Flex Licenses

Please note:

* Any order resulting from this quote automatically incorporates the below special terms and conditions, listed here, for Flex Subscription purchases:

- Flex credits are an annual allotment of credits, built on a monthly credit consumption model, that can be redeemed for a variety of interchangeable subscription tiers.

- The quoted number of credits is expected to cover the following selections, but if different or additional subscription selections are made, the purchase of additional credits may be necessary:

- Credits quoted to cover licenses as installed

- Credit: The virtual Credits purchased by Customer which may be redeemed to create a license file allowing access and use of a variety of interchangeable Products. Credits will be allotted to respective twelve calendar month periods (each a "Year"). Once activated, licenses begin consuming Credits on a monthly basis as prorated against the annual Credit consumption schedule listed for that product.

* End Users who convert existing Perpetual licenses to Flex Subscription licenses:

-If End User chooses not to renew their FLEX Subscription at the end of the first term, End User can migrate back to a traditional Perpetual license model. The cost to migrate back to perpetual licensing will be equal to 80% of the license value acquired during the term of the FLEX Subscription Agreement. Any FLEX license acquired during the term will be reverted to its closest perpetual equivalent, if one exists. In the event a perpetual equivalent does not exist, End User will be required to discontinue use of the FLEX license immediately.

- The 80% fee to reinstate to perpetual cost will not factor in End User install base owned prior to entering into the Enterprise Subscription.

- For each perpetual License converted by End User to a FLEX Software Subscription License, the FLEX Software Subscription License will replace the corresponding perpetual license, and such perpetual license will be terminated.

- Cancellation: End User in a multi-Year subscription may request to cancel its subscription effective at the end of any Year, provided that the End User gives written notice at least 90 days prior to the start of the next Year of the subscription. Any cancellation before the end of a term will result in cancellation fee of 25% of the remaining amount owned on the agreed subscription term and will be due immediately upon notice of cancellation.

- No Rollover: To the extent permitted by applicable law, at the end of each Year, any Credits not consumed will be lost and cannot be carried over into the next Year of the subscription.

- Support: "Right-to-use" and "right-to-access" licenses under the AVEVA Flex Credit program include Support (provided by the parties as described in the Agreement) without an additional fee. End Users will not have an option to obtain licenses without also obtaining support. In the event that the End User wants higher levels of support, then they may select either the Premium or the Elite support, for a corresponding upcharge in their subscription over their chosen tiered price, as provided in the Online Configurator
