**RECOMMENDATIONS**

Staff recommends that the Planning Commission:

1. **DETERMINE** that PSP20-0009, review of the City of Riverside's capital improvement projects for FY 2020/21, is not subject to the California Environmental Quality Act (CEQA) review, pursuant to CEQA Guidelines Section 15061(b)(3) as this action is not considered a "project" as defined by Section 15378(b)(4), and a determination of consistency has no potential to result in a direct or indirect physical change in the environment;
2. **FIND** that the capital improvement projects added or modified for FY 2020/21 are consistent with the City's General Plan 2025; and
3. **REPORT to the City Council** that the capital improvement projects added or modified for FY 2020/21 are consistent with the City's General Plan 2025.

**BACKGROUND**

California Government Code Section 65401 requires that the Planning Commission review the City's Capital Improvement Program (CIP) for the upcoming fiscal year to evaluate conformity with the General Plan and report its finding to the City Council. The City of Riverside Charter and the Riverside Municipal Code also require that the Planning Commission review the City's proposed CIP and report its findings to the City Council.

The City's CIP is prepared to coincide with the City's budget period. It is anticipated that City Council will consider the FY 2020/21 budget and CIP in June 2020.

The Planning Commission reviewed the FY 2018/19 and FY 2019/20 on March 22, 2018 and reported to the City Council that the projects were in conformance with the General Plan. As part of the mid-cycle budget review in 2019, the Planning Commission reviewed the CIP for FY 2019/20

on May 2, 2019 and reported to City Council that the projects were in conformance with the General Plan.

## PROPOSAL

Staff is requesting that the Planning Commission review the Capital Improvement Program (CIP) projects for FY 2020/21 and determine that the new or modified projects are consistent with the City's General Plan 2025 (General Plan).

The CIP project list for FY 2020/2021 includes: fifty-one (51) projects not previously reviewed by the Planning Commission for General Plan consistency, two (2) projects that were previously reviewed but modified for this fiscal year, and seventy (70) projects previously reviewed that have not been modified (Exhibit 1).

## PROJECT ANALYSIS

The CIP is updated every fiscal year with some projects carrying over to the next budget period, some projects modified, and some added. The Planning Commission is responsible for reviewing only those CIP projects that have been added or modified. Exhibit 1 includes a list of all capital improvement projects anticipated for fiscal year 2020/2021 and identifies: 1) projects previously reviewed by the Planning Commission; and 2) new or modified requiring a determination of consistency with detailed descriptions of these projects included in Exhibit 2.

Planning Division staff has reviewed the listed projects for conformance with City's General Plan 2025, as noted by the following Objectives and Policies supporting the proposed projects.

Reasonable means of pedestrian accessibility shall be an important consideration in the approval of new development.

## ENVIRONMENTAL REVIEW

This proposal is not subject to the California Environmental Quality Act (CEQA) review under CEQA Guidelines Section 15061(b)(3) because the consistency review is not a "project", per 15378(b)(4), and because a determination of consistency has no potential to result in a direct or indirect physical change in the environment.
