Q: Please confirm that you are mandating / requiring freight to be broken out in the bid for each location and therefore mandating / requiring that they be invoiced that way. Also, please confirm our understanding of the following: Let's use as an example P3.3 and P3.4 - Fleet 4293 Orange Street Riverside 115,000 Unleaded Gallons. We will hypothetically say that the differential / margin is .01 per gallon and the freight is .03 per gallon. (The applicable OPIS value that you have defined is 3.2065) For P3.3 - Unit Price is 3.2165 x 115,000 = \$369,897.50 Total Price For P3.4 - 115,000 total gallons to be delivered x .03 so the total freight charge is = \$3,450	Question added by: Tom Coleman	12/29/2021 11:07 AM PST
A: As stated under 7.1.2 we are asking for the following: "7.1.2 On the price sheet that is attached under items, each location has a separate line for freight. Please complete with total applicable for freight per line, if freight is applicable. Freight must be separate from fuel charge. For acknowledgment of this section please provide an example on how your company calculates freight. If further clarification is required please post a question in the Q & A section of this RFP". Yes, we are requiring that you are quoting freight separately from the fuel differential. Therefore each line item/location is listed twice. Please make sure to provide an example on how your freight charges are calculated so that freight charges on invoices can be verified.	Answered by: Dirk Buesing	1/3/2022 9:35 AM PST

A: All of the participating agencies have utilized the current contracts that are in place. Before posting this RFP the County of Riverside contacted each agency and asked them if they wanted to continue to utilized the new agreements and if they wanted to participate in this RFP process. However, the agencies are not required to purchase through the agreements that are going to be established as a result of this RFP. Please also refer to section 3.1 Compensation of the Sample Professional Services Agreement in the Prerequisites section of this RFP: "The COUNTY is not responsible for any fees or costs incurred above or beyond the contracted amount and shall have no obligation to purchase any specified amount of services or products".

Q: FYI - We double checked the 11/23/21 unbranded rack average prices you are using for the bid. We agree with the UNL 87 price but we show a difference price for diesel. We can just use the numbers as written in the bid document.	Question added by: Tom Coleman	12/1/2021 11:48 AM PST		
A: Please use the \$3.2420 which is stipulated in the RFP and not \$3.2313. Thank you	Answered by: Marlana McSkimming	12/6/2021 3:24 PM PST
