BACKGROUND:

On June 25, 2013, the Riverside County Transportation Commission (RCTC) issued the 2013 Multi-Funding Call for Projects.

On September 10, 2013, the City Council adopted Resolution Number 22575 approving the Project for submission to RCTC for funding, and committing to fund at least 50% of the project construction cost (local match). This Project will construct new sidewalk on Bruce Avenue to provide a safe walkway for pedestrians and students walking to and from Terrace Elementary School.

On September 23, 2013, the Public Works Department submitted a \$195,000 funding application to RCTC. The funding request was approved by the RCTC on January 8, 2014.

DISCUSSION:

This Project will construct new concrete sidewalks, pedestrian ramps, driveway approaches, curbs and gutters on the north side of Bruce Avenue from Adair Avenue to Lake Street (Attachment 1).

On November 10, 2016, thirteen bids were received for the construction of the Project (Attachment 2). The lowest responsive bid was from LC Paving and Sealing, Inc., in the amount of \$332,962.50, which is 13.5% under the Engineer's Estimate.

The Purchasing Services Manager concurs with the recommendations above.

FISCAL IMPACT:

The estimated total Project cost including design, construction, construction engineering, and contingencies is \$490,000. With the appropriation of grant funds, sufficient funds are available in accounts 9882227-440223 (Bruce Avenue Sidewalks – Gas Tax Funds) and 9882228-440126 (Bruce Avenue Sidewalks – Federal Surface Transportation Program) to award the contract and complete the Project.
