Residential Electric Rebate Programs:

1. Energy Star Appliances – Rebates for purchase of Energy Star rated refrigerators, dishwashers, clothes washers, room air conditioners, ceiling fans and televisions.
2. Cool Cash – Rebates for replacing Central Air Conditioners and with a SEER rating of 15 above.
3. Tree Power – Rebates for purchasing and planting up to 5 qualifying shade trees per year and 1 free qualifying shade tree coupon printed on the March back of bill.
4. Pool Saver – Rebates for purchase and installation of high efficiency, variable speed or multi-flow pool pump motors.
5. Weatherization – Rebates for installing attic insulation or wall insulation, standard rebates for duct replacement, duct testing/sealing, window film, solar and standard attic fans, whole house fans and cool roofs.
6. Appliance Recycling – Free recycling service for old inefficient refrigerators and freezers.
7. Whose House Rebate Program – Rebates for completing multiple energy efficiency measures as one project. Points are awarded for each type of measure and then multipliers are given at specific point intervals on a sliding scale to encourage implementation of multiple energy efficiency measures as one project under one application.
8. Multi-family and Mobile Home Direct Installation – This program offers multi-family and mobile home residents the direct installation of a specific list of measures including HVAC tune-ups, lighting efficiency upgrades, weatherization and Tier 2 advanced power strips. The program also addresses energy efficiency measures in multi-family and mobile home park common areas.
9. Energy Savings Assistance Program (ESAP) - The Energy Savings Assistance Program (ESAP) is a direct installation program targeted specifically to low income RPU SHARE customers. The program is offered in partnership and cooperation with The Southern California Gas Company. Measures include lighting efficiency upgrades, HVAC tune-ups, smart power strips, a new energy efficient refrigerator and refrigerator recycling. In FY 15/16 a total of 660 customers received these services to help reduce their electric consumption. The ESAP program has collectively saved 30,200 kWh annually during the FY 15/16.
10. SHARE – This program credits up to \$150 toward electric deposit or bill payment assistance for qualified low-income applicants annually. In FY 13/14, RPU served over 5700 low income customers through the SHARE program for a total of \$860,000 in Public Benefit Funds credited to low income families for bill payment assistance.
11. GreenLite LED Retail Buy-down Program – This program was created in FY 14/15 and implemented in FY 15/16. RPU uses Public Benefit Funding to contract with GreenLite to buydown the retail cost of certain LED bulbs at participating local retailers to incentivize customers to purchase and install these high efficiency lighting products in their homes and businesses.
