3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Supplier Development Administrator. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

27	Service force.	<p>At Rosenbauer service is provided either locally by one of our 32 dealers or from the factory directly at one of our four manufacturing facilities. To assist our dealers in repairs, we have mobile service trucks located in Florida, South Dakota, Minnesota, and Nebraska that will travel to any location in the continental United States and Canada. For Alaska and Hawaii, we fly personnel by air when necessary. We also provide our customers with a 24-hour 800-number that will contact our service personnel for chassis, body, and aerial problems. We provide an in-house service system (called SRS) that will allow a portion of the larger fire departments and all our dealers to submit warranty and service items online, 24-hours a day. The SRS has an accountability system incorporated within it which is continually monitored by upper management to make sure the service repairs or warranty issues are completed in a timely manner. Rosenbauer has a total of 30 service personnel internally. These 30 include a Rosenbauer America service manager and three regional service managers that oversee their region. Our dealer network employs a total of 167 service personnel. We offer training seminars several times each year that focus on individual areas. 28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Rosenbauer's dealers will work with a customer to develop custom specifications for their apparatus. In that process Rosenbauer will create a two-dimensional line drawing of the proposed vehicle as well as assign it an appropriate price. When the dealer submits this proposal for review and pricing, they also alert us if the end user will be using a buying program such as Sourcewell. Rosenbauer can ensure that the pricing is appropriate. The dealer will then take the proposal with drawing and price back to the customer for final approval.</p> <p>The customer will write a purchase order to one of the Rosenbauer America factories (Rosenbauer South Dakota LLC or Rosenbauer Minnesota LLC). Those documents include: the buying program that they are using, a copy of the purchase order they received and a purchase order from the dealer to Rosenbauer America for the product. Regardless whom accepts the purchase order (Rosenbauer or its dealer) Rosenbauer absorbs the administrative fee for Sourcewell and this fee is not added to the price of the truck for the customer or dealer to pay.</p> <p>Within 30 days the dealer will submit a Rosenbauer order form and an approved chassis specification.</p> <p>Within 60 days the dealer will submit final production specifications that will be approved for production by a Rosenbauer factory staff member.</p> <p>The dealer that will receive purchase order are the dealers in the states of Texas, New York, California, Hawaii and all of the provinces of Canada.</p> <p>Dealer reference to location:</p> <p>California and Hawaii Burtons Fire Inc – 101 Doker Dr, Modesto, CA & JT&T – 311 Pacific St, Honolulu, HI New York Empire Emergency 3995 Lockport Rd, Niagara Falls, NY Garrison Fire & Rescue Corp 3334 Route 23A, Palenville, NY Texas DACO Fire Equipment Inc 6000 Huddleston St, Haltom City, TX Canada Rocky Mountain Phoenix 6415 Golden West Ave, Red Deer, AB Res-Q-Tech 189 Bysham Park Dr, Woodstock, ON Areo-Fue 5205 J-A Bombardier St, Hubert Longueuil, QC</p>	*

Rosenbauer America currently utilizes several e-procurement systems in the marketplace, including GSA e-buy, Texas Multiple Award, HGAC, and NASPO Value Point. Each of these systems has proven successful along with all orders through the US government. We have been using HGAC as a part of our Texas orders for the past 13 years or more, and il has been growing in popularity in many states within the US	*

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Training is provided on each and every vehicle we sell. That training can be completed by factory authorized field sales men or Rosenbauer factory personnel. In order for a dealer level individual to be authorized to train recipients of a new vehicle they must demonstrate to Rosenbauer factory training staff that they are competent and proficient in all aspects of the vehicle in which they intend to deliver. Rosenbauer also has a training department that provides delivery training and on going training on all of our products. This training is provided without further charge to our customers.
40	Describe any technological advances that your proposed products or services offer.	Rosenbauer prides itself on being the most technologically advanced builder in the fire apparatus market. We've made technological advances in our aerial product line that make it safer and more effective to operate. We've made advances in our chassis lineup that make them more fuel efficient and safer to drive. All of our design and development work revolves around making a firefighters job safer and easier.
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Rosenbauer has developed the world's first and only fully electric fire truck. This revolutionary technology will allow firefighters to do their job without any harmful diesel fuel emissions. This project was developed over a 5 year span and has been completely tested and proven. We are currently waiting on EPA and DOT certifications.
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Rosenbauer has not received any awards.
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Rosenbauer does not have any of these certifications.
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Rosenbauer brings the widest array of products to the table. We are truly a one stop shop for all of your fire apparatus needs. We have more unique models of apparatus than anyone in the industry. All of those models are available to Sourcewell participating agencies.

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
45	Do your warranties cover all products, parts, and labor?	Yes. A sample of our warranties will be provided in the uploads section.
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Our bumper to bumper warranty is limited to the first year and 100,000 miles whichever occurs first. We have several other warranties that cover specific parts of the apparatus (body warranty of 5 years with no millage restriction, paint warranty of 5 years, frame rails for lifetime of the vehicle).
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes.
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	There are no geographic areas of the United States or Canada that are not covered by a Rosenbauer certified technician.
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Rosenbauer is the sole handler of all warranty items. If parts supplied by a 3rd party require warranty repair or replacement Rosenbauer handles all of the work. The end user only has to deal with Rosenbauer.
50	What are your proposed exchange and return programs and policies?	Any item that needs warranty repair or replacement is handled through our internal service program (SRS). A service technician will make a request for repair or replacement within the service system. It will be analyzed by Rosenbauer personnel. Once the appropriate course of action is determined the part is sent to the appropriate location for repair or replacement. Rosenbauer pays for the shipping cost if the parts are still under warranty. New or repaired products are then returned to the appropriate service technician so the repair can be completed.
51	Describe any service contract options for the items included in your proposal.	We receive many requests for different levels of service contracts from our customers. Those elevated levels of contracted service are negotiated by our certified dealer who handles that customer and is a contract between them.

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
52	Describe your payment terms and accepted payment methods.	Rosenbauers payment terms are 100% payment due upon delivery and acceptance of the vehicle. If a customer requests any sort of payment delays we consider it on a case by case basis and then require them to insure the truck and name Rosenbauer as a loss payee.
53	Describe any leasing or financing options available for use by educational or governmental entities.	Rosenbauer offers leasing and financing options through third party agreement. It is the responsibility of the purchasing entity to make those arrangements.
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Outside of our normal ordering procedure Rosenbauer proposes to utilize a Sourcewell specific purchase agreement that we have used in the past. The PO would be issued directly from the end user to Rosenbauer South Dakota or Rosenbauer Minnesota and becomes the official contract document. The PO captures all the required reporting information from the customer to include their Sourcewell ID number. Rosenbauer will keep this on file for the duration of the contract. A copy of this purchase agreement form is attached in the documents section.
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, Rosenbauer does accept the P-card procurement and payment process. There is an additional 4% fee added to the final cost of the vehicle if this process is used.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Rosenbauer is proposing a ceiling price of 15% off of MRSP specification. The fire truck will not be sold for any higher amount than it is listed for. The model of truck that is submitted can and will have many features on it. There are over 20,000 options listed for each model of apparatus. Due to this complexity each option picked will have a credit or deduct affect on the proposed ceiling price. All of our proposed pricing is listed in the uploaded documents section. There is a master price document as well as a detailed price document.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Rosenbauer is offering a 15% discount from MSRP.
58	Describe any quantity or volume discounts or rebate programs that you offer.	Volume discounts are evaluated on a case by case basis. Rosenbauer will examine them from a stand point of difficulty of the build and component availability. If it is reasonable that the multiple units can be built at the same time then an additional 1% price reduction will be offered.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Rosenbauer views any "non-standard" option as a special option. These items require special review by our engineering and sales departments to determine feasibility. If a "special option" needs to be used it will be priced at up to 20% of standard cost. All of these options will be noted in the specification with a "S" code.
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The only fees not captured by our pricing proposal would be local taxes. Most areas of North America treat fire truck purchases as tax exempt. There are exceptions and when we make a sale in an area that requires tax to be paid on the purchase then that fee is 100% the responsibility of the purchasing entity.
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Delivery is included with the truck purchase.
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We have several options when choosing freight to Alaska, Hawaii and Canada. We utilize several off shore shipping companies that area available from almost every shipping port in the Unites States. Our typical plan would include contracting with a 3rd party shipping company and delivering the fire truck to the port of shipping. We utilize our dealer network to provide transportation of the truck form the receiving port the end user.
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	We do allow for customers to pick up their completed apparatus directly from the manufacturing facility. The vehicle must be completely paid for and the department must prove they have adequate insurance.

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
64	a. the same as the Proposer typically offers to an individual municipality, university, or school district.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	When pricing a proposal for our customer we use simple formula to verify the price of the apparatus compared to the price submitted in this RFP. When the order is reviewed, Rosenbauer staff calculates each order to ensure that the pricing is within the proposed ceiling price. If the customer requests we will provide a price comparison sheet for their review. There will be an example of this comparison uploaded in the documents section.
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	All incoming orders are tracked via their purchasing method (ie bid, negotiated sale via consotrium ect) We using this tracking for several different purposes. It helps us identify specific dealers that are proficient and those that need additional help utilizing Sourcewell. We use this data to compile our quarterly reports to Sourcewell and we also track and report to our sales force market share and overall sales volume.
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	The proposed administrative fee that Rosenbauer is proposing to Sourcewell is \$2,000 per unit.

Table 15: Industry Specific Questions

Line Item	Question	Response *
76	Describe available service and repair options for the equipment and products offered in your proposal.	Rosenbauer's dealer network is fully capable of handling most service and repair from a basic oil change to major pump rebuilds. In the event that damage to a vehicle is too extensive for a local dealer to handle Rosenbauer always has the option to have the vehicle returned to the manufacturing facility for repairs. *
77	Describe available remount or refurbishing services included within your proposal, the pricing method for such services, and any related order processes.	Rosenbauer does offer remount and refurbishing of existing customer apparatus. Because of the complexity involved these procedures are only handled at the manufacturing facility. Each remount or refurbishment is extremely unique. Pricing for a remount or refurbishing project would be done through the options pages in our proposal and would follow the same ordering process as well.
78	Describe your compliance with US standards for the equipment and products offered in your proposal, including applicable federal and state requirements.	All trucks manufactured for the United States have to conform to DOT, FMVSS and NFPA 1901 standards. All Rosenbauer vehicles built for customers within the United States are audited by Underwriters Laboratories (UL) personnel to ensure compliance.
79	Describe your compliance with Canadian standards for the equipment and products offered in your proposal, including applicable federal and provincial requirements.	Any vehicle built to be delivered in Canada is built to the CMVSS and ULC standards.
