6 demonstrates substantial compliance with the provisions of the Citywide  
7 Design and Sign Guidelines, and is in accordance with City Codes, which

13 ~~pass through that stop per day; then~~

14 ~~iii. add the total number of rides available as each stop within one-half~~  
15 ~~mile together.~~

16 ~~Example: If there are four bus stops, and at each bus stop the service frequency is~~

7 the underlying General Plan land use designation.

8 C. Findings. Compliance with the following criteria shall be demonstrated for a proposed  
9 project to be approved. Failure to substantially meet or exceed all these standards shall result in  
10 disapproval of the project.

**Notes:**

1. See Section 19.100.060 A (Additional Density). Gross acreage means streets are included for density purposes. Notwithstanding allowable density on a gross acreage basis, individual lots must meet the minimum lot size requirements exclusive of streets, except in the RA-5 Zone as described in Note 9.
2. Lot width, depth and area; building area; and setback requirements shall be as required as set forth in the Table. However, the zoning standards and requirements of the RC and RA-5 Zones shall not apply to any buildings existing prior to or under construction on November 13, 1979, or to the restoration or rehabilitation of or to any additions to such buildings, provided that the use, restoration, rehabilitation or addition shall conform to the current standards and requirements of the zoning in existence immediately prior to November 13, 1979. Also see Section 19.100.050 A (Lot Area).
3. Where a lot is less than 65 feet in width and was of record prior to November 23, 1956, or was of record prior to the date on which such lot was annexed to the City, the required side yards adjacent to interior side lot lines shall be reduced to five feet.

4. Front setback exceptions: See Section 19.630.040 E (Permitted projections into required yards for RA-5, RE, RR, and R-1 Zones).
5. Side and rear setback exceptions: See Section 19.630.040 E (Permitted projections into required yards for RA-5, RE, RR, and R-1 Zones). The side setback can be applied to either side except that the larger setback is required when a side yard is adjacent to a street.
6. No lot that fronts onto Hawarden Drive within the Hawarden Drive Special Design Area, generally between Anna Street and the Alessandro Arroyo, shall have a front yard depth of less than 50 feet.
7. Where a lot or parcel of land at the junction of two intersecting streets in any residential zone has frontage on each street over 130 feet in length, front yards of the depth required in the appropriate zone shall be required on both frontages. Also see Chapter 19.630 (Yard Requirements and Exceptions).
8. No dwelling shall be located closer than five feet to any retaining wall exceeding two feet in height, unless such retaining wall is an integral part of an approved dwelling.
9. Lot area in the RA-5 Zone is measured to the centerline of the adjoining street or streets; provided, however, individuals may construct one single-family dwelling on a lot of less than five acres existing as of May 15, 1979 and the residence is owner occupied after construction.
10. Refer to Chapter 19.560 (Building Height Measurement) for height measurement and exceptions to height limits.
11. Project density may be greater in a Planned Residential Development (see Chapter 19.780).
12. See Section 19.100.050 (Additional Regulations for the RC Zone).
13. See Section 18.210.080 (Lots) and Article X (Definitions) for exceptions for cul-de-sac lots, knuckle lots, lots on curves and corridor lots.
14. See Section 18.210.030 N.2.a for exception to lot size on private streets if over 20,000 square feet.
15. See Chapter 19.149 - Airport Land Use Compatibility to determine if a project site is subject to Airport Land Use Compatibility Plan requirements.
16. See Chapter 18.085 (Urban Lot Splits) of the Subdivision Code and Chapter 19.443 (Two-Unit Developments) of this Title for density, lot area, lot width, lot depth, side setback and rear setback requirements for residential development pursuant to California Government Code § 65852.21 and § 66411.7.

Notes:

1. Decisions of the City Council are final and cannot be appealed.
2. Reserved.
3. Planning Commission primary design review responsibility is limited to concurrent review with another case for which the Planning Commission has approval authority (Refer to Section 19.710.035 - Review Responsibilities of Planning Commission or Community & Economic Development Department Director). Appeal of Planning Commission action on design review is by the full City Council.
4. See Section 19.650.020 C - Designated Approving Authority.
5. Appeal of an action on a Temporary Use Permit shall be to the City Manager. The City Manager's decision is final.
6. If denied by the Planning Commission, the action is final unless appealed to the City Council (See Section 19.680.020 B - Appeal Authority) with the exception of City-initiated General Plan Text/Map Amendments, Zoning Code Text/Map Amendments and Specific Plan Amendments where the Planning Commission is a Recommending Authority only.
7. Street vacations and traffic pattern modification measures require two actions at the City Council: adoption of a resolution of intent to hold a public hearing and a public hearing.
8. See Government Code Section 65864 for more information on Development Agreements.
9. All decisions by the Planning Commission to approve or deny a permit or action are by simple majority of the members present and voting, with the following exceptions:
  - a. Conditional Use Permits, including revocations, and Planned Residential Development Permits require approval by a 2/3 majority of the Planning Commissioners present and voting; and
  - b. Zoning Code Text/Map Amendments, General Plan Text/Map Amendments, and Specific Plan Amendments require a majority vote of not less than four Planning Commissioners present and voting.
10. All decisions of the City Council to approve or deny a permit or action are by a majority vote of those present and voting except that a 2/3 vote of the total membership (five votes minimum) is required to approve an appeal of a decision of the Airport Land Use Commission (ALUC).
