---

Hello, I am requesting an extension of my Historic Preservation Fund Grant, set to expire on 12/31/19. Due to some unforeseen expenses/emergencies, it has taken longer to save up the money to pay for the roof and painting of my home, (paid up front before reimbursement). Also there has been a few discrepancies in the estimates that I have received just recently from a few roofers, quoting me twice the amount I was originally quoted when I applied for the grant. I am looking into other companies/roofers for one or two additional quotes. I would appreciate it if you could grant an extension of at least 6 months, so I can get the roof done. When I have received the reimbursement of that money, then I can proceed with the painting of the house and garage.

Thank you for the consideration,
