# PROBLEM STATEMENT

---

Homelessness is a multi-dimensional problem that affects every community in Riverside County, every county in the State of California and every state in the union. The City of Riverside acknowledges that there are many subpopulations represented, each of which is unique and requires an array of options and wraparound support services to achieve self-sufficiency and housing security.

According to the 2022 County-wide Point-In-Time Count, the City of Riverside has the largest number of unsheltered individuals experiencing homelessness across the County. Specifically, there are 514 unsheltered persons with 410 sheltered within our City.

The biggest reasons people are homeless include family disruption, unemployment, and lack of income. Individuals reported that the problems keeping them homeless include: chronic homelessness\* at 56%, substance abuse at 36%, and mental illness at 32%. Of the unsheltered homeless people within our City, 39% live on the street, 17% were found living in a tent or shed, and 16% were living in a vehicle.

Homelessness is prevalent across the Country, State, County, and City and is being impacted by the COVID-19 pandemic. To reduce the number of people living without adequate housing, it is crucial to continue to provide services, shelter, housing, and support for our marginalized neighbors.

The following goals represent solutions that were created with input from the community, end-users, experts, the Housing and Homelessness Committee, Mayor and City Council, and the Office of Homeless Solutions.

\*Chronic homelessness is defined as someone who has experienced homeless for one year or more.

Income Category (% of County AMI)	Number of Units
<b>Extremely Low (30% or less)*</b>	2,431
<b>Very Low (31% to 50%)</b>	2,430
<b>Low (50% to 80%)</b>	3,064
<b>Moderate (81% to 120%)</b>	3,139
<b>Above Moderate (Over 120%)</b>	7,394
<b>Subtotal</b>	<b>18,458</b>
<b>No Net Loss Buffer (17%)</b>	3,185
<b>Total</b>	<b>21,643</b>
AMI = Area Median Income Note: * The City has a RHNA (Regional Housing Needs Assessment) obligation of 4,861 very low-income units (inclusive of extremely low-income units). Pursuant to State law (AB2634), the City must project the number of extremely low-income housing needs based on Census income distribution or assume 50 percent of the very low-income units as extremely low. Assuming an even split, the City's RHNA allocation of 4,861 very low-income units may be divided into 2,430 very low and 2,431 extremely low-income units. However, for purposes of identifying adequate sites for the RHNA allocation, State law does not mandate the separate accounting for the extremely low-income category	

The City's Housing Authority has **689 affordable housing units** in the pipeline for development.
