Subject: [External] Park Ranger Budget

Good Morning Erin,

Nice seeing you at RDP. I want to let you know how much Jack and I support the Park Ranger position. I hope this item is included in the budget for the next year. I understand these rangers will be partnered in twos, as it should be. I also agree they should work within RPD, not Parks and Rec. I understand the danger as we were when the last ranger was attacked and I do not want to see that happen again. Please encourage the budget engagement committee to add this item to the approved budget as it is a very needed position within the city. I realize this is a new but needed item for our future and the future of the parks along the riverbed. Thank you for your time.
