

Structure ID: **HH**

Elevation: **N S E W**

Section: **1A 1B 1C 1D 1E**
2A 2B 2C 2D

Component Type:
ES PS PT BB WT
WS WW DT VT HW

Component # _____

[Empty box for Component #]

Diagram description: A utility label template with a blue border and rounded corners. It contains fields for Structure ID, Elevation, Section, Component Type, and Component #. A blue dot at the top center is connected by an arrow to a callout box. A blue arrow points from the top right of the label to another callout box. A blue arrow points from the Component Type section to a third callout box. A blue arrow points from the empty box below Component # to a fourth callout box. A blue arrow points from the bottom left of the label to a fifth callout box.

Cable tie supplied by City

Contractor will circle or fill in appropriate info for
Elevation, Section,
Component Type and
Component #
(See Identification Key)

Label supplied by City.

City will add label with component
ID code after siding is removed and
labeled by contractor.
