ATTN: Mr. Alan McGregor

Alan,

On August 16th, Ford informed all dealers that the 2019 model year Interceptors were in build out. Fritts Ford placed your orders, order #'s 3805-3824, in hopes they may get pulled. At this time, we have no answers. If the vehicles get pulled, your pricing will be protected for 90 days. If the orders aren't picked up, a 2020 model year would have to be ordered and there is no price protection on those.

The Fusions are still in production and are price protected as long as they don't go into build out.

Thank you,

Vikiy Garay

Fritts Ford Fleet/Commercial
