SCSS may immediately increase its monthly charges to reflect any increase in charges for toll free service. Customer shall pay any other telephone company toll line charges, including installation.
- D. Installation charges set forth in Article 3 assume installation will be performed during SCSS's normal working hours and using its own personnel. If Customer requests the installation or any part thereof to be performed outside ordinary business hours, or if the installation must be performed by outside contractors, or SCSS's wage rates do not apply as a result of prevailing wage requirements, or otherwise, then the installation charge will be adjusted accordingly.
- E. If any government agency requires any changes in the system originally installed, Customer agrees to pay for such changes. It is Customer's responsibility to obtain all alarm use permits required by the local jurisdiction.
- F. The prices quoted for the alarm system are based upon the number of components, type of security and service specified in the Schedule. Should Customer request or require additional protection, security devices or services, this may affect the final contract price. Cost associated with conditions not apparent at SCSS's initial survey and for delays other than caused by SCSS will be borne by Customer at SCSS's then current rates.
- G. SCSS shall charge interest at the rate of 1 ½% per month, or the maximum permitted by law, on any delinquent balance. A balance becomes delinquent thirty (30) days after payment is due under Article 3. SCSS may also, upon written notice to Customer, stop providing monitoring and maintenance services if Customer is delinquent on any payment. SCSS may charge \$25.00 for any NSF check or the maximum permitted by law.

6. Further Obligations of Customer

- A. Customer shall not tamper with, alter, adjust, add to, disturb, injure, move, remove, interconnect with other equipment or otherwise interfere with equipment installed by SCSS, nor shall Customer permit the same to be done by others. It is further agreed that Customer indemnifies and holds SCSS harmless for any claim arising out of the foregoing and that if any work is required to be performed by SCSS, due to Customer's breach of the foregoing obligations, Customer will pay SCSS for such work in accordance with SCSS's then-current prevailing charges.
- B. For those premises where SCSS is to provide monitoring, Customer shall furnish SCSS a list of the names, titles, telephone numbers and signatures of all persons authorized to enter the premises of Customer during scheduled closed periods and shall be responsible for updating such lists. In cases of supervised service, Customer shall also furnish SCSS with an authorized daily and holiday opening and closing schedule.
- C. Customer shall set the alarm system at such times as Customer shall close its premises. Customer shall test the alarm system prior to each closed period and shall immediately report to SCSS any claimed inadequacy in or failure of the system. Customer shall perform a periodic walk test of any motion detection equipment used on the premises.
- D. Customer shall permit SCSS access to the premises for any reason arising out of or in connection with SCSS's rights or obligations under this Agreement.
- E. Should any part of the system be damaged by fire, water, lightning, acts of God, third parties or any cause beyond the control of SCSS, any repairs or replacement shall be paid for by Customer (ordinary wear and tear excepted in the case of a SCSS owned system.)
- F. Any claim by Customer of improper installation or a defect in the system shall be made in writing to SCSS within thirty (30) days of installation completion. Such obligation shall not waive Customer's warranty rights under Article 4.F., Limited Warranty.
- G. Customer represents and warrants that Customer is the owner of the premises or, if not, that the owner agrees and consents to the installation of the system on the premises. Customer shall indemnify and hold SCSS harmless from any losses or damages, including attorney fees, resulting from breach of such representation and warranty, or from SCSS's inability to recover system components when Customer moves out of the premises.
- H. For those premises where SCSS is to provide central station sprinkler supervisory and water flow alarm or automatic fire alarm service, Customer warrants and agrees that all alarm valves, gate valves, pumps, compressors, inspector test connections, or other elements of the sprinkler system as now installed or to be installed, are, or will be, corrected at Customer's expense so as to be acceptable to the insurance and other authorities having jurisdiction when equipped with SCSS's signaling devices. Customer further agrees to furnish any necessary water through Customer's meter and at Customer's expense, to place hoods over any open forges or fires, and to pipe all boiler blow-offs and steam exhaust outside the premises to be protected.
- I. It is mutually agreed that the Customer assumes full responsibility for the operation of any and all bypass or switch units provided for disconnecting or reconnecting the alarm sounding and/or transmitting equipment at Customer's premises.
- J. Customer represents that, except to the extent it has given SCSS written notice prior to the execution of this Agreement, (i) the work and/or services to be performed hereunder are not subject to any Federal, State or local prevailing wage statute or regulations, and (ii) to the best of its knowledge there is no asbestos or presumed asbestos-containing material, formaldehyde or other potentially toxic or hazardous material contained within, or in, on or under any portion of any area where work will be performed under this Agreement. If such materials (whether or not disclosed by Customer) are discovered and such materials provide an unsafe or unlawful condition, such discovery shall constitute a cause beyond SCSS's reasonable control and SCSS shall not start or continue to perform its work under the contract until Customer has remedied the unsafe or unlawful condition at Customer's sole expense. Customer shall indemnify and hold SCSS and its assigns harmless from and against any and all claims, costs and expenses of any kind (including attorney's fees) for fines, penalties, back wages, bodily injury, property damage, delay or work stoppage that arises under or results from a breach of the foregoing representations (regardless of whether or not Customer disclosed such materials to SCSS). If applicable, SCSS is required to pay the general prevailing wage rates of per diem wages and overtime and holiday wages determined by the Director of the Department of Industrial Relations under Section 1720 et seq. of the California Labor Code and implemented by Resolution No. 13346 of the City Council of the City of Riverside. The Director's determination is available on-line www.dir.ca.gov/dlsr/DPreWageDetermination.htm and is referred to and made a part hereof; the wage rates therein ascertained, determined, and specified are referred to and made a part hereof as though fully set forth herein.

7. Further Obligations of SCSS; Limitations

- A. SCSS shall not be held responsible or liable for delay in installation of the system or interruption of service, due to strikes, lockouts, riots, floods, fires, lightning, acts of God or any cause beyond the control of SCSS, including interruptions in telephone service. SCSS will not be required to perform installation or supply service to Customer while any such cause shall continue.
- B. If Customer has subscribed to monitoring service, the System will be connected to SCSS's monitoring facility (the "Center"). Unless specifically requested otherwise by the Customer and approved by SCSS's Center, when a burglar alarm signal from the alarm system is received, the Center will first try to telephone Customer's premises, and if there is no answer then will try to telephone the first

available person on Customer's emergency call list, to verify whether or not an emergency condition requiring police response exists. If there is no answer to both of these calls or the person contacted indicates that an emergency exists, the Center will attempt to notify the police department. The Center will also attempt to contact someone on the emergency call list to advise them that the police have been notified. When a fire alarm, hold-up alarm or duress alarm signal is received, the Center will attempt to notify the police or fire department or other emergency personnel and the first available person on the emergency call list. When a non-emergency signal is received, the Center will attempt to contact the premises or the first available person on the emergency call list but will not notify emergency authorities. The Center may choose not to notify emergency personnel if it has reason to believe that an emergency condition does not exist. SCSS and Customer are obligated to comply with all notification and response requirements imposed by governmental agencies having jurisdiction over the system. SCSS reserves the right to discontinue or change any particular response service due to such governmental or insurance requirements without notice. Customer consents to the tape and video recording of telephonic and video communications between Customer's premises and SCSS, and will inform its employees and third parties that such recordings are authorized. If Customer's police or fire department now or in the future requires physical or visual verification of an emergency condition before responding to a request for assistance, Customer agrees to subscribe to such service if provided by SCSS, or otherwise comply with such requirements, and an additional fee may apply for such services.

- C. If video equipment is installed, it may be integrated into the system and, upon activation, will send a video transmission to the Center. The Center will first attempt to verify the nature of the emergency by viewing the video. If the Center determines that an emergency condition exists, it will try to first telephone the premises, if available, and report the emergency condition. If there is no answer or the person answering confirms the emergency condition, then, based upon the nature of the emergency condition, the Center will notify the proper police or fire department or other emergency personnel, and the next available person on the emergency call list. If the Center determines that an emergency condition does not exist or the video is inconclusive, the Center will use the notification procedures set forth in paragraph 7B above.
- D. Customer understands that, if the system installed is monitored, due to the nature of the method used for communicating alarm signals to SCSS's monitoring center, there may be times when that communication method is not able to transmit signals and SCSS will not receive alarm signals. Digital communicators use standard telephone lines and SCSS does not receive signals when the telephone system becomes non-operational or the telephone line is placed on vacation status, cut, interfered with or otherwise damaged. There will be times when any radio frequency method, such as cellular, public or private radio systems or Internet based service, cannot transmit an alarm signal due to lack of signal strength, network congestion, or availability of a communications channel. Similarly, any other type of communication method installed under this Agreement also can experience an inability to communicate alarm signals. Customer understands that SCSS offers several levels of communication methods of alarm signals to the monitoring center and that the Services described on the front page of this Agreement and on the Schedule of Service and Protection have been chosen by Customer after considering and balancing the levels of protection afforded by various communication methods and the related costs. Customer acknowledges and agrees that Customer is solely responsible for the selection of the type of communication method and whether the utilization of more than one communication method is required. Communications networks provided by independent carriers or providers are wholly beyond SCSS's control and are maintained and serviced, solely by the applicable carrier or provider. Customer agrees to reimburse SCSS for any costs incurred to reprogram the communicator because of area code changes or other dialing pattern changes. If telephone service is used, the use of DSL or other broadband telephone service may prevent the system from transmitting alarm signals to the monitoring center and/or interfere with the telephone line-seizure feature of the system. Such services should be installed on a telephone number that is not used for alarm signal transmission. Customer agrees to notify SCSS if Customer has installed or intends to install DSL or other broadband service. IMMEDIATELY AFTER THE INSTALLATION OF DSL OR OTHER BROADBAND SERVICE, THE SYSTEM'S SIGNAL TRANSMISSION MUST BE TESTED WITH THE MONITORING CENTER.
- E. For those premises with a direct connection to the police, fire department or other agency, it is mutually understood and agreed that signals transmitted hereunder will be monitored in police and/or fire departments or other agencies, and that the personnel of such police and/or fire departments or other agencies are not SCSS's agents nor does SCSS assume any responsibility for the manner in which such signals are monitored or the response, if any, to such signals.
- F. SCSS shall not be responsible for the replacement of equipment or parts no longer commercially available to SCSS.
- G. If an Access Control Preventative Maintenance or Software Support option is selected by Customer, SCSS will provide and install software upgrades as they become commercially available, during normal SCSS working hours. Software upgrades that do not affect the Customer's current operations, as solely determined by SCSS and the OEM, will not be installed by SCSS. In the event the Customer elects to have someone other than SCSS install the software upgrade, the Customer shall assume any and all liability for any damage caused pursuant to the installation. Service and upgrades for third party software not supplied by SCSS are excluded from this agreement.

8. Title to the SCSS System; Proprietary Protection

- A. SCSS System shall at all times remain solely the property of SCSS, or its assignee and Customer agrees not to permit the attachment thereto of any equipment not furnished by SCSS. It is further understood and agreed that SCSS shall remove or abandon all or any part of the SCSS System, including all wiring installed by SCSS, upon termination of the Agreement by lapse of time, default of any monies due hereunder, or otherwise without any obligation to repair or redecorate any portion of the protected premises, provided that such removal or abandonment shall not be held to constitute a waiver of the right of SCSS, or its assignee, to collect any charges which have accrued hereunder. Customer shall keep all SCSS owned equipment at all times free and clear from all liens, claims, levies, encumbrances, security interests and processes, of any nature whatsoever. Customer shall give SCSS immediate notice of any such attachment or other judicial process affecting any of the equipment. Without SCSS's written permission, Customer shall not attempt to or actually: (i) pledge, lend, create a security interest in, sublet, exchange, trade, assign, swap, use for an allowance or credit or otherwise; (ii) allow another to use; (iii) part with possession; (iv) dispose of; or (v) remove from the location of installation, any item of equipment. If any item of equipment is exchanged, assigned, traded, swapped, used for an allowance or credit or otherwise to acquire new or different equipment (the new equipment) without SCSS's prior written consent, then all of the new equipment shall become equipment owned by SCSS subject to this Agreement and the applicable Schedule.
- B. Any computer application program and/or documentation, collectively referred to as "Software", that is provided by SCSS under this Agreement for a Sold System or a SCSS System, is owned by SCSS, its affiliates or one of its OEMs and is protected by United States and international copyright laws and international treaty provisions. Any breach of this Agreement will automatically terminate the Customer's right to use this Software, and the Customer is obligated to immediately return such Software to SCSS. Customer may not copy the Software for any reason other than per the dictates of any end user software license agreement. Customer may not reverse-engineer, disassemble, decompile or attempt to discover the source code of any Software. Customer acknowledges that any breach of this section shall result in irreparable injury to SCSS for which the amount of damages would be unascertainable. Therefore, SCSS may, in addition to pursuing any and all remedies provided by law, obtain an injunction against Customer from any court having jurisdiction, restraining any violation of this section.

9. Termination

- A. SCSS may terminate this Agreement immediately upon written notice:
- In the event Customer defaults in the performance of any of the terms and conditions of this Agreement, including the failure to make any payment as agreed herein, in which case the balance of all monies due and for the unexpired term of this Agreement shall become immediately due and payable; or
 - In the event SCSS's Customer Service Center, the telephone lines, wires or SCSS's equipment within Customer premises are destroyed or so substantially damaged that it is commercially impractical to continue service to Customer's premises; or
 - As provided in Article 2 relating to expiration.
- B. Customer may terminate the Agreement:
- Immediately upon written notice, in the event Customer's premises are, by any cause beyond the control of the Customer, destroyed or so substantially damaged that it is commercially impractical for Customer to continue any operations at such premises; provided that if the Customer is using SCSS-owned equipment, the Customer must pay SCSS all payments remaining to be made under this Agreement through its scheduled expiration; or
 - As provided in Article 2 relating to expiration and Article 3(A) relating to price increases.
- C. Upon termination of this Agreement, Customer shall permit SCSS access to Customer's premises in order to deactivate the telephone line signaling device and/or to remove the System pursuant to Article 8.

10. Assignment

This Agreement is not assignable by the Customer except upon written consent of SCSS first being obtained. SCSS shall have the right to assign this Agreement, or to subcontract any of its obligations under this Agreement, without notice to, or consent of, the Customer.

11. Insurance and Waiver of Subrogation

Customer does hereby for itself and other parties claiming under it release and discharge SCSS from and against all claims arising from hazards covered by Customer's insurance, it being expressly agreed and understood that no insurance company or insurer will have any right of subrogation against SCSS.

12. Severability and Savings

In the event any one or more of the provisions of this Agreement shall for any reason be held to be invalid, void, illegal, or unenforceable by any court, arbitrator, or governmental agency, the remaining provisions of this Agreement shall remain in full force and effect, and the invalid, void, illegal, and/or unenforceable provision(s) shall survive to the extent not so held.

13. Trial by Jury

Unless prohibited by law, both parties to this Agreement, knowingly, voluntarily and intentionally waive any right they may have to a trial by jury in respect of any litigation arising out of, under, in connection with, or relating to this Agreement.

14. Choice of Law

This Agreement is entered into in the State of California and shall be interpreted, enforced and governed under the laws of the State of California without regard to application of conflicts of laws principles that would require the application of any other law.

15. Entire Agreement

It is agreed to and understood by the parties that this Agreement, including the provisions of Article 4 and on the attached Schedule, constitutes the entire Agreement between the parties, and supersedes and replaces all other prior understandings or agreements, whether oral or written, relating to the premises covered by this Agreement. This Agreement may not be changed, modified or varied except in writing, signed by an authorized representative of SCSS. It is understood and agreed by and between the parties hereto, that the terms and conditions of this Agreement shall govern notwithstanding any additional or inconsistent terms or conditions contained in any purchase order or other document submitted by Customer. This Agreement shall not become binding on SCSS until approved and accepted by SCSS or SCSS begins the installation or services as provided below. Customer hereby acknowledges that he/she has read this entire Agreement and agrees to be bound by all its terms and conditions.
