COME RAIN OR SHINE!

A Working Clinic and Fair Free to all Riverside Residents - First Come -First Served!

Conveniently located on University Ave at Kansas Avenue – South on University Ave off the 91 Fwy. Parking on site is limited. It is located on RT. One Bus Line of the RTA, which connects with all the other bus lines thru out the area.

Free DENTAL Treatments!
 Free Vision Screening and Eyeglasses! Free Medical Exams! Free Flu Shots! STD Screening and Hep. C Testing! Hearing Tests! Haircuts and much more!

Using the Power of Partnerships!

Early in the morning long lines begin to form. LULAC started the Health Fair in 2011 at the height of the “Great Recession”. Despite an improved economy demand is high because large numbers of people aren’t covered for their dental or vision needs.

Because of the “Power of Partnerships”, if people arrive early enough, often they can access more than one service. But before they receive any, they all have their blood pressure and glucose checked.

Our partner “The Flying Doctors” along with local volunteer dentists and Loma Linda Dental School provide on the spot dental treatments and cleaning. This year with the commitment of at least 24 chairs, we expect to treat even more. Please spread the word! It’s free!

The Flying Doctors have been helping our community since 2011. They helped us when we had our first clinic at RCC when they had 7 chairs and have been our partner ever since. From teeth extraction, to fillings, teeth cleaning it’s a working dental clinic.

Another Partner "RIVERSIDE UNIVERSITY HEALTH SYSTEMS" provide medical exams and screenings for hundreds of residents. They are giving free flu shots and have mental health counselors on sight for counseling. Working with the University Health Systems the Riverside County Department of Public Health provides free STD/HIV testing. This year they have added Hep. C testing which is now advertised as being a test that all Baby Boomers should have.

display than with our partnership with the California Lions Friends In Sight. Each Year they screen, prescribe and dispense free glasses for over 500 people.

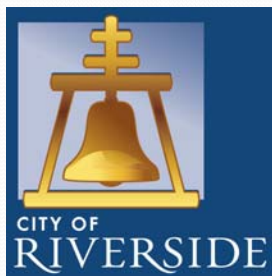

Our partnerships continue! Free Hearing Screenings are provided by Ears 4 Me. Last year another partner “Salon Success Academy” provided over 250 free haircuts.

The Power of Partnerships start with the numerous meetings the Health Fair Committee have- The students who are in charge of the dozens of volunteers- the volunteers from professional schools who help with the dental to the members of LULAC who help register and provide translation services if necessary. To the radio station KGGI that helps promote the clinic and shows up in the morning to provide coffee and music to the attendees. To the union IBEW Local #47 ,who provide the back up generator for the gym and volunteers. To the many members and students from Riverside(UCR, RCC Riverside High Schools) and Loma Linda- to the fraternities who help with setup and takedown. To the local firms who provide oranges and water to the attendees.

Not to forget the wonderful help and cooperation of the City of Riverside – Parks of Recreation and Services who help make this possible for the citizens of Riverside!

WeLoveRiverside!

That's why we know that everyone! Yes, we mean everyone - no matter what their social position in life, knows someone who is in need and could use at least use one service. They have a friend, a friend of a friend, a relative, a neighbor an employee or a fellow employee. All they have to do is show up. It's Free!!!

YES IT TAKES A VILLAGE ! Riverside LULAC COUNCIL 3190 THANKS all its Partners, Sponsors, Volunteers and Vendors and Invites one and all to the 6th Annual LULAC Community Health Fair!
