DISCUSSION

1. Subject to City Council approval, the proposed leasing program update continues the authority for the Airport Manager to negotiate terms, incentives, maintenance responsibilities and other factors with prospective tenants.
2. All leases and agreements beyond a month-to-month period will continue to be approved by City Council.
3. The updated leasing program also clarifies the process for the City to provide written consent to subleases.

AIRPORT LEASE RATES

1. A recent survey of 15 surrounding general aviation airports confirmed that the proposed lease rates are commensurate with regional airports for office space, hangars, aircraft tie-downs, and land.
2. The survey insight is in line with Federal Aviation Administration (FAA) regulations which require that airport rental rates be applied in a fair and equitable basis.
