**Public Comment for September 21, 2016**  
**Cultural Heritage Board Meeting**  
**Prepared by the Planning at 2:30 p.m. on September 21, 2016**

Item	Name	Neighborhood	Position	Comments
2. PLANNING CASE P15-0552: Proposed Certificate of Appropriateness request by Cortel Inc. on behalf of Verizon Wireless to construct an unmanned telecommunication wireless facility with a 55 foot-high stealth antenna tower and a 252 square-foot equipment structure at Magnolia Presbyterian Church located at 7200 Magnolia Ave, City Landmark #4 and City Structure of Merit, in the R-1-7000-CR zone in Ward #3. It is recommended that the Cultural Heritage Board determine the proposal is categorically exempt from California Environmental Quality Act (CEQA) review pursuant to Sections 15303, because the project constitutes an installation of small new equipment and facilities in small structures. Contact Planner: Casey Tibbet (951) 826-5507, Casey.Tibbet@lsa.net	John Wright		Support	I live just 4 houses down from the proposed site for this tower. I support the installation of this on the property of Magnolia Presbyterian Church. As a resident in this neighborhood for more than 20 years, I understand that progress happens and must be allowed to happen and if done so correctly, can improve the lives of many people. With the ever growing need for wireless space in our world, I believe this will help immensely without causing harm to the neighborhood either physically, environmentally or again, if done correctly, will not hurt the looks or charm of our neighborhood. You can call me to discuss if you see the need, 951-218-8966

Contact Planner: Casey Tibbet (951) 826-5507, Casey.Tibbet@lsa.net	marshall lee		Support	I am writing in support of the proposal to install a cell tower on the property of Magnolia Presbyterian Church. The congregation and staff of the church are proposing to place the structure in an area of the property that will not impact the neighborhood. In addition, the tower is designed to look like a bell tower and is aesthetically pleasing and compatible with the church buildings and the adjacent residences and businesses. I would also like to thank the City Planning Staff for working cooperatively with Verizon and the church to develop a project that we can all be proud of.
