

Transforming U.S. Hydrogen Infrastructure

Zero Carbon Fuel | Green Fertilizer | Energy Storage | SAF

March 2026

About SPT

SPT Group Inc. – Headquartered in Riverside

-  SPT PowerLoop Inc. (SPL)
– Hydrogen infrastructure & manufacturing
-  Stored Power Technology Inc. (SPT)
– Integrated clean energy platform
-  SPT Energy AI Lab
– Energy storage & AI energy systems

Together, SPT creates a full clean energy value chain anchored in the City of Riverside.

SPT in Riverside

Local Presence & Operations

Head Office & Assembly Plant

SPT's head office & assembly plant (FTZ 244) located in City of Riverside

R&D Initiatives

SPT is actively pursuing R&D demos with local universities for electrolyzer improvement & LOHC solution

Commercial End Use (SPVs)

Green Ammonia: Fertilizer & Fuel Production

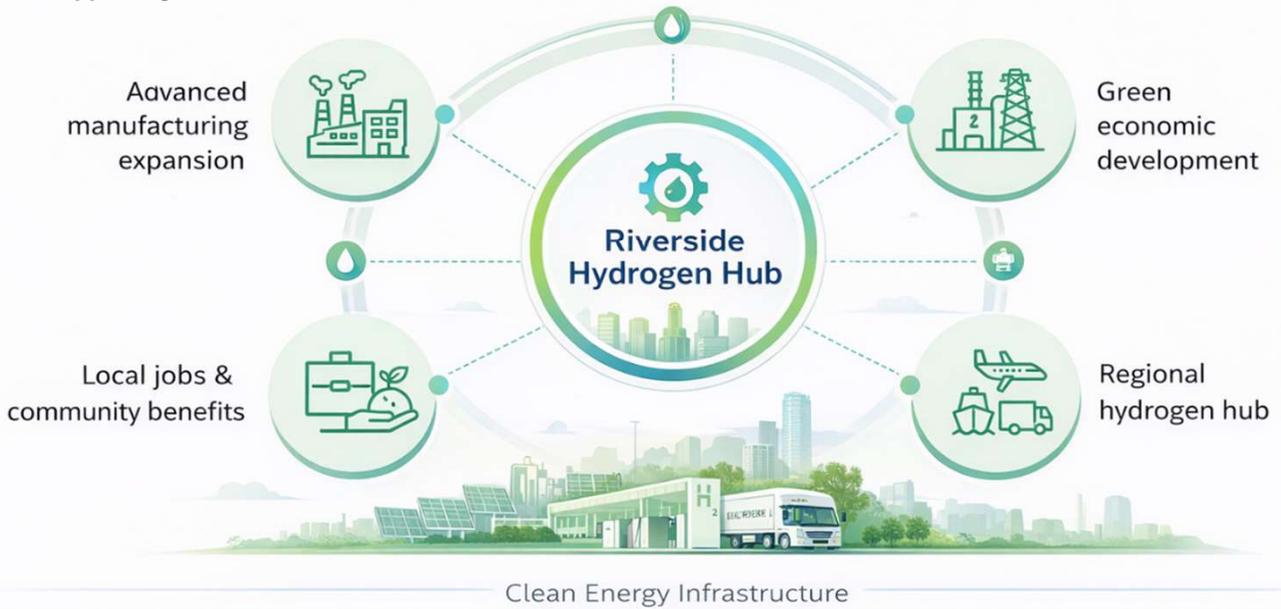

Fueling: Passenger Vehicles, Class 8 Trucks, Buses, & Other Fleets

E-Fuel: Sustainable aviation fuel

Alignment with City Goals

Supporting Riverside's Growth

Mobile Containerized Systems

Fast & Low-Cost Deployment

- ✓ Lower capital investment
- ✓ Easier permitting
- ✓ Faster construction timeline

FTZ244 Assembly Plant

Hydrogen Electrolyzer Systems

- Containerized modular systems
- Lower capital cost
- High purity hydrogen output

Electrolyzer Manufacturing Facility

- ✓ 80 units per year capacity
- ✓ 50-100 skilled local jobs
- ✓ Scalable clean energy hub

Green Ammonia & Fertilizer

Renewable Energy to Ammonia

- Green hydrogen production
- Nitrogen processing
- Ammonia synthesis

Local Green Fertilizer Production

- Reduced carbon emissions
- Lower cost for agriculture
- Stable local supply

Hydrogen Fueling Infrastructure

Hydrogen Mobility Development

Mobility Projects & Partnerships

Zero-Emission Transportation

Freight Trucks

Autonomous Mobility

Hydrogen Buses

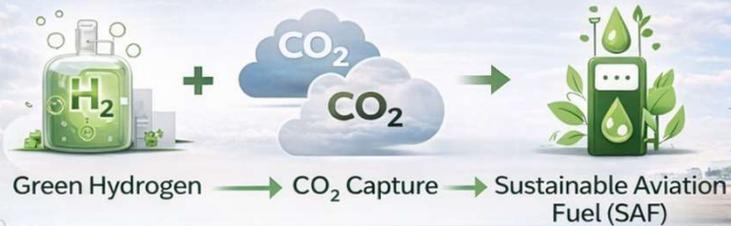

Clean Energy Infrastructure

Sustainable Air Fuel Production

SAF Market Opportunity

- Rapidly growing U.S. market
- Green hydrogen + CO₂ synthesis
- Commercial projects operating

Government Support

State & Local Incentives

Gobiz Letter of Support obtained

State

- Direct support from CARB existing LCFS and C&I credit pathways
- IBank SBLGP eligibility for replicated SPV projects (80% guarantee – up to 20M per project)
- CalCompete tax credit pending approval

Municipal support programs

- ISRF Loan Fund program
- CPCFA Green Bonds

City Impact Summary

Benefits for Riverside

- ✓ Manufacturing investment
- ✓ High-quality job creation
- ✓ Clean energy leadership
- ✓ Long-term economic growth

Power the Future, Light the World

 2990 Myers St, Riverside, CA 92503
