

TRANSITIONAL WATER SERVICE AGREEMENT

OLIVEWOOD MEMORIAL PARK

1. **PARTIES.** This Transitional Water Service Agreement is made and entered into this _____ day of _____, 20__ by and between **Olivewood Memorial Park, a California nonprofit corporation** ("Customer"), and the **City of Riverside, a California charter city and municipal corporation organized and existing under the laws of the State of California** ("City"), each hereinafter sometimes referred to individually as "Party" and collectively as "Parties."

2. **RECITALS.** This Agreement is made with reference to the following facts, among others:

2.1 Customer is a nonprofit corporation operating a cemetery within the City and is a current customer for water service at the Schedule WA-7 rate, "Special Metered Services."

2.2 City operates a municipal utility providing retail water service to entities located within and outside of its service territory.

2.3 City, through its Public Utilities Department, supplies potable water for commercial uses to Customer.

2.4 On May 22, 2018, the City adopted a five-year water rate plan effective July 1, 2018. As part of that process, the City undertook a cost-of-service study and determined that the City was not adequately collecting from customers all costs for service under Schedule WA-7. In response, the City created the Schedule WA-11 rate, "Landscape Irrigation Metered Service" which will increase Customer's charges for water service. Customer is required to transition to the Schedule WA-11 rate or Schedule WA-6 rate, "Commercial and Industrial Metered Service," depending on applicability.

2.5 Alternatively, Customer has the option to transition to Schedule WA-10, Recycled Water Service, which was revised in the adopted five-year water rate plan. Customer desires to transition to the revised Schedule WA-10.

2.6 The City and Customer desire to enter into this Agreement to provide for a ten-year transition to the projected rate in acknowledgment that the Customer has invested in the necessary infrastructure to take recycled water system from the City when available, but that the City does not have sufficient infrastructure to deliver such recycled water to Customer at this time and, in the interim, to ease the cost impacts on Customer in transitioning to the revised Schedule WA-10 rate pending delivery of recycled water. It is the intent that at the end of this transition agreement, the customer will transition to OAT.

2.7 It is the intent, but not the guarantee, of City to install the necessary infrastructure in order to deliver recycled water service pursuant to Schedule WA-10 to Customer within 10 years of execution of this Agreement. During the term of this Agreement, City shall make

commercially reasonable efforts to provide such service. Customer agrees that if City is able to provide recycled water service that Customer shall take such recycled water service in accord with the City's rules and rates, as amended from time to time.

3. AGREEMENT. In consideration of the mutual covenants and promises in this Agreement, the Parties agree as follows:
