Consultant agrees to provide this defense immediately upon written notice from the City, and with well qualified, adequately insured and experienced legal counsel acceptable to City. This obligation to defend as set forth herein is binding on the successors, assigns and heirs of Consultant and shall survive the termination of Consultant's Services under this Agreement.

Prior to the City's execution of this Agreement, Consultant shall provide satisfactory evidence of, and shall thereafter maintain during the term of this Agreement, such insurance policies and coverages in the types, limits, forms and ratings required herein. The rating and required insurance policies and coverages may be modified in writing by the City's Risk Manager or City Attorney, or a designee, unless such modification is prohibited by law.

12.1.1 Limitations. These minimum amounts of coverage shall not constitute any limitation or cap on Consultant's indemnification obligations under Section 11 hereof.

12.1.2 Ratings. Any insurance policy or coverage provided by Consultant or subcontractors as required by this Agreement shall be deemed inadequate and a material breach of this Agreement, unless such policy or coverage is issued by insurance companies authorized to transact insurance business in the State of California with a policy holder's rating of A or higher and a Financial Class of VII or higher.

Any certificate filed with City shall provide that City will be given ten (10) days' prior written notice before modification or cancellation thereof.

Said policies shall be in the usual form of commercial general and automobile liability insurance policies, but shall include the following provisions:

It is agreed that the City of Riverside, and its officers, employees and agents, are added as additional insureds under this policy, solely for work done by and on behalf of the named insured for the City of Riverside.

SCOPE OF WORK

Scope of Work

Our general scope of services will include Potholing Services in accordance with the requests and as directed by our client, project professional and/or other entity designated by our client. C Below has reviewed and adheres to all requirements as outlined in the RFP. All potholes will be clearly documented with the information to the top and bottom of the utility and encasements as needed. C Below will trench as necessary to expose and document the top and bottom of encasements as well.

A color pothole report as well as an electronic copy will be provided to the City of Riverside within 4 days of the completion date.

In addition, C Below will mark all locations with a PK nail, as well as provide swing tie information to the pothole location to 3 above ground features. (See sample pothole report in the Appendix)

POTHOLING

C Below will obtain a ne fee permit from the City prior to starting any potholing work.

C Below will provide potholing services with the intent to supply positive horizontal and vertical location of a known utility. Specific pothole locations should be provided by the client unless C below has been retained for locating services. A standard pothole is defined as 1'X 1' X 5' deep or to the depth anticipated on the potholing exhibit provided in the RFP. Deviations from the standard pothole dimensions to locate a utility require additional time and material to facilitate. Please refer to the attached fee schedule for the appropriate billing rate. After documenting our findings, each pothole will be backfilled, compacted, and patched to the city standard 453 or 454.

A potholing report complete with photographs will be provided at the conclusion of the job documenting the location, utility found, depth to the top and bottom of the pipe, utility size, material and the soil conditions. If no utility is found within the predetermined depth of the pothole, it will be considered a "Dry Hole." Additional holes may be necessary to provide a positive location of the utility.

Standard pothole pricing includes holes at locations with a soil surface or an asphalt surface up to 6-inches thick. Additional fees will apply if the asphalt surface is over 6 inches thick or the proposed hole location has a concrete surface. If during the potholing operation the soil is found to have large aggregate or other debris over 3-inches in diameter, ground water, roots, or hazardous materials, additional fees will apply. See rate sheet for "Out of Scope Hole."
