1. Plans and Specifications

Landscaping improvements, along with the recreation facilities and play equipment that have been installed, are proposed to be maintained by the District. There exist two zones of benefit, Zone A and Zone B. The general nature, location, and extent of the landscape improvements to be maintained by the District for each Zone are as follows:

Zone A

- Landscaping and irrigation systems within the parkway on the east side of Riverwalk Parkway from approximately 500 feet southerly of Collett Avenue, northerly to approximately 950 feet southerly of Pierce Street.
- Enhanced landscaped areas, including recreation facilities and play equipment, on the east side of Riverwalk Parkway, located approximately 500 feet southerly of Collett Avenue, northerly to approximately 950 feet southerly of Pierce Street.
- Reverse frontage landscaping improvements and irrigation systems along the north and south sides of Collett Avenue between Riverwalk Parkway and Golden Avenue.
- Reverse frontage landscaping improvements and irrigation systems along the west side of Golden Avenue between Schuyler Avenue and the La Sierra Storm Drain Channel.
- Reverse frontage landscaping improvements and irrigation systems along the north side of Schuyler Avenue from Golden Avenue easterly to the District Boundary.
- Landscaping and irrigation systems along the south side of Pierce Street beginning approximately 300 feet east of Riverwalk Parkway, extending approximately 700 feet easterly.
- Landscaping improvements for a dog park that is located on the south side of Pierce Street and on the west side of Riverwalk Parkway.

Zone B

Landscaping and irrigation systems within the parkway on the east side of Riverwalk Parkway from the La Sierra Storm Drain, northerly to a point approximately 500 feet southerly of Collett Avenue and along the west side of Riverwalk Parkway from the La Sierra Storm Drain, northerly to a point approximately 950 feet southerly of Pierce Street, including the northwest corner of Riverwalk Parkway and Collett Avenue.

It should be noted that the Master Homeowner's Association will be responsible for the operation, repair, or replacement of the pumps and their system for the water wells which feed the ponds and irrigation system including providing the water for irrigation of the system.

The Master Homeowner's Association will also be responsible for the operation, maintenance, and repair of the streambeds, water ponds, and fountains, and associated electrical costs.

Landscaping maintenance services are to be financed by the District. Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of the landscaping, recreation facilities, play equipment, and appurtenances including repair, removal, or replacement, providing for the life, growth, health, and beauty of the landscaping, recreation facilities, play equipment, and removal of trimmings, rubbish, debris, and other solid waste, together with the necessary incidental expenses.

Plans and Specifications

Preliminary Plans and Specifications for Improvements are on file and are available for inspection in the Office of the Director of Public Works of the City of Riverside.

2. Method of Assessment Apportionment

Proposition 218 Compliance

On November 5, 1996 California voters approved Proposition 218 entitled “Right to Vote on Taxes Act” which added Article XIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for the formation and administration of assessment districts. Proposition 218 also requires that with certain specified exception, which are described below, all existing assessment districts must be ratified by the property owners within the District using the new procedures.

Some of these exceptions include:

- 1) Any assessment imposed exclusively to finance the capital cost or maintenance and operation expenses for streets.
- 2) Any assessments levied pursuant to a petition signed by the persons owning all of the parcels subject to the assessment at the time the assessment was initially imposed

However, even if assessments are initially exempt from Proposition 218, if the assessments are increased in the future, the City will need to comply with the provisions of Proposition 218 for that portion of the increased assessment formula (e.g., CPI increase).

Proposition 218 does not define this term “streets”, however, based on the opinions of the public agency officials, attorneys, assessment engineers and Senate Bill 919, it has been determined that streets include all public improvements located within the street right-of-way. This would include median and parkway landscaping, traffic signals, safety lighting and street lighting.

Proposition 218 defines “assessment” as “any levy or charge upon real property by an agency for a special benefit conferred upon the real property.” Cal. Const., art. XIID, §2(b). A special assessment, sometimes called a “benefit assessment,” is a charge generally levied upon parcels of real property to pay for benefits the parcels receive from local improvements. Special assessments are levied according to statutory authority granted by the Legislature or, in some instances, local charters. Distinguishing among taxes, fees and assessments can be difficult and often depends on the context in which the distinction is made. For example, taxes, assessments and property-related fees all may be imposed on property. The key feature that distinguishes an assessment from a tax, fee or charge is the existence of a special benefit to real property. Without identifying a special benefit, there can be no assessment.

Distinguishing General and Special Benefit

Proposition 218 added a set of procedures and requirements which a local government must follow to levy an assessment. In addition to notice, hearing and assessment ballot proceedings, Proposition 218 provides that “only special benefits are assessable” and requires a local government to “separate the general benefits from the special benefits conferred on a parcel.”

By its nature most every public improvement financed through an assessment district contains an element of public benefit. The test is: does there exist, with relation to the improvement, a special benefit to the property assessed? The law requires that portion of the cost of the improvement which benefits the public generally, to be separated from that portion of the cost of the improvement which specially benefits assessed properties. Proposition 218 provides the following definition of “special benefit”:

“Special Benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Method of Assessment Apportionment

The “Landscaping and Lighting Act of 1972” and the provisions of Article XIID of the California Constitution require that the assessment be apportioned by a formula or method which fairly distributes the net amount among all assessable lots and parcels in proportion to the estimated benefits to be received by each lot or parcel from the Improvements. The act does not specify the method or formula that should be used to apportion the assessment in any special assessment district proceedings. The City Council has retained the firm

2. Method of Assessment Apportionment

of Albert A. Webb Associates for the purpose of assisting the City Council in making an analysis of the facts in the District and recommending to the City Council the correct apportionment of the assessment obligation.

In performing the analysis, it was necessary to identify the benefits that the improvements being financed will render to the properties within the boundaries of said District and to determine the extent to which such properties receive a direct and special benefit as distinguished from that of the general public.

Special Benefits

The property within the District will receive direct and special benefit from the maintenance of the Improvements described in Section 2 of this report. Maintenance of the parkway and reverse frontages along with the enhanced landscaped areas and recreational equipment will provide an aesthetic benefit, will directly enhance the property values within the District and provide a sense of community, and will also provide erosion and dust control, resulting in additional special benefit.

General Benefits

The Improvements are being maintained for the sole benefit and enjoyment of the parcels of property within the District and do not extend beyond the district boundaries so, therefore, the Improvements do not result in any general benefits.

Public Lands

Article XIID, which was added to the California Constitution by the passage of Proposition 218 in 1996, mandates that “parcels within a district that are owned or used by any agency, the State of California, or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.” The District includes a publicly owned parcel, which has been dedicated to the City of Riverside for a dog park. The Assessor’s Parcel Number of the park is 141-260-027-9. The dog park receives no special benefit from the improvements. Accordingly, this parcel has been assigned zero (0) EDU’s and is exempt from assessment.

Allocation of Special Benefit Assessments

There are a total of 28.2 acres of landscaping to be maintained by the District. Originally, it was determined that 17.2 acres of landscaping was the responsibility of the residential Riverwalk Development (Zone A) and 11.0 acres of landscaping was the responsibility of the non-residential development (Zone B). Subsequently, a parcel that is in Zone B has been dedicated to the City of Riverside as a dog park, which benefits only the residential development in Zone A. Therefore, 19.2 acres of landscaping is now the responsibility of the residential development (Zone A) and 9.0 acres of landscaping is now the responsibility of the non-residential development (Zone B). The residential Riverwalk Development is complete with 1,022 single-family residences and approximately 87.31 acres of non-residential development.

The total special benefit assessment for the 2016-2017 Fiscal Year will be \$324,105. The total estimated cost of the maintenance of the Improvements and the resulting total assessment of \$324,105 have been allocated between the residential Riverwalk Development (Zone A) and the non-residential property (Zone B) on the basis of the acreage of landscaping except four items of costs. It has been determined that the costs of those four items, i.e., dog park maintenance, playground equipment maintenance and repair, an annual insurance self-insurance premium and a capital replacement reserve, should be the sole responsibility of the residential Riverwalk Development (Zone A) as the non-residential property (Zone B) is not perceived to receive a special benefit from these items. Thus, 71.18 percent (\$230,697.94) of the total assessment has been allocated to Zone A and 28.82 percent (\$93,407.06) of the total assessment has been allocated to Zone B.

The special benefit assessment will be allocated to parcels within the District on an equivalent dwelling unit (EDU) basis or on an acreage basis. Each single-family residential parcel of the Riverwalk Development (Zone A) (improved, vacant, or un-subdivided) within the District will receive a similar benefit; accordingly, each existing or proposed single-family residential lot has been assessed on the basis of one (1) EDU. Landscape maintenance has been deemed to provide a special benefit to undeveloped property similar to that received by developed property. The continuing integrity of the landscaping is important in maintaining the viability of undeveloped property for potential development and sale. The non-residential property within Zone B will be assessed on an acreage basis.

2. Method of Assessment Apportionment

Should densities or land uses for future years deviate from those anticipated, the future EDU allocations and assessments will be based upon the actual uses realized. This could result in variations in future EDU totals for the District.

Future Maximum Annual Assessments

The assessment will be levied on an annual basis for as long as the landscape maintenance services are provided. The District formation established the base Fiscal Year 2002-2003 maximum annual assessment amount within a range from \$150.00 per equivalent dwelling unit (i.e., a single-family residential lot) to \$230.00 per equivalent dwelling unit for parcels of property which are or will be improved with single-family residences (i.e., Residential Property) and in an amount within a range from \$750.00 per acre to \$1,000.00 per acre for all other parcels of property (i.e., Non-Residential Property).

The ranges of the annual maximum assessment per equivalent dwelling unit (EDU) for parcels of property which are or will be improved with single-family residences (Zone A) or per acre for all other parcels of property that are not residential (Zone B), shall be increased on July 1 of each year, commencing on July 1, 2003, by an amount not to exceed an amount determined by multiplying the assessment amounts in the ranges for the preceding Fiscal Year by the percentage increase, if any, in the Consumer Price Index (CPI) Los Angeles - Riverside - Orange County (1982-84=100) of the preceding year. The base Index as of July 1, 2002 was 182.20. The below table shows the changes to the range of the maximum assessments from Fiscal Year 2002-03 to today.
