

Public Works Department

Urban Forestry Update

Park and Recreation Commission

February 2, 2026

BACKGROUND

1. Designated by the National Arbor Day Foundation as a “Tree City, USA” every year since 1987, the city strives to preserve and protect this tree heritage.

2. The purpose of the Urban Forestry Policy Manual (Manual) is to provide guidelines for the planting, pruning, preservation and removal of all trees in city rights-of-ways based on industry standards and specs.

- 423 Trees Planted
- 373 Trees Removed
- 13,608 Street Trees Trimmings
- 22,095 Utility Line Clearance Trims

OUR URBAN FOREST

The City's Urban Forest provides social, communal, environmental, and economic benefits to the entire community.

The Benefit of Trees

Trees help improve the quality of air by capturing pollutants like ash and gases.

Trees help prevent flooding. One tree can absorb 2,000 gallons each year.

Trees are known to promote feelings of relaxation and well-being.

Trees provide shade that help cool down buildings, parks and pathways.

Shade provided by trees can reduce the use of air conditioning, saving people money.

Trees are known to increase property values by as much as 10%.

FUN FACT!!!

Our urban forest has an estimated value of more than **\$449,000,000!**

It is more important than ever to continue pursuing funding opportunities that will augment and care for our urban forest.

RECOMMENDATION

That the Park and Recreation Commission receive and file an update on the Urban Forestry Policy Manual, United States Department of Agriculture – Forest Service Urban and Community Forestry Inflation Reduction Act Grant Award, and review Tree Plantings, Removals and Trimmings for 2025.
