RE: Sacred Lands File Search and Native American Contacts list for the **"8.8-acre Development Project,"** located near the City of Riverside on agricultural land; Riverside County, California.

Dear Ms. McKenna:

A record search of the NAHC Sacred Lands File failed to indicate the presence of Native American traditional cultural places in the project site(s) submitted as defined by the USGS coordinates configuring the 'Area(s) of Potential Effect' or APE(s). Note that the absence of archaeological or Native American cultural resources does not preclude their existence at the subsurface level.

In the 1985 Appellate Court decision (170 Cal App 3rd 604), the Court held that the NAHC has jurisdiction and special expertise, as a state agency, over affected Native American resources impacted by proposed projects, including archaeological places of religious significance to Native Americans, and to Native American burial sites.

Attached is a list of Native American tribes, Native American individuals or organizations that may have knowledge of cultural resources in or near the project area (APE). As part of the consultation process the NAHC recommends that local government and project developers contact the tribal governments and individuals in order to determine the proposed action on any cultural places/sacred sites. If a response from those listed is not received in two weeks of notification, the NAHC requests that a follow-up telephone call be made to ensure the project information has been received.

California Government Code Section 65040.12(e) defines "environmental justice" to provide "fair treatment of People...with respect to the development, adoption, implementation, and enforcement of environmental laws, regulations and policies" and Executive Order B-10-11 requires consultation with Native American tribes their elected officials and other representatives of tribal governments to provide meaningful input into

the development of legislation, regulations, rules, and policies on matters that may affect tribal communities.

If you have any questions or need additional information, please contact me at (916) 373-3715.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Singleton", with a long horizontal line extending to the right.

Dave Singleton
Program Analyst

Pechanga Band of Mission Indians
Attn: Paul Macarro, Cultural Resources Manager
P.O. Box 1477
Temecula, California 92593

RE: 8.8 Acre Development, Riverside, Riverside County, CA.

Mr. Macarro:

McKenna et al. is initiating the cultural resources investigations for an 8.8 acre property in the City of Riverside, Riverside County, CA. The property is located at the intersection of La Sierra Avenue and Victoria Avenue and has been historically used for citrus growth (see attached aerial photograph). Although there has been some minor alterations to the property in recent years, there has never been a structure on the property and a previous survey yielded no evidence of prehistoric resources.

Illustrated on the attached USGS Riverside West Quadrangle, the project area is identified as being within Township 3 South, Range 6 West, and within portions of Sections 24 and 25. The surrounding properties have been redeveloped as residential properties (post-1980) and the Victoria Avenue right-of-way has been identified by the City as a locally significant resource.

Please review your records and inform me of any concerns or issues you may have with respect to this property. Comments received will be incorporated into the final report and, therefore, I request you respond in writing for the official record. Please do not hesitate to contact me should you need additional information regarding this project.

Sincerely,

Jeanette A. McKenna
