Subject: [External] 8/3/22 Agenda item 2 Riverside Redistricting

Dear Inclusiveness, Community Engagement, and Governmental Processes Committee

My name is Jonny Miller, Ward 1 Riverside resident, organizer with Brown and Black Redistricting Alliance. I am doing public comment Agenda Item #2 regarding Riverside city redistricting and wanted to share my community of interests. Our organization has done extensive work in the City of Riverside. The Fair and Inclusive Redistricting for Municipalities and Political Subdivisions Act (FAIR MAPS Act), requires the city to comply with the federal Voting Rights Act of 1965 (VRA), and, to the extent practicable, keep communities of interest together

We would like all redistricting workshops and public hearings to be held after 6:00 p.m. and that there will be Spanish translation materials and interpreters. Below is our city wide/neighborhood Community of Interests.

Downtown Riverside Communities of Interest

Downtown residents have worked together on affordable housing and North Side Specific Plan for community driven housing projects and against the development of more warehouses. We work to support mixed use housing and commercial for more locally owned small businesses. We mainly consist of working class residents and with the majority Latino and 2nd minority being African American. A majority of Downtown Residents are primarily English speakers and many of us are also fluent in Spanish. Our community is heavily impacted by homelessness. Many of the long time working class residents are being priced out of our community. We do have some middle class areas near Mt. Rubidoux. Our common landmarks are Fairmont Park and Mt Rubidoux. We enjoy the summer concerns and community events in Fairmount Park. Our other neighboring communities are the Wood streets and Riverside community college campus. The Wood Streets are heavy RCC staff and retired Seniors.

Thank you for your time

August 2, 2022

Dear Inclusiveness, Community Engagement, and Governmental Processes Committee,

Thanking each member of this special committee for all the work that you have committed to do, we the members of Riverside LULAC Council # 3190 would like to offer a few recommendations that we feel would enhance the quality of work the committee is expected to do.

The first recommendation is to remind you that the largest single demographic in our City of Riverside is made up of Latinos and it is growing.

Our second recommendation is for you to recognize that within the Latino community more than half speak primarily Spanish and the other half are mostly bilingual.

With all due respect, to each of the members of this committee and knowing that all of you are well qualified, our final recommendation is that the person to chair this committee should be Councilwoman Clarissa Cervantes. Ms. Cervantes, speaks our language, understands our culture, and can truly support the committee in accomplishing its' goals.

Thank you,

Norma Barles

BEVERLY ARIAS

Location: 92504, RIVERSIDE

Submitted At: 10:17am 08-03-22

080322; Item 2; 2022 Reshape Riverside: Beverly M. Arias here- w4 - Casa Blanca , 4th generation Tax paying Riverside-r, this first hearing starting at 330 pm- already continues the current gap of the majority of Riversiders affected. Knowing the demographics of Riverside - most folks commute at least 30 mins PLUS one way to their jobs.

Although you have the planned target dates and want to do a virtual hearing- please take into consideration that folks work.

My Community of Interest is my neighborhood of Casa Blanca.

Community Boundaries: From the 91 Freeway – Indiana Ave/ Washington Mary Street/ Victoria ave/ Jefferson Where the 3 Palm trees stand on Railroad Ave where the Original Train Depot was built bringing in the main lines of Citrus to be processed in the Packing houses here called Victoria Packing house and then on Lincoln-the Citrus Packing House.

Community Story:

Our 144 year old community has several community groups that have advocated for the people in the neighborhood for decades. As we are always underserved and under-represented our community needed to create groups to advocate on our behalf such as The Home of Neighborly Service, The Community Action Group and Villegas Park Advisory Council.

We are unique in we have celebrated our 113th Annual Cinco De Mayo Fiesta. A community free event which everyone looks forward to. Music is performed, different groups of dancers perform, booths of food is set up for sale, and even game booths.

This Fiesta has received awards and the Volunteer committee members do a great job organizing a nice event. Also St Anthony's Church has their annual fair, where a large portion of the community is involved too.

The Church of God of Prophecy has been in the community for half of a Century and does quarterly events to serve the community such as Backpack giveaways filled with school supplies. A Turkey and fixings distribution for the holidays.

Our Community was established with families here to work in the different facets of the Citrus Industry. From Citrus pickers, packers, drivers, managers of workers. Today our Community is comprised of a Large Senior population with Retired Elderly folks on fixed incomes. We have a population of about 7,349 residents. In a 1.060 square mile area. We are predominately LatinX at 82% then White at almost 10% , Asian at 3% and African American at 2.3%The Primary Language spoken is English, Spanish and Dialects of Guatemalan like Q'anjob'al Most of the working residents commute at least an Hour one way. The Dominant profession in our neighborhood is in the Service Industry which is comprised of 51%- 4% are in the Management field.

Over 19% of our Population us under the Poverty Level.

Casa Blanca would be more relatable to Ramona As both communities are comprised of working families in the middle income. Our concerns for working families are relatable.

Melba Winsell

Location: 92508, RIVERSIDE
Submitted At: 10:06am 08-03-22

My name is Melba Winsell, a resident in Mission Grove for the past 3 years, in Ward 4. (My "neighborhood" is not listed on the drop-down sign in) I am a board member of Riverside League of Women Voters, among other community focused organizations. I cannot describe my own Community of Interest....yet.

As an adult I have lived in 6 cities throughout California. Upon retirement from RUSD, I purposely chose Riverside. I could have gone anywhere. My work in schools here let me understand Riverside, and know that I could feel comfortable. No other place has the unique "neighborhoods" that define the personality of this city. You can see them and feel the differences. It's important to keep these neighborhoods together so their elected city council members can better serve all of them. I hope your map planning assures communities of interest are keep together.

I was please the see the Reshape Riverside website is up. I was pleased with the planned meetings in all the ward at reasonable times for commuter residents. I was please with the planned dates with two in each ward. I will be diligent in watching the progress of the meetings, the availability of the information to each, translating everything. I understand the importance of participation in redistricting and will watch the communication, education and transparency of this process closely.

Riverside City Redistricting Timeline

Re: Inclusiveness, Community Engagement, and Governmental Processes Committee
Agenda: #4 Communications
Riverside City Staff update: Riverside City timeline update

Dear Inclusiveness, CommunityEngagement, and GovernmentalProcesses Committee

Chair: Cervantes
Vice Chair: Perry
Member: Conder

My name is Maribel Nunez, Riverside City Ward 1 Resident and part of the Brown and Black Redistricting Alliance. I am writing a letter for today's Inclusiveness, CommunityEngagement, and GovernmentalProcesses Committee meeting 6/1/22

COMMUNICATIONS 4 Items for future Inclusiveness, Community Engagement, and Governmental Processes Committee

When looking at city redistricting, local governments are required to review their current district boundaries and redistrict based on new population figures from the census. Brown and Black Redistricting Alliance wants to ensure that districts are drawn in a way that will keep communities together. Keeping communities whole, in a single political district, increases communities' ability to influence or even determine who gets elected to represent that district. This also makes it more likely that representatives will listen to the community and be responsive to its needs. According to the League of Women Voters California, While there are rules for state-level redistricting in California, similar criteria to guide decision-making, and requirements to ensure a transparent and open public process, do not necessarily apply at the local level. See the table of California Local Redistricting Rules (pdf link: <https://lwvc.org/sites/default/files/downloads/LWVC%20FairMaps%20California%20Local%20Redistricting%20>

[0Toolkit%2010-1-20.pdf](#)) It is referenced in Section VII below to check the rules for each form of local government.

On behalf of the Brown and Black Redistricting Alliance, we want to ensure the city prioritizes the Voting Rights Act and Fair Maps Act. According to the Mexican American Legal Defense and Educational Fund (MALDEF), All government entities must include required data, related to citizen voting age population (CVAP), and other relevant information required by state and federal law as part of city's district maps, in order to consider that data in preparing the draft maps. The Fair and Inclusive Redistricting for Municipalities and Political Subdivisions Act (FAIR MAPS Act), requires the city to comply with the federal Voting Rights Act of 1965 (VRA), and, to the extent practicable, keep communities of interest together. The new Riverside City redistricting maps should not only contain total Census 2020 population data, population percentages and CVAP data included.

According to Census 2020, in the City of Riverside there are 314, 998 people who live in the City of Riverside. There are 53.7 % of Hispanic/Latino, 6.2% African Americans, and 7% are Asian American Pacific Islanders. Out of the Citizen voting age population, there are 241, 620 people, which are 50.60% Hispanic/Latino, 6.32% African American and 7.99% are African American. We should have at least three to four Latino Majority Wards out of the seven Riverside wards. We would like Racially polarized Voting Analysis to be taken into consideration when redrawing the ward lines. Voting Rights Act (VRA) to provide a statutory remedy for racial vote dilution. At the heart of vote dilution law is the concept of racially polarized voting. Voting is polarized when (1) the political preferences of majority-race and minority-race voters diverge substantially and the racial majority votes with enough cohesion to usually defeat the minority's candidates of choice. We call these the "preference polarization" and "voting power" requirements. Since the Supreme Court's 1986 decision in *Thornburg v Gingles*, plaintiffs have had to satisfy both conditions and propose a remedial district at the outset of their case. Only if this threshold *Gingles* showing has been made does the court apply the liability standard prescribed by statute: whether the "totality of circumstances" indicates that plaintiff-race voters "have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice."

Community Engagement Plan feedback:

Thank you:

In looking at Riverside City Redistricting Timeline chart, Thank you for hosting A SERIES OF WORKSHOPS IN EVERY WARD.

Additional Recommendations:

We need more than one public hearing prior to the drawing of map session and have multiple public hearings throughout the city with options for evening and weekend for working people to attend. Plus add a Spanish public hearing. The City of Victorville did it.

Thank you for your time,
Maribel Nunez, Co-Convener

Public Comment for July 6, 2022
Inclusiveness, Community Engagement, and Governmental Processes Committee Meeting
Prepared by the City Clerk's Office at 1:35 p.m. on July 6, 2022

Agenda Item	Name	Neighborhood	Position	Comments
2. 2022 Redistricting Update Donesia Gause, City Clerk	BEVERLY ARIAS		Neutral	<p>22-1637 Item 2 Redistricting: In Regards to Redistricting Dear Committee of Inclusiveness, Community Engagement and Govt Processes, please take into consideration the Updated population figures with the new influx of New Residents that have moved here from LA, OC and San Diego. With the Current Majority population of over 53% Latinx, it is 2022 and we still do not have fair representation of elected officials- who will speak on the needs of the people. As this meeting today is in the middle of the day, please allow for at least 1 bilingual evening or weekend meeting when it comes to providing a Community Forum- as majority of folks work during the day.</p> <p>As a Ward 4 resident , growing up in the Casa Blanca neighborhood our community has different characteristics than say, Presidential Park or Hawarden Hills or even Woodcrest. We are smitten with increasing traffic and congestion as one of the main arteries of roads is Madison St/ Indiana St and Washington- to reach the nearby 91 Freeway. We have 2 Community Centers- (Villegas Community and The Home of Neighborhood Service) however, our centers are the least funded by Federal, State, City and Regional funding- but, both serve our Community Daily- Can we have someone who will advocate for us more Fiercely? Our Community is mostly blue collar , with a large Senior population, the rest are mixed families, but, even with our tax dollars, we have gaps of access to required services. Although we have been served in the past by leaders that answer when we call, there are still gaps that need to be filled so we can stay updated and informed. Example, for Over a Decade we have asked for assistance via CDBG grants but, rejected. However, other areas are being served with Tax Payer Funds from all levels. We have the same needs as Eastside, example the replacement of a neighborhood school, and need for improved funding for programs at the Centers like Stratton- Villegas and The Home of Neighborhood Service.</p> <p>Please take this into consideration as you progress in your steps to formulating maps of final redistricting.</p>
2. 2022 Redistricting Update Donesia Gause, City Clerk	Mel Winsell		Neutral	<p>I live in Ward 4. I appreciate the work that has been done so far on redistricting the wards for the city of Riverside. In my review of the proposed community engagement plan, several issues were apparent. Very obvious is the lack of equal number of meetings in all the wards. Wards 2 and Ward 3 each need another planned meeting scheduled. Then, the time between meetings in each ward varies greatly. Quote: The proposed Plan will be a coordinated effort led by Riverside City staff in partnership with local community stakeholders that will consist of three phases of outreach: To move from education to motivation will take time between meetings to allow enough time to Fill-in-Gaps in each ward and develop Communities of Interest, like in Ward 4 it's only 9 days between meeting. The Outreach Plan covers translations but does not consider the lives of our "bedroom" city. Real equity would be achieved if meetings occurred when commuters can attend in the evening or weekends. The redistricting for Riverside would be improved by having equal number community meetings for all wards, setting dates between meetings with ample time for the citizens to develop COI's and maps, and planning meetings at later hours to allow better attendance. I live in Ward 4.</p>

Riverside City Redistricting Timeline

Re: Inclusiveness, Community Engagement, and Governmental Processes Committee
Agenda: #4 Communications
Riverside City Staff update: Riverside City timeline update

Dear Inclusiveness, CommunityEngagement, and GovernmentalProcesses Committee

Chair: Cervantes
Vice Chair: Perry
Member: Conder

My name is Maribel Nunez, Riverside City Ward 1 Resident and part of the Brown and Black Redistricting Alliance. I am writing a letter for today's Inclusiveness, CommunityEngagement, and GovernmentalProcesses Committee meeting 6/1/22

COMMUNICATIONS 4 Items for future Inclusiveness, Community Engagement, and Governmental Processes Committee

When looking at city redistricting, local governments are required to review their current district boundaries and redistrict based on new population figures from the census. Brown and Black Redistricting Alliance wants to ensure that districts are drawn in a way that will keep communities together. Keeping communities whole, in a single political district, increases communities' ability to influence or even determine who gets elected to represent that district. This also makes it more likely that representatives will listen to the community and be responsive to its needs. According to the League of Women Voters California, While there are rules for state-level redistricting in California, similar criteria to guide decision-making, and requirements to ensure a transparent and open public process, do not necessarily apply at the local level. See the table of California Local Redistricting Rules (pdf link: <https://lwvc.org/sites/default/files/downloads/LWVC%20FairMaps%20California%20Local%20Redistricting%20>

[0Toolkit%2010-1-20.pdf](#)) It is referenced in Section VII below to check the rules for each form of local government.

On behalf of the Brown and Black Redistricting Alliance, we want to ensure the city prioritizes the Voting Rights Act and Fair Maps Act. According to the Mexican American Legal Defense and Educational Fund (MALDEF), All government entities must include required data, related to citizen voting age population (CVAP), and other relevant information required by state and federal law as part of city's district maps, in order to consider that data in preparing the draft maps. The Fair and Inclusive Redistricting for Municipalities and Political Subdivisions Act (FAIR MAPS Act), requires the city to comply with the federal Voting Rights Act of 1965 (VRA), and, to the extent practicable, keep communities of interest together. The new Riverside City redistricting maps should not only contain total Census 2020 population data, population percentages and CVAP data included.

According to Census 2020, in the City of Riverside there are 314, 998 people who live in the City of Riverside. There are 53.7 % of Hispanic/Latino, 6.2% African Americans, and 7% are Asian American Pacific Islanders. Out of the Citizen voting age population, there are 241, 620 people, which are 50.60% Hispanic/Latino, 6.32% African American and 7.99% are African American. We should have at least three to four Latino Majority Wards out of the seven Riverside wards. We would like Racially polarized Voting Analysis to be taken into consideration when redrawing the ward lines. Voting Rights Act (VRA) to provide a statutory remedy for racial vote dilution. At the heart of vote dilution law is the concept of racially polarized voting. Voting is polarized when (1) the political preferences of majority-race and minority-race voters diverge substantially and the racial majority votes with enough cohesion to usually defeat the minority's candidates of choice. We call these the "preference polarization" and "voting power" requirements. Since the Supreme Court's 1986 decision in *Thornburg v Gingles*, plaintiffs have had to satisfy both conditions and propose a remedial district at the outset of their case. Only if this threshold *Gingles* showing has been made does the court apply the liability standard prescribed by statute: whether the "totality of circumstances" indicates that plaintiff-race voters "have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice."

Community Engagement Plan feedback:

Thank you:

In looking at Riverside City Redistricting Timeline chart, Thank you for hosting A SERIES OF WORKSHOPS IN EVERY WARD.

Additional Recommendations:

We need more than one public hearing prior to the drawing of map session and have multiple public hearings throughout the city with options for evening and weekend for working people to attend. Plus add a Spanish public hearing. The City of Victorville did it.

Thank you for your time,
Maribel Nunez, Co-Convener

Subject: [External] public comment: Agenda #21 Redistricting Commission

Dear Mayor, Mayor Pro Tem and Riverside City Council:

This is Maribel Nunez, Riverside Ward 1 resident and part of Brown and Black Redistricting Alliance. I am here to speak about Riverside City council meeting Agenda #21 Riverside Redistricting Commission. We ask once again if you can reconsider either an independent commission or hybrid commission. Its the only commission that can be resident led without influence of electeds.

Support some of the principles that Assemblymember Sabrina Cervantes bill **AB-1307** County of Riverside Citizens Redistricting Commission that requires an independent commission for the Riverside County Board of Supervisors.

Method 1: City Council-Led The City Council . Method 2: Standing/Advisory Committee – City Council Partially Led Alternatively Method 3: Advisory Redistricting Commission – Resident Led are resident led. Even if you choose Method 3 Advisory Redistricting Commission Resident Led, the commissioners will be appointed by city council. That doesn't symbolize autonomy.

As for the type of Riverside city redistricting commission, we as Brown and Black Redistricting Alliance recommend that both Independent and Hybrid Commission is the way to have an independent, community driven process for redistricting.

1. The Independent Commission conducts all the public hearings and makes the final decision on the map. The City Council has no approval authority.
2. Hybrid Commission conducts some of the public hearings and makes recommendations on one to two maps. The City Council can only adopt one of the recommended maps.

Process for appointing members:

Random draw and commission appointment but Must fit the citys recommend qualifications

Public hearings feedback:

-more public hearings versus just 4 and have throughout the city and add a Spanish one (Victorville did it))

Support some of the principles that Assemblymember Sabrina Cervantes bill

AB-1307 County of Riverside Citizens Redistricting Commission that requires an independent commission for the Riverside County Board of Supervisors.

Best regards,
Maribel Nunez

Riverside County Board of Supervisors
4080 Lemon Street
Riverside, CA 92501

Dear Members of the Board of Supervisors,

The Raincross Group is a group of citizens formed to promote good governance in the City of Riverside through recruiting, developing and supporting good leaders in our community,

In this letter, we are writing to encourage the Riverside County Board of Supervisors to include the City of Riverside entirely within one supervisor district. The City of Riverside is a contiguous population that shares common social and economic interests and should be included within a single district for effective and fair representation.

As the County seat and the largest City in the County, the City of Riverside has a unique voice that should be effectively heard and represented on the Board of Supervisors. While we share common interests with the rest of the county – housing, homelessness, transportation, and environmental concerns - due to our size, we need a single representative to specifically represent the interests of our City at the County level. One representative will promote accountability, encourage better understanding of County issues, and increase community engagement. Moreover, fairly mapping the City of Riverside demonstrates that the County respects our community of interest and encourages participation in County decisions.

We appreciate the County's emphasis on transparency and accessibility during the redistricting process. We look forward to working together towards final maps that reflect the City of Riverside's unique standing in the region.

Sincerely,

A handwritten signature in dark ink, appearing to read "Ronald C. Loveridge".

Riverside city council:

Re: Discussion Calendar

Agenda: #18

Riverside County Redistricting Briefing presentation by Riverside County Executive Office -
Review 2022 Redistricting Plan

Dear Mayor, Mayor Pro Tem and City Council:

My name is Maribel Nunez, Riverside City Ward 1 Resident and part of the Brown and Black Redistricting Alliance. I am writing a letter for today's Riverside city council meeting 10/12/21 Discussion Calendar Agenda #18.

I have recommendations regarding the type of redistricting commission, type of process and what should be the top redistricting criteria.

In the list below of the Riverside City Redistricting Staff report, where they reference 2012 redistricting criteria, it doesn't prioritize the Voting Rights Act.

1. Equalize the population count in each Ward within 10% (top to bottom)
2. Achieve +5% from optimal population per Ward
3. Comply with all applicable laws
4. Avoid disqualification of City Councilmembers during a term
5. Maintain continuity of existing Wards, to the extent possible
6. Draw Wards that are compact and contiguous
7. Use natural, geographic boundaries to the extent possible
8. Maintain cohesive neighborhoods and community interests, to the extent possible
9. Consider school districts and avoid dividing same, to the extent possible
10. Maintain income diversity within Wards, to the extent possible

According to the Mexican American Legal Defense and Educational Fund (MALDEF), All government entities must include required data, related to citizen voting age population (CVAP), and other relevant information required by state and federal law as part of city's district maps, in order to consider that data in preparing the draft maps. The Fair and Inclusive Redistricting for Municipalities and Political Subdivisions Act (FAIR MAPS Act), requires the city to comply with the federal Voting Rights Act of 1965 (VRA), and, to the extent practicable, keep communities of interest together. The FAIR MAPS Act also requires cities to include with each draft map "information on the total population, citizenship voting age population, and racial and ethnic characteristics of the citizenship voting age population of each proposed supervisorial district. If city maps only include total population data and fail to disclose CVAP data for any of the proposed districts, then the city fails to comply and can risk litigation. Without the CVAP data, broken down by racial and ethnic demographics, the public cannot evaluate whether the proposed maps comply with Section 2 of the VRA. Further, federal law is clear that in

determining compliance under Section 2 of the VRA, "CVAP is the appropriate measure to use in determining whether an additional effective majority-minority district can be created." (Luna v. County of Kern). The new Riverside City redistricting maps should not only contain total Census 2020 population data, population percentages and CVAP data included.

According to Census 2020, in the City of Riverside there are 314, 998 people who live in the City of Riverside. There are 53.7 % of Hispanic/Latino, 6.2% African Americans, and 7% are Asian American Pacific Islanders. Out of the Citizen voting age population, there are 241, 620 people, which are 50.60% Hispanic/Latino, 6.32% African American and 7.99% are African American. We should have at least three to four Latino Majority Wards out of the seven Riverside wards. We would like Racially polarized Voting Analysis to be taken into consideration when redrawing the ward lines. Voting Rights Act (VRA) to provide a statutory remedy for racial vote dilution. At the heart of vote dilution law is the concept of racially polarized voting. Voting is polarized when (1) the political preferences of majority-race and minority-race voters diverge substantially and the racial majority votes with enough cohesion to usually defeat the minority's candidates of choice. We call these the "preference polarization" and "voting power" requirements. Since the Supreme Court's 1986 decision in *Thornburg v Gingles*, plaintiffs have had to satisfy both conditions and propose a remedial district at the outset of their case. Only if this threshold *Gingles* showing has been made does the court apply the liability standard prescribed by statute: whether the "totality of circumstances" indicates that plaintiff-race voters "have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice."

As for the type of Riverside city redistricting commission, we as Brown and Black Redistricting Alliance recommend that both Independent and Hybrid Commission is the way to have an independent, community driven process for redistricting.

- 1) The Independent Commission conducts all the public hearings and makes the final decision on the map. The City Council has no approval authority.
- 2) Hybrid Commission conducts some of the public hearings and makes recommendations on one to two maps. The City Council can only adopt one of the recommended maps.

Thank you for your time,
Maribel Nunez, Co-Convener

To whom it may concern,

Today, August 25th, there was a Reshape Riverside Workshop at the Ysmael Villegas Community Center in Casa Blanca. I am a resident of Casa Blanca (born and raised). I was unable to attend the workshop in person, but nonetheless I would still like to give input on this community and why it is a "community of interest". Please find attached the form that I downloaded from your website and filled out electronically.

Thank you,

Good evening,

I am sending to you committee members and possible future Council members of this ward.

It was brought to my attention that at the Redistricting workshops -City Staff is stating that our Neighborhood of CasaBlanca is wanting to stay in the same ward as Orangecrest.

This is incorrect!

Many of us have submitted our COI's (Community of Interest) Statement indicating the opposite. Even at the Reshape workshop held here at the Villegas Community Center (Which by the way was well attended), Community Leaders voiced input. No one has stated that We the residents of Casa Blanca want to continue to be grouped with Orangecrest.

Our 144 year old community of Casa Blanca -with its narrow streets, growing population and predominately lower income working families are not in the same demographics as Orangecrest or Mission Grove.

It was in 2014 that our Villegas Community Center was remodeled. Meanwhile, throughout the City New Centers were being built or remodeled.

Although, we appreciate the rapid response of Council Member Conder and his Legislative Assistant Frank, our city is growing and so are the needs of our communities.

We relate more to Ramona, Magnolia Center and Hillside (on the borderline of the Airport Neighborhood).

As Reshape Riverside progresses many of us will be submitting further input.

Please ensure that City Staff is not stating this inaccuracy.

Thank you for your time.

Community Activist
