

Business Owner Policy – Canyon Springs Carwash

In the express carwash operation we have planned, vehicles will stack up on the west side of the property (we have space for 24 vehicles). Customers will be able to use one of two pay stations and then they'll be guided onto a track and they will remain in the vehicle as it is pulled through the wash. The entire wash process including drying is done by machines that can handle 130 vehicles per hour. For reference the busiest carwashes do on the order of 20,000 cars per month which is about 60 cars per hour. Upon completion the customer can leave if they please or park in one of the vacuum stalls where they can vacuum/touch up of their vehicle. There will be another employee in the vacuum area who will assist customers pulling their vehicles out and guiding new ones in. Majority of the time there will be 2 employees on staff with a 3rd one as needed.

The hours of operation will be Monday – Saturday 7am – 9pm and Sunday 7am – 8pm and our delivery schedule will be at the most once per week (when optimized it will be once every other week).
