

# UTILITY UPDATE

RIVERSIDE PUBLIC UTILITIES

**SUBJECT: UTILITY NOTIFICATION**

**Project: City-wide Street Light LED Conversion Program – Pilot Site No. 15**

**Work Order: Work Order 1719548**

Dear Customer:

Riverside Public Utilities is planning to upgrade the current streetlight system on your block. We expect construction to begin on Monday, August 27 and to be completed by Friday, August 31, 2018. Construction will take place in the middle of the night, beginning after midnight and ending before 10:00 a.m. All construction will take place on the street to replace less energy efficient streetlights with LED streetlights. The style of your streetlight fixtures will stay the same, we are just replacing the luminaire (light bulb).

The project area is on Beatty Drive between Palm Avenue and Brockton Avenue. The new LED luminaires will include three color options (all variations of white, ranging from cool to warm) to allow you, the Cultural Heritage Board and Historic Preservation staff to select the right color to enhance the historic character of the neighborhood. Your feedback is important and will be considered when selecting the color for future decorative street light conversions in Historic Districts and Neighborhood Conservation areas. Please refer to the map on the back of this letter, which depicts the streetlights to be converted and the color to be used in each area. We would appreciate your feedback and comments, please contact our Call Center at 951-826-5311, or go to our web page at <http://www.riversidepublicutilities.com/led>

Riverside Public Utilities values safety, efficiency, reliability, and customer satisfaction. We are designing LED luminaire conversions for all of the street lights in our system in a manner that maintains the historical integrity of the Historic Districts and Neighborhood Conservation Areas, and also uses the latest LED technology for energy efficiency and long service life. In addition, the new streetlight luminaires will improve street lighting levels which will serve to improve security in your neighborhood.

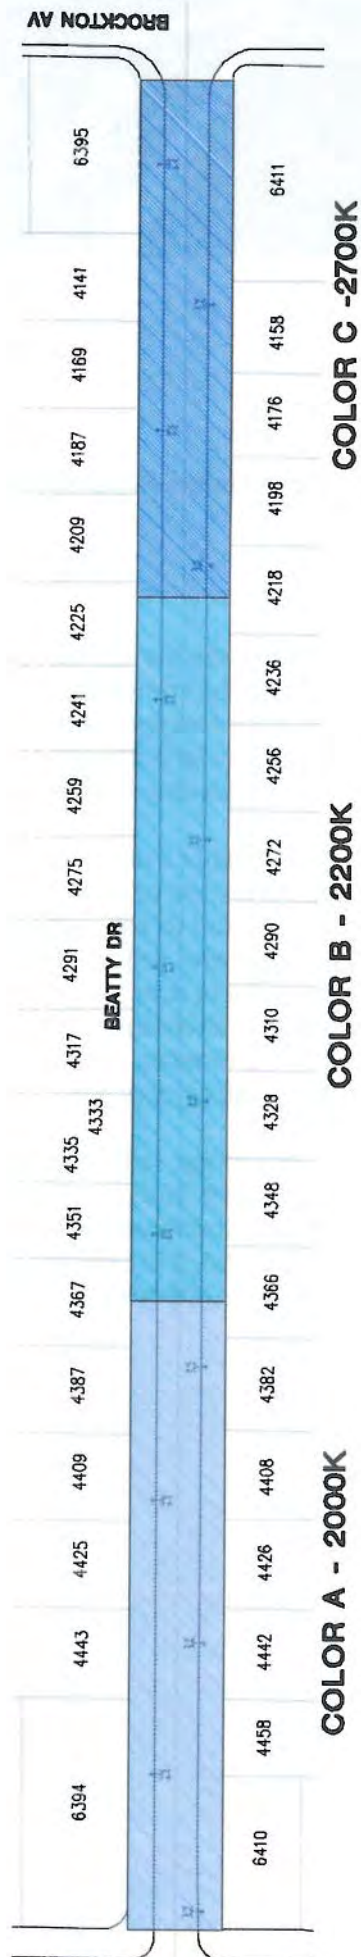

Sincerely,

A handwritten signature in blue ink that reads "Stephen E. Lafond".

Stephen E. Lafond

# UTILITY UPDATE

RIVERSIDE PUBLIC UTILITIES

**SUBJECT: UTILITY NOTIFICATION**

**Project: City-wide Street Light LED Conversion Program – Pilot Site No. 15**

**Work Order: Work Order 1719548**

Dear Customer:

Riverside Public Utilities completed the conversion of the street lights on your block to energy efficient LED streetlights on Monday, September 5, 2018. We have received feedback from a few residents, but would like to hear back from more of you this month.

The project area is on Beatty Drive between Palm Avenue and Brockton Avenue. The new LED luminaires (lightbulbs) include three color options, all variations of white, ranging from cool to warm. We have installed these choices to allow you, the Cultural Heritage Board and Historic Preservation staff to select the right color to enhance the historic character of your neighborhood. In addition, the new streetlight luminaires will improve street lighting levels and security in your neighborhood.

Your feedback is important to us and will be considered when selecting the color for future decorative streetlights in Historic Districts and Neighborhood Conservation areas. Please refer to the map on the back of this letter, which shows which streetlights were converted and the color used in each area. To share your feedback and comments, please contact our Call Center at 951-826-5311, or go to our feedback form at [RiversidePublicUtilities.com/led](http://RiversidePublicUtilities.com/led)

Riverside Public Utilities values safety, efficiency, reliability, and customer satisfaction. We are designing LED luminaire conversions for all of the streetlights in our system in a manner that maintains the historical integrity of the Historic Districts and Neighborhood Conservation Areas, and uses the latest LED technology for energy efficiency and long service life.

Sincerely,

A handwritten signature in black ink, reading 'Stephen E. Lafond', is written over a light blue horizontal line.

Stephen E. Lafond  
Principal Engineer

|             |            |                 |              | I've spent some time at night looking at all the lamps on our block between Brockton Ave. and Palm Ave.   I prefer the lower temp lights. They are not glaring and appear more appropriate for this Historical District.   Submitted: 9/29/2018 9:16:35 AM for LED FeedbackI prefer the lowest temperature bulb. As the temperature goes up, the starkness and glare becomes increasingly unpleasant. |
