Certified Unified Program Agency (CUPA) program positions, including an Admin. Analyst and CUPA Inspector II. The new hires will support the City's ability to regulate hazardous materials citywide.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
PS Policy	Endeavor to meet/maintain a response time of five minutes for Riverside's urbanized areas.	PS-6.2	Completed 2019 Strategic Plan /Accreditation Process
PS Policy	Pursue strategies that maintain and improve the City's Class 2 ISO rating.	PS-6.8	Received an ISO Rating in 2019 as a Class 1 Department
General Services Department			
AQ 3	Implement Best Available Control Technologies and Best Available Retrofit Control Technology, as defined by SCAQMD, in the City's practices, including but not limited to advanced diesel particulate traps on City vehicles and purchase and use of aqueous diesel fuel vehicles.	AQ-4.1 AQ-4.2 AQ-4.3 (MM Air 3)	Most of the city vehicles applicable to the SCAQMD requirements have been retired since General Plan adoption in 2007. Due to several of the OEM's discontinuing the production of standard vehicles (cars/pickups) equipped with CNG, the fleet has redirected it purchases to electric hybrid, plugin electric where feasible, as well as vehicles that utilize E-85 capable as well. In 2019 the City purchased one CNG sweeper, 22 Flex Fuel E-85 vehicles, and two gas/electric hybrids.
AQ 26	Support efforts to facilitate the expansion of public electric vehicle charging stations and facilitate installation of personal charging stations in residential properties.	AQ-6.6	To date, the City has installed 21 electric vehicle charges of varying sizes and capacities. While no chargers were installed under fleet purview in 2019, General Services did replace two failed chargers with upgraded systems.
Housing Division – Community & Economic Development Department			
H 1	Continue to provide rehabilitation assistance to single family residential and mobile homeowners through the Housing Rehabilitation Programs which help extremely low- to low-income households rehabilitate their homes. Low interest loans and a number of grants are available to finance housing repairs for income eligible homeowners.	H-1 H-1.1 H-4	In 2019, the City assisted 3 low income homeowners with eliminating health and safety issues on their property and make general improvements. One household was provided a rehabilitation loan, another was provided a rehabilitation grant, and the third received a mobile home grant.
H 3	Continue implementing the Multi-family Development Program for new construction as funding is available.	H-1 H-1.1	In 2019 the City's Housing Authority had 584 affordable housing units in the pipeline for development, which 273 are permanent supportive services. The City currently only has HOME Investment Partnership Program funds to support the development of affordable housing.
H 4	Continue to perform lead & mold abatement on homes as part of the City's Housing Rehabilitation Program.	H-1 H-1.1	The City's Housing Rehabilitation Program removes the LBP for qualified households. In 2019, one household underwent lead abatement.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
H 36	Provide rental assistance to 120 extremely low-income families.	H-3 H-3.3	In 2019, the Housing Authority was able to assist approximately 140 households with housing through the family reunification program and rental assistance program.
H 45	Aggressively work to address homelessness in the community in partnership with a wide-range of non-profit organizations, social service agencies, faith-based institutions and others working together to end homelessness in the community through such programs as: City of Riverside Rapid Re-Housing Program (RP) -- Continue to provide financial assistance to those who qualify through this program. This program provides temporary financial assistance and services to help those who are experiencing homelessness to be quickly re-housed and stabilized.	H-4 H-4.4	The Homeless Reduction and Prevention Strategy Five-Year Plan (Plan) expired in 2018. The Plan was superseded on March 13, 2018 by the Housing First Plan. At the end of 2019, the City had 584 affordable housing units in the pipeline for development, 273 of which are permanent supportive housing units. The City placed more than 39 individuals into permanent housing in 2019. Through City Net, a non-profit organization, the City increased outreach services in 2019 to link homeless individuals and families to shelter beds and programs to help them exit life from the streets. The City continued to proceed with the Hulen Place Homeless Service Campus improvements project. The City applied for a State Homeless Emergency Aid Program (HEAP) grant from the Riverside County Continuum of Care in late 2018. The City requested \$1.3 million and was only awarded \$606,575 to rehabilitate 2881 Hulen Place for 45 bridge housing units. The City is funding the rehabilitation of 2801 Hulen Place for 40 mental health bridge housing units and the medical clinic space at 2880 Hulen Place. The City, in partnership with the County, will be rehabilitating 2800 Hulen Place to increase the number of PSH units.
Information Technology Department			
PS Policy	Endeavor to meet/maintain a Fire Department response time of five minutes for Riverside's urbanized areas.	PS-6.2	In 2019 the City installed new-Panasonic CF-33 Toughbook Mobile Data Computers (MDCs) in police and fire vehicles. These laptops are used in Police vehicles to track all information and give Police Officers direct connection to Police and Fire Dispatch. The MDCs allow Fire Fighters to be routed to the 911 call, are equipped with GPS, and document all emergency calls.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
PS Policy	Provide high-quality police services to all residents and businesses in Riverside by deploying human and financial resources to ensure adequate and equitable distribution of police services.	PS-7 PS-7.1 PS-7.2	In 2019 the City of Riverside has joined the Urban Areas Security Initiative (UASI) Regional Task Force to improve regional cyber security resiliency. The City replaced eight broken security cameras to improve the City's security infrastructure. Completed the implementation of online Alarm Management System for the Police Department allowing citizens to manage false alarm citations & pay fees online. In 2019 the City installed new-Panasonic CF-33 Toughbook Mobile Data Computers (MDCs) in police and fire vehicles. These laptops are used in Police vehicles to track all information and give Police Officers direct connection to Police and Fire Dispatch. The MDCs allow Fire Fighters to be routed to the 911 call, are equipped with GPS, and document all emergency calls. The City also upgraded 900 city owned lines of services to AT&T FireNet Public Safety Cellular Priority Services, to provide priority and pre-emption capabilities for first responders. The upgrade allows law enforcement officers, firefighters and other responders have quality of service, priority and pre-emption for their daily and emergency communications needs.
PS Policy	Improve the community's ability to respond effectively to emergencies.	PS-10	Implemented dedicated fiber connectivity for the Airport, which supports data connectivity required for a security camera project. The City also upgraded 900 city owned lines of services to AT&T FireNet Public Safety Cellular Priority Services, to provide priority and pre-emption capabilities for first responders. The upgrade allows law enforcement officers, firefighters and other responders to have quality of service, priority and pre-emption for their daily and emergency communications needs.
PF Policy	Provide affordable, reliable and, to the extent practical, environmentally sensitive energy resources to residents and businesses.	PF-6	In 2019 the City implemented the alpha phase of the Public Utilities' AMI Smart Meter project.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
H 24	Computronix POSSE Land Management System (LMS)		Phase 1 of the City's permit tracking software (POSSE LMS) was successfully launched on July 15, 2019. Phase 1 supports the Building & Safety Divisions permit processing, plan review, and inspection services, which included a new web-based inspection platform. Over 2,500 permits have been processed in the new software, which significantly improved the field inspection and information sharing process among City staff and development customers. A new public-facing portal will be launched in 2020 in concurrence with a Community & Economic Development website update. Phase 2 work was initiated in 2019, and includes the Planning Division, Public Works, Fire Prevention, and the Public Utilities Water Division. Go-live events for Phase 2 are anticipated to start the first quarter of 2020, and end third quarter of 2020. A separate project (Phase 3) includes a POSSE LMS software upgrade, fully integrated electronic plan review tool, and a document storage system will be initiated through a grant award received by the City in the summer of 2019.
AQ 16	Utilize the California Environmental Quality Act (CEQA) through the Initial Study Process to adequately assess project impacts with regard to air quality, greenhouse gas emissions, and transportation impacts related to project construction and operation.	AQ-1.22	In 2019 the City received the Future Communities Pilot Program grant award in the amount of \$499,700 from the Southern California Association of Governments (SCAG). The Future Communities Pilot Program provides resources to reduce vehicle miles traveled (VMT) with new technology and data solutions that test innovative approaches for reducing emissions-producing VMT; improve efficiency and reduce the costs of municipal services; and identify and quantify relative impacts of a variety of technology-based VMT reduction strategies. The City will use the grant funds to develop and enhance the City's electronic Plan (e-Plan) Review portal. The project will implement a software upgrade and enable a new e-Plan Review solution into the POSSE LMS provided through Computronix USA Inc. (see Tool H 24).
H 24	Implement Streamline Riverside to reduced entitlement and building permit review times, and costs for customers.		In 2019 the IT department launched a GIS modernization project to replace a legacy system. The GIS modernization project will transition the City from legacy CADME to ESRI's ArcGIS platform, which will streamline and automates workflows, enables easy viewing and use of geospatial data, and enhances GIS reporting and analytic capabilities.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
Library Department			
38	The City will explore funding mechanisms to support the standards identified in the Library's 2000 Strategic Plan as appropriate.	ED-5	Construction began in March on a new Main Library to be located at 3900 Mission Inn Avenue (formerly 3911 University Avenue). Construction is anticipated to be completed in 3rd quarter 2020, with an opening in the 4th quarter.
41	The Library Department will revisit their 2000 Strategic Plan to determine if existing standards for library services reflect public needs for library services given the evolution of technology, public use of the internet, and other relevant factors.	ED-5	All Library locations now have 3D printers and other emerging technologies available for use. The City provides computer and technology-based courses to customers of all ages. The CENIC project with the California State Library allowed for substantial upgrades to the internet speeds at all locations (1 gig branches, 10 gig Main Library). Staff continues to track usage statistics which show a continued increase in demand for technology and public access computers.
Museum Department			
No A&C Tools	The City shall actively pursue a comprehensive program to document and preserve historic buildings, structures, districts, sites (including archaeological sites), objects, landscapes, and natural resources.	HP-2 HP-2.1	The Museum Department renewed and refined its policy governing repository collections and is transitioning to collections management software for the improved documentation and eventual online sharing of collection records.
No A&C Tools	Comprehensively promote and market Riverside's arts and cultural attractions.	AC-6	An informal advisory group, the Riverside Cultural Directors' Consortium, meets regularly to move toward effective citywide arts marketing and identify collaborative programming opportunities.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
No A&C Tools	Metro Museum Expansion and Rehab – CIP ref. no. 9. Explore the feasibility of creating a contemporary museum for Riverside through construction of a didactic facility that mirrors Riverside’s cultural and natural history while providing authentic, tangible educational resources for all Riversiders. Coordinate and provide education resources via Museum’s historic structures to enhance accessibility to information about Riverside’s historic and cultural heritage.	AC-7 AC-7.1 AC-7.2	Phase I design for the Museum Expansion and Rehab was pursued, resulting in three potential directions for the project. All were conceived to conform with AQ 19 relating to LEED or equivalent building standards. While the Museum’s main downtown site remains closed, meeting this objective occurred through regular programming at Heritage House, development of rehabilitation plans for Harada House and Robinson House, and planning for outreach exhibit components to be sited in Riverside’s neighborhoods and community centers.
Neighborhood Engagement Division – Community & Economic Development Department			
H 13	Continue the City’s efforts with neighborhood organizing, including such programs as: Chalk the Walks, Community Coffee, Neighborhood Outdoor Movie Night, Riverside Small Sparks Neighborhood Matching Grants and the Neighborhood Engagement Workshop Series.	H-1 H-7	The Neighborhood Engagement Division reached over one-third of the City’s population through education and social enhancement opportunities. Programming and events reached 110,825 residents in 2019. One Neighbor Fest event was held with over 200 residents who participated in a neighborhood visioning and strategy process. 516 volunteers assisted with programming, logging over 4,000 volunteer hours. The Small Sparks program distributed \$9,563 to community members for their projects that had a total valuation of \$59,487.
Parks, Recreation and Community Services Department			
42	The Parks, Recreation and Community Services Department shall revisit the Parks Master Plan and the standards set within it to determine whether its standards appropriately reflect the recommendation of the 2003 Parks Master Plan and evolving public needs and preferences for recreational facilities and services.	PR-1 PR - 3	A Draft Park System Master Plan Update was completed in 2019 and will be presented to Council in February 2020 for review and adoption.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
OS 6	Establish an on-going needs assessment program to solicit feedback for users to identify changing needs and standards for the Open Space system.	OS-1	The Parks Department periodically includes customer satisfaction surveys on the Department's website, in conjunction with its facility rental and recreation programs. A formal user needs survey was conducted as part of the 2019 Park System Master Plan update. In 2019 the Parks Department participated in the California Parks and Recreation Society's annual conference and District workshops, to monitor new trends in public recreation facilities and programming.
OS 34	Parks, Recreation and Community Services will cooperate with Public Utilities on the implementation of renewable energy projects within Park facilities where feasible.	OS-8 OS - 9	All park irrigation systems are now being installed with "purple pipe" to facilitate future use of non-potable water sources as they become available. All irrigation systems are being equipped with the CalSense Irrigation Controllers to better manage water application and reduce water consumption due to over-watering.
H 37	Continue to support the Mayor's Commission on Aging whose mission is to "... enhance the quality of life for seniors in our community. We study local senior issues to learn about current programs, define future needs, and reference Best Practices. We then make recommendations to the Mayor and City Council on ways we think the City of Riverside can maintain and improve its status as a Senior-Friendly Community."	H-4 H - 4.1	The Commission on Aging met 11 times in 2019 and continues to make recommendations to the Mayor and City Council.
OS 5	Create Capital Improvement Program projects which affect identified open space areas to support these areas' value as open space.	OS-1	In 2019, the City's open space was supported through the following CIP projects: Mount Rubidoux Trail improvements, Eldorado Park Walking path, Villegas Park Improvements, Lance Drive Trailhead, Orange Terrace Playground Renovation, Hunt Park Outdoor Fitness Area, Youth Innovation Center, and Myra Linn Park Improvements The City was awarded the following grants in 2019: \$3.7 million dollar Greening Grant to improve 2 miles of trail north of UCR over the Gage Canal and \$2 million dollar grant for (1) 4 acre acquisition of open space along the Santa Ana River and (2) Design and Engineering for 9 park projects sites along the Santa Ana River.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
Planning Division – Community & Economic Development Department			
4	Continue to enforce County, State and Federal regulations as they apply, including but not limited to: California Environmental Quality Act (CEQA), Multi-Species Habitat Conservation Plan (MSHCP), Transportation Uniform Mitigation Fee (TUMF) Program, National Pollutant Discharge Elimination System (NPDES), Mills Act, Williamson Act, South Coast Air Quality Management Plan (AQMP), Inter-Regional Partnership (IRP) Program and Riverside County Airport Land Use Compatibility Plan (RCALUCP)	All	In 2019 the City entered into 7 new Mills Act contracts which provide tax incentives to historic property owners who invest in renovation projects. The City currently has 75 active Mills Act contracts.
8	Annually review the Capital Improvement Program (CIP) of the City and local public works projects of other local agencies within the corporate boundaries of Riverside for consistency with the General Plan.	I-1.2 LU-10.2	On May 2, 2019 the City Planning Commission reviewed for consistency the City's FY 2019/2020 CIP program, which is the second year of the City's five-year CIP - FY 2018/2019 - 2022/2023 (Appendix C) and coincides with the second year of the City's two-year budget cycle. The Commission found the CIP consistent with General Plan 2025.
13	Designate Victoria Avenue, excluding the traveled roadway, as a City Park per City Council approval.	LU-13 LU-39.1 LU-85.4	On November 19, 2019 the City Council approved a revised Victoria Avenue Policy, amending the 2003 Victoria Avenue Ad-Hoc-Committee Policy related to tree species selection, landscaping, irrigation, trails, roadway maintenance, development standards, right-of-way dedications, and other improvements in conjunction with new development. The revised policies were prepared in coordination with Victoria Avenue Forever, UCR, residents, the Public Works Department, and the Parks, Recreation and Community Services Department. The revised policy seeks to designate Victoria Avenue as a Scenic Parkway, rather than a City Park.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
H 21	Accommodate the Regional Housing Needs Assessment (RHNA) requirement of 4,767 units affordable to lower-income households. Rezoning includes sites and will permit owner-occupied and rental multi-family residential uses by-right.	H-2 H-2.2	The Rezoning Program of the 2014-2021 Housing Element was adopted in October 2017. In December 2017 the City Council approved a Zoning Code amendment to implement the Housing Element program, which rezoned sites to multi-family residential or mixed-use. The rezoning went into effect February 8, 2018, and provided a potential for 6,524 new units, exceeding the RHNA need by 1,757 units. At the end of 2019 the City had a RHNA buffer of approximately 700 units. In 2019 the City was awarded a SB2 Planning Grant which will allow the City to create a RHNA tracking dashboard, that will be linked to the City's new building permit software.
H 24	Implement Streamline Riverside to reduced entitlement and building permit review times, and costs for customers.		On June 1st, 2017 the City brought together, on one floor, all City departments that are part of the development process. The One Stop Shop (OSS) established customer centric environment that allows permits and approvals to be obtained faster than ever. On November 8, 2019 the OSS served it's 100,000th customer. For the entire year of 2019, the OSS maintained a customer satisfaction rating in 2019 of 96%. On July 15, 2019 Phase 1 of the City's permit tracking software (POSSE LMS) was successfully launched. Phase 1 supports the Building & Safety Divisions permit processing, plan review, and inspection services, which included a new web-based inspection platform. Over 2,500 permits have been processed in the new software, which significantly improved the field inspection and information sharing process among City staff and development customers.
H 26	Consider Code incentives that promote diversity in housing types, sustainability and affordability, such as: Consider amendments to the Second Unit ordinance to allow second units for creative projects. Encourage lot consolidation of smaller, multiple-family parcels to include quality lower income housing on smaller multiple-family parcels.	H-2 H-2.7	On February 19, 2019 the City Council approved a Zoning Code Amendment to implement State mandated Accessory Dwelling Unit (ADU) provisions. In late 2019 the City was awarded a grant under the SB 2 Planning Grant Program, which will promote diversity in housing types, sustainability and affordability. Projects under the PGP that achieve this objective include: a comprehensive ADU policy, public brochures and zoning code update, over-the-counter standard ADU plans, a small lot and infill ordinance and update of Density Bonus regulations.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
HP Policy	The City shall actively pursue a comprehensive program to document and preserve historic buildings, structures, districts, sites (including archaeological sites), objects, landscapes, and natural resources.	HP-2 HP-2.1	In 2019 the City continued work to complete a Citywide African American Civil Rights Context Statement, which has been funded by a \$50,000 grant from the National Parks Service.
HP Policy	The City shall continually update its identification and designation of cultural resources that are eligible for listing in local, state and national registers based upon the 50-year age guideline for potential historic designation eligibility.	HP-2 HP-2.2	In 2019, two properties were designated as City Landmarks or City Structures of Merit.
HP Policy	The City shall conduct educational programs to promote an understanding of the significance of the City's cultural resources, the criteria for historic designation, historic design review processes, building permit requirements, and methods for rehabilitating and preserving historic buildings, sites, and landscapes.	HP-3 HP-3.1	On January 4, 2019, the City held a workshop on the City's Mills Act Program. On May 11, 2019, the City held its 4 th Annual Doors Open Event. This event provides free access to captivating historic sites that are often closed to the public. By opening the doors to these architectural gems, event organizers hope to increase awareness of historic architecture and the community's collective heritage in California's only Doors Open event.
Police Department			
1	Implement the requirements of the Municipal Code.	All	Police collaborated with the City Attorney's Office, Planning Division and community stakeholders to: Modify the City's Noise Ordinance, create a new Entertainment Permit system to regulate entertainment, and create new ordinances for street performers and loud and unruly gatherings. These were approved by the City Council in December 2019.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
H 5	Neighborhood Livability Program (NLP) – In conjunction with other City departments, Code Enforcement coordinates and investigates neighborhood livability concerns related to illegal group homes, parolee boarding houses, unlicensed massage parlors, non-permitted homeless encampments, and other severe public nuisance violations in the community.	H-1 H-1.2	The Police Department's Problem Oriented Policing (POP) Officers partner with Code Enforcement, the City Attorney's Office, and others to collaboratively address illegally run homes, homeless encampments, and other nuisances identified in the City. The multi-agency Riverside Post-Release and Accountability Team (PACT), which includes four Riverside Police Officers, address parole and probation homes throughout the City of Riverside and the region. The Public Safety and Engagement Team (PSET) was created in 2019. This team focuses on homeless outreach, illegal camp abatement, and otherwise works to address homelessness in the City. It consists of police and code enforcement officers, homeless outreach workers, public works staff, and a contracted company to assist with removing homeless camps and cleaning.
H 8	Continue to implement the Crime Free Multi-Housing Program. Participation in the program is a condition of approval of entitlement of new multiple-family residential development. This program is designed to reduce crime, drugs, and gangs on apartment properties.	H-1 H-1.5	The Police Department offers the Crime Free Multi-Housing (CFMH) program for apartment managers, property owners, and maintenance staff. There are 3 phases to the Program: ▪ Phase 1 - Classroom training about CFMH ▪ Phase 2 - Property Inspection ▪ Phase 3 - Apartment Community Meeting There were three CFMH classes in 2019, with over 50 properties in attendance. 107 properties are currently part of the program. The department is creating a program/map which displays all the certified CFMH properties on the Riverside Police Department website.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
H 9	Continue to implement the Neighborhood Watch Program and Academy. Neighborhood Watch is the added eyes, ears, and awareness on the city streets. It is critically important to reducing crime and improving the quality of life in each of the neighborhoods.	H-1 H-1.5	Police Service Representatives (PSR's), Problem Oriented Policing (POP) Officers, Sergeants, and Area Commanders attended hundreds of community and business meetings in 2019. Police personnel provide educational material and update the community about police-related issues. Staff focuses open discussions and problem solving in partnership with city staff, private and non-profit entities, schools, faith-based institutions, and others to address crime and quality of life in the City. The Police Department continued to hold a ten-week Citizen Academy and eight-week Teen Academy. Citizens learn about the department's various Divisions and Bureaus, obtain insight into its functions and operational methods, and are provided opportunities to engage with department personnel. The Citizens Academy is offered twice a year and had 61 attendees in 2019. The Teen academy is offered during the summer, had 27 youth in attendance. The Police Department's SWAT Team participated in about 15 events in 2019. The Aviation Unit also participated in several community events. The Police Department conducted 11 "Know Your Limit" educational deployments. In these, police officers walk around the Downtown Entertainment District and screen volunteers to check their blood alcohol content with a breathalyzer machine. Officers screened 1,367 patrons and educated them about the effects of alcohol, burn off times, and getting home safely. The Police Department's Forensics Unit partnered with local colleges and universities to facilitate tours, training demonstrations, and interactive practical exercises for Riverside students pursue careers in the forensic sciences. The Forensics Unit and Investigations Bureau personnel facilitated a day of interactive exercises for local high school students as part of the STEM Academy. The Police Department's Economic Crimes unit conducted multiple presentations to community members in 2019, focusing on elderly residents, common fraud schemes and ways to prevent being a victimized. The Police Department communicated via its website and social media platforms (i.e., Nextdoor, Facebook, and Twitter) to distribute crime information and police department updates, and to receive information.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
N 3	Continue to enforce City noise regulations to protect residents from excessive noise levels associated with nuisance and stationary noise sources (Title 7 of the City of Riverside Municipal Code). Periodically evaluate regulations for adequacy and revise, as needed, to address community needs and changes in legislation and technology.	N-1 N – 2 N – 3 N - 4	Police collaborated with the City Attorney’s Office, Planning Division and community stakeholders to modify the Noise Ordinance and create a new Entertainment Permit Ordinance. These were adopted by the City Council in December 2019.
N 9	Enforce vehicle speed limits on City roadways as a means of reducing vehicle noise.	N-4	The Police Department wrote 19,441 citations in 2019. 4,878 were for speeding violations.
Public Utilities Department			
AQ 26	Support efforts to facilitate the expansion of public electric vehicle charging stations and facilitate installation of personal charging stations in residential properties.	AQ-6.6	Building and Safety Division has streamlined the permitting process on residential and commercial EV charging installations. The total number of publicly accessible EV charging stations citywide is 104 Level 2 chargers, and 37 DC Fast Chargers. This includes the following EV charging stations: ▪ Tesla installed 24 port EV charging station at the RPU owned Mission Square Parking Garage. ▪ The City and RPU have installed within the City a total of 12 Level 2 chargers, and 1 DC Fast Charger.
OS 29	Continue to implement innovative solar energy projects such as the photovoltaic carport at the La Sierra Metrolink station and the Autumn Ridge Apartments.	OS-8 OS-9	Solar generation projects continue to grow in Riverside. As of the end of FY 18/19, there were 3,746 solar interconnections with a total of 30.2 MWs of installed capacity. The Solar City Map identifies current projects in the City: http://www.greenriverside.com/map-links/green-map.asp .
H 20	Continue to offer SHARE. SHARE is a Riverside Public Utilities (RPU) program that assists qualified, low-income residential customers with their electric utility bills and deposits.	H-2 H-2.3 OS-8 OS-8.8	The SHARE program continues to be implemented by the City’s Public Utilities Department. The SHARE program was enhanced in 2017 to provide monthly bill credits to income qualified customers as well as expanded through changing the eligibility criteria from 150% Federal Poverty Level (FPL) to 200% FPL. Additional funding from the Public Benefits Charge has been dedicated to the program. RPU has also opened an assistance location at the Casa Blanca Customer Resource Center that complements the County of Riverside Community Action Partnership location and allows customer to now apply for SHARE assistance.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
AQ 23	Implement and construct the approved Riverside Recycled Water Project to use highly treated wastewater rather than high quality potable water to irrigate parks, golf courses, and other public use facilities.	AQ-8.40 AQ-8.41 AQ-8.42	Phase 1 of the Jackson St. Recycled Water Pipeline Project was completed January 2019; Customer site conversion work is anticipated to start in 2020.
OS 40	Regularly assess the cost of providing potable water for non-potable uses versus the cost of providing reclaimed water, including associated infrastructure and facilities costs. Implement a reclaimed water system at the time it becomes cost effective to do so.	OS-10	The Public Utilities' recycled water system was expanded in January 2019 with the completion of approximately 18,600 feet of new recycled water pipeline installation. In August 2019 an MOU was approved with San Bernardino Valley Municipal Water District to work collaboratively to develop a regional plan for the use of recycled water.
Public Works Department			
4	Continue to enforce County, State and Federal regulations as they apply, including but not limited to: California Environmental Quality Act (CEQA), Multi-Species Habitat Conservation Plan (MSHCP), Transportation Uniform Mitigation Fee (TUMF) Program, National Pollutant Discharge Elimination System (NPDES), Mills Act, Williamson Act, South Coast Air Quality Management Plan (AQMP), Inter-Regional Partnership (IRP) Program, Riverside County Airport Land Use Compatibility Plan	All	The Western Riverside Council of Governments (WRCOG) adopted new Transportation Uniform Mitigation Fees In 2019, and the City is expected to adopt WRCOG's fee schedule in early 2020.
14	Prepare a specific plan type study for the connection of Overlook Parkway from Alessandro Boulevard on the east to the 91 Freeway, on the west. The study will address crossing of the Alessandro Arroyo, possible traffic calming measures to protect adjoining local streets, protection of Victoria Avenue and the specific connection route to the 91-freeway westerly of Washington Street.	LU-17 CCM-4.1 CCM-4.2	On March 15 th , 2016 the City Council directed the Community & Economic Development Department to study the impacts of removing Overlook Parkway from the General Plan Circulation and Community Mobility Element, Master Plan of Roadways (Figure CCM-4), in conjunction with the next comprehensive General Plan update. In 2019 the City initiated an RFQ for the General Plan Update, with a contract to be awarded in Spring 2020. The General Plan Circulation Element Update will study of the Overlook Parkway connection.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
AQ 22	Continue to implement the traffic light synchronization program and seek funding sources for future activities. (Also see Tools CCM 11 and CCM 24)	AQ-2.15 AQ-2.27 AQ-8.30 CCM-2 CCM-3 CCM-6	The Magnolia Fiber Optic Interconnect project was completed in 2019, connecting traffic signals from Downtown through the City's westerly boundary along Magnolia with a high-speed connection. In 2019, staff purchased additional CCTV cameras to deploy along the new fiber optic network. Staff is currently developing new fiber optic projects to connect to the Magnolia Avenue trunk line.
AQ 23	Implement and construct the approved Riverside Recycled Water Project to use highly treated wastewater rather than high quality potable water to irrigate parks, golf courses, and other public use facilities.	AQ-8.40 AQ-8.41 AQ-8.42	Construction of the Riverside Water Quality Central Plant (RWQCP) expansion was previously completed to increase the plant capacity and add key systems. In 2019 the Public Works Department applied for a Cal Recycle Grant to fund improvement at the RWQCP to allow organics receiving & treatment, to increase biomethane for energy production. Public Works and Public Utilities are working on a green power project with SoCal Gas on the renewable natural gas project.
CCM 4	Coordinate with Caltrans and RCTC to develop a plan for systematic interchange improvements including SR-91 interchanges at Van Buren Boulevard, Tyler Street and Adams Street.	CCM-1 CCM-2 CCM-5 CCM-1.4 LU-15	The Van Buren interchange was completed in prior years, and the Adams Street Interchange will be complete in 2028 pending future funding. The initial project study phase for the Adams Street Interchange Project, has been completed, and the engineering firm TY-LIN was contracted to complete the Project Approval and Environmental Document phase of the project – which is currently underway.
CCM 6	Support efforts by Riverside County to widen Cajalco Road to six lanes.	CCM-1 CCM-5	The County is actively preparing environmental documentation for a modified scope version of the Cajalco Road Widening project. Draft documents are anticipated to be released in mid-2020.
CCM 7	Explore various traffic calming measures where needed (i.e., curb extensions, traffic diverters, entrance treatments, etc.).	CCM-1 CCM-3 CCM-7 CCM-8	In 2019 the City has received funding through the Active Transportation Program (ATP) for the installation of five neighborhood traffic circles in the Eastside Neighborhood. These alternative traffic calming measures are anticipated to reduce speeds through intersections and improve walkability.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
CCM 10	Maintain the traffic operation center to monitor traffic and modify signal timing as necessary to alleviate traffic congestion and improve air quality.	CCM-6 AQ-2	The recently completed Magnolia Avenue Fiber Optic project has facilitated the installation of upgraded and additional CCTV cameras along the Magnolia corridor (see AQ 22). The City has partnered with the University of California, Riverside's Center for Environmental Research and Technology, and submitted request to Caltrans District 8 to move forward an awarded grant project that will retime traffic signals within the Downtown core, replace traffic signals, and install new traffic signal monitoring cameras.
CCM 11	Synchronize signals and utilize traffic counts to maintain adequate level of service on all arterials.	CCM-2 CCM-3 CCM-6 AQ-2.15 AQ-2.27 AQ-8.30	During the 2018/19 reporting period, Public Works improved progression speeds along seven key signalized corridors by an average of 3.6 MPH, including: La Sierra Avenue, Van Buren Boulevard, Magnolia Avenue, and Alessandro Boulevard. Public Works installed monitoring systems on several key arterials to measure travel time between traffic signals, which will assist optimization and measurement of coordinated systems.
CCM 13	Work with Southern California Association of Governments (SCAG) and Western Riverside Council of Governments to implement policies related to SB 375.	CCM-1 CCM-5 CCM-5.2 CCM-5.4	The City is an active participant in the SCAG Sustainable Communities Working Group and is collaborating with SCAG as they prepare the 2020 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS).
CCM 14	Implement a Bus Rapid Transit (BRT) system.	CCM-1 CCM-2 CCM-3 CCM-6 CCM-9 CCM-9.2	RTA Vehicles currently have the capability to pre-empt traffic signals along the Magnolia and University Avenue corridors. The City is currently partnering with UCR-CE-CERT to test connected vehicle technologies that will allow for more intelligent bus prioritization.
CCM 16	Support efforts to create a multimodal transportation center within the Marketplace Specific Plan area.	CCM-9 CCM-9.1 H-17 AQ-1.12 AQ-1.15 AQ-2.3 AQ-2.4 AQ-2.8 AQ-2.9	The City is an active participant in the Project Design Team developing the RTA multimodal hub to be located along Vine Street and assisted in the successful application for grant funds that will be used to enhance project amenities and provide transit passes to disadvantaged residents.

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
CCM 17	Analyze ways to enhance the pedestrian connection between the multimodal transportation center in the Marketplace Specific Plan area (Downtown Metrolink Station) and the Administrative Justice Center/Downtown with regard to safety and walkability.	CCM-9 CCM-9.1 CCM-9.7 CCM-9.9 H-17 PS-5 AQ-1.12 AQ-1.15 AQ-2.3 AQ-2.4	In 2018 the City collaborated with the Southern California Association of Governments to host an event titled, "Illuminate Riverside" that explored enhancements between the Marketplace and Downtown core. A temporary lighted tunnel, projector lights, and art crosswalks were deployed. Informed by these temporary measures, the City secured a permit through Caltrans District 8 in 2019 to install the only regional lighted freeway underpass using colorful decorative lights at Mission Inn Avenue at State Route 91. The new pedestrian-scale lights are a permanent feature at the interchange and create a more inviting pathway for pedestrians crossing beneath SR 91.
CCM 21	Implement efficient pedestrian connectivity within shopping centers and to existing City rights-of-way and RTA bus facilities.	CCM-3 CCM-9.7 CCM-10 CCM-10.6 CCM-10.8	In coordination with Wakeland Housing Development, the Riverside Transit Agency, and the City's Housing Authority, Public Works assisted in a successful 2019 grant application through the Affordable Housing and Sustainable Communities Program to construct 'Eastside Mode Shift' – a transformative pedestrian connectivity project within the Eastside Neighborhood that will construct art alleyways, bikeways, and new sidewalks to improve access to high quality transit along University Avenue.
CCM 22	Implement countdown timers on crosswalk signals at street intersections.	CCM-2 CCM-3 CCM-10	As part of the Active Transportation Program Cycle I, several intersections along Magnolia Avenue were upgraded in 2019 with Accessible Pedestrian Signals that verbally notify pedestrians of when a crossing is active, which street is being crossed, and when pedestrians must wait for the crossing to be activated.
CCM 23	Explore opportunities to link walkways and bike paths with parks, schools and employment centers.	CCM-2 CCM-3 CCM-6 CCM-10 AQ-1.18 AQ-1.19 AQ-1.20 AQ-2.10	In 2019 Public Works initiated development of the Riverside "PACT", a combined planning effort consisting of four key elements: Pedestrian Target Safeguarding Plan, Active Transportation Master Plan Complete Streets Ordinance, and Trails Master Plan. This is a first of its kind transportation planning effort for the City, and will maximize linkages between activity centers, on-street facilities, and trails. Significant outreach was conducted in 2019 for the plan. www.riversideca.gov/pact

Annual Progress Report - 2019

Tool #	Abbreviated Description	Objectives / Policies	2019 Accomplishments
CCM 24	Continue to enhance arterials to ensure efficiency to reduce reliance on local streets.	CCM-2 CCM-3 CCM-7 CCM-8 AQ-2.15 AQ-2.22	Environmental and preliminary design work have commenced in 2019 for the Third Street Grade Separation – which is expected to enhance safety at the currently at-grade rail crossing, reduce delays and emissions, and improve pedestrian accessibility.
CCM 25	Give priority to sidewalk and curb construction to areas near schools with pedestrian traffic in support of Safe Routes to School efforts.	CCM-2 CCM-8 ED-4.8	In 2019 the City received a citywide grant through the Office of Traffic Safety to install new or enhanced school crossings featuring LED edge-lit and pedestrian activated crossing signage. The equipment will call attention to pedestrians and alert motorists.
CCM 31	Explore the feasibility of implementing quiet zones along the BNSF and UP rail lines.	CCM-12	In 2019 the City completed an on-site safety assessment with the Federal Rail Administration for the Third Street and Spruce Street Quiet Zones. Public Works continues to process the Quiet Zones at Cridge Street and Panorama Roads; which are expected to be complete prior to the Brockton Ave., Palm Ave. and Mission Inn Ave. zones, which are also in-development.
CCM 32	Promote existing and new rail safety education programs for all residents including but not limited to Operation Life Saver.	CCM-12	Public Works is assisting RCTC in the deployment of suicide prevention signs at several rail crossing locations.
CCM 33	Explore alternative pedestrian and vehicular grade crossing technologies and systems, evaluate the feasibility of safety upgrades at railroad crossings, and identify funding sources.	CCM-12 PS-5.5	See Tool CCM 31.
CCM 34	Prioritize at-grade crossings for implementation of necessary safety upgrades.	CCM-12 PS-5.5	See Tool CCM 31.

III. Housing Element Reporting and RHNA Requirements

Appendix D of this report includes completed Department of Housing and Community Development (HCD) forms related to the annual reporting of Housing Element implementation. These forms have been submitted to HCD through the State's Housing Element Tracking System portal (<https://casas2prodwlex2.hcd.ca.gov/APR>), and are only provided in this report as reference.

For calendar year 2019, building permits issued for residential projects totaled 659 dwelling units, which is higher than 2018. Of the 659 units, 496 were apartments, 135 single family residences, and 28 accessory dwelling units. While the number of residential building permits issued in 2019 is higher than 2018, and

the trend indicates continued production in 2020, the number of units for families with moderate and lower incomes remains below the City's 2013-2021 RHNA obligation.

The City's housing obligation, per the 5th Cycle 2013-2021 Regional Housing Needs Assessment (RHNA), was 8,283 total units, broken down into the following categories:

- 3,338 units affordable to lower-income households
- 1,503 units affordable to moderate income households
- 3,442 units affordable to above-moderate income households

In addition to the City's 5th Cycle RHNA obligation of 8,283 units, the City also had a carry-over of lower income units from the 4th Cycle RHNA, as the City had not rezoned properties as specified in the 4th Cycle Housing Element. After considering land available for multifamily development, affordable dwellings in production, and the 4th Cycle carry-over, the City identified a RHNA shortfall of 4,767 lower-income units.

In October 2017, the City adopted a Housing Element that included a rezoning program to address the City's RHNA shortfall. The program identifies 300 vacant or underutilized properties (candidate sites) that could be rezoned to higher density multifamily residential or mixed-use. If all the properties were rezoned, they could accommodate more than 7,500 new housing units.

On December 12, 2017, the City Council adopted a rezoning program that rezoned General Plan candidate sites throughout the City. The rezoning accommodated a potential of 6,524 new housing units, exceeding the City's RHNA requirement of 4,767 units. As a result, the City established an initial surplus of 1,757 potential units that assist in compliance with Senate Bill 166 (RHNA no-net loss). The rezoning became effective on February 8, 2018.

The City has received numerous housing proposals since February 2018 and has been monitoring RHNA numbers based on submitted applications. Due to the number of market rate proposals on sites designated for the City's lower income RHNA allocation, the City's RHNA surplus dropped by the end of 2019 to approximately 700 units. However, the City's Housing Authority had 584 affordable housing units in the pipeline at the end of 2019, 273 of which are permanent supportive housing.

IV. Streamlining Housing Production

The City's Housing Element Update rezoning program eliminated the discretionary review for all housing in multi-family residential zones. Effective February 8, 2018, all multi-family residential is permitted by right in corresponding higher density residential zones, which reduces development costs, uncertainty, and time. Additional revisions included adjustments to parking standards, open space requirements, setbacks, and other criteria that impacted the ability to maximize densities specified by the Zoning Code.

Specific Plan efforts underway in the Northside Neighborhood also provides additional opportunities to streamline residential development, as will the upcoming General Plan update and associated Code revisions, which will focus on eliminating additional barriers to development. In 2019, the City submitted and was awarded a \$625,000 planning grant under the SB 2 Planning Grant Program (PGP). The SB 2 PGP was specifically created to assist cities with planning projects that streamline the production of housing. The City's grant application outlined nine (9) streamline projects that would be partially funded by the SB 2 PGP, which are described as follows:

1. Streamline Accessory Dwelling Units (ADU) - The City will update and streamline existing ADU regulations, review fees and create pamphlets and education materials to help residents

understand the differences in unit types. ADU standard plans will be prepared to facilitate ADU construction and reduce permitting costs.

2. Form a CRIA to Promote Affordable Housing - A community revitalization and investment authority (CRIA) will be considered for adoption to finance and increase infrastructure. A CRIA is required to set aside 25 percent of its funds for affordable housing.
3. CEQA for Streamlined GP/Zoning Consistency - This proposal amends the General Plan and Zoning to create an avenue for determining project consistency with both the General Plan and Zoning Code, although the General Plan land use designation and Zoning are not consistent on their face. (This project was completed on August 20, 2019 by General Plan Amendment P19-0054, as required by SB 1333).
4. Streamline Density Bonus Regulations – This project will evaluate new density bonus legislation to create clear and concise regulations and streamlining opportunities, eliminate inconsistencies with State law, and expedite processes to grant by-right density bonuses to affordable housing, senior housing, and qualified student housing projects.
5. Streamline Entitlement of Housing Authority Properties – This project will develop a conceptual plan and rezone twelve Housing Authority (HA) sites to a density that is supported by market conditions. Approximately 75 to 100 additional housing units would be produced due to increased densities.
6. Promote Housing on Small and Infill Lots – A Small Lot Infill Ordinance will be prepared to streamline development on underutilized lots. A Zoning Code revision will be proposed to allow reduced minimum lot sizes, reduced setbacks, greater building heights, or less parking and eliminate the time and cost of variances.
7. Update Housing Element – The City is updating the General Plan including the Housing Element. The Housing Element will be expedited as part of the update process, to ensure its completion by the October 2021 sixth-cycle deadline. The project will include a housing inventory, implementation plan, and associated environmental documents to meet RHNA requirements.
8. Dashboard to Track Housing Sites - The City will update its Building Permit software system with a geographic information systems (GIS) module and integrate an automated tracking of housing projects. The tracking program will include a publicly viewable dashboard to allow the City to evaluate progress made toward housing initiatives (e.g. ADU regulations, Small Lot Ordinance). The accurate tracking of development will allow the City to initiate multi-family rezoning, pursuant to SB 166, in a thoughtful and deliberate manner, months in advance of any mandated SB 166 rezoning.
9. VMT Mitigation Analysis and Fee Program – The City is currently working with the Western Riverside Council of Governments (WRCOG) to create a regional traffic impact model for vehicle miles traveled (VMT). The City will use the model to establish VMT impact thresholds for development proposals. The City will conduct a VMT Mitigation Analysis and establish a Mitigation Fee Program. The mitigation program will correlate a project's VMT impacts with the City's Active Transportation Program (ATP). The City expects the Mitigation Program to minimize fees where projects are served by High Quality Transit Areas (HQTAs).

V. General Plan Updates

General Plan Amendment P19-0054 in 2019 which provides a process for determining project specific consistency between the General Plan and the Zoning Code. Prior to the amendment, the General Plan

contained a consistency matrix (Table LU-5) that correlated Zoning districts with General Plan land use designations. Zoning districts that did not fall within its General Plan land use designations were deemed inconsistent. However, as a charter city, state law did not require Riverside to ensure consistency, which over time created inconsistencies throughout the City.

In 2018 the California Legislature adopted Senate Bill (SB) 1333, which required charter cities to have General Plan and Zoning Code consistency by January 1, 2019. This amendment required the City to ensure all development projects have consistent zoning and land use designations prior to receiving development approvals.

To respond to SB 1333, the City developed a process in the General Plan that allows the City to deem a development proposal consistent with both the General Plan and Zoning Code. The process supplements Table LU-5 – Zoning/General Plan Consistency Matrix by including additional steps to determine consistency. The amendment specified that if a property was inconsistent with LU-5 – Zoning/General Plan Consistency Matrix, then it would be evaluated against Table LU-6 – Consistency Quick Check. If a project is not consistent with Table LU-6, then the Director of Community Development would evaluate the project against Table LU-7 – Consistency Criteria. Table LU-7 includes minimum criteria by which a project would be deemed consistent with the General Plan. A proposal that is deemed inconsistent pursuant to Table LU-7 would need to submit for either a General Plan amendment and/or Zone Change application to bring the property into consistency.

The City Council adopted the SB 1333 General Plan amendments on August 20, 2019. The City Council staff report is included with this report as Appendix E.

Appendix F lists the amendments to the City's General Plan since 2007. Amendments that occurred in 2019 include:

1. P19-0054 – Land Use & Urban Design Element Amendment and Zone Change - Amendment to Table LU-5 – Zoning/General Plan Consistency Matrix, and the addition of Table LU-6 – Consistency Quick Check, and Table LU-7 – Consistency Criteria. The amendment was necessary to bring the General Plan and Zoning Code into better alignment, and Senate Bill (SB) 1333 required charter cities to have general plan/zoning consistency. Adopted August 20, 2019.
2. P18-0970 – Land Use & Urban Design Element Amendment and Zone Change - Change in land use designation from C – Commercial to MDR – Medium Density Residential, for a residential subdivision consisting of 56 single-family residential lots on 7.07 acres at the southeast corner of Tyler Street and Jurupa Avenue. Adopted November 19, 2019.
3. P17-0690 – Land Use & Urban Design Element Amendment and Zone Change - Change in land use designation from MDR – Medium Density Residential to C – Commercial, for a 6,208 square foot automated car wash facility on a 1.86-acre site at the northeast corner of California and Hole Avenues. Adopted November 19, 2019.
4. P17-0494 – Land Use & Urban Design Amendment and Zone Change - Change in land use designation from VHDR – Very High Density Residential to C – Commercial, for a 3,062 square foot gas station and 5,250 square foot multi-tenant building, which includes a 1,960 square foot drive-thru restaurant, on a 1.49 acre site at 9501 Lincoln Avenue. Adopted November 19, 2019.
5. P18-0091 – Land Use & Urban Design Amendment and Zone Change - Change in land use designation from MDR – Medium Density Residential and O – Office to MU-U – Mixed Use Urban and C – Commercial, for a subdivision that will create 482 multi-family residential dwelling units,

49,000 square feet of commercial retail space, two hotels, 23 recreational vehicle overnight spaces, gas station, drive-thru restaurants, and a farmers market, on a 35.4 acre site at northwest corner of the SR 60 and I-215 freeways, adjacent to Orange and Strong Streets. Adopted June 4, 2019.

6. P15-0989 – Land Use & Urban Design Amendment and Zone Change - Change in land use designation from PF – Public/Facilities/Institutional to CBUSP – California Baptist University Specific Plan, to accommodate an updated specific plan that allows California Baptist University's campus to expand to a maximum 12,000 student population through 2025, and a maximum of 400,000 square feet of academic, recreation, and student housing facilities, on properties located at 3582 Monroe Street and 3626 Monroe Street. Adopted January 8, 2019.

Appendix A General Plan 2025 (2007) Executive Summary

November 2007

Riverside Future

As with most journeys, the General Plan 2025 started with a vision; a vision that reflects the heart and soul of the community; a vision that is grounded in the shared values of the residents, the business community and the spiritual leaders; a vision that will help chart the City's future course and reflect our shared aspirations.

In 2002, hundreds of Riversiders, representing the diversity of the community, came together to share their dreams and creative ideas and to create a vision for the future of Riverside. This vision can be found in a document entitled "*Visioning Riverside: A Report From the Community.*" Following is a summary of the vision that resulted from that effort.

A Brief Overview of Riverside's Future¹

Riverside has fulfilled its promise as the city of potential – the place where the American Dream is realized. Home ownership and well-paying jobs are the norm. Employers have relocated from other cities into infill development areas created to accommodate compatible industries while maintaining the visual and community-centered character of the City.

People come to Riverside for the schools, from preschool through university-level. The schools are a focal point for involvement by parents, members of the business community and Riverside's extensive volunteer network. The educational system – from preschool through advanced degrees – ensures that young people are prepared for the high-paying skilled and professional jobs that have proliferated in the City. The nature of these jobs reflects the diversity and entrepreneurial spirit of the City, with a special focus on micro-enterprise and local business.

The City is a destination in itself – people come from all over Southern California to enjoy the physical beauty and historic architecture. The City has a sense of coolness and freshness that makes it an oasis. Forested parks and streets, arts and culture, fountains and pools, and a lively, interesting downtown are the focal point for activity, providing refreshing places to relax and play.

Quality, uniqueness and diversity distinguish Riverside from other cities that have experienced similar growth. Industry is compatible with the community. Design guidelines and code enforcement maintain the visual quality of the City. The City has preserved and built on the rich history of the area's citrus and educational heritage.

Regardless of income level, people are able to find distinctive, special places to live. Each neighborhood is a safe, family-oriented place. Distinct neighborhoods, each with

¹ *Visioning Riverside: A Report from the Community.* October 2002

General Plan 2025

its own history, are able to function independently with nearby parks, playing fields, shopping and services. While each neighborhood had a unique feel and voice, they support each other and people travel freely among the neighborhoods to access unique shopping, dining and cultural activities.

Because people are able to live and work in Riverside – often within their own neighborhoods – traffic congestion has been reduced. Since people find that they can forego the two and four hours of daily commute time that they used to spend traveling to jobs outside of Riverside, they have been able to recapture time for their families and community. In these and so many other ways, the City has preserved the best of its past, while also pursuing new dreams for an even better future.

This vision, representing the consensus of people within the entire community, naturally evolves into five themes:

HOW WE WORK (Economic and Workforce Development):

Riversiders pursue the American Dream. We focus on creating economic development opportunities that provide high skilled, high paid employment for all members of our community.

HOW WE PLAY (Arts/Culture/Entertainment/Parks/Recreation/Libraries/Physical Amenities):

Riverside is an oasis. This City combines trees, water and the arts to create a distinctive comfortable gathering place that enriches the lives of residents and visitors alike.

HOW WE LIVE (Housing):

We empower neighborhoods. We listen to each other and pay attention to the details because it matters. Neighborhoods enable the City and residents to work together to solve the needs of all.

HOW WE GET AROUND (Transportation and Land Use):

Riverside has responded to the traffic challenge by becoming a more self-contained city. Residents have easy access to an efficient, multi-option transportation system that enables them to meet their needs within the community.

HOW WE LEARN (K-12 Education: Parental, Community and Business Involvement):

Excellence in education is the key to economic growth. Riversiders work together to achieve quality education at all levels.

General Plan 2025

What Is the Basis for this General Plan & How Will it Be Implemented?

These five vision themes became the springboard for the General Plan 2025 Program, and the level of community participation became the blueprint for public involvement in the General Plan process. This General Plan is intended to implement the community's vision for what Riverside can be in the next 20 years. Riverside is a fast-growing, progressive community whose time has come. We are on the brink of greatness. Our citizens are enthused about the City's potential and engaged in shaping its priorities. The General Plan 2025 provides us with the resources we need to carve out our place in history, to define our future, and to guide our actions so we can become the city of our vision.

This General Plan belongs to the community. In effect, it has been designed by the community and reflects the values of the community. Beginning with the Vision, the community has participated in the development of this Plan.

The objectives and policies are based on input received from broad segments of the population, including the Citizens' Advisory Committee, Technical Advisory Committee, Education Subcommittee, Arts and Culture Subcommittee, Magnolia/Market Subcommittee, 13 Topic Group meetings, the citizens of Riverside who shared their ideas at two community-wide Citizens' Congresses attended by over 600 persons, 18 City Planning Commission Hearings and six City Council Hearings. Our citizens were engaged in this process. This engagement can be seen in the way our citizens participated in the General Plan 2025 Program. Over 4,300 residents attended 145 meetings providing over 10,000 comments that have been incorporated into the program where applicable.

Although certain elements in the General Plan are mandated by State law, this plan is unique to Riverside. Based upon the community's vision for Riverside, a number of elements have been added to reflect the spirit of Riverside. For instance, we have added an Arts and Culture Element, which recognizes the future of Riverside as a thriving arts, culture and entertainment center. We have added an Education Element, which recognizes Riverside, with its three universities and community college, as a premier educational center. We have added an Air Quality Element, which recognizes Riverside as a leader in clean air and a healthy environment. We continue to include a Parks and Recreation Element and Historic Preservation Element, which reflect the values and priorities of the community. Taken in part or as a whole, the General Plan 2025 has been customized based on the City's vision.

The General Plan 2025 truly is a document "of and for the people." As such, it will have practical application for all residents, the City Council and Boards and Commissions, City departments and outside agencies.

The Plan will be used to guide decisions and actions. As a decision maker for the City of Riverside, either a City Council member or Board or Commission member, you will use this document to guide land use decisions and shape priorities to allow the City to grow into the City we have envisioned.

The Plan will also be used for strategic planning. City Departments will use this Plan and its Implementation Tools, designed to help us achieve the objectives and policies of the General Plan, to develop their strategic plans and prioritize their commitments.

The Plan will be used to guide development. Either we will shape the growth of the City or the growth will shape us. Everyone from decision makers to developers and residents will use this plan for development guidance for projects within the City, as well as to coordinate with the County of Riverside for projects within our sphere of influence.

The Plan will be used as a means to achieve a vision, a vision defined by the citizens of Riverside. Together, we can become the city of our future.

Land Use and Urban Design Element

Riverside has long been the Inland Empire's one true "big city." Riverside brims with a bounty of natural, cultural and historic assets: a temperate climate, a compact and diverse downtown, orange groves, and other tangible links to the City's agricultural background, unblemished hillsides, cooling trees, water and institutions of higher learning, including a University of California campus. These and other features give Riverside an identity and soul distinct from the relatively undifferentiated Southern California urban landscape.

This type of urban framework has allowed Riverside to mature taking its rightful place among California's great cities, all the while retaining and enhancing its signature attractive characteristics.

This Land Use and Urban Design Element describes present and planned land uses and their relationship to Riverside's visionary goals. In addition to constituting an action plan for implementation of Riverside's vision, this element complies with all requirements for General Plan Elements set forth in California Law.

Protecting Riverside's Natural Elements

Objective 1 - Increase the prominence of the Santa Ana River by providing better connections and increased recreational opportunities.

Objective 2 - Recognize and enhance the Santa Ana River's multiple functions: a place of natural habitat, a place for recreation and a conveyance for stormwater runoff.

Objective 3 - Preserve prominent ridgelines and hillsides as important community visual, recreational and biological assets.

Objective 4 - Minimize the extent of urban development in the hillsides, and mitigate any adverse impacts associated with urbanization.

Objective 5 - reserve and protect the natural integrity of Riverside's arroyos.

Objective 6 - Retain functional agricultural areas within Riverside, particularly within the greenbelt area, while allowing for sensitive, low intensity residential uses.

Objective 7 - Preserve and protect significant areas of native wildlife and plant habitat, including endangered species.

The Built Environment

Objective 8 - Emphasize smart growth principles through all steps of the land development process.

Objective 9 - Provide for continuing growth within the General Plan Area, with land uses and intensities appropriately designated to meet the needs of anticipated growth and to achieve the community's objectives.

Objective 10 - Provide for appropriate timing of development in accordance with the future land uses designated in this Land Use Element.

Objective 11 - Create a network of parkways to establish stronger linkages between Riverside's neighborhoods, major elements of its natural environment and neighborhood parks and schools.

Objective 12 - Restore the Magnolia/Market Corridor to its historical role as a scenic “showcase roadway” that spans the City of Riverside while updating its function as a key transit corridor to support future growth.

Objective 13 - Protect Victoria Avenue from any development or other potential changes contrary to its status as a major historic and community asset.

Objective 14 - Recognize that University Avenue serves as a parkway linking neighborhoods with such major components of “Riverside Park” as UCR open space areas, Box Springs Mountain Regional Park, the Main Street Pedestrian Mall, White Park, Mt. Rubidoux Park and Fairmount Park.

Objective 15 - Recognize Van Buren Boulevard as a significant parkway, linking neighborhoods along its path to the Santa Ana River, the Arlington Heights Greenbelt, Victoria Avenue and the California Citrus State Historic Park.

Objective 16 - Make Riverwalk Parkway a vital link between neighborhoods and open space features in the western end of the City.

Objective 17 - Identify the completed Overlook Parkway as an important parkway connection between the Arlington Heights Greenbelt and Sycamore Canyon Park.

Objective 18 - Recognize Canyon Crest Drive as a vital parkway connection for the eastern portion of the City.

Objective 19 - Designate La Sierra Avenue as a City Parkway, providing links to major northern and southern open space areas.

Objective 20 - Recognize and enhance Arlington Avenue as a cross-city roadway that connects east to west.

Objective 21 - Attractively develop the City's major gateways to create a stronger sense of City identity.

Objective 22 - Avoid land use/transportation decisions that would adversely impact the long-term viability of the March Air Reserve Base/March Inland Port, Riverside Municipal and Flabob Airports.

Objective 23 - Enhance and ensure the long-term viability of Riverside Municipal Airport by developing facilities that efficiently serve present and anticipated future needs and encouraging increased business and corporate usage.

Objective 24 - Maximize the economic impact of Riverside's industrial land by careful use of industrial land by careful use of industrial properties, giving priority to clean enterprises that yield large numbers of highly skilled, high-paying jobs relative to site size.

Objective 25 - Add to the City's industrial land base where logically and physically possible to do so.

Objective 26 - Ensure that a network of modern, effective and adequate community facilities are equitably distributed across the entire City.

Objective 27 - Enhance, maintain and grow Riverside's inventory of street trees.

Objective 28 - Preserve and enhance the quality and character of Riverside by ensuring compliance with all relevant codes and regulations.

Objective 29 - Minimize the visual impact of aerial facilities on the City's landscape.

RIVERSIDE PARK

Land Use and Urban Design Element

Our Neighborhoods

Of these features, Riverside's neighborhoods are the fundamental building blocks of the community. With only a few exceptions, many of Riverside's neighborhoods include areas for living, working, education and cultural activities. These neighborhoods carry a sound interrelationship between the natural and human-made environments.

Objective 30 - Establish Riverside's neighborhoods as the fundamental building blocks of the overall community, utilizing Neighborhood and Specific Plans to provide a more detailed design and policy direction for development projects located in particular neighborhoods.

Objective 31 - Attract high-quality, job-producing businesses to the industrial areas surrounding the Airport.

Objective 32 - Preserve existing residential areas within the Airport Neighborhood.

Alessandro Heights

Objective 33 - Protect and preserve the natural features of Alessandro Heights while continuing to provide opportunities for residential development compatible with the natural environmental features of the area.

Arlanza

Objective 34 - Enhance and improve the Arlanza neighborhood and its quality of life through careful land use planning that both builds upon the neighborhood's historic development patterns of urban, suburban, and semi-rural development while protecting and preserving the neighborhood's natural features.

Arlington

Objective 35 - Maintain Arlington's sense of community through careful and coordinated planning that builds upon the neighborhood's key assets and reinforces its historic development patterns.

Objective 36 - Restore, strengthen and maintain the unique community character and identity of the Arlington Neighborhood.

Objective 37 - Spur the economic revitalization of the Arlington Neighborhood.

Arlington Heights

Objective 38 - Preserve and enhance Arlington Heights' major cultural-historical and environmental amenities, including citriculture, arroyos, hillsides, Victoria Avenue and the Gage Canal, while providing opportunities for residential development that is sensitive to the neighborhood's heritage.

Objective 39 - Provide citywide access to and use of Arlington Heights' cultural and environmental amenities.

Arlington South

Objective 40 - Reinforce Arlington South's historic development patterns, conserving the predominant single family residential character.

Objective 41 - Spur the economic revitalization of the neighborhood.

Canyon Crest

Objective 42 - Maintain the diverse and lively character of Canyon Crests' residential and commercial areas.

Casa Blanca

Objective 43 - Perpetuate the development and redevelopment of Casa Blanca as a single-family residential community, providing decent housing in a price range affordable for ownership by present residents and future families.

Objective 44 - Improve the quality and economic viability of Casa Blanca's commercial development that keeps within the special character and needs of Casa Blanca.

Objective 45 - Improve Casa Blanca's existing industrial areas, while encouraging new industrial development that does not result in the degradation of air, noise, or water quality or generate other negative environmental impacts such as hazardous wastes.

Objective 46 - Provide modern, effective public support facilities within the Casa Blanca Neighborhood and establish a partnership between community representatives and the City to attain the Neighborhood's shared goals.

Downtown

Objective 47 - Make Downtown Riverside a regional employment, governmental, arts and entertainment center with unique and interrelated districts offering a wide range of opportunities for residential lifestyles, work environments, shopping, entertainment, learning, culture and the arts.

Objective 48 - Strengthen the identity and character of Downtown using the existing historic and architectural urban character of the community, while allowing for new structures that are architecturally compatible with the complementary to the existing architectural and historic fabric.

Objective 49 - Preserve and enhance Downtown's single-family neighborhoods.

Eastside

Objective 50 - Reinvigorate the Eastside's residential and commercial neighborhoods consistent with the environmental and social objectives and needs and desires of its residents and complementary to the growth and change of adjacent neighborhoods.

Objective 51 - Create adequate employment opportunities for residents in the Eastside area.

Grand

Objective 52 - Establish improved connections and public access between the Grand neighborhood and the Santa Ana River.

Land Use and Urban Design Element

Hawarden Hills

Objective 53 - To preserve the unique environmental, cultural and aesthetic character of Hawarden Drive Special Design Area, generally located between Anna Street and the Alessandro Arroyo, including the Hawarden Hills and its ridgeline.

Objective 54 - Preserve the low-density, hillside character of the Hawarden Hills neighborhood.

Hunter Industrial Park

Objective 55 - Make Hunter Industrial Park into a major employment center by creating a high-quality business park environment that will attract private sector investment and encourage partnerships with regional educational institutions.

Objective 56 - Enhance Hunter Business Park's competitive position in the region.

Objective 57 - Protect the existing planned single family residential neighborhood within the Hunter Business Park.

La Sierra

Objective 58 - Enhance the role of La Sierra as a major employment center in the City, with complementary residential and mixed-use development.

Objective 59 - Maintain and enhance the quality of life in the La Sierra neighborhood.

Objective 60 - Reinforce the role of the Galleria at Tyler and its surrounding area as the premier retailing destination in the City and region.

Objective 61 - Enhance the economic vitality of the neighborhood and rejuvenate older commercial centers.

La Sierra Acres

Objective 62 - Enhance the quality of life by providing continued opportunities for a quality semi-rural lifestyle which includes animal husbandry.

Objective 63 - Support the development of the Rancho La Sierra River Ranch property consistent with Proposition R and Measure C requirements and with maximum sensitivity to its unique surroundings.

La Sierra Hills

Objective 64 - Enhance the quality of life in the La Sierra Hills neighborhood by creating an environment in which both traditional urban/suburban and a semi-rural lifestyle including animal husbandry may be accomplished and nurtured.

La Sierra South

Objective 65 - Improve the La Sierra South neighborhood balancing the needs and interests of residents and businesses.

Objective 66 - Optimize development opportunities on underutilized and undeveloped parcels near the La Sierra Metrolink station to create appropriately scaled developments that enhance and protect nearby neighborhoods while benefiting the community at large.

Magnolia Center

Objective 67 - Revitalize Magnolia Center in its role as a subregional retail and business center, while maintaining and preserving the low-scale character of surrounding residential uses.

Objective 68 - Preserve Magnolia Center's established residential neighborhoods and historic landmarks.

Mission Grove

Objective 69 - Complete buildout of the Mission Grove Specific Plan, encouraging development that can harmoniously co-exist near the March Airport facility.

Northside

Objective 70 - Provide a balanced community with sufficient office, commercial, and industrial uses while preserving the single family residential preeminence of the community.

Objective 71 - Establish the Northside Community as a balanced community in which it is pleasant to live, work and play.

Objective 72 - Provide for steady change and improvement to an upgraded model community with a distinct identity.

Objective 73 - Provide for comprehensive development and management of the Northside Community irrespective of political jurisdiction.

Objective 74 - Preserve and promote the lower density charm of the Northside Community.

Orangecrest

Objective 75 - Manage continued growth of the Orangecrest neighborhood in a manner consistent with the Orangecrest Specific Plan, providing needed infrastructure as land develops.

Presidential Park

Objective 76 - Ensure the long-term viability of the Riverside Auto Center.

Objective 77 - Enhance the non-automotive areas of Presidential Park, including the residential and industrial areas, maintaining long-term compatibility among the neighborhood's diverse uses.

Ramona

Objective 78 - Maintain Ramona's established residential character while allowing for higher-intensity, transit-oriented residential and mixed residential-commercial development on opportunity sites, particularly along Magnolia and California Avenues.

Sycamore Canyon Park

Objective 79 - Preserve and enhance the natural character and qualities of Sycamore Canyon Wilderness Park.

Sycamore Canyon Business Park-Canyon Springs

Objective 80 - Establish Sycamore Canyon Business Park and Canyon Springs as a center for economic growth.

Land Use and Urban Design Element

University

Objective 81 - Allow for the growth and expansion of the University of California, Riverside while ensuring preservation and enhancement of surrounding residential neighborhoods.

Objective 82 - Provide a diversity of housing opportunities throughout the University neighborhood.

Objective 83 - Ensure coordinated development along University Avenue in recognition of the street's importance as a key route between the University and the Downtown Core, a center for the hospitality industry and a source of commercial services for surrounding residential neighborhoods.

Objective 84 - Recognize and preserve existing rural lifestyles within the University Neighborhood by recognizing topographical constraints to conventional urban development.

Victoria

Objective 85 - Preserve and enhance the largely residential character of the Victoria Neighborhood.

Wood Streets

Objective 86 - Maintain and enhance the single-family residential character of Wood Streets and preserve the historic housing stock.

Sphere of Influence

Objective 87 - Maintain a Sphere of Influence limited to lands to which the extension of City of Riverside services is reasonably foreseeable.

Objective 88 - Plan for the City's growth in light of the proposed regional growth, including reviewing and planning for jobs-housing balance, traffic, air quality and other related planning issues facing the region.

Land Use Designations

Objective 89- Accommodate flexible design to provide for superior development in single family residential developments based upon good planning principles and to promote the general welfare of the neighborhood and maximum benefit to the environment.

Figure LU-6
TYING THE
CONNECTIONS

Circulation Community Mobility Element

The Circulation and Community Mobility Element recognizes the ability of our transportation network to serve our needs and shape our community in positive ways. Riverside's growth over the past seventy years has resulted in many beneficial effects, principally the development of industries and businesses that provide jobs and economic stability, creation of housing units affordable to a broad range of household incomes, and the growth of educational opportunities and institutions. Those elements have created a vibrancy which can be attributed in part to the multiple forms of transportation that connect the many communities within the City itself. The freeways, streets, bike paths, railways, buses and airports not only provide circulation within the City but also offer access to points beyond. This intricate transportation 'web' has enabled Riverside to transform from a relatively isolated agricultural community to a major city that serves as the hub of the Inland Empire.

Transportation Master Plan

Objective 1 - Facilitate freeway and regional roadway improvements and construction to alleviate congestion and air pollution and to minimize regional cut-through traffic within Riverside.

Objective 2 - Build and maintain a transportation system that combines a mix of transportation modes and transportation system management techniques, and that is designed to meet the needs of Riverside's residential system's impacts on air quality, the environment and adjacent development.

Objective 3 - Design the Magnolia Avenue/Market Street Corridor as a transit-and pedestrian-oriented Mixed Use Boulevard.

Objective 4 - Provide a connection between Washington Boulevard and SR-91 via an extension of Overlook Parkway.

Objective 5 - Cooperate in the implementation of regional and inter-jurisdictional transportation plans and improvements to the regional transportation system.

Objective 6 - Reduce peak-hour trips, roadway congestion and air pollution.

Objective 7 - Minimize or eliminate cut-through traffic within Riverside's residential neighborhoods.

Objective 8 - Protect neighborhoods and reduce the risk posed to young children and other residents by vehicular traffic on local roadways.

Objective 9 - Promote and support an efficient public multi-modal transportation network that connects activity centers in Riverside to each other and to the region.

Objective 10 - Provide an extensive and regionally linked public bicycle, pedestrian and equestrian trails system.

Objective 11 - Promote improved air transportation for Riverside in a manner that benefits the City.

Objective 12 - Facilitate goods movement as a means of economic expansion, while protecting residents and visitors from the negative effects typically associated with truck operations and rail service.

Objective 13 - Ensure that adequate on- and off-street parking is provided throughout Riverside.

Housing Element

Balancing housing goals with other City goals and policies is an important component of the housing element. Thus, this element consists of numerous criteria which was put together after Riverside conducted an extensive outreach program to involve the community, organizations, and elected officials in the creation of the Housing Element. These include analyzing the City's demographic, housing, and special needs characteristics and trends; the City's housing opportunities and the potential market, governmental, and environmental constraints impacting the City's residential needs; and a housing plan with goals, policies, and programs to direct the City's housing requirements.

As mandated by California Government Code, State Law requires the housing element identify adequate sites to facilitate and encourage housing for households of all economic levels, including persons with disabilities; remove, as legally feasible and appropriate, governmental constraints to housing production, maintenance, and improvement; assist in the development of adequate housing for low- and moderate-income households; conserve and improve the condition of housing, including existing affordable housing; and promote housing opportunities for all persons.

Housing Plan

Goal 1 - To provide livable neighborhoods evidenced by well maintained housing, ample public services, and open space which provide a high-quality living environment and instill community pride.

Goal 2 - To provide adequate diversity in housing types and affordability levels to accommodate housing needs of Riverside residents, encourage economic development and sustainability and promote an inclusive community.

Goal 3 - To increase and improve opportunities for low- and moderate-income residents to rent or purchase homes.

Goal 4 - To provide adequate housing and supportive services for Riverside residents with special needs.

Public Safety Element

Protecting the public's safety is the most critical mission of any local government. Building codes, insurance programs, airport plans and hazardous materials management efforts are all crucial programs that protect life and safety. This Public Safety Element identifies public safety issues and needs anticipated to be of ongoing concern to Riverside during the planning period.

The overall purpose of this Element is to ensure that the City takes all necessary proactive measures to reduce the risk of hazards and adequately, expediently and efficiently respond to immediate safety threats. Public Safety concerns can typically be divided into two broad categories: Natural hazards and human-caused threats.

Natural Disasters such as flooding, wildfires, mudslides and/or earthquakes can strike at anytime. Much is the same for human-made disasters on the transportation network of roads, freeways, rail lines and airports.

If such an event were to occur the Public Safety Element sets forth a proactive and coordinated program of protection for all foreseeable natural and human-caused hazards.

Understanding Natural Hazards

Objective 1 - Minimize the potential damage to existing and new structures and loss of life that may result from geologic and seismic hazards.

Objective 2 - Reduce potential flood hazards within Riverside.

Managing Potential Man-Made Hazards

Objective 3 - Minimize risks associated with the storage, transport and disposal of hazardous materials.

Objective 4 - Protect the community from hazards related to air and ground transportation.

Objective 5 - Provide safe pedestrian and bicyclist environments Citywide.

Fire and Police Services

Objective 6 - Protect property in urbanized and non-urbanized areas from fire hazards.

Objective 7 - Provide high-quality police services to all residents and businesses in Riverside.

Objective 8 - Improve community safety and reduce opportunities for criminal activity through appropriate physical design.

Objective 9 - Minimize the effects from natural and urban disasters by providing adequate levels of emergency response services to all residents in Riverside.

Objective 10 - Improve the communities ability to respond effectively to emergencies.

Special Considerations for Historic Resources

Objective 11 - Preserve the historic resources of the City from demolition, destruction and/or severe damage in the event of natural and human-caused disasters such as seismic events.

Education Element

Educational centers are the cornerstones of a community and provide the knowledge, skills and resources that foster a thriving economic and harmonious community. Education for all increases the likelihood of getting and keeping a satisfying job, enjoying good relationships with family, living a rewarding life and getting involved in community activities.

As a result, the Education element looks at moving toward a more flexible educational system that integrates an abundance of educational opportunities, both traditional and non-traditional. Riverside's education system aims to serve both the youth of the community as well as skilled, experienced workers. Life skills, work related skills, and training services all combine to give those receiving an education a better chance at a quality of life in which one has the benefit of not only advancing their own potential but the potential of their community as well.

To meet the needs of experienced workers, current students and future residents, Riverside must continue to provide a comprehensive and flexible education system in which all sectors, from pre-kindergarten through post secondary education, offer the resources and services to provide a rigorous and quality education.

With nearly 50,000 students Riverside's colleges and universities already have a profound role of offering expertise with cultural, economic and neighborhood development.

Educational Resources

Objective 1 - Accommodate the growth of all educational facilities.

Objective 2 - Capitalize upon the opportunities offered by the educational community.

Objective 3 - Plan proactively for all education needs.

Objective 4 - Maintain a safe environment at all campus facilities and on route to school.

Objective 5 - Ensure that the library system remains a premier information and independent learning resource for the Riverside residents and a complement to formal education.

EDUCATION FACILITIES

Figure AC-1
ARTS AND CULTURAL FACILITIES

Arts & Culture Element

Riverside has a proud history as a regional center for arts, culture and related education programs that are central to the essence and character of the City. While, the City of Riverside is home to a well-developed cultural environment, where diversity of art is created, performed, taught and exhibited, the community has expressed the desire to increase art and culture related venues and activities within their neighborhoods.

Therefore, the goal is to foster a civic environment where artistic expression and cultural diversity can flourish. Where the influence of arts on the local economy is recognized, and where local government and City leaders legitimize the arts as an essential component of civic support, funding and decision making.

This element will be guided by the impetus and the commitment to the shared principles that the arts and culture form the heart and soul of a civil society and contribute to the high- quality of life in Riverside, while also facilitating the forward and open-thought process that is commonly associated with the arts.

Focusing on Arts and Culture

Objective 1 - Capitalize upon the arts and culture opportunities offered by the educational community.

Objective 2 - Celebrate the diversity of Riverside's neighborhoods and residents, using arts and cultural programs to build neighborhood identity and mutual acceptance.

Objective 3 - Continue to explore the Cultural Village concept for one or more neighborhoods in Riverside.

Objective 4 - Strengthen Riverside's identity as the cultural and arts center for the Inland Empire.

Objective 5 - Comprehensively promote and market Riverside's arts and cultural attractions.

Objective 6 - Ensure that all museums in the City are supported in order to provide inclusive organizations and authentic, tangible and accessible resources that respond to the diverse and changing needs of Riverside's dynamic community of learners.

Objective 7 - Ensure that the City's Riverside Metropolitan Museum also remains an inclusive organization and provides authentic, tangible and accessible resources that respond to the diverse and changing needs of Riverside's dynamic community learners.

Air Quality Element

As we work toward improving local and regional air quality, we recognize that air quality is a community-wide and regional issue that does not respect neighborhood or jurisdictional boundaries. Each resident and every community throughout the region must accept a portion of responsibility for addressing air quality problems.

Riverside recognizes the importance of air quality not only to public health and safety, but to the economic vitality of the region. In 2004 the City was the recipient of a Clean Air Award in the category of Model Community Achievement from the South Coast Air Quality Management District. Riverside has made air quality one of its top priorities over the past thirty-five years, and in doing so has integrated air quality concerns and measures throughout the General Plan, not just in the Air Quality Element section.

As such this Element identifies the role the City can play in helping the South Coast Air Basin attain the goal of meeting Federal and State air quality standards, as well as the function the City has in protecting its own residents and businesses from the impacts of harmful air contaminants. To achieve these goals, the Air Quality Element sets forth a number of provisions and programs to reduce current air pollution emissions, while requiring new development to include measures to comply with air quality requirements and to address new stringent air quality standards.

Air Quality Strategies

Objective 1 - Adopt land use policies that site polluting facilities away from sensitive receptors and vice versa; improve job-housing balance; reduce vehicle miles traveled and length of work trips; and improve the flow of traffic.

Objective 2 - Reduce air pollution by reducing emissions from mobile sources.

Objective 3 - Prevent and reduce pollution from stationary sources, including point sources (such as power plants and refinery boilers) and area sources (including small emission sources such as residential water heaters and architectural coatings).

Objective 4 - Reduce particulate matter, as defined by the Environmental Protection Agency (EPA), as either airborne photochemical precipitates air pollution.

Objective 5 - Increase energy efficiency and conservation in an effort to reduce air pollution.

Objective 6 - Develop a public education program committed to educating the general public on the issues of air pollution and mitigation measures that can be undertaken by businesses and residents to improve air quality.

Objective 7 - Support a regional approach to improving air quality through multi-jurisdictional cooperation.

Noise Element

Noise affects how we think. It affects how we respond to and perceive the quality of the places in which we live, work and play. For those reasons, noise requires careful consideration in the community planning process. Toward these ends, the Noise Element takes into account the following four issues:

- Understanding Noise and How It Affects Us
- Sources of Noise in Riverside
- Future Noise Conditions
- Minimizing Noise Impacts

The Noise Element examines noise sources in the City with a view toward identifying and appraising the potential for noise conflicts and problems and identifies ways to reduce existing and potential noise impacts. In particular, the Noise Element contains policies and programs to achieve and maintain noise levels compatible with various types of land uses.

Although, this element addresses noise which affects the community at large, rather than noise associated with site-specific conditions, this element also addresses effective strategies to reduce, eliminate and limit community exposure to loud noise sources.

Guidelines put forth by the State of California include requirements for defining projected future noise conditions in the form of noise exposure contours. These contours serve as the basis for developing guidelines for identifying compatible land uses.

Minimizing Noise Impact

Objective 1 - Minimize noise levels from point sources throughout the community and, wherever possible, mitigate the effects of noise to provide a safe and healthful environment.

Objective 2 - Minimize the adverse effects of airport-related noise through proper land use planning.

Objective 3 - Ensure the viability of March Air Reserve Base/March Inland Port.

Objective 4 - Minimize ground transportation-related noise Impacts.

Public Facilities Element

Public Facilities and Infrastructure represent Riverside's hidden support network. This well designed and maintained network provides residents and business owners with:

- Water service and supply
- Wastewater
- Stormwater Control
- Solid Waste
- Electrical Power
- Telecommunications
- Medical Facilities
- Community Centers

The infrastructure is crucial to the community's economic development goals. Infrastructure such as sewer and water lines, broadband communication networks and solid waste collection and disposal must be sufficient to accommodate the present and future needs in the community. Providing quality public facilities such as libraries, hospitals and community centers are also of vital importance, as they contribute to the health, education and quality of life for all residents.

Infrastructure Network

Objective 1 - Provide superior water service to customers.

Objective 2 - Find new and expanded uses for recycled wastewater.

Objective 3 - Maintain sufficient levels of wastewater service throughout the community.

Objective 4 - Provide sufficient levels of storm drainage service to protect the community from flood hazards and minimize the discharge of materials into the storm drain system that are toxic or which would obstruct flows.

Objective 5 - Minimize the volume of waste materials entering regional landfills.

Objective 6 - Provide affordable, reliable, practical, environmentally sensitive energy resources to residents and businesses.

Telecommunications

Objective 7 - Ensure that Riverside residents, the business community and educational institutions have easy access to state-of-the-art internet services and modern telecommunications technology.

Objective 8 - Expand the accessibility of internet and similar communications services throughout the community.

Health Care Facilities

Objective 9 - Make Riverside the central location for quality and diverse health care services in the Inland Empire.

Objective 10 - Meet the varied recreational and service needs of Riverside's diverse population.

Open Space & Conservation Element

Riverside's abundant land resources and plentiful housing stock make it one of the fastest growing cities in Southern California. To that end Riverside will need to work on preserving and protecting its existing resources, while also capturing new resources as they become available. Expanding and capturing new resources will enable the City to enhance the scenic quality of open spaces which not only attract visitors to the region, but allow residents to enjoy and live amongst natural landforms not found in many urban areas. Unique natural landforms circle the City and create natural divisions of land uses creating a greenbelt that acts as a buffer between urban and rural land uses.

The hillsides, arroyos, Santa Ana River and other open space areas support an abundance of wildlife species and plant communities, including some which have protected status under the federal Endangered Species Act and various California statutes. Diverse biological resources are an essential part of a healthy ecosystem and make Riverside a more attractive place to live, play and learn.

Overarching Objectives

Objective 1 - Preserve and expand open space areas and linkages throughout the City and sphere of influence to protect the natural and visual character of the community and to provide for appropriate active and passive recreational uses.

Objective 2 - Minimize the extent of urban development in the hillsides, and mitigate any significant adverse consequences associated with urbanization.

Agricultural Preservation

Agricultural Preservation Proposition R and Measure C

Objective 3 - Preserve designated agricultural lands in recognition of their economic, historic and open space benefits and their importance to the character of the City of Riverside.

Objective 4 - Preserve designated buffers between urban and rural uses for their open space and aesthetic benefits.

Our Natural Resources

Objective 5 - Protect biotic communities and critical habitats for endangered species throughout the General Plan area.

Objective 6 - Preserve and maintain wildlife movement corridors.

Objective 7 - Turn the Santa Ana River Task Force "Vision" into reality.

Objective 8 - Encourage the efficient use of energy resources by residential and commercial users.

Objective 9 - Encourage the efficient use of energy resources by the City of Riverside.

Objective 10 - Preserve the quantity and quality of all water resources throughout Riverside.

Park and Recreation Element

As Riverside continues to expand and grow, parks and open space will play a vital role in the community. The fifty-two parks, numerous trails and vast open space can provide Riverside with:

- Active recreational pursuits
- Passive enjoyment
- Enhanced quality of life
- Enhanced community image

Active community parks can provide neighborhoods with a variety of recreational facilities. Baseball/softball fields, basketball courts, football and soccer fields, as well as playgrounds and aquatic centers can be beneficial in increasing health and activity throughout the City.

Passive community parks can bring a source of solitude and health in an entirely different way. Passive/Casual parks usually lack many

facilities associated with active parks in place of public green spaces where city dwellers can escape from the hustle and bustle of urban life. Passive parks may include large open spaces, meadows, meandering tree lined pathways, ponds and gardens.

Parks and open spaces not only provide an escape for city-dwellers but also provide habitat and protection for threatened and endangered species, unique natural and cultural resources and critical habitat links. Parks contribute to the network of open spaces and enhance the quality of life for Riversiders in numerous ways. Green spaces provide healthy trees and a multitude of plant life, while park facilities enable residents to be active and engaged in a plethora of recreation activities.

Park and Recreation Master Plan

Objective 1 - Provide a diverse range of park and recreational facilities that are responsive to the needs of Riverside residents.

Objective 2 - Increase access to existing and future parks and expand pedestrian linkages between park and recreational facilities throughout Riverside.

Objective 3 - Engage Riverside residents and the business community in planning for recreational and service needs.

PARK AND RECREATION FACILITIES

City-Owned Parks				
Neighborhood Parks				
Park Sites		Location	Amenities	Total Acres
1	Arlington Park	3860 Van Buren Blvd.	Basketball, tennis, and roller hockey courts; picnic areas, swimming pool, restrooms and playground	4.77
2	Bergamont Park	9229 Bergamont Dr.	Basketball half courts, playground, picnic tables and exercise course	5.32
3	Carlson Park	4700 Buena Vista Ave.	Picnic tables, off-leash dog area and on-site parking (historic site)	1.77
4	Collett Park	10950 Collett Ave.	Sandlot volleyball court, playground, horseshoe pit, picnic tables and covered picnic areas	5.60
5	Harrison Park	2851 Harrison St.	Sandlot volleyball court, basketball half courts, playgrounds and picnic facilities	6.49
6	Highland Park	780 Glenhill Dr.	Basketball court, two playgrounds, picnic facilities, covered picnic area and on-site parking	5.05
7	Islander Park	3794 Mt. Vernon Ave.	Community pool, on-site parking and undeveloped park site	20.51
8	Don Jones Park	3995 Jefferson St.	Lighted softball and soccer field, picnic tables, restrooms and snack bar	5.77
9	Lincoln Park	4261 Park Ave.	Lighted basketball court, horseshoe courts, community center, playground and picnic facilities	3.25
10	Low Park	7101 Magnolia Ave.	Picnic facilities	1.25
11	Loring Park	3787 Buena Vista Ave.	Open space	2.45
12	Mountain View Park	6241 Wiehe Ave.	Basketball half courts, playground, picnic tables, barbeques and exercise course	5.51
13	Myra Linn Park	4540 Meredith St.	Lighted tennis courts, playground, picnic tables, restrooms, on-site parking and barbeques	7.89
14	Newman Park	3780 14th St.	De Anza Statue, Sport Hall of Fame (historic site)	0.41
15	North Park	3172 Mission Inn Ave.	Historic site with arbor structure	1.23
16	Parent Navel Orange	7101 Magnolia Ave.	Developed with trees and fencing. One of two original Parent Washington Navel Orange Trees is preserved at this site	0.09
17	Patterson Park	1846 Linden St.	Lighted softball and sports fields, playground, picnic shelters, snack bar, restrooms and on-site parking	4.27
18	Rancho Loma Park	11343 Rancho Loma Dr.	Tether ball courts, sandlot volleyball courts, volleyball courts, playground, picnic tables, barbeques and covered picnic area	6.48
19	Rutland Park	7000 Rutland Ave.	Basketball half courts, sandlot volleyball courts, horseshoe pits, playground, picnic tables, Barbeques, and covered picnic area	8.63
20	Sycamore Highlands	5777 Fair Isle Dr.	Playground, picnic tables, barbeques, covered picnic area, ballfield, butterfly garden and water spray feature	10.46
21	Swanson Park	5723 Glenhaven Ct.	Picnic tables	0.80
22	Taft Park	6826 New Ridge Dr.	Basketball half courts, tennis courts, playground, picnic tables and barbeques	7.18
23	Thundersky Park	20440 Thundersky Cr.	Playground, covered picnic areas, ballfield, picnic tables and barbeques	12.65
24	Dario Vasquez Park	2400 14th St.	Lighted basketball court, playground, covered picnic area, picnic tables, barbeques and on-site parking	1.36
25	Washington Park	2769 Mary St.	Playground, restrooms, picnic tables, barbeques and on-site parking	3.90
26	Doty Trust Park	Golden Ave. & Campbell St.	Undeveloped	21.31
27	Golden Star	Bradley St. and Washington St.	Undeveloped	10.70
28	Mt. Vernon Park	3200 Valencia Hill Dr.	Undeveloped	8.25
29	Victoria Cross Park	NWC Victoria Ave. and Cross St.	Undeveloped	7.83
Total Existing Neighborhood Park Acreage				181.18

Community Parks				
Park Sites		Location	Amenities	Total Acres
30	Andulka	5079 Chicago Ave.	Currently undeveloped but funded for lighted baseball fields, group picnic area, children’s playground, tennis courts, tennis pro shop, jogging path, snack bar, restrooms and on-site parking	36.64
31	Bobby Bonds Park (Cesar Chavez Community Center)	2060 University Ave.	Lighted softball field, lighted basketball/tennis courts, sports field, soccer field, social service center, olympic pool, picnic tables and childcare	13.67
32	Bordwell Park (Stratton Community Center)	2008 Martin Luther King Blvd.	Lighted softball field, lighted basketball court, community center, senior activity area, childcare center, playground, picnic tables and barbeques	22.76
33	Bryant Park (Arlanza Community Center)	5950 Philbin Ave.	Lighted softball fields, basketball and tennis courts, community center with gym, playground, picnic tables, barbeques, covered picnic areas, snack bar, childcare and social services center	19.65
34	Castleview Park	1410 Via Vista Dr.	Playground and picnic tables	31.46
35	Hunt Park (Joe Renck Community Center)	4015 Jackson St.	Lighted softball field and basketball court, sports field, volleyball court, community center, playground, pool, picnic tables, barbeques and skateboard facility	13.93
36	Hunter Park	1400 Iowa Ave.	Softball fields, picnic facilities, miniature steam locomotives (Riverside Live Streamers)	32.20
37	La Sierra Park (La Sierra Community Center)	5205 La Sierra Ave.	Lighted ball fields, community center with gym, covered picnic area, playground, picnic tables, snack bar, barbeques, restrooms and on-site parking	23.15
38	Nichols Park (Joyce Jackson Community Center)	5505 Dewey Ave.	Two lighted softball fields, basketball and volleyball courts, sports field, community center with gym, playground, picnic tables and barbeques	14.72
39	Orange Terrace	20010 Orange Terrace Pkwy.	Lighted softball fields, restrooms, snack bar, playground and picnic shelters	29.81
40	Reid Park (Ruth Lewis Community Center)	801 N. Orange St.	Lighted softball fields, basketball, tennis, and lighted sports field, soccer field; community center with gym, playground, pool, picnic tables, snack bar, barbeques, restrooms and on-site parking	42.24
41	Shamel Park	3650 Arlington Ave.	Lighted ball fields, lighted tennis courts, covered picnic area, horseshoe courts, pool, picnic tables, snack bar, barbeques, restrooms and on-site parking	9.84
42	Streeter Park (Janet Goeske Senior and Handicapped Citizens’ Center)	5257 Sierra St.	Senior and handicapped citizens’ center; patio area includes covered picnic area, basketball half court, arbors, horseshoe courts, and other outdoor areas for use by seniors and handicapped citizens	4.42
43	Villegas Park (Ysmael Villegas Community Center)	7260 Marguerita Ave.	Lighted ball fields, lighted soccer field, basketball court, handball courts, covered picnic area, community center with gym, playground, pool, picnic tables, and barbeques, restrooms and on-site parking	17.46
Total Existing Community Park Acreage				311.95

City-Owned Parks - Continued				
City-Wide/Special Use Parks				
Park Sites		Location	Amenities	Total Acres
44	Ab Brown Sports Complex	3700 Placentia Ln.	16 Soccer fields (2 lighted), restrooms, multi-purpose room, snack bar, on-site parking and covered picnic area	55.50
45	Don Derr Park	3003 Monroe St.	3 lighted ball fields with 2 lighted sports field overlays, basketball courts, playground, snack bar, picnic tables, barbeques, restrooms and on-site parking	21.44
46	Don Lorenzi Park	4230 Jackson St.	Lighted sports fields, picnic tables barbeques, restrooms and on-site parking	9.08
47	Sam Evans Sports Complex (RCC)	4557 Magnolia Ave.	Lighted sports fields, playground, picnic tables, restrooms and on-site parking	11.89
48	Riverside Sports Center	1000 Blaine St.	Baseball stadium, lighted sports fields, restrooms, on-site parking and bike trail connection	17.50
49	Riverside Youth Sports Complex	Van Buren Blvd. & Cleveland Ave.	Currently undeveloped park but funded for baseball fields, soccer fields, restrooms, snack bar, basket ball courts, on-site parking, children’s playground, group picnic area and small	34.39

Historic Preservation Element

Historic Preservation plays a vital role in maintaining Riverside's character and identity. This element provides guidance in developing and implementing activities that ensure that the identification, designation and protection of cultural resources are part of the City's community planning, development and permitting processes. As a community effort, the preservation of cultural resources is a responsibility of all, whether the interest is for economic, aesthetic, cultural or environmental reasons.

The State Office of Historic Preservation has recognized Riverside's historic preservation program with its designation as a Certified Local Government (CLG). This program has been prepared to meet the current and long-term goals of the City's historic preservation program.

Vital information came from the community in preparing the Preservation Element of the General Plan. Workshop participants identified numerous historic preservation issues and concerns. A few of which are listed below:

- Promoting the economic and community benefits of preservation.
- Supporting incentives and programs that encourage preservation.
- Identifying and designating cultural resources.
- Providing adequate protective procedures for cultural resources.

Historic Preservation in Riverside

Objective 1 - To use historic preservation principles as an equal component in the planning and development process.

Objective 2 - To continue an active program to identify, interpret and designate the City's cultural resources.

Objective 3 - To promote the City's cultural resources as a means to enhance the City's identity as an important center of Southern California history.

Objective 4 - To fully integrate the consideration of cultural resources as a major aspect of the City's planning, permitting and development activities.

Objective 5 - To ensure compatibility between new development and existing cultural resources.

Objective 6 - To actively pursue funding for a first-class historic preservation program, including money needed for educational materials, studies, surveys, staffing, and incentives for preservation by private property owners.

Objective 7 - To encourage both public and private stewardship of the City's cultural resources.

	- Model Clean Air - Senior Housing - Washington/Alessandro Committee (WAC) - Home Ownership - Santa Ana River - High Tech - GoRiverside - Walkable Communities - Neighborhood Governance - View Through the Windshield - City/County Arroyo Group				households. In addition, in 2010 a SmartRiverside Strategic Plan was approved and is in the early stages of implementation. On May 25, 2010, a "Neighborhood Governance Initiative" was approved by the City Council. The initiative calls for the ratification of Neighborhood Councils within each of the 26 residential neighborhoods through an application process developed by the Development Department in partnership with the Riverside Neighborhood Partnership. The Neighborhood Councils will act as a vehicle for City Departments to share information relevant to neighborhoods that will then be disseminated by the councils into the neighborhood. The councils will also provide an opportunity for a greater level of neighborhood communication between local groups and build social capital. (See Housing Element Section relative to update on Senior Housing and Home Ownership)
6	Regularly review the General Plan and recommend needed changes to the Plan and the Implementation Plan for City Council consideration. In addition, conduct bi-monthly or regular workshops with the City Council on the General Plan reviewing the document, element by element, and give updated reports on the progress of the Implementation Plan items. In this regard, the Planning Commission has offered to appoint two members to sit on an advisory committee with the City Council to hear and act on status and progress reports of the Implementation Plan.	Planning Division	On-going	I-1.1	On-going – The second annual review of the General Plan 2025 Program was adopted by the City Council on January 4, 2011. On April 20, 2010, the City Council adopted the first addition to the Implementation Plan, the Circulation and Community Mobility Element Implementation Plan that was added as part of a Workshop on the Element given on April 20th. This review will add the second addition to the Implementation Plan, the Air Quality Element Implementation Plan. In September of 2012, the State Department of Housing and Community Development certified the updated Housing Element and Implementation Plan. After the City Council adopted the Element on July 24, 2012. As such, the approved Housing Element Implementation Tools are incorporated into this Implementation Plan. .
7	Continue to schedule amendments to the General Plan quarterly (January, April, July and December).	Planning Division	On-going	I-2.1	On-going – The City processes General Plan amendments quarterly.
8	Annually review the Capital Improvement	All Departments	On-going	I-1.2	On-going – The Planning Division reviews the Capital Improvement Program

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
	Program of the City and local public works projects of other local agencies within the corporate boundaries of Riverside for consistency with the General Plan, pursuant to 19,050.030 B 6 (of revised Zoning Code) in accordance with State Law.			LU-10.2	annually for consistency with the General Plan 2025 and presents its findings to the City Planning Commission for their concurrence.
9	Establish regular coordination meetings with the County to review ideas of mutual interest, including development proposals, design guidelines, City sphere land use designations and annexations.	Planning Division County of Riverside	On-going	LU-4.3 LU-87.2 LU-87.3 LU-87.4	On-going – City staff has met several times with County staff as they prepare their General Plan update, to address coordination issues between the two General Plans.
10	Coordinate the General Plan land use designations within City's sphere plan with the County's RCIP. Particular emphasis should be placed on the Highgrove area including community meetings with the Highgrove Community Services Area Committee.	Planning Division County of Riverside	On-going	LU-87.4	On-going – City staff has met several times with County staff as they prepare their General Plan update, to address coordination issues between the two General Plans.
11	Continue to expedite annexations in the City's sphere of influence.	Planning Division County of Riverside LAFCO	Ongoing	LU-87.2 LU-87.3	On-going – The City continues to expedite applicant driven annexations; however, due to shift in City Council priorities other annexations are not being actively pursued at this time.
12	Adopt an Overlay Zone for Victoria Avenue that will implement the Design and Development Standards for development on Victoria Avenue as approved by City Council. ¹	Planning Division	On-going	LU-13 LU-39.1 LU-85.3 CCM-2.14 CCM-4.3	On-going – On January 30, 2012 staff presented the concept of a Scenic Corridor Overlay Zone to the Utility Services/Land Use/Energy Committee. The Committee unanimously directed staff to proceed with the necessary Code Amendment as outlined the staff report as time allows. These changes will cover such special boulevard as Victoria Avenue as well as the City's rail and freeway corridors.
13	Designate Victoria Avenue, excluding the traveled roadway, as a City Park per City Council approval. ²	Public Works Parks, Recreation and Community Services Planning Division	TBD	LU-13 LU-39.1 LU-85.4	Since the City Council proposed the designation of Victoria Avenue as a park site, the responsibility for maintenance of the parkway and median landscapes along the Avenue have been assumed by the Public Works Department, which has been working cooperatively with "Victoria Avenue Forever" and other interested citizens groups to preserve the historic landscapes along the Avenue. Consequently, it is recommended that Public Works be assigned to

¹ City Council Report – Recommendations of the Victoria Avenue Ad Hoc Committee, November 12, 2003, Item 24.

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
14	Prepare a specific plan type study for the connection of Overlook Parkway from Alessandro Boulevard on the east to the 91 Freeway, on the west. The study will address crossing of the Alessandro Arroyo, possible traffic calming measures to protect adjoining local streets, protection of Victoria Avenue and the specific connection route to the 91 freeway westerly of Washington Street.	Public Works Planning Division	On-going	LU-17 CCM-4.1 CCM-4.2	On-going – On December 14, 2010 the City Council initiated an environmental impact report (EIR) to be prepared for the opening of the gates at Crystal View Terrace and Green Orchard Place in relationship to the Overlook Parkway Crossing. Work is commencing on this EIR at this time. The second screencheck draft of the document is under review now.
15	Amend the Airport Protection Overlay Zone to adequately address the Riverside County Airport Land Use Compatibility policies and requirements for new development, redevelopment and the handling of tenant improvements for speculation buildings where uses will be limited due to the proximity to the airport. Rezone underutilized and vacant single family residential and all multi-family residential, commercial and industrial zoned properties within the influence area of RMA and Flabob Airports to add the AP – Airport Protection Overlay Zone.	Planning Division	TBD	LU-22 LU-23 CCM-11 PS-4 N-2 N-3	
16	Consider rezoning properties in the airport area to include the AI Zone.	Planning Division	TBD	LU-22 LU-23	Discussions have been initiated with the Development staff to consider how and when to best proceed with this tool. A recommendation will be forwarded to the Land Use Committee for their consideration.
17	Prepare a plan for updating each of the Neighborhood Plans for City Planning Commission and City Council approval. The plan will establish a schedule with priority assignments, completing one or two neighborhoods per year.	Planning Division Development Department/ Housing & Neighborhoods Division	Completed	LU-30.1 LU-30.7	Completed – The University Neighborhood Plan was adopted on June 17, 2008 and the Eastside Neighborhood Plan will be before the City Council June 9, 2009. In addition, on October 6, 2008 the Riverside Neighborhood Partnership established the following recommendation for upcoming neighborhood plans in the following order, La Sierra Hills/La Sierra Acres, Arlanza, Northside and Magnolia Center. Due to budget consideration and staff reductions no time table has been established for the preparation of neighborhood plans.

18	Revise General Plan documents to separate Sycamore Canyon Business Park from Canyon Springs Business Park neighborhood.	Planning Division Development/ Housing & Neighborhoods Division	Completed	LU-30.1 LU-30.7	Completed -- After some discussions with the Development Department/Housing & Neighborhoods Division and Mayor's staff it was determined that, these two areas do not need to be split apart into separate neighborhoods.
19	Implement zoning consistency cases as a means of stabilizing and improving neighborhoods.	Planning Division	On-going	LU-30	On-going -- The City has been actively pursuing this goal since the adoption of the General Plan 2025.
20	Reference the Design Guidelines of the 2001 Arlington Community Plan that have now been incorporated into the Magnolia Avenue Specific Plan, in reviewing new development and remodeling work.	Planning Division	On-going	LU-36.7	On-going -- The City uses these Design Guidelines when working on projects in the Arlington Community area.
21	Deleted as it repeated 22				See 22
22	Implement the Rancho La Sierra Specific Plan pursuant to Proposition R and Measure C with the following criteria: - Housing shall be clustered to protect the riverbottom wildlife refuge, the agricultural lands along the river bluffs and the open-space character of the areas; - Natural open space areas shall be preserved to protect the natural features of the site such as significant natural hills, steep slopes, rock outcroppings and arroyos; - The wildlife refuge, agricultural land and open space character of the river shall be preserved; - Any future roads/or utility service shall be located so as to protect the wildlife refuge;	Property Owner Planning Division	TBD	LU-63	At such time as plans are submitted for the development of this land, Planning Division staff will ensure that development is in concurrence with the Rancho La Sierra Specific Plan.

OVERARCHING IMPLEMENTATION TOOLS

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
	and — Public trail access along the river corridor compatible with protection of the wildlife refuge shall be maintained and provide for hiking, bicycling and equestrian use.				
23	Review the feasibility of preparing a Regional Planning Element.	Planning Division	TBD	LU-88.3	No action taken.
24	Implement and regularly review the Mitigation Monitoring Program of the General Plan 2025 Program for compliance and completion.	Planning Division	On-going	All	On-going – The City Planning Division regularly uses the Mitigation Monitoring and Reporting Program (MMRP) when reviewing Planning cases.
25	Begin meeting with the Technical Advisory Committee of the General Plan 2025 Program to review, add to and prioritize the draft tools prepared for the General Plan 2025 Program to further supplement this Implementation Plan.	All Departments	On-going	All	On-going – With the update of this Implementation Plan for this third General Plan 2025 Program Update, Planning Division staff has received input from all of the Technical Advisory Committee (TAC) members who have a stake in the Implementation Plan to ensure that the updated information being provided in this plan is accurate. In the future, the TAC will be reconvened to update the Implementation Plan as needed.
26	Use the General Plan as basis for future strategic planning and prioritization.	All Departments	On-going	All	On-going – The General Plan 2025 is used regularly for strategic planning and the prioritization of programs.
27	Consider the creation of a Freeway Overlay Zone to protect and improve the appearance of the City along the freeway corridors.	Planning Division	On-going	All	On-going – On January 30, 2012 staff presented the concept of a Scenic Corridor Overlay Zone to the Utility Services/Land Use/Energy Committee. The Committee unanimously directed staff to proceed with the necessary Code Amendment as outlined the staff report as time allows. These changes will cover such special boulevard as Victoria Avenue as well as the City's rail and freeway corridors.
28	Create a center based child care ordinance.	Planning Division	TBD	LU-26 All	This case has been assigned and will be completed as time permits.
29	Continue to solicit comments from registered neighborhood groups on land use proposals.	Planning Division Development/ Housing & Neighborhoods Division	On-going	LU-30	On-going – The Planning Division routes planning cases to the Office of Neighborhoods for reviews with registered neighborhoods groups as part of the planning process. On May 25, 2010, a "Neighborhood Governance Initiative" was approved by the City Council. The initiative calls for the ratification of Neighborhood Councils within each of the 26 residential neighborhoods through an application process developed by the Development Department in partnership with the Riverside Neighborhood Partnership. The Neighborhood

30	Create an interdisciplinary Parkway Planning Team to develop an overall, General Parkways Plan and Parkway Guidelines for how public and private right-of-way and setback adjacent to the rights-of-ways are treated relative to the parkway functions and policies noted in the General Plan.	Planning Division Public Works Public Utilities Development	TBD	LU-11 LU-12 LU-13 LU-14 LU-15 LU-16 LU-17 LU-18 LU-19 LU-20 LU-21	Councils will act as a vehicle for City Departments to share information relevant to neighborhoods that will then be disseminated by the councils into the neighborhood. The councils will also provide an opportunity for a greater level of neighborhood communication between local groups and build social capital. No action taken.
31	Place a high priority on having the trails on Figure PR-1 - Parks, Open Space and Trails Map placed into GIS for accuracy.	Parks, Recreation and Community Services Information Technology Planning Division	On-going	All	On-going - City staff will continue to work on verifying and adjusting the master plan alignments for feasibility for future construction.
32	Review the need and feasibility of creating fuel modification zones for fire breaks in areas where needed, preserving natural open spaces. Any fuel modification areas will generally be on property proposed for development and not placed on neighboring properties.	Fire Department Planning Division	On-going	PS-6	On-going - Under State law, the California Department of Forestry and Fire Protection, in conjunction with the City of Riverside Fire Department, have identified Fire Severity Zones within the City of Riverside. The Very High Fire Severity Zone (VHFSZ) areas are subject to Title 24 Building and Fire Code Requirements.
33	Place all Metropolitan Water District properties located within the City and the sphere in the PF - Public Facilities/Institutional General Plan designation as requested by the Metropolitan Water District (Implementation Plan Figure B - Metropolitan Water District Letter).	Planning Division Information Technology	On-Hold	All	Staff is ready to process the rezoning and General Plan amendment cases when they are submitted by the MWD.

34	Amend the Subdivision Code, upon adoption, to add street and trail standards to Chapter 18.210 "Development Standards" (Pages V-59 - V-67).	Planning Division Public Works Trails Coordinator	TBD	All	Development standards are currently being created by the Trails Coordinator and when complete they will be added to the Subdivision Code. Street standards are completed and are ready for insertion.
35	Prepare guidelines for cultural villages for the Citywide Design Guidelines.	Planning Division	TBD	All	No action taken.
36	In addition to complying with any applicable rules and regulations, including all Executive Orders related to ChG reduction and climate change, the City, working through its Customer Relations / Marketing Manager and Sustainability Officer or any other similarly qualified staff, will consult with the California Air Resources Board (CARB) and any other appropriate agencies to identify any additional ways the City can assist CARB and other appropriate agencies in reducing statewide greenhouse gas emissions as provided in AB 32, including but not limited to, measures identified in the U.S. Mayors Climate Protection Agreement such as study and make recommendations on participating in an emissions inventory and reduction program.	Customer Relations / Marketing Manager and Sustainability Officer Planning Division	On-going	AQ-7	On-going – The City of Riverside has completed a Greenhouse Gas Emission baseline for all Municipal Facilities and community ChG Emission Baseline., Riverside will receive reports providing methodologies in which the City can reduce municipal and community emissions to reach its goal of 7% below 1990 levels noted in the Mayor's Climate Protection Agreement. As a side partnership, Riverside is working with the Department of Conservation with the pilot Emerald Cities Program. Riverside has established 'stretch goals' to expand the original Green Action Plan items to further assist with air quality and overall emission levels throughout the community. Lastly, the City is working with the Western Riverside Council of Governments to prepare a Regional Climate Action Plan template that can be used by the City.
37	The City will adopt an updated Water System Master Plan, following appropriate environmental review pursuant to the California Environmental Quality Act (CEQA), addressing issues such as, but not limited to, the capacity of the water system in relation to the implementation of the General Plan 2025.	Public Utilities Water	Second Quarter 2013	PF-1	Contract for the preparation of an Integrated Water Management Plan and Program EIR awarded by the Board of Public Utilities on July 1, 2011. The IWMP will incorporate and prioritize recommendations from all system master plans (supply, distribution, recycled, etc) into a single comprehensive document.
38	The City will explore funding mechanisms to support the standards identified in the Library's 2000 Strategic Plan as appropriate.	Library	2012	ED-5	Completed - Funds have been secured to: - Construct the Arlington Library - Arlington remodel and expansion completed June, 2008 (Old facility was 4,000 square feet and the new facility is 13, 000 square feet). - New Arlanza Library completed November 2010. Facility is 10,000 square feet. Marcy was relocated into the 9,100 square foot facility May, 2011

OVERARCHING IMPLEMENTATION TOOLS

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
					increasing the facility size by 120% from the prior 4,200 square-foot facility. The Casa Blanca branch renovation was completed in 2009 with a 100%+ increase in technology access.
39	The City will adopt an updated Wastewater Master Plan, following appropriate environmental review pursuant to the California Environmental Quality Act (CEQA) addressing issues such as, but not limited to, the capacity of the wastewater system in relation to the implementation of the General Plan 2025.	Public Works	Completed	PF-3	Completed – Wastewater Master Plan EIR was certified on October 26, 2010.
40	The City will adopt an updated Electric System Master Plan, following appropriate environmental review pursuant to the California Environmental Quality Act (CEQA) addressing issues such as, but not limited to, the capacity of the electric system in relation to the implementation of the General Plan 2025.	Public Utilities Electric	Completed	PF-6	Completed – The Electric System Master Plan (ESMP) was presented to the Board of Public Utilities in the last quarter of 2009 and elements were included in the 2010/2014 Electric Capital Improvement Plan.
41	The Library Department shall revisit their 2000 Strategic Plan to determine if existing standards for Library services are still appropriate and reflect public needs for library services given the evolution of technology, public use of the internet, and other relevant factors.	Library	2012	ED-5	Recent computer usage statistics show a continued increase in demand for technology and public access computers. The Library System continues to expand access to computers as it redevelops and builds new libraries in the City. Utilizing current library statistics, the programs and services continue to evolve to better meet the needs of the community. The Library Staff is working with the Library Board of Trustees on developing library programs and services that meet the identified needs.
42	The Parks, Recreation and Community Services Department shall revisit the Parks Master Plan and the standards set within it to determine whether its standards appropriately reflect the recommendation of the 2003 Parks Master Plan and evolving public needs and preferences for recreational facilities and services.	Parks, Recreation and Community Services Department	End of 2013	PR-1 PR-3	Parks Staff is recommending that the Parks System Master Plan be updated on a 10-year cycle with the next update scheduled for 2013. With the Renaissance Program currently winding down, there will be resources available to undertake the Park System Master Plan.

43	The City's Code Enforcement Division will work with South Coast Air Quality Management District SCAQMD, City Attorney's Office and the Fire Department regarding updating and codifying the City's practices and requirements in regard to weed abatement. Through this process the City will evaluate ways to educate landowners about the SCAQMD's Rule 403 requirements.	Code Compliance City Attorney's Office Fire Department	Completed	AQ-4 & AQ-6	Completed – As part of the Settlement on the General Plan 2025 Program, the weed abatement contracts and notices have been changed to reflect AQMD requirements.
44	Revise the University Avenue Specific Plan to reflect the new expanded role of this thoroughfare as envisioned in the General Plan 2025 Program.	Planning Division	Last Quarter 2012	LU-14	This case has been assigned and is currently being processed by the Planning Division. With the completion of the Eastside Neighborhood Plan, a concerted effort can now be made to update both the University Avenue and Market Place Specific Plans. The Planning Division received monies for this undertaking through the American Recovery and Reinvestment Act of 2009 Grant to incorporate green and sustainable incentives into the Specific Plans.

AIR QUALITY ELEMENT

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives	Progress
AQ 1	Analyze construction-related air quality and greenhouse gas related impacts of development projects using the most current estimation software module including URBEMIS, CalEEMod, or other methods sanctioned by the South Coast Air Quality Management District (SCAQMD), and require further analysis and mitigation as necessary to ensure air quality thresholds are not exceeded.	Planning Division All Departments preparing environmental documents	On-going	AQ-3.3 AQ-3.4 AQ-4.2 AQ-4.3 (MM Air 1) (MM Air 7)	On-going – the Planning Division has begun to use the recently developed CalEEMod program to analyze air quality and GhG emissions. A training session was held in April 2011 to educate staff on the use of the program.
AQ 2	Ensure that development projects implement emission reduction measures for construction-related activities consistent with SCAQMD's Rule 403 Best Management Practices. Measures may include: • Development of a construction traffic management program that includes, but is not limited to, rerouting construction related traffic off congested streets, consolidating truck deliveries, and providing temporary dedicated turn lanes for movement of construction traffic to and from site; • Sweep streets at the end of the day if visible soil material is carried onto adjacent paved public roads; • Wash off trucks and other equipment leaving the site; • Replace ground cover in disturbed areas immediately after construction; • Keep disturbed/loose soil moist at all times; • Suspend all grading activities when wind speeds exceed 25 miles per hour; • Enforce a 15 mile per hour speed limit on unpaved portions of the construction site.	Planning Division Building and Safety Public Works	On-going	AQ-4.2 AQ-4.3 AQ-4.5 (MM Air 2)	On-going – As part of the California Environmental Quality Act review of a project, each project construction activities are evaluated using tools like CalEEMod to determine the best available implementation measures are applied to the project to ensure that air quality emissions are reduced to the lowest extent possible.

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives	Progress
AQ 3	Implement Best Available Control Technologies and Best Available Retrofit Control Technology, as defined by SCAQMD, in the City's practices, including but not limited to advanced diesel particulate traps on City vehicles and purchase and use of aqueous diesel fuel vehicles.	General Services	On-going	AQ-4.1 AQ-4.2 AQ-4.3 (MM Air 3)	On-going – Particulate traps have been installed on all required vehicles in the City's fleet. Fleet does not have any plans to purchase aqueous fueled vehicles and instead is focusing on the current alternative fueling platforms we currently have in place (ie, CNG, LPG). Our next phase will be to install particulate traps which will be required for off-road construction equipment over 50 horsepower in the next few years.
AQ 4	To reduce diesel emissions associated with construction, require that construction contractors provide temporary electricity to the site to eliminate the need for diesel-powered electric generators, or provide evidence that electrical hook ups at construction sites are not cost effective or feasible.	Planning Division	On-going	AQ-4.3 (MM Air 4)	On-going – This measure is required wherever feasible.
AQ 5	To reduce construction related particulate matter air quality impacts of City projects the following measures shall be required: 1. The generation of dust shall be controlled as required by the AQMD; 2. Grading activities shall cease during periods of high winds (greater than 25 mph); 3. Trucks hauling soil, dirt or other emissive materials shall have their loads covered with a tarp or other protective cover as determined by the City Engineer; and 4. The contractor shall prepare and maintain a traffic control plan, prepared, stamped and signed by either a licensed Traffic Engineer or a Civil Engineer. The preparation of the plan shall be in accordance with Chapter 5 of the latest edition of the Caltrans Traffic Manual and the State Standard Specifications. The plan shall	Planning Division Public Works	On-going	AQ-4.2 AQ-4.3 (MM Air 5)	On-going – This tool is applied to projects as appropriate.

AIR QUALITY ELEMENT

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives	Progress
	be submitted for approval, by the engineer, at the preconstruction meeting. Work shall not commence without an approved traffic control plan.				
AQ 6	Continue to promote and enforce the adopted Citywide Good Neighbor Guidelines to minimize exposure of diesel emissions to neighbors in close proximity to a warehouse/distribution center by eliminating unnecessary diesel truck trips through residential neighborhoods and reducing diesel idling periods within the Warehouse/distribution centers.	Planning Division Public Works	On-going	AQ-1.3 AQ-2.11 (MM Air 6)	On-going - The Good Neighbor Guidelines for Siting New and/or Modified Warehouse Distribution Facilities was adopted on October 14, 2008 and the policies are applied to projects as appropriate.
AQ 7	To reduce greenhouse gas (GhG) emissions through reduced energy consumption and the procurement of lower-emission resources, Riverside Public Utilities (RPU) shall join the California Climate Action Registry (www.climateregistry.org) and comply with GhG regulations developed by the California Air Resources Board (CARB) and the California Energy Commission (CEC) pursuant to AB 32. RPU shall perform yearly GhG inventories according to the Power/Utility Protocol to identify and implement conservation measures and resource procurement practices that will reduce its GhG emissions.	Riverside Public Utilities	On-going	(MM Air 8)	On-going
AQ 8	To reduce GhG emissions, the City's Environmental Relations Manager, working in conjunction with RPU shall develop, enhance, and/or implement programs to reduce energy consumption. Some examples of programs may be, but are not limited to: Replacing incandescent light bulbs with	Public Utilities	On-going	AQ-8.6 AQ-8.8 AQ-8.9 (MM Air 9)	On-going

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives	Progress
	- compact fluorescent lamps (CFLs) or light-emitting diodes (LEDs); - Participating in the Energy Star Programs; - Promotion of the use of energy efficient equipment and vehicles; - Promotion of commercial and residential solar energy rebate programs; and - Performance based commercial/industrial energy efficiency rebate program.				
AQ 9	The City will implement an incentive based program, Green Builder Program, by the end of 2008 to reduce ChG emissions through the energy consumption of proposed new development. A Riverside Green Builder home must meet five criteria: - Energy Efficiency – built to exceed California Title 24 energy efficiency standards by 15%; - Water Conservation – conserving 20,000 gallons of water per home per year; - Waste Reduction – at least 50% of construction waste diverted from landfills; - Wood Conservation – wood must be from a certified sustainable source and engineered wood products must be used; and - Indoor Air Quality - Heating, Ventilating and Air Conditioning (HVAC) designed by a licensed engineer to Air Conditioning Contractors of America (ACCA) manual J, S and D or equivalent Sheet Metal and Air Conditioning Contractor's National Association (SMACNA) or American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) standards.	Building and Safety Planning Division	Completed	AQ-3.5 AQ-3.6 AQ-4.4 AQ-8.17 AQ-8-21 <i>(MM Air 10)</i>	Completed – On June 12, 2007 the City Council adopted the Voluntary Residential Green Building Program (Riverside Green Builder), the Smart Home Incentive Program (SHIP) and the Community Energy Efficiency Program (CEEP). While these programs are still available the requirements of the 2011 California Green Building Code that went into effect on January 1, 2011 make these incentive based programs more of a requirement.

AIR QUALITY ELEMENT

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives	Progress
AQ 10	For all new residential projects located within 1,000-feet of any freeway, implement a process by which full disclosure shall be provided on all rental, lease and sale documents to future tenants and/or buyers of a potential increased cancer risk due to the proximity of the freeway.	Planning Division	On-going	AQ-1.3 (MM Air 11)	On-going – This measure is applied to projects as appropriate.
AQ 11	Continue to enforce the requirement that all new truck terminals, warehouses and other shipping facilities requiring the use of refrigerated trucks and with more than 50 truck trips per day shall provide electrical hookups for the refrigerated units to reduce idling and its associated air quality pollutants. Additionally, future tenant improvements involving conversion of a warehouse for refrigeration storage shall include electrical hookups for refrigerated units.	Planning Division Building and Safety	On-going	AQ-2.11 (MM Air 12)	On-going – This measure is applied to projects as appropriate.
AQ 12	Require projects to mitigate, to the extent feasible, anticipated emissions which exceed AQMP Guidelines.	Planning Division	On-going	AQ-1.21 AQ-3.4 AQ-3.7 AQ-7.10 (MM Air 13)	On-going – As part of the California Environmental Quality Act review of a project, each project construction activities are evaluated using tools like CALFEEMOD to determine the best available implementation measures are applied to the project to ensure that air quality emissions are reduced to the lowest extent possible.
AQ 13	Develop and incorporate policies to support Neighborhood Electric Vehicles (NEVs) and Western Riverside Council of Government's (WRCOG) 4-City NEV Plan in the Circulation and Community Mobility Element of the General Plan 2025.	Planning Division Public Works	Completed	AQ-1.24 AQ-2.24 AQ-8.35	Completed – On November 9, 2010 the City Council supported WRCOG's 4-City NEV Plan for incorporation into the Circulation and Community Mobility Element of the General Plan 2025 with the 2012 annual review of the General Plan.
AQ 14	Adopt and implement Western Riverside Council of Government's (WRCOG) Non-Motorized Transportation Plan to provide an enhanced network of bicycle and pedestrian options that begin to play a role in reducing congestion, emissions, and vehicle trips while benefiting public health.	Public Works Planning Division	Completed	AQ-1.19 AQ-1.20 AQ-2.10	Completed – March 2011 the Executive Committee of WRCOG voted to encourage member agencies to use the Western Riverside County Non-Motorized Transportation Plan as a policy or reference document for coordinating the development of a regional network of bicycle routes throughout Western Riverside County.

H-12	Consider reopening the Neighborhood Improvement Program in the Chicago/Linden Neighborhood and if successful rolling the program out to other neighborhoods.	Housing Authority Police Department Planning Division	TBD	H-1 H-1.7	In FY 2013-14, the Housing Authority and City adopted the Chicago/Linden Strategic Plan that improves the quality of life for residents within the Chicago-Linden neighborhood. Since the cost to complete the activities in the Plan is approximately \$19 million, the Plan will be completed in phases. The Housing Authority owns and operates 66 affordable units within the neighborhood. To implement Phase I of the Plan, the Housing Authority demolished two substandard apartment complexes located at 1705 and 1733 7th Street and released a RFP to facilitate the development of housing that is safe and affordable for families accompanied with onsite amenities. The Housing Authority received two responses to this RFP and awarded this RFP to Wakeland Housing & Development Corporation who proposed a 60-unit affordable housing community. The Housing Authority entered into an Exclusive Negotiating Agreement with Wakeland to begin acquiring adjacent parcels for the development and to conduct community groups. Wakeland is requesting \$3 million in Housing Authority funds to fill the project's financial gap. The Housing Authority applied for a Transformative Climate Communities Program - Planning Grant in collaboration with Riverside County to facilitate pathways that maximum neighborhood-level environmental, public health, workforce, and economic benefits over the planning area which includes the Chicago/Linden and Downtown Neighborhoods.
H-13	Continue the City's efforts with neighborhood organizing, including such programs as: Riverside Neighborhood Partnership - The Riverside Neighborhood Partnership (RNP) is a community group whose mission is to encourage and facilitate the formation of neighborhood associations city-wide and to act as a clearinghouse for neighborhood concerns. It is the Partnership's belief that by being organized, neighborhoods are better	Historic Preservation, Neighborhoods and Urban Design Division Historic Preservation, Neighborhoods and Urban Design Division	On-going On-going	H-1 H-1.7 H-1 H-1.7	The Riverside Neighborhood Partnership meets on a monthly basis

	Recommendation #5 – Generate Creative Sources of Financing. Although there are several funding sources available like tax credits there are two additional sources that have not been addressed. These sources are the inclusionary housing ordinance noted in Recommendation #4 and the funds available from HUD to faith based organizations (FBO's) for the development of senior housing. Most FBO's do not have the capacity to apply for the funding and to construct senior projects. The Housing Authority shall work with FBO's to build capacity to successfully apply for the funding.	Housing Authority	On-going	H-4 H-4.1	On October 13, 2013, Senate Bill 341 (Redevelopment) was enacted, which restricted housing Successor Housing Agencies from spending funds from the Low and Moderate Income Housing Fund on senior housing if its host jurisdiction within the previous 10 years exceeded 50% of the aggregate number of deed-restricted rental housing units assisted by the housing successor, its former redevelopment agency, and its host jurisdiction. Over the past 10 years, the Housing Authority of the City of Riverside's deed restricted-units from senior housing projects consist of 63% of its inventory, which means Low and Moderate Income Housing Funds cannot be used to fund affordable housing projects that are age restricted until 191 affordable rental units that are not age restricted have been developed. In 2017, the Mayor's Office reached out to faith-based organizations to assist in the community's efforts to ending homelessness. Two faith-based organizations have identified land that they are willing to develop with affordable housing with a portion set-aside for Housing First.
	Recommendation #6 – Exploit Economic Opportunities. Many of the funding sources for Seniors Housing construction understand that seniors buy in their own neighborhoods. This is the reason the funding sources require developments to be within a very small radius of amenities (i.e., shopping, medical, etc.). Housing Authority will not only make an effort to encourage more senior housing opportunities, but to encourage these developments within each neighborhood and for every demographic and the needs of the senior population.	Housing Authority	On-going	H-4 H-4.1	
	Recommendation #7 – Take a competitive approach. This is a general statement encouraging timely action on completing the recommendations of the Seniors' Housing Task Force Report.	Housing Authority	On-going	H-4 H-4.1

Housing for Homeless People (Extremely Low-Income Population)					
H-44	Continue to carry out the Homeless Reduction and Prevention Strategy Five-Year Plan (Homeless Plan) that set the following top three priorities to improve and increase availability of services for homeless individuals or those at-risk of becoming homeless. ❖ Priority #1 ○ Basic Needs and Services ○ Community Education ❖ Priority #2 ○ Preventive Services ○ Outreach ❖ Priority #3 ○ Employment Services ○ Permanent Housing	Office of Homeless Solutions	On-going	H-4 H-4.4	In 2015, the City of Riverside ended veteran homelessness and is continuing to sustain our efforts. The City is working with the Riverside County Continuum of Care to end chronic homelessness by the end of 2017. The City released a Request for Proposals to secure an operator and developer to rehabilitate the Drop in Day Center that will provide a laundry and shower facility, life skills training, case management to help link individuals to housing and services, and a community meal program. The City will also be relocating the Riverside Access Center to a newly acquired building across the street at 2881 Hulen Place that consist of office spaces and a warehouse that will be used to store household items donated by the community for homeless individuals moving directly into housing. The medical clinic at 2880 Hulen Place will be expanded to include respite care and behavior health for homeless individuals. Property located at 2801 Hulen Place will be rehabilitated to provide a drop in day center where homeless individuals can shower, do their laundry, meet with a case manager to be linked to housing and services and participate in life skill workshops. In 2017, the City received one proposal for the operation of the Drop in Day Center which is under review. In 2017, the Office of Homeless Solutions staff met with community and business groups to present on Housing First and why it is the best practice used globally to address homelessness. The City is also working with faith-based organizations who have identified land available for the development of housing first units coupled with case management and supportive services. Staff has identified three lots within each of the seven City Councilmembers Ward for potential Housing First development sites. The Housing First draft plan and proposed sites were approved by the City Council on March 13, 2018.
H-45	Aggressively work to address homelessness in the community in partnership with a wide-range of non-profit organizations, social service agencies, faith-based institutions and others working together to end homelessness in the community through such programs as:	Housing Authority	On-going	H-4 H-4.4	The Riverside Homeless Care Network meets once a month to share homeless resources and concerns and to identify gaps in programs and services. The network is made up of government agencies, nonprofit agencies, faith-based organizations, social service agencies and community groups,

	Housing First Initiative/Tenant-Based Rental Assistance Program (TBRA) – The Housing Authority of County of Riverside will continue to implement the TBRA program. This provides eligible homeless individuals and families as well as those at-risk to homelessness in Riverside with short-term rental subsidies coupled with home-based case management.	Housing Authority of County of Riverside	On-going Annually	H-4 H-4.4	Housing First Initiative. In 2017, the City of Riverside adopted the Housing First concept and directed staff to identify potential Housing First sites for development. Staff secured LeSar Development Consultants to assist with the drafting of the Housing First Strategy Plan, which included three development sites in each of the seven City Council Wards for Housing First units. In the Plan, the City is proposing to pursue the creation of nearly 400 units of housing to meet the needs of the current unsheltered count of 389 persons highlighted in the 2017 Point-in-Time Count. To achieve this goal, the City has committed to Housing First as a best practice approach to address homelessness, and specifically to using the supportive housing intervention that is characterized as deeply affordable housing paired with wrap-around supportive services targeted at hard-to-serve homeless households with a disability. Supportive housing has proven effective in ensuring housing stability of formerly homeless households and limiting returns to homelessness. Additionally, many studies have demonstrated the cost effectiveness of providing housing and services that lead to decreased utilization of high-cost public systems, including emergency services, health care, and criminal justice. During 2017, the draft plan was presented to community and business groups and released to the general public for public comment. The public comment period closed on February 12, 2018. On March 13, 2018, the City Council approved the Housing First Plan.
	Permanent Supportive Housing Program – Continue the operation of the fifteen permanent supportive housing units the City acquired through the HUD Continuum of Care Supportive Housing Program (SHP) which supported the acquisition, development, and operations of the housing projects.	Housing Authority	On-going	H-4 H-4.4	The City continues to operate sixteen permanent supportive housing units, of which 3 units are located at 1833 7th Street, 5 units are located at 1740 Loma Vista Street and 3552 Lou Ella Lane, and the remaining 8 units are located at the Autumn Ridge Apartments located on Indiana Avenue.

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
OS-9	Preserve agricultural resources, open space and natural habitat through the following methods: - Negotiation with property owners during the development process - Application of appropriate provisions of the City's Zoning Code (Title 19) to encourage residential clustering - Acquisition of private lands using City funds, State and Federal funds, grants, bonds, or assessment districts - Mitigation banking - Transfer of development rights - Application of provisions of Measure C and Proposition R		On-going	OS-1 OS-3 LU-6	division prepares and processes all required CEQA documentation for the Department's own projects which are then reviewed for adoption by the City Council. On-going - These methods are employed as appropriate through the development review process.
OS-10	Coordinate with the Public Works Department to establish linkages between community and regional park sites and to accommodate multi-purpose recreational trail staging areas within community parks where appropriate	Parks, Recreation and Community Services Public Works Planning Division	On-going	OS-1	On-going - The City's Multi-Purpose Recreational Trails Plan provides linkage to the "four corners" of the City, specifically, the Santa Ana River, Box Springs Mountain and Sycamore Canyon, the California Citrus State Historic Park, and the La Sierra/Norco Hills. The plan designates various trail staging areas in different regions of the City. The City's system of streets, parkways and bikeways provides linkages between all open space areas, (including all public parks and the Multi-Purpose Trails system) within the City.
OS-11	Manage and develop Sycamore Canyon Wilderness Park in accordance with the adopted Master Plan and the SKR Maintenance Management plan.	Parks, Recreation and Community Services	On-going	OS-1	On-going - See comments at OS-3, OS-5 and OS-14.
OS-12	Prepare a master plan for the creation of an overall Open Space and Wildlife Corridor System, fully linked, within the City and Sphere of Influence using a variety of mechanisms to ensure preservation of connected open spaces.	Parks, Recreation and Community Services Public Works Planning Division County of Riverside	TBD	OS-1	See comments at 42 & OS-7

OPEN SPACE & CONSERVATION ELEMENT

TOOLS FOR IMPLEMENTING THE RIVERSIDE GENERAL PLAN 2025

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
OS-13	Coordinate with County, State and Federal agencies and private conservation organizations in their efforts to acquire properties for open space and conservation uses to ensure linkages are provided.	Planning Division Parks, Recreation and Community Services Public Works	On-going	OS-1	On-going – The City regularly works with other agencies and conservation organizations to acquire properties and conservation easements. For instance, two properties near the Tequesquite Park site along the Santa Ana River have recently been acquired and will be conserved as open space. In another instance land was recently added to Sycamore Canyon Park as part of a recent subdivision approval. In addition, the Planning Division coordinates with all appropriate agencies through the development process to ensure opportunities for the preservation of open space at the appropriate times in the development review process.
OS-14	Ensure that open space areas that are acquired in fee title as a part of the City's Park System are operated and maintained as permanent publicly accessible open spaces	Parks, Recreation and Community Services	On-going	OS-1	On-going – All public park lands are operated and maintained as permanent open spaces available to the public. However, by their nature, not all open space sites are "accessible" due to either the terrain or management requirements. For example, not all trails can be made fully accessible. Selected areas within Sycamore Canyon Park must be closed to public access during certain seasons of the year to protect native vegetation and/or wildlife.
OS-15	Ensure that open space areas that are preserved via open space easements are protected and maintained as publicly accessible open spaces.	Parks, Recreation and Community Services Planning Division	On-going	OS-1	On-going – This proposal to provide public access to open space easement areas may be problematic. In many cases, the easements are located on private property behind someone's residence or business. Typically these areas are being placed in an Open Space Easement to ensure the native vegetation is preserved and wildlife is free to move about in such areas. Fish & Game and Fish & Wildlife have frequently indicated that public access to such areas would be detrimental to the vegetation and native species. This objective may need to be re-evaluated and brought back to City Council for clarification and/or re-definition of the objective to address and resolve these apparent conflicts in intent.
OS-16	Work cooperatively between the City and the County to acquire the following wildlife corridors : - Between Sycamore Canyon Park and Box Springs Mountain Reserve - Between Box Springs Mountain Reserve and the Santa Ana River via Springbrook Wash - Between the Santa Ana River and La	Parks, Recreation and Community Services Public Utilities County of Riverside	On-going	OS-1 OS-2	On-going – Implementation of this unfunded mandate will require additional discussion and study. The Department believes that a wildlife corridor does not necessarily need to be fee title, and could perhaps be handled with Open Space Easements with conditions that preclude fencing or any other improvements that would impede the movement of wildlife. Likewise, opportunities may exist where additional rights of way dedications could be required that might meet the need for wildlife movement. If the only option pursued is fee title ownership by either the City or the County – other opportunities to implement this objective

	Sierra/Norco Hills				at a lower cost may be missed. Another option that should be considered may be the purchase of development rights by groups such as the Land Conservancy and other similar organizations to prevent development of properties that could otherwise function as wildlife corridors. City Utility owned rights of way, as well as the MWD's Box Springs Feeder Corridor right of way also need to be reviewed for their potential to meet this objective.
OS-17	Participate with the County, State, and Federal Governments in developing and implementing both a long-term Habitat Conservation Plan for the Stephens' Kangaroo Rat and a county-wide multi-species Habitat Conservation Plan.	Planning Division Parks, Recreation and Community Services Department	On-going	OS-1 OS-5 OS-6	On-going – The Planning Division participates with the Riverside Conservation Agency (RCA) and the Riverside County Habitat Conservation Agency (RCHCA) as an active participant in the Multiple Species Habitat Conservation Plan (MSHCP) and the Habitat Conservation Plan (HCP) for the Stephens' Kangaroo Rat.
OS-18	Identify, map and monitor the habitat of sensitive species, or other species on the State or Federal listings of rare, threatened, or endangered species periodically. Require focused biological surveys for future development within areas of known or potential biological resources.	Planning Division Parks, Recreation and Community Services Department	On-going	OS-1 OS-5 OS-6	On-going – The Planning Division participates with the Riverside Conservation Agency (RCA) and the Riverside County Habitat Conservation Agency (RCHCA) as an active participant in the Multiple Species Habitat Conservation Plan (MSHCP) and the Habitat Conservation Plan (HCP) for the Stephens' Kangaroo Rat. These plans are updated regularly with the data that is provided each time burrowing owl surveys and other biological survey work is forwarded to the RCA for inclusion into the MSHCP. In addition, the Division requires biological surveys for development projects where biological resources exist and these surveys must be current of all listed State and Federal species.
OS-19	Secure easements to preserve and/or create public access along the City's arroyos.	Planning Division Public Works Parks, Recreation and Community Services	On-going	OS-1 OS-5 OS-6 LU-5	Prior to any development activity, all appropriate biological surveys are conducted as required for proper CEQA processing for all park projects. On-going – Easements are secured along arroyos for public access, as appropriate, as part of development permit processes. The Parks Department routinely reviews development projects to implement trail easements through the arroyos in conformance with the adopted Multi-Purpose Recreational Trails Plan.
OS-20	Implement applicable Hillside/Arroyo standards of the City's Grading Ordinance (Title 17) to preserve and enhance existing native riparian habitat and prevent obstruction	Planning Division Public Works	On-going	OS-5 OS-6 LU-3 LU-4	On-going – The provisions of the Grading Ordinance are implemented to preserve and enhance existing native riparian habitat and prevent obstruction of natural watercourses.

Tool	Description	Responsible Agency	Time Frame	Related General Plan Objectives and Policies	Progress
OS-27	Prepare a strategic plan for implementing the Santa Ana River Task Force Committee Recommendations.	Group Planning Division Parks, Recreation and Community Services Mayor	Completed	OS-7 LU-1 LU-2	Completed – The Santa Ana River Strategic Plan has been completed. Since its completion, a collaborative consisting of the 3 Counties and various Cities along the river has been formed. Through their efforts funding has been secured which will be available to various agencies for projects along the river.
OS-28	Public Works will cooperate with Public Utilities on the implementation of renewable resources and energy programs related to trees.	Public Works Public Utilities	On-going	OS-8 OS-9	On-going – The Forestry and Landscape Division of Public Works is working closely with Public Utilities staff on an on-going basis to implement programs related to renewable resources and energy programs related to trees. Currently Public Works is working with Utilities on securing reliable delivery of electricity to residents through proper lines clearance practices of trees. Replacement trees planted in the proper area are also offered to customers through this program to help mitigate energy consumption.
OS-29	Continue to implement innovative solar energy projects such as the photovoltaic carport at the La Sierra Metrolink station and the Autumn Ridge Apartments.	Public Utilities	On-going	OS-8 OS-9	On-going – Solar generation projects continue to grow in Riverside. There are currently 434.91 kW of residential, 81.86 kW of commercial, and 740.39 kW of Utilities funded solar projects producing 1257.16 kW of clean energy every day. The Solar City Map at http://www.riversidepublicutilities.com/solar/ pinpoints the current projects in the City.
OS-30	Promote the <i>Community Energy Efficiency Program (CEEPP)</i> . This voluntary program encourages residential building practices that conserve energy and resources 15% above Title 24 energy efficient requirements.	Public Utilities Building Division Planning Division	On-going	OS-8 OS-9	On-going – This program is currently promoted on the Building Division's website at http://www.riversideca.gov/building/programs.asp
OS-31	Encourage residents to participate in various energy conservation programs, including the Cool Cash, Cool Returns, WE CARE, and SHARE.	Public Utilities	On-going	OS-8 OS-9	On-going – The Public Utilities Department has and entire website GreenRiverside.com devoted to encouraging residents to participate in many different programs to conserve energy.
OS-32	Engage the local business community in the effort to reduce energy consumption. Examples of existing programs include Tree power, Electrical Equipment and Machinery Incentive, and Energy Efficient Construction Incentive programs.	Public Utilities	On-going	OS-8 OS-9	On-going – The Public Utilities Department's website GreenRiverside.com includes a Business and Commercial Programs page with programs to reduce energy consumption.
OS-33	Continue to work with researchers at the University of Riverside to accelerate the	Public Utilities Economic	On-going	OS-8 OS-9	On-going –

	development of new technology that could benefit Riverside and the rest of the country.	Development			
OS-34	Parks, Recreation and Community Services will cooperate with Public Utilities on the implementation of renewable energy projects within Park facilities where feasible.	Parks, Recreation and Community Services Public Utilities	On-going	OS-8 OS-9	On-going – Photo-voltaics have been built-in to the new Orange Terrace Community Park Recreation Center that was completed in September '08. The Goeske Center Parking Lot has been enhanced with Parking Shade Shelters that carry photo-voltaic panels. Solar panels have also been installed at the swimming pools at Hunt, Islander and Shamel parks to offset the cost of operation of the pool pumps. Pool equipment at various park pools have been converted to variable speed pumps to reduce operational costs and electrical consumption during off peak periods where little to no use of the pool is occurring. In addition Parks continues to work with Utilities and IT in development of alternative control systems for lighting, irrigation and electrical systems to reduce consumption. Current park standards include MUSCO "Sports Green" light systems for all lit sports facilities being built in future parks Parks, Recreation & Community Services worked cooperatively with Riverside Public Utilities on the new Arlington Heights Sports Pak to provide non-potable water and utilize the non-potable water source for irrigation. All park irrigation systems are now being installed with "purple pipe" to facilitate future use of non-potable water sources as they become available. All irrigation systems are being equipped with the CalSense Irrigation Controllers to better manage water application and reduce water consumption due to over-watering. Where funding is available, various new park buildings are being designed to be LEED certifiable.
OS-35	Continue water conservation education and incentive programs for residential and business water users, such as the Pool and Spa Pump Incentive Program, Ultra Low Flush Toilet Conservation Program, and Pool Saver	Public Utilities	On-going	OS-10	On-going – These programs are on-going. New agricultural water conservation programs are being considered. Staff participated on several state-wide conservation panels and initiatives.

	Program.				
OS-36	Continue community water conservation programs including Energy and Water School Education Program, and Splash into Cash Program.	Public Utilities	On-going	OS-10	On-going – This program is on-going with school visits continuing.
OS-37	Ensure that public parks and public landscape projects minimize the use of high-water-demand vegetation for decorative uses.	Parks, Recreation and Community Services Public Works Planning Division	On-going	OS-10	On-going – All park plantings are typically selected for low water consumption among the various plants commercially available for use for a specific purpose. Turfs are generally selected for their drought tolerance as well as their sustainability under the heavy use they're subjected to at various sports venues. The Department consults with turf specialists at UCR and other industry turf experts to ensure the most suitable species are being used. Where feasible, low water consuming shrubbery is used in lieu of decorative turf. Due to security and sustainability concerns, use of shrubbery is limited in most park settings to areas that are not conducive to foot traffic.
OS-38	Offer reduced water and wastewater connection fees as incentives for the use of water-conserving site design and construction.	Public Works Public Utilities	On-going	OS-10	On-going – City staff is currently reviewing the legal implications of this type of incentive.
OS-39	Parks, Recreation and Community Services will cooperate with Public Utilities in the implementation of recycled water and/or agricultural water programs, particularly where such water sources can substitute for current potable water sources within parks.	Parks, Recreation and Community Services Public Utilities Public Works	On-going	OS-10	On-going – See OS-34
OS-40	Regularly assess the cost of providing potable water for non-potable uses versus the cost providing reclaimed water, including associated infrastructure and facilities costs. Implement a reclaimed water system at the time it becomes cost effective to do so.	Public Utilities – Water Public Works	On-going	OS-10	On-going – City Council adopted the conceptual plan for recycled water use. The recycled water facilities plan is under development.
OS-41	Work with other regional water service providers to determine the feasibility of a broader-based reclaimed water system.	Public Utilities – Water Public Works Parks, Recreation and Community Services Department	On-going	OS-10	On-going – Work with Western Municipal Water District is ongoing. The Parks, Recreation and Community Services Department's contact with regional water service providers is generally limited to the Western Municipal Water District which serves several of the City's park sites. The Department continues to work cooperatively with this agency, and has been working to ensure all future park sites are designed to accept non-potable water for

PLANNING COMMISSION HEARING DATE: MAY 2, 2019
AGENDA ITEM NO.: 5

PROPOSED PROJECT

Case Numbers	PSP19-0033
Request	Review of the City of Riverside's Capital Improvement Program (CIP) for FY 2019/2020, for consistency with General Plan 2025
Applicant	City of Riverside Finance Department
Project Location	Citywide
Ward	Citywide
Staff Planner	Jay Eastman, Principal Planner; 951-826-5264; jeastman@riversideca.gov

RECOMMENDATIONS

Staff Recommends that the City Planning Commission:

1. **DETERMINE** that the review of the City of Riverside's capital improvement projects for FY 2019/20 (PSP19-0033) is not subject to the California Environmental Quality Act (CEQA) review, pursuant to CEQA Guidelines Section 15061 (b) (3) because the review is not considered a "project" as defined by section 15378(b)(4), and a determination of consistency by the Planning Commission has no potential to result in a direct or indirect physical change in the environment.
2. **FIND** that the capital improvement projects added to the two-year budget for FY 2019/20 are consistent with the City's General Plan 2025; and
3. **REPORT to the City Council** that the capital improvement projects for FY 2019/20, including any revisions to the two-year Capital Improvement Program (FY 2018/2020 through FY 2019/2020), are consistent with the City's General Plan 2025.

BACKGROUND

The City's two-year Capital Improvement Program (CIP) is prepared to coincide with the City's two-year budget period. In May 2019, City Council will consider mid-budget cycle revisions for Fiscal Year (FY) 2018/2019 and FY 2019/2020. If revisions are made to the budget, adjustments to the approved two-year CIP are required to reflect the changes.

The City of Riverside Charter and the Riverside Municipal Code require that the Planning Commission review the City's proposed CIP and determine that the program is consistent with the City's General Plan 2025 (General Plan). California Government Code Section 65401 also requires Planning Commission review of the CIP for the upcoming fiscal year and report its findings to the City Council.

On March 22, 2018 the Planning Commission reviewed the two-year CIP and reported the projects were in conformance with the General Plan. The Planning Commission is required review the revisions to the CIP for FY 2019/2020 to determine consistency with the General Plan.

PROPOSAL/REQUEST

Staff is requesting that the Planning Commission review the Capital Improvement Program (CIP) projects added to the CIP for FY 2019/20, and determine if the new projects are consistent with the City's General Plan 2025. The CIP project list for FY 2019/2020 includes thirty-three (33) projects not previously reviewed by the Planning Commission for General Plan consistency and 92 projects previously reviewed (Exhibit 1).

PROJECT ANALYSIS

The Planning Division reviewed the listed projects for conformance with City's General Plan 2025 (General Plan). For the 33 new projects added, staff prepared two tables to correlate the General Plan Objectives and Policies that support FY 2019/2020 projects.

- Table 1 (26 projects) includes projects related to the maintenance and replacement of existing facilities, and new facilities that are needed to comply with State and Federal mandates.
- Table 2 (7 projects) identifies new or expanded capital improvement projects.

Staff reviewed the projects in Table 1 and Table 2 for consistency with General Plan.

MAINTENANCE, REHABILITATION AND MANDATED PROJECTS

The City's General Plan 2025 (General Plan), is a "vision document" that guides and manages Riverside's growth. Much of the General Plan is focused on policies related to new infrastructure and programs. The General Plan also identifies the need to maintain and repair existing infrastructure. Page PF-1 states:

"Well-designed and maintained infrastructure systems are critical to a community's economic development goals, and they enhance the quality of neighborhoods. Infrastructure, such as sewer and water lines, broadband communications networks and solid waste collection and disposal must be sufficient to accommodate the present and future needs of the community. As infrastructure ages or growth outpaces capacity, isolated failures represent a real potential. Providing quality public facilities such as libraries, hospitals and community centers are also of vital importance, as they contribute to the health, education and quality of life for all residents."

Page PR-16 also shows the City's commitment to maintaining existing park facilities and expanding new opportunities:

"Enhancing Riverside's existing park and recreation facilities, as well as creating new recreational opportunities, will be carried out through the following objectives and policies. The City will continue to maintain its existing recreation programs and facilities, as well as making those resources available to all Riversiders."

Table 1 includes the 26 capital improvement projects for FY 2019/2020 that maintain/rehabilitate existing infrastructure or modify existing facilities to meet State or Federal mandates. Descriptions of the projects is attached to this Staff Report (Exhibit 2).

The following General Plan objectives and policies support for the need to invest in the maintenance and replacement of existing facilities throughout the City:

Objective PF-1: Provide superior water service to customers.

Policy PF-1.5: Implement water conservation programs aimed at reducing demands from new and existing development.

Objective PF-3: Maintain sufficient levels of wastewater service throughout the community.

Policy PF-3.3: Pursue improvements and upgrades to the City's wastewater collection facilities consistent with current master plans and the City's Capital Improvement Program.

Objective PF-4: Provide sufficient levels of storm drainage service to protect the community from flood hazards and minimize the discharge of materials into the storm drain system that are toxic or which would obstruct flow.

Policy PF-4.1: Continue to fund and undertake storm drain improvement projects as identified in the City of Riverside Capital Improvement Plan.

Policy PF-4.3: Continue to routinely monitor and evaluate the effectiveness of the storm drain system and make adjustments as needed.

Objective PF-6: Provide affordable, reliable and, to the extent practical, environmentally sensitive energy resources to residents and businesses.

Policy PF-6.2: Ensure that adequate back-up facilities are available to meet critical electric power needs in the event of shortages or temporary outages.

Objective PF-10: Meet the varied recreational and service needs of Riverside's diverse population.

Objective OS-1: Preserve and expand open space areas and linkages throughout the City and sphere of influence to protect the natural and visual character of the community and provide for appropriate active and passive recreational uses.

Policy OS-1.9: Promote open space and recreation resource as key reasons to live in Riverside.

Policy OS-1.12: Ensure that areas acquired as part of the Open Space System are developed, operated and maintained to provide the City with a permanent publicly accessible open space system.

Policy OS-1.13: Design Capital Improvement Program projects which affect identified open space areas to support these area's value as open space.

NEW OR EXPANDED INFRASTRUCTURE AND FACILITIES

Table 2 includes the seven (7) project for new or expanded infrastructure or facilities necessary to accommodate the City's growth. These projects accommodate growth in the City, improve existing facilities to increase capacity, enhance the services residents, or create a safer environment for vehicles and/or pedestrians. Descriptions of the projects, including the General Plan objectives and policies they help meet, is attached to this Staff Report (Exhibit 3).

ENVIRONMENTAL REVIEW

This review of the Capital Improvement Program (CIP) for a determination of consistency by the Planning Commission is not subject to the California Environmental Quality Act (CEQA) review under CEQA Guidelines Section 15061(b)(3) because the consistency review is not a "project", per 15378(b)(4), and because a determination of consistency has no potential to result in a direct or indirect physical change in the environment.

APPEAL INFORMATION

Actions by the City Planning Commission, including any environmental finding, may be appealed to the City Council within ten calendar days after the decision. Appeal filing and processing information may be obtained from the Planning Department Public Information Section, 3rd Floor, City Hall.

COMMUNITY & ECONOMIC DEVELOPMENT DEPARTMENT

PLANNING DIVISION

EXHIBIT 2 – Maintenance/Rehabilitation/Mandated Projects - Descriptions

The following is a description of projects identified in Table 1 in the Planning Commission Staff Report:

12. SOCAL GAS TEMP RIGHT OF ENTRY

Southern California Gas pipeline safety enhancements and trailhead improvements. Southern California Gas has completed their safety enhancements, and associated trail improvements are estimated for completion in Winter 2020.

13. OT PLAYGROUND IMPROVEMENTS

Installation of shade over existing playground, and remove and replace surfacing.

42. CAPACITORS-REGULATORS

Includes the purchase and installation of new capacitors and regulator devices to maintain electric power quality to Riverside customers. Locations are prioritized based on comprehensive analysis of power quality modeling and system parameters. The design of these equipment installations complements existing facilities and considers overall area electrical requirements.

43. SOUTHERN CALIFORNIA EDISON (SCE) CONDEMNATION COSTS

Friendly condemnation of existing SCE facilities in areas previously annexed to the City limits. This project includes acquisition of existing electric facilities, easements, and associated legal costs.

45. RTRP - 230kV REIMBURSABLE

RTRP is a joint project with SCE to address the electrical capacity and reliability needs of the City. Some portion of RTRP licensing costs may be subject to reimbursement by SCE.

46. CUSTOMER INFORMATION SYSTEM (CIS) UPGRADE

Highly integrated enterprise software application integrated with other applications and serves as the single source of the department customer data.

47. GEOGRAPHIC INFORMATION SYSTEM (GIS) UPGRADE

Enterprise software application that maintains the locational and physical attributes of water and electric infrastructure overlaid on geographic, political, property, and other real word features.

49. ENTERPRISE OPER DATA MGMT SYSTEM

Operation Data Management System (ODMS) receives data from electric delivery and generation system instrumentation and data communication, storage, and analysis systems. The data will support advanced monitoring and control systems to improve the operational efficiency and capability of the electric delivery systems.

50. LAND MOBILE RADIO

Land Mobile Radio (LMR) is a wireless communications system intended for use by terrestrial users in vehicles (mobiles) or on foot (portables). The new system should capitalize on digital technology known as frequency division multiple access (FDMA). The new LMR system will supply new antennas to provide citywide coverage, provide a new dispatcher console, coexist with the current analog LMR system, be based on FDMA technology, support narrow channels, enable trunked modes of operation for both analog and digital modulations, have multiple talk groups,

and support private calling. It will also be Advanced Encryption and Data Encryption Standard encrypted and be capable of Over the Air Programming (OTAP).

51. OUTAGE MANAGEMENT SYSTEM

Reduce the time it takes to locate outages and identify outage causes.

52. ADVANCED DISTRIBUTION MANAGEMENT SYSTEM

Advanced Distribution Management System (ADMS) is a system of systems used to optimize the capability, efficiency, reliability and security of water and electric delivery systems. For electric delivery systems, ADMS features include voltage optimization (i.e., volt-var optimization and conservation voltage regulation/reduction), fault location, isolation, and restoration (FLISR), outage management and state estimation. ADMS is a long-term vision for Riverside Public Utilities.

69. DISTRIBUTION AUTOMATION/RELIABILITY

Provides for the design and installation of remote sensing devices and remotely controlled equipment on the Riverside water system. This new technology equipment remotely monitors the water system and reports information immediately to water control center. Remotely controlled equipment reduces personnel costs and improves response times to system disturbances.

72. ENTERPRISE OPER DATA MGMT SYSTEM

ODMS receives data from electric delivery and generation system instrumentation and data communication, storage, and analysis systems. The data will support advanced monitoring and control systems to improve the operational efficiency and capability of the electric delivery systems.

73. LAND MOBILE RADIO

The Work, Asset and Inventory Management system (WIS) is important not only for controlling and minimizing stock materials on hand, but it is important for its hand-off of materials through the work management system and assigning the cost of materials to assets in the asset management system. The WIS is an integral part of the workflows and information needed by the Work Management System and Asset Management System. Supports management of the Utility's field infrastructure assets (e.g. pipes, pumps, valves, connections, etc.). Includes field work-orders, asset costs and utilization.

74. LAND MOBILE RADIO

Land Mobile Radio (LMR) is a wireless communications system intended for use by terrestrial users in vehicles (mobiles) or on foot (portables). The new system should capitalize on digital technology known as frequency division multiple access (FDMA). The new LMR system will supply new antennas to provide citywide coverage, provide a new dispatcher console, coexist with the current analog LMR system, be based on FDMA technology, support narrow channels, enable trunked modes of operation for both analog and digital modulations, have multiple talk groups, and support private calling. It will also be Advanced Encryption and Data Encryption Standard encrypted and be capable of Over the Air Programming (OTAP).

75. MOBILE APPLICATIONS

Mobile Apps increase operational efficiency and safety by providing real-time information to field personnel when and where they need it; ensure system configuration and status is always known by the personnel operating the system; reduce the need for paper-based maps, plans, and work orders; reduce the as-built record keeping effort; and enable field operation personnel to share real time information with system operators and engineers.

76. STREET IMPROVEMENTS

This is an ongoing program to relocate existing waterline facilities to avoid utility conflicts that arise as part of street improvement projects facilitated by the City's Public Works Department, or other outside agencies (e.g. Caltrans, Riverside County Transportation Commission, San Bernardino Associated Governments, etc.).

86. PLANT 2 BLOWER NO. 2 REHAB/REPLACE

Procure and install by Design/Build Entity one 600 HP dual core turbo blower, including mechanical, electrical, integration and structural work.

87. MAGNOLIA SEWER FORCEMAIN REPLACEMENT

Replace existing 30" sewer forcemain.

88. FAIRMOUNT PARK TRUNK SEWER REHAB

Rehabilitation (CIPP Lining) of an existing 18" sewer main.

89. 2018-2019 SEWER MAINS REHAB

Rehabilitation (CIPP Lining) of existing 8" sewer mains located in easements in residential properties.

90. 2017-2018 SEWER MAINS REHAB

Rehabilitation (CIPP Lining) and point repair of sewer mains at various locations throughout the City.

91. HILLSIDE AVE TRUNK SEWER REPLACEMENT

Upsizing of an existing 24" sewer main.

94. MONROE LINE E 2&3; LINES E2/E

This project will add another 18 inches to the existing 72-inch diameter pipe and catch basins/inlet structures within street right-of-way to capture run-off from the green belt area.

124. JO JO WAY SIDEWALKS 17/18

Measure Z Pavement Rehabilitation and Pedestrian Facilities Improvement Program.

125. SELKIRK AVENUE SIDEWALKS 17/18

Measure Z Pavement Rehabilitation and Pedestrian Facilities Improvement Program.

CITY OF
RIVERSIDE

COMMUNITY & ECONOMIC DEVELOPMENT DEPARTMENT

PLANNING DIVISION

EXHIBIT 3 – New/Expanded Project Description & Consistency Evaluation

The following provides a description of projects included in Table 2 in the Staff Report. The Planning Division staff has identified objectives and policies supporting a Determination of General Plan 2025 consistency.

44. RIVERSIDE TRANSMISSION RELIABILITY PROJECT (RTRP)

RTRP is a joint project with SCE to address the electrical capacity and reliability needs of the City. As part of RTRP, there was a smaller Sub-Transmission Project (STP) that was completed in 2014. The following Objective and Policy most directly relate to this project:

Objective PF-6: Provide affordable, reliable and, to the extent practical, environmentally sensitive energy resources to residents and business.

Policy PF-6.2: Ensure that adequate back-up facilities are available to meet critical electrical power needs in the event of shortages or temporary outages.

Objective LU-10: Provide for appropriate timing of development in accordance with the future land uses designated in this Land Use Element.

Policy LU-10.3: Time the provisions of capital improvements to ensure that all necessary public services and facilities for an area planned for new urban development are in place when development in the area occur.

48. DARK FIBER

Optical fiber infrastructure for telecommunications companies, wireless operators, enterprise networks, data centers and others with critical, high capacity needs. The following Objective and Policy most directly relate to this project:

Objective PF-7: Ensure that Riverside residents, the business community and educational institutions have easy access to state-of-the-art internet series and modern telecommunications technology.

Policy PF-7.1: Provide innovative, targeted technology projects and related economic development incentives.

Policy PF-7.9: Continue to work with Riverside Public Utilities and private telecommunications infrastructure operators and owners to ensure that Riverside has state-of-the-art internet and telecommunication facilities, system upgrades, features and coverages.

Objective PF-8: Expand the accessibility of internet and similar communications services throughout the community.

70. AQUIFER STORAGE & RECOVERY SYSTEM

Interagency project to provide additional water supply through the recharge of water in the Bunker Hill Basin. The following Objective and Policies most directly relate to this project:

Objective OS-10: Preserve the quantity and quality of all water resources throughout Riverside.

Policy OS-10.1: Support the development and promotion of water conservation programs.

Policy OS-10.2: Coordinate plans, regulations and programs with those of other public and private entities which affect the consumption and quality of water resources within Riverside.

Policy OS-10.8: Cooperate with Riverside and San Bernardino Counties and adjacent jurisdictions in the review and approval of new developments which affect the quality and quantity of basin-wide groundwater and surface water resources.

Policy OS-10.10: Protect aquifer recharge features and areas of important aquifers from degradation of water quality and reduction of recharge.

71. UPPER SANTA ANA RIVER HABITAT CONSERVATION PLAN

Interagency project to mitigate the endangered Santa Ana Sucker along with twelve other covered species to allow for construction of water supply projects on a regional scale. This project will also create a mitigation bank to be used by each of the thirteen partner agencies. The following Objective and Policies most directly relate to this project:

Objective OS-10: Preserve the quantity and quality of all water resources throughout Riverside.

Policy OS-10.1: Support the development and promotion of water conservation programs.

Policy OS-10.2: Coordinate plans, regulations and programs with those of other public and private entities which affect the consumption and quality of water resources within Riverside.

Policy OS-10.8: Cooperate with Riverside and San Bernardino Counties and adjacent jurisdictions in the review and approval of new developments which affect the quality and quantity of basin-wide groundwater and surface water resources.

Policy OS-10.10: Protect aquifer recharge features and areas of important aquifers from degradation of water quality and reduction of recharge.

84. SECONDARY SYSTEM UPGRADE

The Work consists of construction of new aeration blower facility, upgrading and retrofitting existing aeration basins at Plant 1 and Plant 2 in the City of Riverside Water Quality Control Plant. The following Objectives and Policies most directly relate to these project:

Objective PF-3: Maintain sufficient levels of wastewater service throughout the community.

Policy PF-3.1: Coordinate the demands of new development with the capacity of the wastewater system.

Policy PF-3.3: Pursue improvements and upgrades to the City's wastewater collection facilities consistent with current master plans and the City's Capital Improvement Program.

85. VAN BUREN SEWER (WOODCREST)

This project includes the installation of a gravity sewer main on Van Buren Boulevard from Wood Road to Gamble Avenue. The following Objectives and Policies most directly relate to these project:

Objective PF-3: Maintain sufficient levels of wastewater service throughout the community.

Policy PF-3.1: Coordinate the demands of new development with the capacity of the wastewater system.

Policy PF-3.3: Pursue improvements and upgrades to the City's wastewater collection facilities consistent with current master plans and the City's Capital Improvement Program.

123. VAN BUREN WIDENING-WASHINGTON TO WOOD

The project proposes to widen Van Buren Boulevard from King Avenue to Bountiful Street, a total distance of approximately 2.5 miles, to improve traffic operations within the corridor segment. The project would widen Van Buren Boulevard from four lanes to six lanes and add right turn pockets at major intersections, new driveways, and sidewalk. The County of Riverside is taking the lead on this project and the City of Riverside will only be responsible to provide its fair share contribution to the County of Riverside. The following Objective and Policies most directly relate to this project:

Objective CCM-2: Build and maintain a transportation system that combines a mix of transportation modes and transportation system management techniques, and that is designed to meet the needs of Riverside's residents and businesses, while minimizing the transportation system's impacts on air quality, the environment and adjacent development.

Policy CCM-2.1: Complete the Master Plan of Roadways shown on Figure CCM-4 (Master Plan of Roadways).

Policy CCM-2.9: Design all street improvement projects in a comprehensive fashion to include consideration of street trees, pedestrian walkways, bicycle lanes, equestrian pathways, signing, lighting, noise and air quality wherever any of these factors are applicable.

Objective CCM-10: Provide an extensive and regionally linked public bicycle, pedestrian and equestrian trails system.

Policy CCM-10.10: Evaluate the needs of bicycle traffic in the planning, design, construction and operation of all roadway projects funded by the City.

Policy CCM-10.11: Provide sufficient paved surface width to enable bicycle traffic to share the road with motor vehicles where traffic volumes and conditions warrant.

Policy CCM-10.12: Encourage bicycling as a commute mode to school, work, etc.

CITY OF
RIVERSIDE

COMMUNITY & ECONOMIC DEVELOPMENT DEPARTMENT

PLANNING DIVISION

EXHIBIT 3 – New/Expanded Project Description & Consistency Evaluation

The following provides a description of projects included in Table 2 in the Staff Report. The Planning Division staff has identified objectives and policies supporting a Determination of General Plan 2025 consistency.

44. RIVERSIDE TRANSMISSION RELIABILITY PROJECT (RTRP)

RTRP is a joint project with SCE to address the electrical capacity and reliability needs of the City. As part of RTRP, there was a smaller Sub-Transmission Project (STP) that was completed in 2014. The following Objective and Policy most directly relate to this project:

Objective PF-6: Provide affordable, reliable and, to the extent practical, environmentally sensitive energy resources to residents and business.

Policy PF-6.2: Ensure that adequate back-up facilities are available to meet critical electrical power needs in the event of shortages or temporary outages.

Objective LU-10: Provide for appropriate timing of development in accordance with the future land uses designated in this Land Use Element.

Policy LU-10.3: Time the provisions of capital improvements to ensure that all necessary public services and facilities for an area planned for new urban development are in place when development in the area occur.

48. DARK FIBER

Optical fiber infrastructure for telecommunications companies, wireless operators, enterprise networks, data centers and others with critical, high capacity needs. The following Objective and Policy most directly relate to this project:

Objective PF-7: Ensure that Riverside residents, the business community and educational institutions have easy access to state-of-the-art internet series and modern telecommunications technology.

Policy PF-7.1: Provide innovative, targeted technology projects and related economic development incentives.

Policy PF-7.9: Continue to work with Riverside Public Utilities and private telecommunications infrastructure operators and owners to ensure that Riverside has state-of-the-art internet and telecommunication facilities, system upgrades, features and coverages.

City of Arts & Innovation

June 12, 2018

Capital Improvement Program Two-Year Budget for Fiscal Years 2018/19 and 2019/20, and Five-Year Plan through 2022/23

Honorable Mayor and City Council,

We are pleased to present to you a Two-Year Budget and Five-Year Plan for the City's Capital Improvement Program (CIP). The CIP provides funding for the City's critical and essential infrastructure projects in the amount of \$81,769,168 for Fiscal Year (FY) 2018/19 and an additional \$73,027,769 for FY 2019/20. Over the course of five years (FY 2018/19 through FY 2022/23), the City anticipates investing a total of \$408,484,155 in our essential assets.

With the approval of the City's one-cent sales tax measure in November 2016 (Measure Z), the City made a commitment to continue investing in our critical infrastructure, such as roads and sidewalks, essential facilities, and first responder equipment. This CIP ensures the City follows through on those promises by providing funding for priority projects throughout the City, including a new Downtown Main Library and City History Archive, new Police Headquarters, and street improvements. Other needed projects such as deferred capital maintenance on City facilities, rehabilitation/expansion of the Metropolitan Museum and other investments, are all planned to be funded with Measure Z tax revenues.

Recently, the City has been successful in funding projects through non-traditional methods. For example, the Cheech Marin Center for Chicano Art Culture and Industry, which will showcase the world's largest Chicano art collection, will be housed in the current historic Main Library location next to The Mission Inn Hotel and Spa. The capital project has an estimated construction cost of \$10 million and will be completely funded through private fundraising, including \$1 million in confirmed State grant funds. An additional \$9 million in State funding is anticipated for fiscal year 2018/19.

There are projects determined to be high priority that remain unfunded. For example, the Tyler Street/SR-91 Interchange and Adams Street/SR-91 Interchange represent two of Transportation's highest priority projects; and Parks, Recreation, and Community Services needs \$25 million for its high priority projects. The General Fund is unable to contribute funds for capital projects as it continues to face challenges with rising Public Employee Retirement (PERS) costs. Most other revenue sources, such as rate revenues from water, electric, and wastewater utilities, are restricted to be used on specific types of projects. The City will continue to aggressively pursue

grants and work with local, state and federal agencies as well as private partners to fund critical capital projects in our community.

The City's key budgetary themes include financial accuracy, financial responsibility/discipline, maintaining essential services/infrastructure, and ensuring a transparent/participatory budget process. This CIP document builds on the City's recent financial successes, by incorporating best practices offered by the Government Finance Officers Association (GFOA) and the California Society of Municipal Financial Officers (CSMFO). Based on recommendations developed by the City Manager's Office and Finance Department, the City Council adopted two new policies to establish the framework for future capital budgets.

The first policy, Multi-Year Capital Planning, establishes guidelines that help the City identify and prioritize expected capital needs based on strategic priorities and operational needs, establish project scope and cost, detail estimated amounts of funding from various sources, and project future operating and maintenance costs. The second policy, Prioritization of CIP, establishes an objective process of prioritizing capital improvement projects to ensure consistency with the General Plan, in conjunction with the biennial budget process, or otherwise as capital funding becomes available.

With adoption of this CIP, the City will apply for CSMFO's Excellence in Capital Budgeting Award for the first time in the City's history. The program is specific to the Capital Budget and has forty-nine requirements that need to be incorporated to qualify for the award. The award is based on best practices and further advances our commitment to be more transparent and accountable to the Riverside community. Staff is confident that this CIP document will be a valuable tool for understanding the infrastructure priorities, successes and challenges that face our City over the next five years.

Thank you for your continued support of City staff's efforts to deliver thoughtfully developed, transparent and balanced budgets that reflect not only our funded programs and projects, but also a long list of unfunded priorities.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read 'Al Zelinka', is written over a horizontal line.

AL ZELINKA, FAICP
City Manager

Financial Summary

Financial Overview

The Capital Improvement Program provides for the appropriation of \$81,769,168 in Fiscal Year 2018/19, \$73,027,769 in Fiscal Year 2019/20, and has \$253,687,218 planned for the remaining three years. The program currently has \$241,828,648 in previously appropriated projects that will be continued for a total Capital Improvement Program of \$650,312,803 through Fiscal Year 2022/23.

Funding for these projects is provided by a variety of funding sources including development impact fees, transportation funds, grants, reimbursement agreements, and long-term financing which are restricted for the purposes for which they are budgeted. These funds, for the most part, cannot be used for ongoing City operations.

The following is a summary of the Sources and Uses of Funding for the first two years of the plan:

Sources:

	2018/19	2019/20
Electric Utility	32,657,664	34,651,602
Water Utility	22,799,458	18,903,354
Transportation Funds	16,537,393	13,974,224
Measure Z Capital	6,329,554	4,628,198
Sewer (Bond Proceeds)	1,966,761	709,343
Other	1,478,338	161,048

Although Parks, Recreation, and Community Services has limited funding identified in the CIP, they are aggressively pursuing alternative funding sources for their capital projects. They submitted applications to be awarded Community Development Block Grant (CDBG) funds for multiple projects and are waiting to receive results. Staff is anticipating the passage of Proposition 60, Park Bond Legislation, and if it passes, staff will pursue those funds as a source for critical park projects.

Funded Projects by Ward

The following map identifies the location of all funded, single-location, projects in the CIP. Projects that are located throughout the City (ex. Minor Streets Rehabilitation Program) that benefit multiple wards are not included.

Financial Summary

CITYWIDE MAP OF FUNDED PROJECTS (excludes citywide projects)

Note: This map includes all active and new capital improvement projects. Ongoing and citywide projects are not included on the map. To view additional information and detailed maps, please visit the City's website at <https://riverside.openbook.questica.com>.

DISTRIBUTION BY WARD

Ward 1	2,835,000
Ward 2	1,560,000
Ward 3	6,613,300
Ward 4	100,000
Ward 5	4,302,343
Ward 6	-
Ward 7	-
All Wards/Citywide	393,073,512
TOTAL	\$ 408,484,155

Financial Summary

Unfunded Capital Improvement Projects

The City has identified \$693.5 million in needed projects that currently remain unfunded. Each budget cycle departments review the estimated project cost and adjust the unfunded amount as necessary. The list will be updated as funding becomes available and as new projects are identified. A complete list of these projects are contained in the Appendix.

UNFUNDED PROJECTS BY DEPARTMENT

Department	Estimated Project Cost	Unfunded Amount
General Services	35,090,157	34,750,157
Innovation and Technology	31,445,900	28,474,165
Parks, Recreation, and Community Services	25,747,150	25,627,150
Public Utilities	278,398,659	161,172,248
Public Works	460,439,525	443,433,783
TOTAL	\$831,121,391	\$693,457,503

Examples of the most significant unfunded projects and their estimated total project costs include:

- Riverside Transmission Reliability Project (RTRP) (Electric Utility) - \$162,756,354
- Tyler Street/SR-91 Interchange - \$75,000,000
- Adams Street/SR-91 Interchange - \$72,900,000
- Third Street Grade Separation at BNSF Railroad Crossing - \$45,000,000
- Van Buren Widening from Indiana to South City Limit - \$26,640,352
- Eastside Library (New Construction) - \$15,000,000
- Victoria Avenue Transmission Water Main - \$5,000,000
- BNSF Quiet Zone at Mission Inn, 3rd, and Spruce - \$4,000,000
- Work-Order/Asset Management System Major Upgrades - \$3,324,900
- RWQCP Rehabilitation – Phase II - \$2,000,000
- Three Wading Pool Replacements - \$1,250,000
- Cypress Avenue Storm Drain Project - \$1,250,000
- Replacement of 32 Version 2 Luke Meters (Public Parking) - \$400,000
- Plant 2 Activated Sludge Rehabilitation (Sewer) - Phase II - \$199,500
- North Orange Street Storm Drain Project - \$150,000

Financial Summary

Funding Sources

The City employs a combination of approaches to fund its capital projects. For many smaller improvement projects, funds are appropriated from cash on hand. Large-scale capital projects are funded through a variety of funding sources, including long-term financing, user fees, proceeds from bond issues, grants, assessments, impact fees, and certificates of participation (COPs). Since the City's various departments are budgeted within numerous funds, each potentially with multiple revenue streams, the CIP departments are responsible for managing the revenue and expenditure budgets of their projects.

Major Funding Sources for Capital Projects

Measure Z

On November 8, 2016, Riverside voters approved Measure Z, a general transaction and use tax of 1%, to help pay for critical unfunded City programs and services. Measure Z revenues are anticipated to be \$54.5 million in Fiscal Year 2018/19 and \$55.1 million in Fiscal Year 2019/20. Of these amounts, \$6.3 million are earmarked for capital projects in Fiscal Year 2018/19, \$4.6 million in Fiscal Year 2019/20 and a total of \$11.9 million for fiscal years 2020/21 through 2022/23.

Certain Measure Z capital projects, such as the new Downtown Library, new Police Headquarters, Museum Expansion, and Downtown Parking Garage will be funded with bond proceeds in future years. The annual debt service for those bonds will be paid with the amounts allocated in the Measure Z Five-Year Plan.

Projects to be funded by regular annual Measure Z revenues (not bond proceeds) include the Arlington Youth Innovation Center, Data Network Replacement project, Pavement Rehabilitation and Pedestrian Facilities Improvement Program, and the City Buildings Deferred Maintenance project.

Gas Tax

The state of California imposes per-gallon excise taxes on gasoline and diesel fuel, sales taxes on gasoline and diesel fuel and registration taxes on motor vehicles with allocations dedicated to transportation purposes. These allocations flow through the Highway Users Tax Account (HUTA), the familiar gasoline tax revenues that have been in place for decades, and the Road Maintenance and Rehabilitation Account which allocates much of the revenue from the Road Repair and Accountability Act of 2017 (SB-1) to local agencies such as the City of Riverside.

Financial Summary

Revenue collected as part of SB-1, which took effect on November 1, 2017, includes an additional 12 cent per gallon increase to the gasoline tax, an additional 20 cent per gallon increase to diesel fuel excise tax (half going to the state Trade Corridor Enhancement Account (TCEA) and half to the Road Maintenance and Rehabilitation Account (RMRA)), and an additional vehicle registration tax based on the value of the motor vehicle (effective January 1, 2018). Starting July 1, 2020, there will be an additional \$100 vehicle registration tax on zero emissions vehicles.

Gas Tax continues to be the number one source of revenue for transportation projects. Revenue estimates for Fiscal Year 2018/19 are \$12.0 million, which is 43% higher than Fiscal Year 2017/18 estimates of \$8.4 million. The increase is mostly due to the additional revenue provided by SB-1, which is projected to be \$5.5 million in Fiscal Year 2018/19 based on CaliforniaCityFinance.com's Local Streets and Roads Estimates report updated on January 11, 2018. Without the additional funds provided by SB-1, Gas Tax revenues would remain relatively flat. Consumer demand for fuel-efficient vehicles and fuel prices are major drivers in determining the resulting revenue received from this funding source.

Measure A

Voters approved a half-cent sales tax in Riverside County for transportation in 1988. Each year the Riverside County Transportation Commission (RCTC) allocates funds to local agencies to be used on specific capital projects pre-approved by RCTC. Measure A funds are restricted for use on transportation projects such as major highways, commuter rail, local streets and roads. The City estimates Measure A revenues based on a RCTC's Measure A Program Allocation (Projection) report issued each year. Estimates are provided through Fiscal Year 2022/23.

Financial Summary

Bond Proceeds

Issuing bonds provides sufficient funds up front and allows the City to complete projects sooner rather than accumulating funds over a longer period of time. It also matches the cost of the project to the generations that will benefit from them. Projects to be funded with bond proceeds in future years and the estimated amount to be used are identified on individual project pages. Identified amounts are not included in the summary schedules throughout the CIP since they will not be appropriated with the adoption of the CIP. Staff will request appropriations for their projects after the bonds are issued and approved by City Council.

Grants

The City aggressively pursues grants to fund capital projects. Grants are vital to fund projects that have no alternative funding source. The Public Works Department recently received \$1.8 million from the California Department of Transportation's Active Transportation Program (ATP) Grant for the Norte Vista Sidewalk Improvement project and General Services recently received \$300 thousand from the Air Quality Management District (AQMD) Mobile Source Air Pollution Program Grant for an Alternative Fuel Infrastructure project.

The Community Development Block Grant Program provides annual grants to address a wide range of needs. Parks, Recreation, and Community Services is awarded funds for multiple capital projects each year and will continue to apply in future years.

ANNUAL ELEMENT PROGRESS REPORT

Housing Element Implementation

(CCR Title 25 §6202)

Jurisdiction		Riverside	
Reporting Year		2019 (Jan. 1 - Dec. 31)	
Table D			
Program Implementation Status pursuant to GC Section 65583			
Housing Programs Progress Report			
Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.			
1	2	3	4
Name of Program	Objective	Timeframe in H.E	Status of Program Implementation
H-1	Continue to provide rehabilitation assistance to single family residential and mobile home owners through the Housing Rehabilitation Programs which help extremely low- to low-income households rehabilitate their homes. Low interest loans and a number of grants are available to finance housing repairs for income eligible homeowners. Programs include: Rehabilitation Loans – These loans provide up to \$40,000 for rehabilitation. They are available at 3% simple interest and are repayable over 20 years. A Deed of Trust is used to secure the loan (as a lien on the property). Senior and Disability Grants -- Grants up to \$5,000 are available to seniors and persons with disabilities to make necessary housing repairs or modifications that allow disabled access. Mobile Home Grants – Grants up to \$8,000 for mobile home owners to make necessary housing repairs	On-going	In 2019 the City assisted three households with loans and grants. One household was provided a rehabilitation loan, one household was provided with a rehabilitation grant, and one household was provided with a mobile home grant. The City also began providing grants to correct health and safety hazards, or minor Code violations. The grants were available for single family homes (\$5,000 max.) and mobile homes (\$8,000 max.)

H-2	Continue to perform analysis on at-risk housing units that are in need of rehabilitation as well as substandard multi-family housing units. Provide assistance to very low, low, and moderate-income multi-family residential home owners as funding is available.	On-going	•Sierra Woods: Per the property owner, the following units will indefinitely remain affordable. - 68 one bedrooms at \$766 per month - 74 two bedrooms at \$975 per month - 48 three bedrooms at \$1,155 per month •Whispering Fountains: 55+ community continues to provide affordable units at \$900 to \$950 per month for 460 sq. ft. 1 bedroom units, and \$1,075 to \$1,125 per month for 670 sq. ft 2 bedroom units. •Tyler Springs: Due to bond financing, 28 senior units will remain affordable indefinitely. They consist of one-bedroom units at \$687 per month.
H-3	Continue implementing the Multi-family Development Program for new construction as funding is available.	On-going	In 2019 the City moved numerous projects toward entitlement. Most significantly, the City receiving \$32M in funding in June, for the following: •Mission Heritage Project, a 72-unit affordable housing project in the downtown neighborhood, with a 22-unit set-aside that will be reserved for veterans. This project is being built with \$16.8 million in assistance from the Affordable Housing and Sustainable Communities Program, including more than \$10 million for the housing project and \$6 million for nearby integrated transit improvements. The City's financial commitment is \$3 million. •Oasis Senior Villas, which received \$8.2 million in support from the state's No Place Like Home Program (NPLH), will consist of 108 units in the Eastside neighborhood benefiting low-income seniors, including people who are previously homeless and living with mental illness. •St. Michaels Project, which will receive \$4.3 Million in NPLH Program funding to construct 49 units of housing for extremely low-income residents in the Arlington neighborhood. The City participated with project assistance of \$2 million. •Cedar Glen II, which includes 49 units of affordable housing in the La Sierra neighborhood, received \$3.3 million of NPLH Program assistance. The City provided project assistance of \$650,000.
H-4	Continue to perform lead & mold abatement on homes as part of the City's Housing Rehabilitation Program	On-going	The City's Housing Rehabilitation Program removes the LBP for qualified households. In 2019, one household underwent lead abatement.

H-15	Continue to seek new partnerships with non-profit developers and continue on with existing partnerships to assist in the development of affordable housing projects for extremely low- to low-income households. The City will annually invite non-profit developers to discuss the City's plans, resources, and development opportunities. Based on funding resources, the City will select a non-profit developer to pursue developments, including leveraging the local housing trust fund, assisting in the application for State and Federal financial resources, and offering a number of incentives such as fee deferrals, priority processing, and relaxed development standards	On-Going	The City and Housing Authority continue to partner with affordable housing developers such as Riverside Housing Development Corporation, Habitat for Humanity Riverside, Wakeland Housing and Development Corporation, National CORE, and Meta Housing to facilitate the development of affordable housing and the acquisition and rehabilitation of substandard housing units that have been long neglected and are crime ridden as a result of poor property management.
H-15	Continue to seek new partnerships with non-profit developers and continue on with existing partnerships to assist in the development of affordable housing projects for extremely low- to low-income households. The City will annually invite non-profit developers to discuss the City's plans, resources, and development opportunities. Based on funding resources, the City will select a non-profit developer to pursue developments, including leveraging the local housing trust fund, assisting in the application for State and Federal financial resources, and offering a number of incentives such as fee deferrals, priority processing, and relaxed development standards	On-Going	The City and Housing Authority continue to partner with affordable housing developers such as Riverside Housing Development Corporation, Habitat for Humanity Riverside, Wakeland Housing and Development Corporation, National CORE, and Meta Housing to facilitate the development of affordable housing and the acquisition and rehabilitation of substandard housing units that have been long neglected and are crime ridden as a result of poor property management.
H-20	Continue to offer SHARE. SHARE is a Riverside Public Utilities (RPU) program that assists qualified, low-income residential customers with their electric utility bills and deposits.	On-going	The SHARE program continues to be implemented by the City's Public Utilities Department. The SHARE program was enhanced in 2017 to provide monthly bill credits to income qualified customers as well as expanded through changing the eligibility criteria from 150% Federal Poverty Level (FPL) to 200% FPL. Additional funding from the Public Benefits Charge has been dedicated to the program. RPU has also opened an assistance location at the Casa Blanca Customer Resource Center that complements the County of Riverside Community Action Partnership location and allows customer to now apply for SHARE assistance at both locations

H-21	Accommodate the Regional Housing Needs Assessment (RHNA) requirement of 4,767 units affordable to lower-income households. Rezoning includes sites and will permit owner-occupied and rental multi-family residential uses by-right.	On-going	The Rezoning Program of the 2014-2021 Housing Element was adopted in October 2017. In December 2017 the City Council approved a Zoning Code amendment to implement the Housing Element program, which rezoned sites to multi-family residential or mixed-use. The rezoning provided a potential for 6,524 new units, exceeding the RHNA need by 1,757 units. At the end of 2019 the City had a RHNA buffer of approximately 700 units. In 2019 the City was awarded a SB2 Planning Grant that will allow the City to create a RHNA tracking dashboard, which will be linked to the City's new building permit software.
H-24	Implement Streamline Riverside to reduced entitlement and building permit review times, and costs for customers.	On -going	On June 1st, 2017 the City brought together, on one floor, all City departments that are part of the development process. The One Stop Shop (OSS) established customer centric environment that allows permits and approvals to be obtained faster than ever. On November 8, 2019 the OSS served it's 100,000th customer. For the entire year of 2019, the OSS maintained a customer satisfaction rating in 2019 of 96%. On July 15, 2019 Phase 1 of the City's permit tracking software (POSSE LMS) was successfully launched. Phase 1 supports the Building & Safety Divisions permit processing, plan review, and inspection services, which included a new web-based inspection platform. Over 2,500 permits have been processed in the new software, which significantly improved the field inspection and information sharing process among City staff and development customers.
H-26	Consider Code incentives that promote diversity in housing types, sustainability and affordability, such as: Consider amendments to the Second Unit ordinance to allow second units for creative projects. Encourage lot consolidation of smaller, multiple-family parcels to include quality lower income housing on smaller multiple-family parcels.	Summer, 2020 through Fall, 2021	On February 19, 2019 the City Council approved a Zoning Code Amendment to implement State mandated Accessory Dwelling Unit (ADU) provisions. In late 2019 the City was awarded a grant under the SB 2 Planning Grant Program, which will promote diversity in housing types, sustainability and affordability. Projects under the PGP that achieve this objective include: a comprehensive ADU policy, public brochures and zoning code update, over-the-counter standard ADU plans, a small lot and infill ordinance and update of Density Bonus regulations
H-29	Continue to market homebuyer preservation tools, including foreclosure prevention & financial management programs, on the Housing Authority's website including the following programs: - Fair Housing Council of Riverside County, Inc. - Neighborhood Housing Partnership Services, Inc. (NPHS) - HOPE NOW - Springboard Nonprofit Consumer Credit Management	On-going	The City continues to market homebuyer preservation tools and financial management programs offered by Fair Housing Council of Riverside County, Inc., HOPE NOW, and Springboard Nonprofit Consumer Credit Management on the City's housing web page at http://riversideca.gov/housing/foreclosure.asp

H-31	The City of Riverside maintains more than a significant stock of rental housing affordable to seniors, families, and individuals earning lower incomes. The City is committed to preserving its stock of affordable housing, some which is at risk of conversion and/or needs significant renovation and improvement. As the City remains committed to preserving its affordable housing, the City will monitor the status of publicly subsidized affordable projects, provide technical and financial assistance where feasible, and consider appropriate actions should these projects become at imminent risk of conversion	On-going	The City Housing Authority actively monitors units that are under affordable obligations because of a City contribution to the Project. When applicable, the City to actively negotiate to extend affordable obligations, pursuant to negotiations and the availability of housing resources. The City of Riverside continues to make available more than 1,500 affordable rental units to low income seniors, families and individuals.
H-32	Continue to implement the City's mobile home park rent stabilization policy (Chapter 5.75 of the Municipal Code) to preserve the City's mobile home parks. The policy is updated on an annual basis. The rents may be increased in accordance with the Los Angeles-Riverside-Orange County Consumer Price Index for the twelve-month period ending August 31st of the prior year. A public hearing is held in September to announce the allowed rental increase, if any.	On-going	Annually the City holds a public hearing in September to announce the rent increase in mobile home parks where tenants have annual leases. Notifications are also sent to mobile home park owners, managers and mobile home tenant advocacy groups. The rental increases go into effect in January following the public hearing.
H-36	Provide rental assistance to 120 extremely low-income families	On-going	In 2019, the Housing Authority was able to assist approximately 140 households with housing through the family reunification program and rental assistance program.
H-43	Facilitate and encourage the development of student housing oriented to the local universities and college campuses.	On-Going	In 2019 the City participated in planning workshops with University of California, Riverside (UCR), as they work to prepare their Long Range Plan, which will accommodate an increase in student enrollment, as well as on-campus housing. UCR accessed and received State approval of their North District Development Plan, which is expected to house 6,500 students. In 2019 California Baptist University (CBU) adopted a specific plan update that expands their campus enrollment to 12,000 students by 2025. CBU also received building permits to develop property with 93 housing units, to accommodate their growing population.

H-45	Aggressively work to address homelessness in the community in partnership with a wide-range of non-profit organizations, social service agencies, faith-based institutions and others working together to end homelessness in the community through such programs as: City of Riverside Rapid Re-Housing Program (RP) -- Continue to provide financial assistance to those who qualify through this program. This program provides temporary financial assistance and services to help those who are experiencing homelessness to be quickly re-housed and stabilized.	On-going	The Homeless Reduction and Prevention Strategy Five-Year Plan (Plan) was sunset in 2018. The Plan was superseded on March 13, 2018 by the Housing First Plan. At the end of 2019, the City had 584 affordable housing units in the pipeline for development, 273 of which are permanent supportive housing units. The City placed more than 39 individuals into permanent housing in 2019. Through City Net, a non-profit organization, the City increased outreach services in 2019 to link homeless individuals and families to shelter beds and programs to help them exit life from the streets The City continued to proceed with the Hulen Place Homeless Service Campus improvements project. The City applied for a State Homeless Emergency Aid Program (HEAP) grant from the Riverside County Continuum of Care in late 2018. The City requested \$1.3 million and was only awarded \$606,575 to rehabilitate 2881 Hulen Place for 45 bridge housing units. The City is funding the rehabilitation of 2801 Hulen Place for 40 mental health bridge housing units and the medical clinic space at 2880 Hulen Place. The City, in partnership with the County, will be rehabilitating 2800 Hulen Place to increase the number of PSH units.
Eastside Infill Program	Consider creating an infill program for undeveloped lots in the Eastside neighborhood. This program would include an inventory of properties with an opportunity for infill development, continued implementation and promotion of the Riverside Infill Development Incentives Program encouraging owners of undeveloped properties to build compatible residential development. In addition, a component of the program could include standardized house plans pre-approved for use on infill lots to alleviate the cost associated with architecture and plan check fees.	Summer 2020 through Fall 2021	In 2019 the City applied for and was awarded \$625,000 in SB 2 Planning Grant Program (PGP) funds to facilitate housing. The grant application included nine (9) planning programs, including an effort to develop a comprehensive ADU policy that includes public brochures and zoning code update, over-the-counter standard ADU plans; a small lot and infill ordinance; and update of Density Bonus regulations

**Appendix E City Council Staff Report
SB 1333 GPA (19-0054)**

City of Arts & Innovation

City Council Memorandum

TO: HONORABLE MAYOR AND CITY COUNCIL **DATE: AUGUST 20, 2019**

FROM: COMMUNITY & ECONOMIC DEVELOPMENT DEPARTMENT **WARDS: ALL**

SUBJECT: PUBLIC HEARING - PLANNING CASES P19-0054 (GENERAL PLAN AMENDMENT), P19-0057 (ZONING CODE AMENDMENT) – PROPOSAL BY THE CITY OF RIVERSIDE TO COMPLY WITH THE CONSISTENCY REQUIREMENTS APPLICABLE TO CHARTER CITIES PER SENATE BILL 1333

ISSUE:

Approve a General Plan Amendment to the Land Use and Urban Design Element to (1) amend Table LU-5 Zoning/General Plan Consistency Matrix; 2) add Table LU-6 – Consistency Quick Check; (3) add Table LU7 – Consistency Criteria; and consider a Zoning Code Amendment to amend Chapter 19.090 – Establishment of Zones and Adoption of Maps and Chapter 19.780 – Planned Residential Development Permit of the Zoning Code (Title 19 of the Riverside Municipal Code) to comply with the consistency requirements applicable to Charter cities under Senate Bill 1333.

RECOMMENDATIONS:

That the City Council:

1. Determine that Planning Cases P19-0054 (General Plan Amendment) and P19-0057 (Zoning Code Text Amendment) are exempt from the California Environmental Quality Act subject to Section 15061(b)(3), as it can be seen with certainty that the amendments do not have the potential to cause a significant effect on the environment;
2. Approve Planning Cases P19-0054 (General Plan Amendment) and P19-0057 (Zoning Code Amendment) based on the findings outlined in the Planning Commission staff report (Attachments 1 and 2);
3. Adopt the attached Resolution amending the Land Use and Urban Design Element of the General Plan 2025 (Attachment 3); and
4. Introduce and subsequently adopt the attached Ordinance amending Chapter 19.090 – Establishment of Zones and Adoption of Maps and Chapter 19.780 – Planned Residential Development Permit of the Riverside Municipal Code Chapter (Attachment 4).

PLANNING COMMISSION RECOMMENDATION:

On June 27, 2019, the City Planning Commission considered a proposal to amend the City of Riverside General Plan 2025 and Zoning Code to comply with State law (SB 1333) requiring cities to have zoning that is consistent with general plan land use. Following discussion, the Planning Commission recommended that the City Council: 1) Determine that Planning Cases P19-0054 (General Plan Amendment) and P19-0057 (Zoning Code Text Amendment) are exempt from the California Environmental Quality Act; and 2) Approve Planning Cases P19-0054 and P19-0057 based on the findings outlined in the staff report by a vote of 9 ayes, 0 noes and 0 abstentions, subject to staff's findings.

BACKGROUND:

Table LU-5 within the Land Use and Urban Design Element of the General Plan 2025 is used to determine consistency between the General Plan Land Use Designations and corresponding Zoning Classification. Although a property's General Plan Land Use Designation and Zoning Classification should be consistent per Table LU-5, there are properties throughout the City that are inconsistent, particularly in areas where change was envisioned per the General Plan update. Prior to the adoption of Senate Bill 1333 (SB 1333), charter cities, including the City of Riverside, were not required to have consistency. However, SB 1333, signed by the Governor on September 27, 2018 and effective January 1, 2019, required, among other things, consistency between the General Plan and Zoning Code for all jurisdictions, including charter cities (Attachment 5).

Prior to SB 1333 passing, if an applicant's project (Project) did not have consistency between the General Plan and Zoning Code, staff encouraged the applicant to achieve consistency, but exceptions were made. The applicant had to ensure that the Project was allowed by the Zoning Code, but many times the General Plan land use designation was inconsistent with the Zoning Code Classification.

Since the adoption of SB 1333, consistency between the General Plan and Zoning Code is required. This may require a General Plan Amendment or Rezoning, which can be costly and take time. A number of vacant or underutilized properties have been brought into consistency, but many properties in the City have inconsistent General Plan designations and Zoning Classifications.

DISCUSSION:

The proposal includes a General Plan Amendment and Zoning Code Amendment. The General Plan Amendment to the Land Use and Urban Design Element includes new language to expand how consistency between the General Plan Land Use Designations and Zoning Code Classifications is determined. The Zoning Code amendment includes a new consistency determination process. The specific amendments include:

General Plan Amendment (Attachment 6):

1. Amendment to the Land Use Designation descriptions providing clarity and consistency with the proposed amendments to Table LU-5.
2. Amendment to the "Implications of Land Use Policy" describing the new consistency process.

3. Amendment to Table LU-5 – Zoning/General Plan Consistency Matrix including additional Zoning Code Classifications under some of the General Plan Land Use Designations that would be deemed consistent. Language has been added as a footnote to ensure that a determination of consistency between the City's Zoning Code Classification and General Plan Land Use Designation does not preclude compliance with the Airport Land Use Compatibility Plan.
4. Addition of Table LU-6 – Consistency Quick Check (Table LU-6) establishing an additional step in determining consistency including those allowed in any Zoning Code Classifications that are considered consistent in Table LU-5 and also allowed by the Zoning Code.
5. Addition of Table LU-7 – Consistency Criteria (Table LU-7) establishing additional criteria to determine consistency with General Plan Objectives and Policies.

Zoning Code Amendment (Attachment 7):

1. Update to the Title 19.090 – Establishment of Zones and Adoption of Maps explaining the consistency determination process.
2. Footnote change to Chapter 19.780 – Planned Residential Development Permit referencing new Table LU-6 and Table LU-7 in the General Plan.

The proposed amendments provide the City and applicants greater flexibility in determining consistency between the General Plan and Zoning Code, and will likely result in time and cost savings.

Proposed Consistency Determination Process:

The proposed amendments to General Plan 2025 and the Zoning Code provide an expanded process (Attachment 8) for proposed Projects to determine consistency. This provides a path for potential development to move forward while the City embarks on its multi-year General Plan update process.

- Step 1: The consistency process would begin by looking at Table LU-5. Staff worked with a consultant to identify additional zones that do not exceed the density thresholds, as it relates to land use and traffic, which were analyzed in the General Plan Environmental Impact Report (EIR) and Traffic Impact Analysis (TIA). Additional zones have been added to Table LU-5 based on this analysis. If a Project's Zoning Classification is found under the Table LU-5 Land Use Designation, it would be deemed consistent.
- Step 2: If the Project has a Zoning Classification that is not found under the General Plan designation, the applicant would refer to Table LU-6, which is used to confirm that the use is allowed in the zone and that the use is allowed in other zones under the General Plan Land Use Designation, meaning the use impact has been assessed under the EIR and TIA. If both of these questions can be answered "yes", it would be deemed consistent.
- Step 3: The final step, if LU-5 and LU-6 do not show consistency, would be for the Project to be evaluated based on 29 criteria that specifically reflect the objectives and policies of the General Plan Table LU-7 Consistency Criteria (Table LU-7). In this step, all Projects would answer all questions to determine their consistency with the General Plan. All

criteria must be found consistent, or not applicable, for a Project to be deemed consistent.

Inconsistent Finding - If after exhausting the three-step process, a determination of consistency cannot be made, the applicant will be responsible for submitting an application and applicable fees to request an amendment to the General Plan or Zoning Code to bring them into consistency.

FISCAL IMPACT:

There is no fiscal impact associated with the adoption of the proposed General Plan and Zoning Code Amendments.
