

### Riverside Public Utility Electric / Water Utility Acronyms

|       |  |       |   |          |  |
|-------|--|-------|---|----------|--|
| ACWA  | Association of California Water Agencies   | FTR   | Firm Transmission Rights                        | PL       | Participating Load                                 |
| AF    | Acre Feet                                  | GFT   | General Fund Transfer                           | PLR      | Private Letter Ruling                              |
| AMR   | Automated Meter Reading                    | GHG   | Green House Gas                                 | PM 10    | Particulate Matter 10 microns or less              |
| AMWA  | Association of Metropolitan Water Agencies | GIS   | Geographic Information System                   | POU      | Publicly Owned Utility                             |
| APPA  | American Public Power Association          | GMC   | Grid Management Charge                          | PTO      | Participating Transmission Owner                   |
| AQMD  | Air Quality Management District            | HMPE  | High Molecular Weight Poly Ethylene             | PV       | Photovoltaic                                       |
| AWWA  | American Water Works Association           | IOU   | Investor Owned Utility                          | QF       | Qualifying Facility                                |
| BES   | Bulk Electric System                       | IPA   | Intermountain Power Agency                      | RA       | Resource Adequacy                                  |
| BPA   | Bonneville Power Administration            | IPP   | Intermountain Power Project                     | RAR      | Resource Adequacy Requirements                     |
| CADME | Computer Aided Design Mapping Engineering  | IRP   | Integrated Resource Plan                        | REPI     | Renewable Energy Production Incentives             |
| CAISO | California Independent System Operator     | ISO   | Independent System Operator                     | RERC     | Riverside Energy Resource Center                   |
| CARB  | California Air Resources Board             | IT    | Information Technology                          | RMC      | Risk Management Committee                          |
| CDWR  | California Department of Water Resources   | JPA   | Joint Powers Agency                             | RMR      | Reliability Must Run                               |
| CEC   | California Energy Commission               | KPI   | Key Performance Indicator                       | RPS      | Renewable Portfolio Standard                       |
| CEQA  | California Environmental Quality Act       | kVA   | Kilovolt Amps (transformer size)                | RPU      | Riverside Public Utilities                         |
| CFTC  | Commodities & Futures Trading Commission   | kW    | Kilowatt  | RTO      | Regional Transmission Organization                 |
| CIP   | Capital Improvement Plan                   | kWh   | Kilowatt hours                                  | RTRP     | Riverside Transmission Reliability Project         |
| CIS   | Customer Information System                | LMP   | Locational Marginal Pricing                     | SAIDI    | System Average Interruption Duration Index         |
| CMRC  | California-Mexico Reliability Coordinator  | LSE   | Load Serving Entity                             | SAIFI    | System Average Interruption Frequency Index        |
| CMUA  | Calif. Municipal Utilities Association     | MCP   | Market Clearing Price                           | SC       | Scheduling Coordinator                             |
| CPUC  | Calif. Public Utilities Commission         | MGD   | Million Gallons per Day                         | SCADA    | Supervisory Control and Data Acquisition           |
| CREB  | Clean Renewable Energy Bonds               | MMbtu | Million British Thermal Units                   | SCAQMD   | Southcoast Air Quality Management District OR AQMD |
| CRR   | Congestion Revenue Rights                  | MRTU  | Market Redesign Technology Update               | SCE      | Southern California Edison                         |
| CTA   | Competitive Transition Account             | MSS   | Metered Subsystem                               | SCPPA    | Southern Cal. Public Power Authority               |
| CTC   | Competitive Transition Charge              | MTM   | Market-to-Market                                | SEER     | Seasonal Energy Efficiency Rating                  |
| DA    | Distribution Automation                    | MVA   | Megavolt Amps (substation transformer size)     | SMD      | Standard Market Design                             |
| DBCP  | Dibromochloropropane                       | MW    | Megawatt  | SONET    | Synchronous Optical Networking                     |
| DOE   | United States Department of Energy         | MWh   | Megawatt Hours                                  | SONGS    | San Onofre Nuclear Generating Station              |
| DSC   | Debt Service Coverage                      | NCPA  | Northern California Power Agency                | SWP      | State Water Project                                |
| DSM   | Demand Side Management                     | NERC  | North American Electric Reliability Corporation | T&D      | Transmission & Distribution                        |
| EGF   | Electric Generating Facility               | NPDES | National Pollution Discharge Elimination System | TAC      | Transmission Access Charge                         |
| EIA   | Energy Information Agency                  | NRC   | Nuclear Regulatory Commission                   | TES      | Thermal Energy Storage                             |
| EIR   | Environmental Impact Report                | ODMS  | Operational Data Management System              | TOU      | Time of Use  |
| EMF   | Electric Magnetic Fields                   | OH    | Overhead  | TRR      | Transmission Revenue Requirement                   |
| EOC   | Emergency Operations Center                | O&M   | Operation and Maintenance                       | UDC      | Utility Distribution Company                       |
| EPA   | Environmental Protection Agency            | OMS   | Outage Management System                        | UFE      | Unaccounted For Energy                             |
| EPAct | Energy Policy Act of 2005                  | PAC   | Power Agency of California                      | UG       | Underground  |
| ERC   | Emission Reduction Credits                 | PBC   | Public Benefits Charge                          | UOC      | Utilities Operations Center                        |
| ESP   | Electric Service Provider                  | PCAC  | Power Cost Adjustment Clause                    | WOMS/SPL | Work Order Management System                       |
| FERC  | Federal Energy Regulatory Commission       | PGA   | Participating Generator Agreement               | WECC     | Western Electricity Coordinating Council           |
| FRAC  | Flexible Resource Adequacy Capacity        | PIRP  | Participating Intermittent Resource Program     | WSPP     | Western Systems Power Pool                         |
| MOO   | Must Offer Obligation                      |       |   | WMS      | Work Management System                             |
