

Who We Are

California MENTOR is the state's most experienced Family Home Agency (FHA), providing family home services for hundreds of adults with intellectual and developmental disabilities. Individuals feel safe, supported and surrounded by the people and places they love.

In 1997, California MENTOR was among one of the first organizations to be approved by the state of California as a Family Home Agency. Today we serve hundreds of adults and continue to focus on creating a future where all individuals with special needs have the opportunity to live in a family home and receive services and support in their community.

Our program starts with a personalized matching process. We take the time to get to know the needs and interests of the individuals we serve as well as the personalities and strengths of our Mentor families to establish a lasting match.

What is a Mentor?

Our Family Home Agency (FHA) program matches individuals with intellectual and developmental disabilities who want to live with adult foster families, called Mentors. In a Mentor's home, individuals develop relationships that help them grow and enjoy all that life has to offer.

Through a Mentor's actions, they show we all matter and deserve to live life to the fullest. Mentors are a diverse group of people, looking for a way to make a difference in the lives of adults with special needs. Whether someone is a retiree looking for a way to continue contributing to society, a stay-at-home parent wanting to make a difference or a working family with children of their own, everyone can make a positive impact in their community.
