## **RECOMMENDATIONS:**

## **BACKGROUND:**

On June 5, 2018, California voters passed Proposition 68, the Parks, Environment and Water Bond. Proposition 68 authorizes \$4 billion in general obligation bonds for state and local parks, environmental protection projects, water infrastructure projects and flood protection projects. Multiple State agencies are administering and disbursing funds through various grant programs.

On June 24, 2020, the Parks, Recreation and Community Services Department (PRCSD) was notified by California Department of Parks and Recreation that it would be awarded \$177,952.

On October 6, 2020 City Council passed Resolution 23627 approving the application for the Proposition 68 Per Capita grant program for Bobby Bonds Park. Per Capita Grant funds were utilized to refurbish the turf at Bobby Bonds Park. The project was partially funded through Community Development Block Grant Funds (CDBG).

On May 10, 2021, the turf refurbishment project was completed and had a remaining balance of \$50,699 in Per Capita Grant Funds. PRCSD is requesting to re-allocate the unused remainder of the Bobby Bonds turf project that will require submission of a second Per Capita Grant application to the State for funds to complete the La Sierra ADA Improvements Project. The State requires a separate funding application and Resolution to reallocate the remaining \$50,669 to a new project. The new project will provide an accessible pathway to and around the existing ball fields. The project scope includes adjusting landscape, irrigation, and site furnishings as well as grading and drainage as needed.

## **DISCUSSION:**

The Per Capita grant is a non-competitive allocation grant and awards are determined by the total amount of funding divided by the total number of qualifying agencies. Funding is available to cover parks project expenditures for the Period of July 1, 2018, through June 30, 2024. The Grant period will allow the project to get started while finalizing the application and contract with the State

The La Sierra ADA Improvement project will improve access by providing accessible pathways throughout park. The new pathways will also provide additional opportunities to exercise, walk around the park, and access recreational resources safely. Approximate total cost to complete the La Sierra ADA Park Project is \$335,453. The La Sierra ADA project is currently in construction and largely funded through Community Development Block Grant Funds in the amount of \$284,754. The additional State Per Capita Grant reallocation of \$50,699 will be the final contribution for fully funding and completing the project.

## **STRATEGIC PLAN ALIGNMENT**
