

ORDINANCE NO.

AN ORDINANCE OF THE CITY OF RIVERSIDE, CALIFORNIA,  
AMENDING CHAPTER 6.04 OF THE RIVERSIDE MUNICIPAL CODE  
TO ADD RECYCLING AND ORGANIC RECYCLING REQUIREMENTS  
FOR RESIDENTIAL SOLID WASTE CUSTOMERS

The City Council of the City of Riverside does ordain as follows:

Section 1: The title of Chapter 6.04 of the Riverside Municipal Code is amended as follows:

“Chapter 6.04 **RESIDENTIAL** SOLID WASTE AND RECYCLABLE MATERIAL”

Section 2: Section 6.04.010 of the Riverside Municipal Code is amended as follows:

**“6.04.010 Definitions.**

For the purpose of this chapter the following words and phrases shall have the meanings respectively ascribed to them by this section.

**Bulky item means waste items that are too large to be accepted as part of standard automated or manual collection. Examples of bulky waste include but are not limited to large metal appliances, mattresses, furniture items, large toys or wood trimmings, and other materials designated by the Public Works Director pursuant to this chapter, but excludes any hazardous materials.**

**Collection means the act of picking up and removing solid waste or recyclable materials or organic recyclable materials at the place of generation.**

*Contractor* means a person, persons, firm or corporation authorized by contract with the City to provide solid waste, **recyclable, or organic recyclable materials** collection services within the City.

**Container, unless otherwise provided herein, means any and all types of solid waste receptacles, including cans, carts, bins, rolloff boxes, and receptables provided by customers.**

*Detachable bin* means a metal container designed for mechanical emptying and provided by the City or contractor where applicable for the accumulation and storage of solid waste.

**Designated green materials (or “green materials” or “green waste”) means materials that are required to be separated from solid waste and designated recyclable materials prior to disposal and returned for use or reuse in the form of raw materials for new, used or**

1 reconstituted products. Green materials include, but are not limited to: yard trimmings,  
2 grass, weeds, leaves, prunings, branches, dead plants, brush, tree trimmings, dead trees, small  
3 wood pieces and other types of organic yard waste. Green materials excludes food scraps and  
4 paper contaminated with food scraps.

5 *Designated organic recyclable materials* (or “organic recyclable materials”) means materials  
6 that are required to be separated from solid waste and designated recyclable materials prior  
7 to disposal and returned for use or reuse in the form of raw materials for new, used or  
8 reconstituted products. Organic recyclable materials include, but are not limited to: yard  
9 trimmings and food scraps such as green trimmings, grass, weeds, leaves, prunings,  
10 branches, dead plants, brush, tree trimmings, dead trees, small wood pieces, other types of  
11 organic yard waste, vegetable waste, fruit waste, dairy waste, meat waste, fish waste, and  
12 paper contaminated with food scraps. The term “organic recyclable materials” solely means  
13 “designated green materials” when referencing multifamily residential property  
14 requirements.

15 *Designated recyclable materials* (or “recyclable materials”) means materials that are  
16 required to be separated from solid waste and designated organic recyclable materials  
17 prior to disposal and returned for use or reuse in the form of raw materials for new, used  
18 or reconstituted products. Recyclable materials include, but are not limited to: cardboard,  
19 paper, plastic, scrap metal, beverage containers, and clean (untreated and unpainted) wood.

20 *Garbage* means a form of solid waste which is putrescible animal, fish, fowl, food, fruit or vegetable  
21 matter resulting from the cultivation, preparation, storage, handling, decay or consumption of such  
22 substance.

23 *Hazardous waste* means a waste, or combination of wastes, which because of its quantity,  
24 concentration or physical, chemical or infectious characteristics may do either of the following:

- 25 1. Cause, or significantly contribute to, an increase in mortality or an increase in serious  
26 irreversible or incapacitating reversible illness.
- 27 2. Pose a substantial present or potential hazard to human health or environment when  
28 improperly treated, stored, transported or disposed of or otherwise managed.

1 Manual container means a metal, plastic or rubber container, 20- to 32-gallon capacity,  
2 provided by the resident in City designated areas where automated collection service is not  
3 possible. Said containers are not to exceed a weight of 15 pounds when empty, and must have  
4 side bail handles and a tight-fitting lid, designed and manufactured for the accumulation and  
5 storage of solid waste, or plastic and/or paper bags manufactured for the accumulation and  
6 storage of refuse. The top diameter of the container shall in no case be smaller than the  
7 diameter of the receptacle at the bottom.

8 Person means an individual, firm, limited liability company, association, partnership,  
9 industry, public or private corporation, or any other entity whatsoever.

10 Place or premises means every dwelling house, dwelling unit; apartment house or multiple-  
11 dwelling building with less than 5 units; and every other place or premises where any person  
12 resides within the City.

13 ~~Place or premises means every dwelling house, dwelling unit; apartment house or multiple dwelling~~  
14 ~~building; trailer or mobile home park; store; restaurant; rooming house; hotel; motel; office building;~~  
15 ~~department store; manufacturing, processing or assembling shop or plant; and every other place or~~  
16 ~~premises where any person resides, or any business is carried on or conducted within the City.~~

17 *Public Works Director* means the Public Works Director of the City or his or her duly authorized  
18 representative.

19 *Refuse* means solid waste.

20 ~~Recyclable means any paper, glass, cardboard, plastic, used motor oil, ferrous metal, aluminum, or~~  
21 ~~any item or material that has been separated from solid waste, and has an economic value, and is~~  
22 ~~deposited in a recyclable material receptacle provided by the City or in a privately owned receptacle~~  
23 ~~on which the City's official sticker is placed designating said receptacle to be recyclable material for~~  
24 ~~the City to collect.~~

25 Recycling means the process of collecting, sorting, cleansing, treating and reconstituting  
26 materials that would otherwise become solid waste and returning them for use or reuse in  
27 the form of raw materials for new, used or reconstituted products which meet the quality  
28 standard necessary to be used in the marketplace. Recycling does not include

1 **transformation as defined in Section 40201 of the California Public Resources Code. The**  
2 **term “recycling” may be used to include source separated materials.**

3 *Rubbish* means a form of solid waste which is nonputrescible, useless, unused, unwanted or  
4 discarded material or debris, either combustible or noncombustible, including but not limited to  
5 paper, cardboard, grass, tree or shrub trimmings, straw, clothing, wood or wood products, crockery,  
6 glass, rubber, metal, plastic, construction material, and similar material.

7 **SB 1383 means Senate Bill 1383 (Lara, Chapter 395, Statutes of 2016) also commonly**  
8 **referred to as “SB 1383”, as amended, supplemented, superseded, and replaced from time**  
9 **to time.**

10 **SB 1383 Regulations means Title 14 of the California Code of Regulations, Division 7,**  
11 **Chapter 12: Short-lived Climate Pollutants, beginning with section 18981.1, as amended,**  
12 **supplemented, superseded and replaced from time to time.**

13 *Solid waste* means all putrescible and nonputrescible solid, semisolid, and liquid wastes, including  
14 garbage, trash, refuse, paper, rubbish, ashes, industrial wastes, demolition and construction wastes,  
15 discarded home and industrial appliances, dewatered, treated or chemically fixed sewage sludge  
16 which is not hazardous waste, manure, vegetable or animal solid and semi-solid wastes, and other  
17 discarded solid and semi-solid wastes. Solid waste does not include hazardous waste **or low-level**  
18 **radioactive waste regulated under Chapter 7.6 (commencing with Section 25800) of Division 20**  
19 **of the California Health and Safety Code or medical waste. Solid waste does not include**  
20 **recyclable materials or organic recyclable materials set out for separate collection for the**  
21 **purposes of recycling and that are not landfilled.** ~~Solid waste does include recyclable material.~~

22 ~~Solid waste includes dirt, soil, rock, decomposed rock, gravel, sand, or other aggregate material.~~

23 *Solid Waste Collector* means personnel employed by the City or contractors for the collection and  
24 disposal of solid waste.

25 **Source separate or source separated means the process of removing recyclable materials and/or**  
26 **organic recyclable materials, from solid waste for the purpose of recycling and/or organics**  
27 **recycling.**

1 **Standard automated container means a 96 gallon container provided by the City for collection**  
2 **of solid waste or organic recyclable material or recyclable material.**

3 ~~Standard container means a metal, plastic or rubber container, 20 to 32 gallon capacity, not to~~  
4 ~~exceed a weight of 15 pounds when empty, with side bail handles and a tight fitting lid, designed~~  
5 ~~and manufactured for the accumulation and storage of solid waste, or plastic and/or paper bags~~  
6 ~~manufactured for the accumulation and storage of refuse. The top diameter of the container shall in~~  
7 ~~no case be smaller than the diameter of the receptacle at the bottom.”~~

8 Section 3: Section 6.04.020 of the Riverside Municipal Code is amended as follows:

9 **“6.04.020 Receptacle requirements.**

10 A. Every owner, tenant, lessee or occupant of any premises where solid waste is generated shall  
11 keep upon the premises sufficient standard **automated** containers for receiving and holding  
12 all solid waste generated between the times of removal. **Where a property is served by**  
13 **manual service, the owner, tenant, lessee, or occupant of such property shall provide**  
14 **sufficient manual containers for receiving and holding all solid waste generated**  
15 **between times of removal.** All solid waste on the premises shall be kept in said containers.

16 ~~B. Every owner, operator, manager or person in charge of any hotel, restaurant, cafe, cafeteria,~~  
17 ~~hospital, public dining room or other place where food is prepared for sale, sold or offered~~  
18 ~~for sale for human consumption and every owner, operator, manager or person in charge of~~  
19 ~~any store, market or other place where meat, fish, fowl, vegetables, fruit or any food is sold~~  
20 ~~or offered for human consumption shall provide a separate standard container for receiving~~  
21 ~~and holding all garbage created upon the premises between the times of collection; provided,~~  
22 ~~however, the garbage may be placed in the same receptacles as rubbish if the garbage is~~  
23 ~~drained and securely wrapped or sealed in plastic bags prior to placement in the container or~~  
24 ~~bin.~~

25 **CB.** Solid waste containers shall be maintained in a clean and sanitary condition. It is unlawful for  
26 any person to use solid waste containers that do not conform to the provisions of this chapter  
27 or that may have ragged or sharp edges or any other defect liable to hamper or injure the  
28 person collecting the contents thereof. If, within five days after written notice of a violation

of this section from the Public Works Director, such container is not repaired or replaced as necessary, further service for the container may be suspended until the violation is corrected. Where the container was provided by the City, the City may replace the container and charge the cost for the replacement to the customer's account, except where the damage was due to normal wear and tear of the container. The notice of violation shall be deemed served when securely attached to the container determined not in conformance with the provisions of this section. The customer may appeal the notice of violation to the Public Works Director within 10 days of service of notice. The Public Works Director's decision shall be final.

**C. Each property shall have separate containers for the collection of solid waste, recyclable materials, and organic recyclable materials. Properties serviced by automated service shall have no more than one standard automated container each for solid waste, recyclable materials, and organic recyclable materials, except where the customer has made arrangements with the City or Contractor for an additional container. Properties serviced by manual service shall have no more than three manual containers each for solid waste, recyclable materials, and organic recyclable materials.**

**D. Whether a property is serviced through automated or manual service shall be determined in the sole discretion of the Public Works Director, or designee.**

Section 4: Section 6.04.030 of the Riverside Municipal Code is amended as follows:

**“6.04.030 Location of containers and placement for collection service**

A. At residential property serviced by the City or by a Contractor, standard automated or manual containers shall be placed as follows for collection:

1. Residential customers adjoining an alley shall place their standard automated or manual containers adjacent to but not within the alley.

**2. Residential customers shall place their standard automated or manual containers at the City curb immediately adjacent to the serviced property.**

2. ~~Residential customers may utilize one of three levels of collection service. Fees for different levels of service are set by resolution. In special circumstances the Public Works Director, or designee, may designate receptacle location.~~

a. ~~Curbside: Receptacle shall be placed at the curbside or adjacent to the alley before 5:30 a.m. on collection days. Sidewalks shall not be blocked.~~

b. ~~Driveway: Receptacles shall be placed adjacent to the driveway before 5:30 a.m. on collection days. Driveway clearance must be sufficient to accommodate collection equipment.~~

c. ~~Backyard: Receptacles are located behind gates, inside trash enclosures, beside garages not accessible for collection equipment in any location not in accordance with curbside or driveway levels.~~

**3. In special circumstances the Public Works Director, or designee, may designate receptacle location.**

3. ~~Residential customers who place their standard containers at the City curb shall not do so earlier than 6:00 p.m. of the day preceding such collection nor fail to remove the container from the curb prior to 8:00 p.m. of the day of collection.~~

**B. Residential customers serviced by a Contractor shall place their standard automated or manual containers at the curb immediately adjacent to the serviced property for collection, except when other arrangements have been made with the collection contractor.**

**C. Standard automated and manual containers shall not be placed in the designated location for collection prior to 6:00 p.m. on the day preceding collection service and shall be removed from the designated location no later than 8:00 p.m. on the day of collection.**

B. ~~At residential properties serviced by contractors, the residents shall place their standard containers at the curb for collection except when other arrangements have been made with the collection contractor. Containers shall be removed from the curb except between the hours of 6:00 p.m. on the day preceding such collection and 8:00 p.m. on the day of~~

collection. Detachable bins provided by the contractor shall be placed where they are accessible to the contractor's collection vehicle.

~~C. For commercial collection all standard containers and detachable bins shall be placed at an area designated by the contractor.~~

D. In all disputes, complaints or problems arising from or concerning the location of containers or bins, the Public Works Director shall designate the proper location and the decision of the Public Works Director shall be final.”

Section 5: Section 6.04.040 of the Riverside Municipal Code is amended as follows:

**“6.04.040 Placement of material in receptacles.**

**A. At residential properties, the Public Works Director shall designate the manner in which material shall be placed in containers for collection, including but not limited to the types of materials to be placed in solid waste, recycling, and green waste or organic recyclable containers and the manner in which materials shall be separated, contained, or broken down prior to placement in containers.**

**B. When filled, the manual container shall not weigh more than 55 pounds. When filled, the standard automated container shall not weigh more than 150 pounds.**

**C. The Public Works Director may designate materials eligible for special pickup as bulky items and the time, frequency, and volume of bulky item collection service. Acceptable materials shall be placed at the curb immediately adjacent to the serviced property no earlier than 4:00 p.m. on the day before the scheduled bulky item service. City or Contractor’s may refuse collection if items exceed limitations or otherwise do not conform to the established bulky item service requirements.**

**D. Placement of solid waste into containers designated for recyclable or organic recyclable material is prohibited. The Public Works Director, or designee, shall enforce excessive contamination of recycling and organic recycling containers. For the purposes of this section, excessive contamination shall mean more than two (2) percent by volume of nonacceptable materials.**

1 1. If a collector finds that a recycling or organic recycling container has been  
2 excessively contaminated by solid waste, the collector must leave a tag on the  
3 container notifying the customer of the violation and identifying the incorrect  
4 materials. The collector may refuse to empty the container until the incorrect  
5 materials have been removed, except that a collector shall not refuse to empty a  
6 container from a multifamily property where multiple occupants share  
7 collection service.

8 2. If after a collector identifies excessive contamination and issues notices of  
9 violation for three (3) consecutive collection dates , a residential customer  
10 continues to excessively contaminate recycling and/or organic recycling  
11 containers, a fee equal to the charge for an additional solid waste disposal  
12 container shall be charged to the customer's account. The Public Works  
13 Director shall provide notice of the fee to the customer at least 10 days prior to  
14 the fee appearing the customer's bill. Notice of the fee shall be deemed served  
15 when placed in the mail to the customer at the last known address listed on the  
16 account. The customer may appeal the assessment of the fee to the Public  
17 Works Director within 10 days of service of notice. The Public Works Director's  
18 decision shall be final.

19 A. ~~At residential properties the following shall govern the placement of material in receptacles~~  
20 ~~for collection:~~

- 21 ~~1. Wooden boxes, crates and cardboard or paper boxes or cartons shall be broken and~~  
22 ~~flattened before being placed in a receptacle or tied in a bundle no more than 18~~  
23 ~~inches in diameter and four feet in length and placed beside the standard container.~~  
24 ~~2. Vacuum dust, sweepings and ashes shall be securely wrapped or enclosed in a bag~~  
25 ~~prior to placement in the standard container.~~  
26 ~~3. Household garbage shall be drained and wrapped in paper or secured in plastic bags~~  
27 ~~prior to placement in the standard container.~~  
28 ~~4. Animal waste of household pets shall be wrapped.~~

1       5. ~~Sharp edged and pointed material such as glass and metal shall be packaged before~~  
2       ~~placement in the receptacle in such a way as to protect refuse handlers from being cut~~  
3       ~~or wounded when handling the receptacles and contents with ordinary care.~~

4       6. ~~Tree trimmings shall be tied in bundles not more than 18 inches in diameter nor more~~  
5       ~~than four feet in length and shall include branches and logs no more than three inches~~  
6       ~~in diameter or shall be cut in short lengths and placed in the standard containers. In~~  
7       ~~areas serviced by the City, bundled tree trimmings shall be collected on the second~~  
8       ~~regular collection day of each week; namely, Thursday, Friday and Saturday.~~

9       7. ~~When filled, the standard container shall not weigh more than 55 pounds.~~

10      B. ~~At commercial properties, placement of material in receptacles for collection shall be as~~  
11      ~~follows:~~

12      1. ~~All refuse must be placed in standard containers or detachable bins.~~

13      2. ~~Garbage must be drained and securely wrapped or sealed in plastic bags prior to~~  
14      ~~placement in containers or bins.”~~

15      Section 6:       Section 6.04.050 of the Riverside Municipal Code is amended as follows:

16      **“6.04.050       Required solid waste removal.**

17      A.     No person, persons, firm or corporation other than one of the City authorized solid waste  
18       haulers acting pursuant to their contract with the City, municipal solid waste collection crews  
19       or a person or firm acting under the authority and within the limitation of a valid self-hauler  
20       permit issued pursuant to this chapter, shall collect solid waste, **recyclable or organic**  
21       **recyclable materials** within the City.

22      B.     No person, persons, firm or corporation other than the City or one of the City-authorized  
23       solid waste contractors acting pursuant to their contract with the City shall provide temporary  
24       bin service for solid waste, **recyclable or organic recyclable material**.

25      C.     Except as provided in subdivision D of this section, solid waste collection shall be provided  
26       from residential property at a minimum of once a week.

27      D. ~~Commercial solid waste collection shall be provided not less than once a week except that at~~  
28      ~~each business engaged in the sale or production of food and at each multifamily residential~~

property which receives bin service, such collection shall be provided not less than twice weekly. "Multifamily residential property" includes but is not limited to apartment house, boarding house, rooming house, town house and condominium.

**ED.** Every owner, lessee, tenant or occupant of residential ~~or commercial~~ property shall remove or cause to be removed all solid waste created, produced or brought upon the premises according to the schedule in ~~B or C~~ **this section** by subscribing to the solid waste collection service of the City or the contractor authorized by the City Council to provide such service to that property; provided, however, one may provide one's own service pursuant to a self-hauler permit as provided in this chapter for the removal of solid waste created by one's own activity as a residential ~~or commercial~~ occupant, but not as a landlord for one's tenant or lessee."

Section 7: Section 6.04.055 of the Riverside Municipal Code is amended as follows:

**"6.04.055 Requirements for residential self-haulers.**

- A. Every occupant of a residential ~~or commercial~~ property desiring to provide removal of solid waste, **recyclable material, and organic recyclable material** created by their own activity shall first obtain and maintain in full force and effect a self-hauler permit and shall provide solid waste removal service in accordance with said self-hauler permit.
- B. Application for self-hauler permits shall be made to the Public Works Director and shall be accompanied by a nonrefundable fee set by resolution.
- C. The Public Works Director shall issue the permit upon determining that the applicant is able to transport all solid waste **and recyclable and organic recyclable materials in** a safe and sanitary manner in accordance with the provisions of this chapter.
- D. Such permit shall ~~be effective for one year from the date of its issue~~ expire **at the end of the fiscal year in which it is issued.**
- E. If the application is denied by the Public Works Director, the applicant shall be provided with a full statement of the reasons for the denial.

- 1 F. A permit may be revoked by the Public Works Director for any violation of law or for failure  
2 to comply with the provisions of this chapter by providing the permittee with a written  
3 statement of the violations noted.
- 4 G. A denial or revocation may be appealed to the Public Safety Committee of the City Council  
5 whose decision shall be final. Such appeal shall be filed with the City Clerk within ten days  
6 after the receipt of the Public Works Director's written notice of denial or revocation.
- 7 H. All solid waste removal pursuant to a valid self-hauler's permit shall be accomplished by the  
8 permit holder or the holder's own employees using the permittee's own equipment.
- 9 I. All solid waste removed pursuant to a self-hauler permit shall be deposited only at  
10 authorized, licensed, and permitted solid waste disposal sites. **Recyclable materials and**  
11 **organic recyclable materials shall be hauled to a solid waste facility, operation, activity,**  
12 **or property that processes or recovers such source separated materials.**
- 13 J. All equipment used by a self-hauler's permittee to remove solid waste shall comply with the  
14 requirements of Section 6.04.060.
- 15 K. Every holder of a self-hauler permit shall submit legible copies of ~~landfill~~ **disposal** receipts  
16 to the Public Works Director on or before the tenth of each month for solid waste deposits  
17 made during the previous month at authorized and licensed solid waste disposal sites.”

18 Section 8: Section 6.04.060 of the Riverside Municipal Code is amended as follows:  
19 **“6.04.060 Vehicle requirements for conveyance of solid waste.**

- 20 A. Passenger motor vehicles shall not be used in the transportation of solid waste, **recyclable or**  
21 **organic recyclable material** upon or along any public street or highway of the City;  
22 provided, however, residential self-haulers as provided in Section 6.04.055 may utilize such  
23 vehicles upon the condition that the solid waste, **recyclable or organic recyclable material**  
24 is so contained as to prevent it from leaking, dripping, falling, blowing or scattering from the  
25 vehicle in which it is being conveyed or transported.
- 26 B. Trucks used in the collection and transportation of solid waste, **, recyclable or organic**  
27 **recyclable material** shall have bodies of watertight metal construction which shall be  
28 leakproof and shall be equipped with a close-fitting cover, which shall be affixed in a manner

1 that will prevent dropping, spilling or other loss of solid waste upon the highway during  
2 collection and transportation. In lieu of such watertight bodies and covers, separate metal  
3 containers with tight-fitting, clamp-on lids may be used.

4 C. Trucks used in the collection of rubbish shall have solid construction of the floor and body  
5 and shall be equipped with a close-fitting covering which shall be affixed in a manner that  
6 will prevent the dropping or blowing of any rubbish upon the highway during collection and  
7 transportation.

8 D. All trucks used in the collection and transportation of solid waste, recyclable or organic  
9 recyclable material and rubbish shall be maintained in a clean, sanitary and neatly painted  
10 condition, and shall carry a shovel, broom, first-aid kit and fire extinguisher.

11 E. Every contractor authorized by the City Council to collect solid waste, recyclable or organic  
12 recyclable material shall paint his firm name and telephone number in legible letters not less  
13 than three inches in height on both sides of all trucks used to collect and transport refuse.”

14 Section 9: Section 6.04.070 of the Riverside Municipal Code is amended as follows:

15 **“6.04.070 Collection periods.**

16 A. Solid waste collection from residential properties shall be provided by all haulers a minimum  
17 of once a week.

18 ~~B. Contractors shall provide collection service to all commercial premises at least once a week;~~  
19 ~~provided, however, collection must be made at least twice a week to those establishments~~  
20 ~~generating garbage; and further provided that nothing in this subsection shall prohibit the~~  
21 ~~contractor from collecting solid waste at a more frequent rate.~~

22 **BC.** Solid waste will not be collected on Sundays except in emergencies and as approved by the  
23 Public Works Director.

24 **CD.** Solid waste collection within or in close proximity to residential areas shall not commence  
25 prior to 5:30 a.m. on any day.”

26 ///

27 ///

28 ///

1           Section 10:    Section 6.04.090 of the Riverside Municipal Code is amended as follows:

2    **“6.04.090       Unsightly solid waste deemed nuisance.**

3    Solid waste, recyclable or organic recyclable material, which by reason of its location and  
4    character is unsightly and interferes with the reasonable enjoyment of property by neighbors, is a  
5    public nuisance within the meaning and subject to the provisions of this Code.”

6           Section 11:    Section 6.04.100 of the Riverside Municipal Code is amended as follows:

7    **“6.04.100       Property owner alley clearance duties.**

8    No person owning, leasing or occupying property adjoining any public alley in the City shall fail,  
9    refuse or neglect to keep that portion of such alley between the centerline thereof and the property  
10   line of such property free from solid waste, recyclable or organic recyclable material.”

11          Section 12:    Section 6.04.130 of the Riverside Municipal Code is amended as follows:

12   **“6.04.130       Accumulation of waste matter restricted.**

13   No person owning or occupying any building, lot or premises in the City shall suffer, allow or permit  
14   to collect and remain upon such lot or premises any solid waste, recyclable or organic recyclable  
15   material; provided, however, that this provision shall not be construed as interfering with building  
16   under a building permit, or wood neatly piled for kitchen or household use.”

17          Section 13:    Section 6.04.140 of the Riverside Municipal Code is amended as follows:

18   **“6.04.140       Restraint of animals to protect collectors.**

19   Any occupant owning or possessing an animal on the premises which may bite or attempt to bite a  
20   solid waste hauler while engaged in collecting refuse shall be required to secure the animal(s) or  
21   place the receptacles in such manner that such animal shall not constitute a hazard or to endanger a  
22   solid waste hauler. In addition to any ~~criminal~~ penalties specified in this Code, failure to adhere to  
23   the requirements of this section shall be cause for suspension of collection service during such time  
24   as there exists any such danger or hazard. Suspension of service pursuant to this section shall not  
25   relieve any person or firm of the duty to pay solid waste collection charges during such period of  
26   suspension.”

27    ///

28    ///

Section 14: Section 6.04.150 of the Riverside Municipal Code is amended as follows:

**“6.04.150 Regulation-making powers.**

The Public Works Director is authorized to make such rules and regulations not inconsistent with the provisions of this chapter so as to effect efficient collection and removal of solid waste, recyclable material, and organic recyclable material by the City or its duly authorized contractors.”

Section 15: Section 6.04.160 of the Riverside Municipal Code is amended as follows:

**“6.04.160 Collection areas.**

For purposes of defining the areas of the City in which the City's contractors will operate and in which areas City personnel will collect residential solid waste, a map of the City is on file in the office of the City Clerk. ~~Five areas are identified thereon.~~ The type of service: residential or commercial; exclusive or non-exclusive; City personnel or contractor; are identified in the contracts with City's contract solid waste collectors. Upon a determination by the Public Works Department and at the direction of the Public Works Director that good cause exists or that an annexation has been completed, that map may be modified.”

Section 16: Section 6.04.180 of the Riverside Municipal Code is amended as follows:

**“6.04.180 Inspection of premises—chapter enforcement.**

A. The duly authorized representative of the Health Officer or Public Works Director shall visit all premises within the City from time to time to examine the sanitary conditions of the premises to determine whether the provisions of this chapter and state laws are being complied with. The Public Works Director shall enforce the provisions of this chapter and properly notify any owner or occupant of any violations of this chapter. Such notice whenever possible shall be affixed to a receptacle or delivered in person.

B. SB 1383 Regulatory Compliance. Organic waste generators, including commercial and multi-family covered generators, haulers and all other entities subject to the requirements of SB 1383 shall fully comply with all applicable SB 1383 regulatory requirements or be subject to the penalties as prescribed in section 18997.2 of the SB 1383 Regulations.”

Section 17: The City Council has reviewed the matter and, based upon the facts and information contained in the staff reports, administrative record, and written and oral testimony, hereby finds that this ordinance is not subject to CEQA pursuant to Sections 15060(c)(2), 15060(c)(3) and/or 15061(b)(3) of the State CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, in that it will not result in a direct or reasonably foreseeable indirect physical change in the environment nor have a significant impact on the environment.

Section 18: The City Clerk shall certify to the adoption of this ordinance and cause publication once in a newspaper of general circulation in accordance with Section 414 of the Charter of the City of Riverside. This ordinance shall become effective on the 30th day after the date of its adoption.

ADOPTED by the City Council this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.

Mayor of the City of Riverside

Attest:

City Clerk of the City of Riverside
