From COI to Maps

With the FAIR MAPS Act requiring cities to include the public input in the redistricting process, we move redistricting out into the public, with maps driven by Community of Interest testimony.

- **Input from community drives process** with multiple ways for the public to engage.
- **Rules for process** emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.

Next Steps

Draft Plan Revisions

The Committee can make use of these mapping options in a number of ways

- Suggest possible changes – Redistricting Partners can provide adjustments to the boundaries.
- Put out for public input – the public will be very willing to tell us where we got the lines wrong. Input is our ally in developing final plans.
- Select a map or maps to send to the City Council for further deliberation.
