ISSUES

3

RiversideCA.gov

3

GOALS

1. Restore/increase conveyance capacity, eliminate flooding of Bowling Green Drive, and eliminate upstream backwater and ponding of low flows that occurs within the District's University Wash Channel
2. Design and engineer the Bowling Green Drive vehicular bridge replacement to reduce flooding overflow and include sidewalks for safer pedestrian circulation
3. Improve maintenance access and maintainability of University Wash
4. Design low-flow and high-flow spillway and conveyance from the reach of University Wash between Bowling Green Drive and Fairmount Lake
5. Utility coordination and relocation
6. Replace the at-grade crossing at the terminus of the University Wash to Fairmount Lake
7. Establish maintenance access, which might include foot bridges or culverts
8. Protect Montezuma Bald Cypress Trees
9. Provide a University Wash maintenance plan for the project area
