PROPOSED INCREASE

1. While creating the 2023 Tree Power program, participating nurseries spoke with staff regarding ongoing economic constraints, their cost for trees has increased to \$40 per 5-gallon tree.
2. According to the U.S. Bureau of Labor Statistics' Consumer Price Index calculator, the \$35 incentive adopted in 2019, has the same buying power as \$41.40 due to inflation.
3. To ensure that RPU electric customers can obtain high quality trees and still participate in the Tree Power program, staff is recommending that the incentive level is increased from \$35 per tree to \$40 per tree, to help offset the increased economic impact on participating businesses.
