The public hearing was re-opened. Efren Mejia, Engineering Manager, Riverside Public Utilities stated that the condition can be deleted but he wanted to clarify that an electric utility easement will be required. The easement is a requirement prior to energizing the facility, not having the easement in place can cause delays on getting the electric meter and service installed. The public hearing was closed. Following discussion the Planning Commission recommended that the City Council: 1. Determine that the proposed project will not have a significant effect on the environment based on the findings set forth in the case record, and recommend that the City Council adopt a Negative Declaration; and 2. Approve Planning Cases P17-0690 (General Plan Amendment), P17-0691 (Zoning Code Map Amendment), P17-0692 (Conditional Use Permit), P17-0693 (Parcel Map), and P17-0694 (Design Review), based on the findings outlined in the staff report and subject to the recommended conditions with modification to condition 63.
