Convergent fosters strong partnerships with hundreds of leading technology providers, offering our customers a diverse range of best-in-class solutions. This approach enables us to deliver customized, cost-effective products and services tailored to your needs. Rather than restricting Sourcewell to a single provider or manufacturer, we advocate for non-proprietary systems. This strategy helps you avoid sole-source dependency while ensuring long-term flexibility and cost efficiency.	*
28	Service force.	Convergent has over 200 CTCs worldwide, each open from 8:00 AM to 5:00 PM local time. Emergency service requests can be directed to any local office. Calls outside regular business hours are automatically forwarded to our 24/7 call center for prompt assistance. Each CTC is staffed with a team of installation and service technicians, with the number of technicians varying by office and region to best support local needs.	*
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Convergent manages all orders from order receipt through delivery to the customer. Once an order is received from a customer, it goes through our internal "booking" process. Depending on the equipment being ordered, a Convergent colleague places the order through either the product manufacturer or an authorized dealer. The equipment is then delivered to the local CTC and provisioned to the specific project. Our field specialists will typically transport the material from our CTC to the job site. For projects that are software only or software licenses, Convergent may receive and deliver those products via e-mail or secure file transfer protocol (FTP).	*

Convergent offers a range of training options at various levels for participating entities. Onsite Classroom Training Onsite classroom training typically involves a field specialist delivering light to moderate complexity content in a classroom setting, potentially utilizing the newly installed Video or Access Control system as a training tool. 45	Describe your security information management systems and their integration capabilities with technologies such as incident management, access control and monitoring, video surveillance, etc.	Convergent specializes in designing, installing, and servicing advanced electronic security solutions that are seamlessly integrated to meet the needs of commercial, industrial, and government customers. Whether serving single-site operations or global, multi-site enterprises, Convergent tailors each solution to address current security requirements while accommodating future growth and evolving needs. Access Control Convergent is an authorized VVAR for several industry-leading card access manufacturers. We specialize in complex enterprise card access applications, especially those involving Internet Protocol (IP)-based video, intrusion systems, smartcards, human resource databases, etc. Convergent has the right solution and technical support to complete a project on time and on budget, no matter what card access is needed. Physical Security Information Management One of the fastest-growing areas in electronic security is Physical Security Information Management (PSIM). As more security platforms migrate to IP-based technology, customers are seeking innovative ways to integrate these different technologies, become more proactive with policy-based system decisions, and, at the same time, drive down the cost of ownership associated with the systems they manage. Managing disparate platforms and operating systems is becoming increasingly complex, and most simply do not have the budget for a "rip and replace" strategy. A PSIM system allows customers to leverage the systems they already have in place and "normalize" the user interface.	*

Decision-making considers sustainability, and company practices should integrate social, economic, and environmental considerations to meet present needs without compromising the needs of future generations. Convergent monitors the use of fuel, electrical energy, water, paper, and waste products. Convergent expects its colleagues to handle products safely and efficiently, to conserve and recycle our by-products, and to minimize our waste. Worksite assessments conducted by Convergent colleagues include consideration for the surrounding habitat. 63	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Convergent does not accept P-cards as a form of payment. Payments can be processed via check, ACH, or credit card using our portal. Credit card payments cannot be submitted by phone or email to be processed; the portal must be used.	*
64	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Convergent's proposed pricing model for the US is based on online-item discounts. Our labor pricing is based on growth and alignment with geographical market trends relative to our CTC locations. The labor prices are subject to change per market conditions; they will be refreshed via the Products & Pricing Request (PCP) Form at a frequency of at least annually. Our discount pricing for proposals utilizing the Sourcewell contract is based on "Fully Loaded" pricing. The "Fully Loaded" rate includes all applicable taxes, warranty, freight, shipping and handling, pre-delivery inspection, installation, setup, mandatory training, or initial inspection, and any other fees associated with the project. Please Note: Prevailing Wages are excluded but will be priced where required at an increase not to exceed 25%. Union Rates are not included but will be priced where required at an increase not to exceed 25%. For Time and Material (T&M) service work, Trip/Truck Charges are subject to a \$75.00 environmental fee. Our Vendor Cost Proposal and products we can offer to Sourcewell members are attached as "Pricing Document—Sourcewell 121024.pdf" and "Contract Vehicle Line Card—Sourcewell 121024.pdf," respectively.	*
65	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	In the pricing proposal, Convergent will provide up to 56% discount from the manufacturer's suggested retail price (MSRP).	*
66	Describe any quantity or volume discounts or rebate programs that you offer.	Convergent's volume discounts are determined on a case-by-case basis. Convergent does not offer any rebate programs.	*
67	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "non-contracted items". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Convergent has identified projects that utilize analytical materials outside of what we are able to source. "Sourced" or "Open Market" items will be priced at the quote level.	*
68	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Convergent's proposed pricing for projects and Customer Support Programs (CSPs), these costs are managed within the Fully Loaded Rate. Convergent has identified, in the case of service work and T&M, that freight, delivery, or shipping items are supplied within "Off Fully Loaded List Price" model as identified in Question 64 and our Vendor Cost Proposal.	*

69	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Convergent's proposed pricing for projects and Customer Support Programs (CSPs), these costs are managed within the Fully Loaded Rate. Convergent has identified, in the case of service work and T&M, that freight, delivery, or shipping items are supplied within "Off Fully Loaded List Price" model as identified in Question 64 and our Vendor Cost Proposal.	*
70	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Convergent's proposed pricing for projects and Customer Support Programs (CSPs), these costs are managed within the Fully Loaded Rate. Convergent has identified, in the case of service work and T&M, that freight, delivery, or shipping items are supplied within "Off Fully Loaded List Price" model as identified in Question 64 and our Vendor Cost Proposal.	*
71	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Convergent can provide a potential option. If the delivery site is close to the ordering CTC, in-person delivery options may be available. The CTC will make that determination at the time an order is placed.	*
72	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing.	Convergent has a strict compliance policy that ensures that all proposals are reviewed for compliance before submission to the customer. Each proposal is tracked, and the Convergent Contract Vehicle Team conducts a regular internal self-audit to ensure that all awards are reported and all proposals are reviewed.	*
73	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	Convergent's Contract Vehicles Team maintains several metrics that help determine our contracts' success. A few examples of metrics we are tracking include the following: • Total number of reviews • Booked sales for the year using contract vehicles • Booked value by CTC • Booked value by the Account Executive • Booked by customer name • Booked per vehicle • Quote reviews per vehicle	*
74	Provide a proposed Administration Fee payable to Sourcewell. The Fee is in consideration for the support and services provided by Sourcewell. The propose an Administrative Fee will be payable to Sourcewell on all completed transactions to Participating Entities utilizing this Agreement. The Administrative Fee will be calculated as a stated percentage, or flat fee as may be applicable, of all completed transactions utilizing this Master Agreement within the preceding Reporting Period defined in the agreement.	Convergent is proposing a 1% per-unit administrative fee for all on-contract material and labor.	*
