Section 35: Section 17.08.150 of the Riverside Municipal Code is hereby amended as follows:

"Average natural slope" is the slope determined pursuant to the City of Riverside's adopted Average Natural Slope Formula specified in Section 19.100.050 of this Code, as follows: 'Average Natural Slope' means the average natural inclination of the ground surface of a lot or parcel expressed as a percent and as measured by the following formula:

$$S = \frac{(0.002296 \times I \times L)}{A}$$

Where: S=average natural slope in percent
I=natural contour interval in feet
L=length of natural contours in feet
A=acres of property (parcel of record existing on November 13, 1979)
0.002296=constant which converts square feet into acres and expresses slope in percent.

The average natural slope shall be computed from photogrammetric maps, grading permit plans and other data or evidence approved by the Public Works Department."

Section 36: Section 17.28.020(A)(6), (9), (10) and (14a.) of the Riverside Municipal Code is hereby amended as follows:

"The following supplementary regulations shall apply to the grading of hillsides and arroyos.

///

1 A. . . .

2 6. The area of a site proposed to be graded shall be that which fits into the natural terrain and
3 which allows for a minimal amount of grading. The ungraded area must be left in its natural
4 form for the remainder of the site. No native vegetation shall be removed and no non-native
5 vegetation shall be introduced or allowed within hillside areas not included as part of the
6 graded pad area. The Community & Economic Development Director shall be responsible to
7 determine the precise boundaries of the non-graded area to be retained as natural open space
8 and an open space easement shall be recorded over this area. Portions of the non-graded area
9 may be excluded from the natural open space easement by the Community & Economic
10 Development Director based on factors specific to each lot, including whether the area is
11 isolated from a meaningful area of contiguous open space and the absence of unique
12 topographical or geological features. The intent of this provision is to create significant areas
13 of contiguous open space and not to create small, isolated areas of open space. No change to
14 the boundaries of the area determined to be placed in natural open space by Community &
15 Economic Development Director shall be made unless the Planning Commission determines
16 that exceptional or special circumstances addressed in Chapter 17.32 Conditional Exceptions
17 apply.

18 . . .

19 9. Pad sizes for single family residential development shall be limited as follows:

20 Under ten percent average natural slope within the area to be graded - No limit

21 Ten percent to 15 percent average natural slope within the area to be graded - 27,000 square
22 feet

23 Fifteen percent to 30 percent average natural slope within the area to be graded - 21,000
24 square feet

25 Thirty percent to 40 percent average natural slope within the area to be graded - 18,000
26 square feet

27 Over 40 percent average natural slope - no grading per 17.28.020 A. 12.

28 The Community & Economic Development Director shall have the authority to increase or
decrease the pad size category by up to 25 percent without a grading exception depending on
the sensitivity of the site. Sensitivity shall be determined by such factors as the pad's visibility
from the public right-of-way, its location on a ridgeline, the presence of habitat for sensitive
species including rare, threatened, or endangered species, or the presence of unique
topographic features such as knolls, valleys, rock outcroppings or other features or viewsapes.
(Level padded area defined as area that is at a slope ratio of 5:1 or flatter).

10 Slopes having a ratio of 3.9:1 or steeper shall not exceed 20 feet in vertical height. Slopes
having a 4:1 or flatter ratio may be up to 25 feet in vertical height. The Community &
Economic Development Director shall have the authority to increase vertical slope height by
up to 25 percent without a grading exception depending on the sensitivity of the site. Sensitivity
shall be determined by such factors as the slope's visibility from the public right-of-way, its

location on a ridge line, the presence of habitat for sensitive species including rare, threatened, or endangered species, or the presence of unique topographic features such as knolls, valleys, rock outcroppings or other features or viewsapes. (Level padded area defined as area that is at a slope ratio of 5:1 or flatter).

...

14. Arroyo grading.

a. No development or grading of any kind shall be permitted within 50 feet of the limits of the Mockingbird Canyon, Woodcrest, Prenda, Alessandro, Tequesquite, or Springbrook Arroyos and associated tributaries as shown on Exhibits A-F. The Community & Economic Development Director shall have the authority to administratively allow grading within designated arroyo tributaries depending on the sensitivity of the area. Sensitivity shall be determined by such factors as the presence of riparian vegetation, habitat for rare or endangered species, significant rock outcroppings or other unique topographic features on the property proposed to be graded or in nearby segments of the same tributary.

...”

Section 37: Section 17.32.010 of the Riverside Municipal Code is hereby amended as follows:

“*Generally.* Conditional exceptions to the regulations contained in this chapter shall be permitted upon a finding by the Community & Economic Development Director that exceptional or special circumstances apply to the property. Such exceptional or special circumstances shall include such characteristics as unusual lot size, shape, or topography, drainage problems, or the impracticability of employing a conforming grading plan, by reason of prior existing recorded subdivisions or other characteristics of contiguous properties.”

Section 38: Section 17.32.030 of the Riverside Municipal Code is hereby amended as follows:

“If at any time the Community & Economic Development Director believes that sufficient controversy or public interest may exist regarding a waiver application the waiver may be referred to Planning Commission for disposition. The Planning Commission may set the action for review at a public hearing if they so determine that it would be appropriate.”

Section 39: Section 17.32.050 of the Riverside Municipal Code is hereby amended as follows:

“In determining whether to grant or deny the application for exception to the requirements of this title, the Community & Economic Development Director or Planning Commission shall consider the property characteristics, comments received from surrounding property owners, the community, or other persons, hardships on the applicant, and any other adverse impacts imposed by the regulations contained in this title in its determination of findings of fact to support its decision concerning the request for exception.”

1 Section 40: Section 18.030.020 of the Riverside Municipal Code is hereby amended as
2 follows:

3 “All maps approved pursuant to the provisions of this title shall conform with the City's Zoning
4 Code (Title 19 of this Code) with respect to the uses of land, lot sizes and dimensions, and
5 other applicable regulations.

6 Pursuant to the Land Use Element of the General Plan and Title 19 (19.780.050) the Planning
7 Commission shall determine the base number of dwelling units allowable in a Planned
8 Residential Development (PRD) based on benchmark densities for the underlying zone in
9 which the project is located. Benchmark densities for a PRD by zone are shown in Table
10 19.780.050.B. The minimum standards for a project to qualify for a PRD with the benchmark
11 density are that it be adequately served by public infrastructure, including good access to public
12 and private services, and that the site is well designed with desirable amenities in accordance
13 with adopted Citywide Design Guidelines and in accordance with City Codes (Note:
14 Compliance with City Codes allows for granting of variances in certain instances.) In order for
15 a project to qualify as a PRD it must meet these minimum benchmark density requirements. In
16 the case of PRD's in the RC Zone, the following additional criteria apply to qualifying for the
17 benchmark density:

18 A. Retention of unique natural features, including arroyos, hillsides and rock outcroppings, in
19 natural open space areas or otherwise as part of the project. B. Placement of buildings
20 demonstrating sensitivity to the natural topographic and habitat features of the site, including
21 clustering of homes in order to preserve such natural features and valuable natural open space,
22 both for wildlife habitat and visual aesthetic purposes.”

23 Section 41: Section 18.050.010(B) of the Riverside Municipal Code is hereby amended as
24 follows:

25 “B. The Community & Economic Development Director is hereby designated as the advisory
26 and/or approving agency for those proceedings authorized pursuant to Chapters 18.080.040
27 Tentative Parcel Maps, of this title.”

28 Section 42: Section 18.060.060 of the Riverside Municipal Code is hereby amended as
follows:

 “The City Council of Riverside, hereinafter referred to as the City Council, is designated the
appeal board charged with the duty of hearing and making determinations upon appeals with
respect to divisions of real property, the imposition of requirements or conditions thereon, or
the kinds, nature and extent of the design or improvements, or both, recommended or decided
by the Planning Commission to be required. The Planning Commission shall serve as the
appeal board for decisions of the Community & Economic Development Director relative to
this title.”

Section 43: Section 18.060.020 of the Riverside Municipal Code is hereby amended as
follows:

1 “If ambiguity arises concerning the meaning or applicability of any provision of this
2 Subdivision Code, the Community & Economic Development Director shall have the
3 responsibility to review pertinent facts, determine the intent of the provision and to issue an
4 administrative interpretation.”

5 Section 44: Section 18.060.030(D) of the Riverside Municipal Code is hereby amended as
6 follows:

7 “D. *Intent.* Whenever there is any question regarding the interpretation of the provisions of
8 this title or their application to any specific case or situation, the Community & Economic
9 Development Director shall interpret the intent of this title. The Community & Economic
10 Development Director shall have the authority to forward to the Planning Commission any
11 question regarding interpretation.”

12 Section 45: Section 18.060.040 of the Riverside Municipal Code is hereby amended as
13 follows:

14 “A. Once the Community & Economic Development Director has identified the ambiguity and
15 considered relevant information, an official interpretation of this title shall be established in
16 writing and shall cite the provisions being interpreted, together with an explanation of the
17 meaning or applicability of the provision(s) in the particular or general circumstances that
18 caused the need for interpretation.

19 B. Any provision determined by the Community & Economic Development Director to be
20 ambiguous pursuant to this chapter shall be clarified by amendment as soon as is practical.”

21 Section 46: Section 18.070.050 of the Riverside Municipal Code is hereby amended as
22 follows:

23 “ A. *Notice of intention.* Upon determination that real property has been divided in violation
24 of the provisions of the Subdivision Map Act or this title and an application is not pending for
25 a Certificate of Compliance pursuant to Chapter 18.120 Certificates of Compliance, the
26 Community & Economic Development Director shall cause to be mailed by certified mail to
27 the then current owner of record of the property a notice of intention to record a notice of
28 violation, describing the real property in detail, naming the owners, and stating that an
opportunity will be given to the owner to present evidence. The notice shall specify a time,
date and place for a meeting of the Planning Commission at which the owner may present
evidence to the Planning Commission why the notice should not be recorded. The notice shall
also contain a description of the violations and the explanation as to why the subject parcel is
not lawful. The date set for the meeting before the Planning Commission shall be no sooner
than 30 days and no later than 60 days from the date of mailing of the notice of intention.

B. *Planning commission meeting; notice of violation.* If at the scheduled hearing, the owner of
the real property fails to object to recording the notice of violation, the Planning Commission
shall direct the recording of the notice of violation with the County Recorder. If, after the owner
has presented evidence, it is determined that there has been no violation, the Community &
Economic Development Director shall mail a clearance letter to the then current owner of
record. If, however, after the owner has presented evidence, the Planning Commission

determines that the property has in fact been illegally divided, the Planning Commission shall direct the recording of the notice of violation with the Riverside County Recorder. The notice of violation, when recorded, shall be deemed to be constructive notice of the violation to all successors in interest in such property.”

Section 47: Section 18.080.95 of the Riverside Municipal Code is hereby amended as follows:

“If a map is proposed to be constructed in phases, the proposed phasing schedule is subject to approval by the Community & Economic Development Director. Upon approval, the phasing map shall be distributed to the Public Works and Public Utilities departments.”

Section 48: Section 18130.020(B) of the Riverside Municipal Code is hereby amended as follows:

“B. *Discretionary administrative maps, permits and actions not requiring a public hearing.* The Zoning Administrator, acting as the advisory agency, has primary administrative approving authority over maps, permits and actions which require the determination of compliance with applicable subdivision provisions and the application of judgment to a given set of facts. No public hearing is required for administrative maps, permits and actions unless the decision is appealed in accordance with provisions of Chapter 18.170 Appeals. Table 18.140.040 Approving and Appeal Authority describes the various administrative permits which can be approved by the Community & Economic Development Director.”

Section 49: Section 18.140.040 of the Riverside Municipal Code is hereby amended as set forth in Exhibit “A” attached hereto and incorporated herein by reference.

12 any encumbrances and such other data and information as may be prescribed by the Planning
13 Division. Any application for property in the Residential Conservation (RC) Zone shall be
14 accompanied by a topographical map, a proposed grading plan and a proposed development
15 plan unless waived by the Community & Economic Development Director.”

16 Section 52: Section 18.150.060(A) of the Riverside Municipal Code is hereby amended as
17 follows:

18 “A. *Waste discharge.* The Planning Commission or Community & Economic Development
19 Director shall also determine whether the discharge of waste from the proposed subdivision or
20 permit into the existing community sewer system would result in violation of existing
21 requirements prescribed by the California Regional Water Quality Control Board Santa Ana
22 Region pursuant to Division 7 (commencing with Section 13000) of the Water Code. In the
23 event the Planning Commission finds that the proposed waste discharge would result in or add
24 to violation of requirements of such board, it may disapprove the tentative maps of the
