Under Chung's leadership the company diversified and grew. By 1985, Hyundai was introducing the first Korean-made automobile to American consumers. Hyundai is now established as an industry leader, and their car brands, including Kia and Genesis, are continually recognized for their quality. Dealer delivers to Sourcewell member 4. Delivery Report and introduction
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight from Hyundai to these areas would be brokered for best rate and or delivery time based on the customer's needs. Since we have much more business going into Canada, units can be consolidated with dealer container shipments, which would help reduce freight cost.
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Delivery is by one of our authorized dealers who will conduct a delivery report and go over the unit with the customer. Establishing relationship with the local after sales support team, ie. the local dealer is a big part of the value of our Sourcewell purchase.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	We instruct our dealers to provide equipment pricing in a separate line item from freight, PDI, local delivery, etc., which allows us to quickly verify the amount is within the threshold price structure. The Sourcewell fee is assigned to that particular order in our SAP operating system, so we are able to pull all Sourcewell orders for the quarter to build our report.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	2% of the Hyundai equipment price portion on all models

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Hyundai is a global provider of forklifts in Class I, II, III, IV, V and VI with capacities ranging from 2,200 lbs. to 55,000 lbs. with a wide variety of lift heights, which should meet nearly all Sourcewell member entity requirements. Hyundai forklifts meet or exceed all CARB and EPA emissions standards and are available in Battery, LP and Diesel powered models. We have a network of 57 dealers with 166 combined locations, which can provide maintenance, parts, service, rental and who are accustomed to take trade-ins on equipment. Hyundai can provide additional items such as industrial batteries and chargers, attachments and miscellaneous items via 3rd party vendors at a mark up of no more than cost +10%.
65	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Industrial Forklift or Motive Power Batteries; Forklift Attachments; Telematics
