

**2021 CALIFORNIANSFORALL
YOUTH WORKFORCE DEVELOPMENT
PROGRAM SUBRECIPIENT AGREEMENT FOR FY 2022/2023
Lighthouse of Hope Food Pantry Project**

This CaliforniansForAll Youth Workforce Development Program Subrecipient Agreement (“Agreement”) is executed on this ____ day of _____, 2022, by and between the CITY OF RIVERSIDE, California charter city and municipal corporation (“City”), and LIGHTHOUSE OF HOPE FOUNDATION, INC., a California non-profit corporation (“Subrecipient”). The City and Subrecipient may be referred to individually as a “Party” or collectively as the “Parties.”

RECITALS

A. Pursuant to Item 0650-163-8506 (California Volunteers - Coronavirus State and Local Fiscal Recovery Funds) of the 2021 Budget Act, the legislature for the State of California (“State”) appropriated Ninety-Eight Million Nine Hundred Twenty Nine Thousand Dollars (\$98,929,000.00) to the California Volunteers Program (“Program”), to increase youth employment, develop youth interest in and experience towards a career, and to strengthen city capacity to address key areas of climate, food insecurity, and local COVID-19 recovery.

B. In December of 2021, the City, as Lead Applicant, applied to California Volunteers (“Grantor”) for a grant, as part of Grantor’s 2021 CaliforniansForAll Youth Workforce Development Program, to increase youth employment, develop career pathways and youth interest in and experience towards a career in public service, and strengthen City capacity to address key areas of education, climate, and food insecurity.

C. In January 2021, Grantor awarded Four Million Four Hundred and One Thousand Five Hundred Ninety-Seven Dollars (\$4,401,597.00) (“Master Grant”) to the City.

D. The City is in the process of finalizing the State of California Department of General Services Standard Agreement with the Grantor (“Standard Agreement”), which is required for the release of Master Grant funds.

E. The City will be responsible for administering the Master Grant, disbursing subgrants to Partners and reporting project activities to Grantor in compliance with all applicable regulations, and guidelines.

F. After receiving the Master Grant, the City will provide a subgrant in an amount not to exceed Three Hundred Seventy-Seven Thousand Eight Hundred Forty Dollars (\$377,840.00) (“Subgrant”) to LIGHTHOUSE OF HOPE FOUNDATION, INC., to be used for a program known as the Lighthouse of Hope Food Pantry Project (“Project”).

G. The City and Subrecipient now wish to enter into this Agreement to facilitate the distribution of the Subgrant, to define Subrecipient's role and responsibilities with respect to the Subgrant-funded activities, and to expressly bind Subrecipient to applicable provisions of the Standard Agreement, which is necessary to ensure the ability of the City to comply with its obligations to Grantor.

Exhibit A Scope of Work

CaliforniansForAll Youth Workforce Development Program Application City of Riverside

Section 1: Program Goal

- What does your city hope to gain from this program/are there strategic goals this program can help your city meet?

The City of Riverside aims to fulfill the goals of this program by increasing youth employment, develop career pathways and interest towards a career in public service, and strengthen the City of Riverside's capacity to address key areas of education, climate, and food insecurity. This program is in alignment with the City of Riverside's 2025 Strategic Plan by fulfilling Strategic Priority 3 – Economic Opportunity and Goal No. 3.2 - Work with key partners in implementing workforce development programs and initiatives that connect local workers with high quality employment opportunities and provide access to education and training in Riverside.

Section 2: Program Design

- Which focus area(s) will youth be working on (food insecurity, climate change, etc.)? If other focus areas are addressed, please describe.

The workforce will be addressing several focus areas identified by CaliforniaVolunteers including climate resiliency, food insecurity, and local COVID recovery efforts in the City of Riverside. The pandemic has reinforced the fact that we live in a volatile, uncertain, complex, and ambiguous (VUCA) world that changes quickly. The VUCA environment has taught us to avoid traditional, outdated approaches to management, so we also want to acknowledge that another, unidentified need may arise outside of one of the three planned opportunity areas. More importantly, should we consider another area, we will be sure to work collaboratively with the State of California to confirm the subject area is eligible and add to any recruitment efforts, so all qualifying youth have an opportunity to apply.

- Do you plan on sub granting with CBOs? If so, please name each organization and any prior experience they have running similar programs or the process by which you will select CBO partners.

The City of Riverside plans on sub granting with Community Based Organizations. The CBO Partners proposed below were selected through our experience in collaboration during the pandemic with CARES Act expenditures and overall COVID 19 recovery efforts. Any other CBOs than the ones proposed below will be selected through a screening process which seeks to understand their experience operating effectively during the pandemic, which will be a key indicator for a successful partnership with the City for this grant funded program.

- **What activities will youth be working on? Please offer a brief, several sentence description of each job activity youth will be undertaking and any partners that will be involved in running that opportunity.**

The three suggested job types and activities include: Climate, Food Insecurity, and Local COVID-19 recovery needs as defined by the City of Riverside. The Office of the Mayor has worked with staff to identify preliminary opportunities that fit under these three job types while incorporating the goals of the program, which are to increase youth employment, develop career pathways and youth interest in and experience towards a career in public service, and strengthen City capacity to address key areas of education, climate, and food insecurity. Identified opportunities for the grant are based upon insights from the community input received from the CARES Act survey, lessons learned from CARES Act funded services, the ARPA Expenditure Plan, departments' familiarity with services that will serve disproportionately impacted communities; guidance by the approved Riverside Road to Recovery and the Riverside 2025 Strategic Plan.

Climate:

The City's Envision Riverside 2025 includes a multitude of goals and actions to address climate change including a goal of reaching citywide carbon neutrality by 2040, ahead of the state and federal targets of 2045 and 2050, respectively. The City's response, however, requires a wide

array of immediate, continuous, and innovative actions. A youth workforce presents a mutually beneficial opportunity, allowing the City to marshal efforts to address climate change while providing meaningful and long-lasting experiences within a climate friendly, green economy context. Some examples of areas where support is needed include: tree planting/care, geocoding trees/inclusion in GIS layers, organics waste diversion, clean air car share program, urban heat island mapping, activities related to the Transformative Climate Communities Grant and a variety of sustainability focused programs.

Food Insecurity:

As impacts from the pandemic are continuing to unfold, food insecurity persists. For example, food banks saw a 68% increase in food need throughout the region during the height of the pandemic while typical sources of food (i.e., donations from grocery stores, etc.) experienced unusually high demand from consumers and other sources of food (i.e., personal donations) saw record declines, which led food distribution services to pay for food and/or close operations. There is an opportunity to develop a sustainable and resilient food production workforce through partnerships with local farms, community gardens and food distributors such as local pantries, food banks, farmers markets and senior meal service programs (including homebound delivery). In addition, there is a need for assistance in the areas of food rescue, food waste prevention programs and food resiliency programs.

A youth workforce is critical to the City as we cannot have food systems without farmers. The average age of farmers is 65+ and this program is intended to provide vocation-based new farmer training, sustainable agriculture, and entrepreneurship. The pandemic also showed strains on food supply chains resulting in the need for greater reliance on the local food systems. A youth workforce would be instrumental in responding to the needs of the community to address food insecurity within Riverside filling voids and addressing challenges presented by the pandemic. In many instances, food support programs were staffed by retired, seniors who have been reluctant to return to these positions given a variety of concerns relating to their health as have individuals with underlying health conditions.

COVID-19 Recovery:

Educational disparity was identified by the community as a COVID-19 recovery need during the CARES Act survey. The City used a significant portion of its CARES Act funding allocation to assist both Alford Unified School District (AUSD) and Riverside Unified School District (RUSD) to enhance connectivity to virtual classrooms. In addition, the City and RUSD worked collaboratively to set up the first Distance Learning Centers in Southern California, and one of the first of its kind in the state, whereby students who were unable to connect to virtual classrooms at home, were provided a safe, secure, reliable, and staff supported learning environment at several local City park community centers. This enabled students over several months to stay connected to their classrooms. While most students were able to return to their classrooms in-person, there is an

opportunity to partner with AUSD and RUSD to address key areas such as learning loss and career technical education pathways.

The City of Riverside's COVID-19 response has taken many forms throughout the pandemic including, but not limited to, the following: COVID-19 vaccination sites, COVID-19 testing sites, business support activities, non-profit support activities, mental health and wellness services, food distribution and much more. As COVID-19 vaccination rates improve and positive case counts continue to decline throughout California and the City of Riverside, a new normal has emerged with opportunities to pivot towards recovery. However, given expected waves, variants and yet unknown challenges associated with a pandemic response, a youth workforce can assist the City in bridging the gap. The Emergency Operations Center and Human Resources Department teams have expressed an interest in support staff to assist with on-going recovery efforts in the areas listed above as well as other COVID-19 recovery areas.

The city will work with partners such as these to identify youth in these target population areas, as well as utilize our Youth Opportunity Center to promote and host recruiting events for these positions.

- **If you would like to propose your own priority criteria for participants in this program for CaliforniaVolunteers approval, please do so in this section.**

- **What wrap around services, if any, is the city or subgrantee planning on offering to youth?**

The City's Human Resources Department is committed to working with these youth participants to meet their needs as they arise with the necessary wrap around services we can provide.

- **What wage will youth be paid, if known? What length of time do you anticipate the youth serving?**

We will be paying youth a minimum of \$15 an hour and anticipate they will serve between 6 months to a year in their respective positions.

Section 4: Metrics/Outcomes

- Can the city provide the required metrics listed above to CaliforniaVolunteers?

The City of Riverside is well positioned to provide all of the required metrics listed by CaliforniaVolunteers with the hiring of a program administrator to oversee the data collection and reporting of metrics.
