**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

BACKGROUND:

Summary

The Department of Environmental Health (DEH) was designated by the State of California, Environmental Protection Agency as the Certified Unified Program Agency (CUPA) or lead agency for the County in 1997 and recertified in 2012 upon withdrawal by the City of Banning as a Participating Agency (PA).

NET COUNTY COST	\$ 0	\$ 0	\$ 0	\$ 0
SOURCE OF FUNDS: N/A			Budget Adjustment:	No
			For Fiscal Year:	N/A

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary (continued)

The State's goal in creating the CUPA was to make hazardous materials and hazardous waste management programs with cities and counties more coordinated, consolidated and consistent.

DEH, as the CUPA, is responsible for coordinating and implementing hazardous material/waste management programs countywide in order to accomplish this goal. DEH, as the lead agency, carries out all required elements of a CUPA throughout the county with the exception of the cities of Corona and Riverside. These cities have opted to carry out various programs within their jurisdiction through our existing Participating Agency (PA) agreements. The City of Riverside has been an active PA since January 1997 and has worked cooperatively with DEH to ensure the State's Unified Program elements are coordinated and uniformly carried out.

The DEH administers an agreement with each PA to define the program level responsibilities of DEH and the City of Riverside PA. It is requested that the Board of Supervisors authorize DEH to enter into discussions with City of Riverside PA to update the current agreement to reflect the movement of the California Accidental Release Program from the City of Riverside PA to DEH. Any updates and/or changes to the agreement will be with the concurrence of the City of Riverside PA.

STATE OF CALIFORNIA**

Impact on Residents and Businesses

The impact will be minimal on regulated businesses as the CUPA and PA meet regularly to discuss inspection technique and processes for standardization purposes.

Contract History and Price Reasonableness

This contract has no costs; it is only a programmatic change. The contract has been in place since 1997.
