BACKGROUND:

Every fiscal year, the Public Works Department budgets a portion of the State Gas Tax, Measure A, and Measure Z revenues for pavement rehabilitation and preservation of existing arterial and minor City Streets. This project will rehabilitate a portion of City streets that are in very poor condition.

On February 13, 2018, the City and the California Department of Resources Recycling and Recovery (CalRecycle) entered into a Rubberized Pavement Grant Agreement in the amount of \$350,000. The Grant Agreement stated that the City shall not proceed with the work until such time as the City received a written Notice-to-Proceed from CalRecycle. On February 14, 2018, the City received written approval from CalRecycle to proceed with the work.

On September 11, 2018, the City Council authorized a supplemental appropriation in the amount of \$350,000 from CalRecycle Rubberized Pavement Grant.

On March 11, 2020, the City filed for an extension of the CalRecycle Rubberized Pavement Grant Agreement to extend the term of the Agreement from April 1, 2020 to March 1, 2021.

DISCUSSION:

On January 23, 2020, Bid No. 7640 for Fiscal Year (FY) 2018/19 Arterial and Minor Streets Maintenance Phases 1 and 2 (Project) was posted on PlanetBids to provide the following work at various locations throughout the City (Attachment 1):

1. Repave Monroe Street from California Avenue to Arlington Avenue (0.90 miles);
2. Repave 9.23 miles of Minor Streets in 9 different neighborhoods;
3. Reconstruct non-ADA compliant concrete pedestrian ramps and portions of sidewalks on La Sierra Avenue at State Route 91 (SR-91) Freeway overpass;
4. Modify the median on Central Avenue at the eastbound exit ramp of the SR-91 Freeway;
5. Reconstruct damaged concrete curbs, gutters, sidewalks, driveways, and pedestrian ramps; and
6. Install signing and striping.

On February 13, 2020, eight bids were received for the construction of the Project (Attachment 2). The lowest responsive bid was Onyx Paving Co, Inc., in the amount of \$5,050,000, which is 13.2% under the engineer’s estimate.
