RE: PLANNING CASE P14-1033 & P14-1034
PROPOSED 308,000 SQ.-FT. WAREHOUSE AND LOT MERGER
FOR 15.9-ACRE SITE ON PLACENTIA LANE AND CENTER STREET

We, the undersigned citizens of Riverside & environs, oppose the proposed warehouse project cited above, to be located directly across Placentia Lane from the AYSO-operated Ab Brown Sports Complex, down Center Street from the Trujillo Adobe State Historic Site, and in close proximity to the CIF Cross Country-operated former Riverside Golf Course, Reid Park, single-family residential streets, senior housing, and local independent businesses in the Northside neighborhood.

We believe that although the project is consistent with current zoning under the City's Municipal Code, it is also clearly incompatible with the City's General Plan Land Use Guidelines for the Northside which say new construction in BMP and Industrial zones should not block views, increase heavy truck traffic, adversely affect air quality, or degrade recreational and open spaces [Riverside General Plan 2025, Amended 2013: LU-105 through LU-110].

Construction of a giant warehouse at this site or anywhere else in this still viable rural-residential neighborhood would destroy its character and the Quality of Life for the 10,000 people who call the Northside home. It would also set a precedent that would, in time, destroy the neighborhood altogether because of the following reasons:

- 1) Heavy truck traffic, however it is routed, would nevertheless be brought onto long-established residential roads, narrow country lanes, and commercial streets that were never meant to handle 18-wheelers or twin-trailer big rigs;
- 2) Heavy truck traffic would necessarily generate harmful fumes along these routes as well as residential and commercial sites around the warehouse while idling their engines for hours at a time;
- 3) Such traffic would also generate an undesirable level of noise, harmful to those nearby and seriously annoying to those further away;
- 4) The Northside is part of the Springbrook Arroyo and Santa Ana River watershed, and above aquifers and usable underground water reservoirs that we are supposed to be protecting; and:
- 5) The Northside is located at the junction of the overlapping Cahuilla, Gabrielino, Serrano and Luiseno tribal boundaries where native artifacts have been discovered that indicate it was once occupied. It is also the oldest non-native settlement in the city and county of Riverside (La Placita de los Trujillos, 1845). Displacement of existing rural, recreational and residential uses by incompatible development would mean certain loss of the neighborhood's unique identity and heritage.

We believe that however a property is zoned, no property owner has the moral or legal right to cause harm to neighboring properties, their owners, or their tenants. Property rights are reciprocal, and the rights of one property owner do not outweigh the rights of any other property owner.

We wish to appeal this case to the Planning Commission or City Council so these matters and others pertaining to the proposed project can be addressed with a full Environmental Impact Report and Public Hearing.

RE: PLANNING CASE P14-1033 & P14-1034
PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 177 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

- 5) The Northside is located at the junction of the overlapping Cahuilla, Gabrielino, Serrano and Luiseno tribal boundaries where native artifacts have been discovered that indicate it was once occupied. It is also the oldest non-native settlement in the city and county of Riverside (La Placita de los Trujillos, 1845). Displacement of existing rural, recreational and residential uses by incompatible development would mean certain loss of the neighborhood's unique identity and heritage.

We believe that however a property is zoned, no property owner has the moral or legal right to cause harm to neighboring properties, their owners, or their tenants. Property rights are reciprocal, and the rights of one property owner do not outweigh the rights of any other property owner.

We wish to appeal this case to the Planning Commission or City Council so these matters and others pertaining to the proposed project can be addressed with a full Environmental Impact Report and Public Hearing.

RE: PLANNING CASE P14-1033 & P14-1034
PROPOSED 308,000 SQ.-FT. WAREHOUSE AND LOT MERGER
FOR 15.9-ACRE SITE ON PLACENTIA LANE AND CENTER STREET

We, the undersigned citizens of Riverside & environs, oppose the proposed warehouse project cited above, to be located directly across Placentia Lane from the AYSO-operated Ab Brown Sports Complex, down Center Street from the Trujillo Adobe State Historic Site, and in close proximity to the CIF Cross Country-operated former Riverside Golf Course, Reid Park, single-family residential streets, senior housing, and local independent businesses in the Northside neighborhood.

We believe that although the project is consistent with current zoning under the City's Municipal Code, it is also clearly incompatible with the City's General Plan Land Use Guidelines for the Northside which say new construction in BMP and Industrial zones should not block views, increase heavy truck traffic, adversely affect air quality, or degrade recreational and open spaces [Riverside General Plan 2025, Amended 2013: LU-105 through LU-110].

Construction of a giant warehouse at this site or anywhere else in this still viable rural-residential neighborhood would destroy its character and the Quality of Life for the 10,000 people who call the Northside home. It would also set a precedent that would, in time, destroy the neighborhood altogether because of the following reasons:

- 1) Heavy truck traffic, however it is routed, would nevertheless be brought onto long-established residential roads, narrow country lanes, and commercial streets that were never meant to handle 18-wheelers or twin-trailer big rigs;
- 2) Heavy truck traffic would necessarily generate harmful fumes along these routes as well as residential and commercial sites around the warehouse while idling their engines for hours at a time;
- 3) Such traffic would also generate an undesirable level of noise, harmful to those nearby and seriously annoying to those further away;
- 4) The Northside is part of the Springbrook Arroyo and Santa Ana River watershed, and above aquifers and usable underground water reservoirs that we are supposed to be protecting; and;
- 5) The Northside is located at the junction of the overlapping Cahuilla, Gabrielino, Serrano and Luiseno tribal boundaries where native artifacts have been discovered that indicate it was once occupied. It is also the oldest non-native settlement in the city and county of Riverside (La Placita de los Trujillos, 1845). Displacement of existing rural, recreational and residential uses by incompatible development would mean certain loss of the neighborhood's unique identity and heritage.

We believe that however a property is zoned, no property owner has the moral or legal right to cause harm to neighboring properties, their owners, or their tenants. Property rights are reciprocal, and the rights of one property owner do not outweigh the rights of any other property owner.

We wish to appeal this case to the Planning Commission or City Council so these matters and others pertaining to the proposed project can be addressed with a full Environmental Impact Report and Public Hearing.

RE: PLANNING CASE P14-1033 & P14-1034
PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 177 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

RE: PLANNING CASE P14-1033 & P14-1034
 PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
 FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 177 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

RE: PLANNING CASE P14-1033 & P14-1034
PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 177 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

RE: PLANNING CASE P14-1033 & P14-1034
 PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
 FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 177 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.

RE: PLANNING CASE P14-1033 & P14-1034
 PROPOSED 308,000 SQUARE-FOOT WAREHOUSE AND LOT MERGER
 FOR 15.9 ACRES ON PLACENTIA LANE NEAR ORANGE STREET

We, the undersigned citizens of the City of Riverside, oppose the proposed warehouse cited above, to be located directly across Placentia Lane from the Ab Brown Sports Complex and in close proximity to the old Riverside Golf Course, Reid Park, residential properties and local businesses in the Northside Neighborhood.

We believe that although the proposed warehouse is consistent with current zoning under the city's Municipal Code, it is nevertheless incompatible with existing land uses in this still viable rural residential area whose agricultural heritage goes back 200 years. Construction of a warehouse at this location or anywhere else in the Northside would set a precedent that would destroy the Northside's quality of life.

We believe this case should not be decided without a public hearing or an Environmental Impact report for the following reasons:

- 1) The proposed site is subject to flooding because it is located in the Santa Ana River flood plain which is only partially protected by the levee;
- 2) The proposed warehouse would bring truck traffic from Main Street to the west, the 91 freeway from Center and Columbia to the east, and the 60 freeway from Main and Orange to the south onto narrow rural streets in neighborhoods that would be severely harmed by these encroachments;
- 3) The truck traffic would not only generate harmful fumes along surface streets but also while idling their engines when doing business at the warehouse, a circumstance that would reverse the good air quality currently created by the grass and trees at the Ab Brown Sports Complex, old Riverside Golf Course and Reid Park;
- 4) The same truck traffic would also generate an undesirable level of noise that would have a negative effect on quality of life in the Northside;
- 5) The proposed site, like many other places in the Northside, may have significant archeological value to the people of Riverside.

We wish to appeal this case to the Planning Commission or City Council so that these matters and others pertaining to this proposal may be deliberated at a public hearing.
