Subject: [External] Re: Suggested Addition

Good morning Nancy:

Please direct this to the appropriate individuals.

At a future meeting, can we get an overview of the current rules concerning the circumstances under which the City can assume debt; whether the charter can be amended to limit the City's ability to do so; what the pros and cons are of such a move, etc.

Additionally, will we be hearing from the chair of the Budget Engagement Committee on the scope of their charter and whether it should be expanded to include the review of other financial commitments of the City.

Thank you.
