

Chapter 6.23 SMOKING IN PUBLIC PLACES PROHIBITED

6.23.010 Findings.

The City Council finds that the smoking of tobacco is a danger to the health and a material annoyance, inconvenience, discomfort and a possible health hazard to those who are present in confined spaces, and in order to serve public health, safety and welfare, smoking in public places is prohibited. The City Council further finds that prohibiting the use of electronic cigarettes in locations where smoking is prohibited, including City-owned buildings, will protect the health of the citizens of the City of Riverside, facilitate enforcement of the smoking prohibition of this chapter, and protect youth from observing behaviors that could encourage them to smoke tobacco products.
