

CITY OF RIVERSIDE

City Resolutions 20295 & 21185
LOCAL LIMIT POLLUTANT DISCHARGE LIMITATIONS

CONCENTRATION BASED LIMITS

Effective 12/12/02

(Limits stated in milligrams per liter; mg/l, except pH)

POLLUTANT	LIMIT	POLLUTANT	LIMIT
ARSENIC	0.18	SILVER	0.8, 5.0 ¹
BORON	5.2	SODIUM	250
CADMIUM	0.15	SULFATE	250
CHLORIDE	350	ZINC	6.7
CHROMIUM	0.68		
COPPER	3.0	COD	8,000
CYANIDE	0.17	OIL/GREASE	250, 350 ²
FLUORIDE	12.0	TSS	2,000
LEAD	1.2	TDS	2,500
MANGANESE	1.0	TOTAL HARDNESS	2,500
MERCURY	0.001	TOTAL NITROGEN	500
NICKEL	2.3	pH	5.0-11.5

¹ The lower silver limit applies to all non-domestic discharges. The higher limit applies to all non-domestic wastewater discharges of silver bearing wastewater that is: 1) registered with the City as a photofinishing operation wastewater; 2) treated with approved pretreatment equipment capable of lowering the silver concentration in the wastewater to below the higher limit prior to mixing with other wastewater; and 3) permitted by the City authorizing the use of the higher limit.

² For multiple o/g sampling in a 24 hr. calendar day, no single sample shall exceed 350 mg/L.
