RECOMMENDATIONS

That the Cultural Heritage Board:

1. **DETERMINE** that the project is exempt from the California Environmental Quality Act (CEQA) review pursuant to Sections 15302 (Replacement or Reconstruction), 15331 (Historic Resource Restoration/Rehabilitation), and 15303 (New Construction or Conversion of Small Structures), as it constitutes the replacement of a single family residence compatible with the historic resource (Historic District), which is consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties; and
2. **APPROVE** Planning Case P19-0487 (Certificate of Appropriateness), based on the findings outlined and summarized in the staff report and subject to the recommended conditions.

CULTURAL HERITAGE BOARD Draft MINUTES

WEDNESDAY, OCTOBER 16, 2019, 3:30 P.M.
ART PICK COUNCIL CHAMBERS, CITY HALL
3900 MAIN STREET

Cultural Heritage Board Members

		LECH	TOBIN	GAMBLE	CUERVAS	PARRISH	FERGUSON	CARTER	BROWN	FALCONE
	WARDS	1	2	3	4	5	6	7	CW1	CW1
Roll Call:	Present	X	X	X		X	X	X		X
Chair Lech called the meeting to order at 3:30 p.m. with all members present, except Board Members Brown and Cuevas due to vacation.										
Staff: M. Kopaskie-Brown, A. Beaumon, P. Brenes, S. Watson, F. Andrade										
The Pledge of Allegiance was given to the flag.										
<u>PUBLIC COMMENT</u>										
There were no oral comments at this time.										
<u>DISCUSSION CALENDAR</u>										
<u>Historic Property Viewer Update</u> – Innovation and Technology Department George Khalil, Chief Information Officer, stated that the City is actively working on replacing the aging GIS system. As part of an on-going security assessment, the Historic Property Viewer application was removed due to a significant risk to the integrity of the City. Staff was unable to support and maintain this system and had to remove it from the internet presence. He stated that a short time solution to have the information of the Historic Property Viewer available to those citizens needing access to this information has been to provide a static index of the information. This is available on-line now. Due to the CADME migration in progress now, it will be approximately 18 months before staff will have the time to work on an interactive Historic Property Viewer similar to what was previously available.										
Following discussion, there was no formal action taken by the Board.										
<u>PLANNING CASE P19-0487</u> – CERTIFICATE OF APPROPRIATENESS – 4674 BEACON WAY, WARD 1 - <i>CONTINUED FROM SEPTEMBER 18, 2019</i>										
Certificate of Appropriateness requested by Jim Broeske, of Broeske Architects & Associates on behalf of Randall Neal, for the after-the-fact demolition, replacement of the single-family residence main level and two-car garage, and expansion of the basement, listed as a non-contributing structure of the Mount Rubidoux Historic District. Scott Watson, presented the staff report. He stated that there is currently an active code enforcement case to determine the remedies and penalties allowed under the Riverside Municipal Code which is at the sole discretion of various City

	LECH	TOBIN	GAMBLE	CUERVAS	PARRISH	FERGUSON	CARTER	BROWN	FALCONE
	1	2	3	4	5	6	7	CW1	CW1
<p>Departments and City Council. He stated that five letters in support and nine letters in opposition were received and distributed to the Board. Letters in opposition expressed concerns regarding demolition of historic homes, penalties for unpermitted demolition, legality of retroactive approval, disposal of debris from the demolition, the project not being reviewed by the CHB, and the compatibility of the new residence. In response to these concerns the original residence did not meet the definition of a Cultural Resource under Title 20 and is not considered an historic home. Penalties allowed under the Riverside Municipal Code are being assessed by the various City Departments. The retroactive approval of a Certificate of Appropriation is allowed under Title 20. The City has notified the Air Quality Management District which oversees the abatement of hazardous materials, and the City has no oversight on their investigation. Anthony Beaumon, Deputy City Attorney, clarified that it is the City's policy not to comment on an on-going investigation such as this and staff cannot provide any information regarding the investigation at this time. Board Member Parrish brought up the Mt. Rubidoux Historic District Design Guidelines which does not include a farm house style of architecture. Comments from the Audience: Virgil "Chuck" Hane spoke in support and submitted his comments in writing. Denise Harden; Carol McDaniel; Michael Gentile, President Old Riverside Foundation; Pamela Daly; David Crohn; Elizabeth Lossing; and Spencer Boles spoke in opposition and expressed their concerns: Suggested that the staff report is incomplete and invalid due to unknown actions of the investigation. The proposed design compatibility assessment should be based on contributing structures, not non-contributors in the district. The assessment should reflect a current survey, not the 1977 survey. It was suggested that CEQA does apply to this property based off an assumption that the original residence was eligible under Criterion A of National Register and Criterion 1 of the California Register for potential association with events and patterns of development related to American Cultural and Social history and the cold war period; it was also potentially eligible under Criterion C & 3 which is architectural significance related to physical development, expansion and suburbanization and cold war preparedness. It also potentially qualified under the City of Riverside Historic Preservation Element, Historic Context under Modernism and Cold War Expansion. Penalties should be assessed under a true assessment of the structure as a Cultural Resource. It makes no sense for one department to approve the retro-active demolition while other departments review the penalties. Approval by CHB assumes no violation has been committed. It was pointed out that for any project delays, the fault lies with the property owner</p>

	WARDS	1	2	3	4	5	6	7	CW1	CW1
<p>not the CHB. The project should follow the Mt. Rubidoux Historic District Design Guidelines and the proposed design should be more in keeping with the district. Concerns regarding the view of the home from the eight abutting properties below. That any action be delayed until penalties have been assessed. There were no other persons requesting to speak.</p> <p>Staff clarified that the evaluation of the property was not based upon the 1977 survey. The evaluation was completed by staff using today's landmark criteria and research completed during the process of reviewing the case. The property was determined ineligible for designation because there was no persons of significance associated with the property, no significant architect, and the style of architecture did not rise to the level of significance required for designation.</p> <p>Board Member Gamble stated she has seen this home and it was livable. It is a loss to the City and should not proceed until it has been evaluated as to how it may have contributed to a mid-century study.</p> <p>Following discussion, the Cultural Heritage Board: Motioned to deny Planning Case P19-0487 as the applicant did not follow the Mt. Rubidoux Historic District Design Guidelines.</p> <p>The Deputy City Attorney advised of the need to make the necessary findings for the denial of the project.</p> <p>Board Member Parrish referenced the findings on page 4 of the staff report and stated that because of the architectural style and use of materials are not similar to those found throughout the historic district, the proposed residence will not be compatible with the immediate neighboring residences.</p> <p>Following discussion, some of the board members wanted offered to work with the applicant on the proposed design of the residence. Further discussion was held regarding the possibility of a 90-day continuance to allow the applicant to work with a subcommittee of the CHB. Mr. Broeske stated he was not the applicant and Mr. Neal was out of state. He indicated that he did not have the authority to agree to a continuance. The Board asked the attorney's determination as far as requesting a continuance due to the lack of consent of an applicant.</p> <p>The CHB took a five minute recess.</p>

		LECH	TOBIN	GAMBLE	CUEVAS	PARRISH	FERGUSON	CARTER	BROWN	FALCONE
	WARDS	1	2	3	4	5	6	7	CW1	CW1
<p>The meeting was reconvened. Mr. Beaumon stated that upon further consultation, the CHB may continue the case without the applicant's permission.</p> <p>Board Member Falcone withdrew his second to the current motion to deny and the motion failed due to lack of a second.</p> <p>Discussions were held regarding a 90-day continuance or 30-day continuance. Ms. Kopaskie-Brown asked for clarification as to what the CHB is continuing this item to do as it relates to this application. What is the direction to the staff and the applicant.</p> <p>MOTION was made to continue Planning Case P19-0487. The continuance is requested as the Board cannot make the findings necessary to approve the Certificate of Appropriateness for this design. The Board does not find the proposed design compatible with the District. The Board is available to work with the applicant to provide an opportunity to work on the proposed design.</p> <p>Mr. Beaumon suggested specificity in the motion to make it clear that the Board is requesting a continuance for the purposes of forming a subcommittee of the Board. The subcommittee members will make themselves available to meet with the property owner to discuss the CHB's concerns.</p> <p>Motion failed due to lack of second.</p> <p>Discussion to establish a subcommittee to work with the applicant. Board Members Falcone, Gamble and Parrish volunteered to serve on the subcommittee.</p> <p>Motion to continue Planning Case P19-0487 to the meeting of November 20, 2019. At the November 20, 2019 meeting the Board will seek approval/permission from the property owner with regard to his willingness to work with a subcommittee of the Board (Board Members Falcone, Gamble and Parrish) in hopes of better adherence to the Mt. Rubidoux Historic District Guidelines for this property.</p> <p>Mr. Beaumon inquired if the motion would allow the applicant to come in before the next meeting or wait until after the November meeting.</p>

<u>PLANNING CASE P19-0487 – CERTIFICATE OF APPROPRIATENESS – 4674 BEACON WAY, WARD 1</u>										
Certificate of Appropriateness requested by Jim Broeske, Broeske Architects & Associates, on behalf of Randall Neal, for the after-the-fact demolition, replacement of the single-family residence main level and two-car garage, and expansion of the basement. Scott Watson, presented the staff report. He stated that nine letters were received, 2 in support and 7 in opposition. Randall Neal, applicant, stated he had no objection to a continuation to allow him to work with the subcommittee on the design of the home. Comments from the audience: Virgil "Chuck" Hane and Bette Graff spoke in support of the proposal and noted that there is flexibility in the Mt. Rubidoux Historic District Design Guidelines. Vincent Moses cited Sections 8.0 – 9 of the Mt. Rubidoux Historic District Design Guidelines which address in-fill projects, grading at the site, and compliance with laws. Sue Mitchell spoke in opposition to the demolition and inappropriate design. Following discussion, a motion was made by Board Member Brown, to deny the Certificate of Appropriateness for the retroactive demolition and the proposed design of the home, for the following reasons: 1. The Demolition of the structure was intentional, unpermitted and otherwise inconsistent with the requirements of the Riverside Municipal Code. 2. The Demolition was undertaken in a manner potentially injurious	Motion Second All Ayes		X	X	X	X	X	X	X	X

<p>to neighboring property owners as indicated in written testimony provided by neighboring property owners. 3. The owner and/or his agent/architect were aware prior to demolition of the requirements of the Riverside Municipal Code as it related to the demolition of the structure. 4. The demolished structure has been located within the Mt. Rubidoux Historic District for a quarter of a century and the requirements of the Riverside Municipal Code were or should have been known by the owner and/or his architect. 5. Potential buyers were informed of the requirements of the Riverside Municipal Code, contacted the City Planning Division for information regarding the requirements of the City of Riverside. Indicating that requirements of the Riverside Municipal Code were known to potential purchasers and he believed that Mr. Neal's testimony suggests those requirements were known to him. 6. Despite being aware of the requirements of the Riverside Municipal Code, the owner elected to unilaterally demolish the structure based upon his determination that the structure needed to be taken down. 7. Having reviewed in their entirety the plans/specifications submitted, they are not consistent with the specific requirements and/or the intent of the Mt. Rubidoux Historic District.</p> <p>Board Member Gamble stated that when reviewing this proposal there are missing pieces, this is not complete. Title 20 is clear regarding what needs to be submitted in order for the Board to approve or disapprove. She noted that there is no landscaping. Looking at the building and site, it does not address the decorative fencing currently there, what will happen to the landscaping currently there. Also, this does not address the Title 20 and Mt. Rubidoux Historic District Design Guidelines of blending in with its surroundings. With regard to the limestone surrounding the home: the historic guidelines are clear as to blend in, match or contribute to other contributing houses, not the non-contributing. According to staff's October 16, 2019 report, it was based on comparisons with non-contributing homes. It is very clear in Title 20 and the historic district guidelines, we are not to look at the non-contributing structures. Again, the use of shiplap is not compatible with the contributors in the area. These were her main points with regard to the landscaping and current design proposal for the structure.</p> <p>Board Member Falcone stated that at the October 16th meeting, he noted that the proposed design was clearly a modern interpretation of a farm house. He noted that page 24 of the Mt. Rubidoux Historic District Design Guidelines mentions infill being compatible with contributors of the district.</p>

<p>He inquired how staff has drawn their conclusion, where are the farm houses in the Mt. Rubidoux Historic District?</p> <p>Mr. Watson replied that there is one property just down the hill from the site that is a mid-century ranch home with similar elements such as board and vertical siding that was the interpretation.</p> <p>Board Member Falcone stated he would underscore many of comments made by Board Member Gamble when it comes to the new design. The Mt. Rubidoux Historic District Design Guidelines is the bible for the historic district. He took umbrage with the fact that a homeowner in the district cannot just skim through this document without the advice of an authorized professional opinion as to whether a rendering is within those guidelines. This is not something just any architect can decide when there is a historic district and design guidelines such as this so easily accessible. The terminology on page 24 of the design guidelines are so clear and specific, "the single most important issue of infill development is one of compatibility especially when considering larger homes...." Measures need to be taken so that the height and bulk, do not impact neighboring historic structures.</p> <p>Board Member Tobin recalled that at the last meeting, there was a recommendation to form subcommittee of this board, are those three members still interested in meeting with applicant?</p> <p>Board Member Gamble stated that after hearing testimony today, she didn't see a point for the three members to meeting with the applicant. It is very clear in the Mt. Rubidoux Historic District Design Guidelines and Title 20 that the applicant has the information he needs.</p> <p>Mr. Watson responded to the earlier inquiry and stated that 3607 Mt. Rubidoux, is a mid-century ranch style house. Staff felt that there were certain elements and materials seen between this home and the proposed design which is how staff made their determination of compatibility.</p> <p>Board Member Falcone stated that he cannot support that determination. As Board Member Gamble stated, he was also one of the three subcommittee volunteers. Based on today comments and the applicant's knowledge of the home being in a historic district and what appears evidence of contempt for the law and process, he cannot ethically or in good faith support the subcommittee. He added that he would not want to be a part of subcommittee this time.</p>

P19-0487 - CULTURAL HERITAGE BOARD FINDINGS – November 20, 2019

Chapter 20.25.050 – Principles and Standards of Site Development and Design Review			
<i>The application proposal is consistent or compatible with the architectural period and the character-defining elements of the historic building.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Facts:</p> <ul style="list-style-type: none"> This finding is applicable because the entire Mt. Rubidoux Historic District is a cultural resource as defined by Title 20, CEQA, the California Register of Historic Resources, and the National Register of Historic Places. <p>Mt. Rubidoux Historic District Design Guidelines, Page 3, Section 2.4, Archeological Significance – “The entire Mount Rubidoux Historic District should be viewed as an archaeologically significant area, according to research done by the University of California, Riverside. The most prominent site, Spring Rancheria, on the northwest slope of Indian Hill (also known as Little Rubidoux), is an archaeological site which provides a great deal of information about the Indians who lived in and around Riverside during its early years, from the 1870s into the 1890s”</p> <p>“The Spring Rancheria site has been determined eligible for listing in the National Register of Historic Places due to its historical and archaeological significance.”</p>			
<i>The application proposal is compatible with existing adjacent or nearby Cultural Resources and their character-defining elements.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Facts:</p> <ul style="list-style-type: none"> The proposed structure is incompatible with nearby contributing structures. The height and bulk of the proposed structure affects the views of the district and from nearby structures. Compatibility must be assessed from a larger area than structures with no slope or grade. <p>Mt. Rubidoux Historic District guidelines dictate: Page 2, Section 2.2, Physical Setting – “Strong slopes in the natural terrain allow the buildings to be seen from above as well as at street level; therefore, their design affects a greater sphere than in a neighborhood with little grade change. The views seen from the public areas have also been traditionally important to the character of the area and should be preserved.”</p> <p>“The Cultural Heritage Board, in its review of construction plans for the District, considers the maximum retention of vistas and natural topographic features including ridge lines, slopes, and rock outcroppings.”</p> <p>Page 24, Section 8, Infill Development Design Guidelines - “The single most important issue of infill development is one of compatibility, especially when considering larger homes. When such projects are developed adjacent to older single family residences, measures need to be taken to ensure that the height and bulk of these infill projects do not negatively impact neighboring historic structures. Building height, mass and site setbacks should be compatible.”</p> <p>Page 26 Section 8.5 General Guidelines for Contemporary Buildings – “For contemporary buildings, the over-riding principle of design is to be compatible with appropriate buildings within the Neighborhood Zone.”</p>			

Chapter 20.25.050 – Principles and Standards of Site Development and Design Review

<i>The colors, textures, materials, fenestration, decorative features and details, height, scale, massing and methods of construction proposed are consistent with the period and/or compatible with adjacent Cultural Resources.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Facts:

- Height of the proposed infill structure is significantly higher than the demolished structure.
- Fenestration – large windows are planned that will significantly impact adjacent and nearby structures and views.

<i>The proposed change does not adversely affect the context considering the following factors: grading; site development; orientation of buildings; off-street parking; landscaping; signs; street furniture; public areas; relationship of the project to its surroundings.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Facts:

- The increased massing of the proposed structure will adversely affect the context and nearby historic structures, per the above, and:
- Mt. Rubidoux Historic District Guidelines, page 1, section 1.1, Intent: Discouraged Cases: *new infill dwellings located within the Mount Rubidoux Historic District not reflective of **traditional height, scale, bulk or massing**; additions to existing historic structures not respecting traditional roof forms, **building massing**, or the architectural style of the original structure.*

<i>The proposed change does not adversely affect an important architectural, historical, cultural or archaeological feature or features.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Facts:

- This finding is applicable because the entire Mt. Rubidoux Historic District is a **cultural resource** as defined by Title 20, CEQA, the California Register of Historic Resources, and the National Register of Historic Places.
- The level of excavation is irrelevant, the determination that the district is eligible for listing is sufficient to determine that this criterion applies. The potential adverse effect must be assessed.

Chapter 20.25.050 – Principles and Standards of Site Development and Design Review

<i>The application proposal is consistent with the Citywide Residential Historic District Design Guidelines and the separate guidelines for each Historic District.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Facts: <ul style="list-style-type: none"> The proposed structure must be compared to nearby contributing structures, not non-contributing. While presented as single story, the height of the new construction is consistent with a two or three floor structure. Due to the slope and grade of the historic district, the new structure must maintain the height of the previous structure so as not to adversely impact the view of other resources and appearance of the district. 			
<i>The application proposal is consistent with the Principles of the Secretary of the Interior's Standards for the Treatment of Historic Properties.</i>	N/A	Consistent	Inconsistent
	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Facts: <ul style="list-style-type: none"> Due to the site classification as an archeological resource, the Secretary of Interior standards for structures do not apply. Without an EIR, as dictated by CEQA, the removal of, or impact on, historic resources has not been determined. 			

AUTHORIZATION AND COMPLIANCE SUMMARY

Regulatory Codes	Consistent	Inconsistent
<i>Historic Preservation Code Consistency (Title 20)</i> <ul style="list-style-type: none"> As part of the Mt. Rubidoux Historic District, the property has been determined eligible for listing on the California Register of Historic Resources, and the National Register of Historic Places, therefore it is classified as a cultural resource and Title 20 applies. 	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Zoning Code Consistency (Title 19)</i> The proposed residence complies with the development standards of the Zoning Code. As a matter of information, a Variance (VR-0011-601) for the substandard front yard setback was granted in 1961 for this site. The proposed residence and garage comply with the previously approved Variance.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

ENVIRONMENTAL REVIEW

The replacement of a single family residence, compatible with the historic resource (Historic District) and consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties, is categorically exempt from the provisions of the California Environmental Quality Act (CEQA), pursuant to Sections 15302 (Replacement or Reconstruction) of the CEQA Guidelines, 15331 (Historical Resource Restoration/Rehabilitation), and 15303 (New Construction or Conversion of Small Structures) of the CEQA Guidelines.

Response:

Construction within a district determined to be eligible for listing as a cultural resource for Archeological potential is subject to CEQA standards.

Honorable Mayor and City Council, City of Riverside, Ca

Re. Planning Case P19-0487 (Certificate of Appropriateness, Cultural Heritage Board) Letter of Appeal

Please let this letter serve as a request to appeal the Cultural Heritage Board denial of November 20, 2019, regarding the remodel/addition of the home at 4674 Beacon Way, Riverside.

At the CHB hearing of October 16, 2019, the Planning staff (Scott Watson) presented our request for a Certificate of Appropriateness for "after-the-fact" demolition of portions of the existing residence's main level and garage and the expansion of the subterranean basement level. The staff indicated that the design of the proposed addition and remodel is considered a modern interpretation of the "Farmhouse Ranch architectural style". The property is located within the Mt. Rubidoux Historic District but is **not** considered a historically significant house because of the age of the home and the fact that no significant architectural qualities contributed to the original design or its history. The home is considered a "non-historical" structure but is subject to CHB review/approval with the Certificate. The remodel is subject to the Guidelines that are associated with the District home remodel and additions of "non-contributing" residences and should be sensitive to the "Neighborhood Zone" in which the home is located. The residence is located at the top of Beacon Way and is among six out of seven "non-contributing" residences and two vacant lots on Beacon Way. This immediate vicinity constitutes the "Neighborhood Zone" which will dictate the design guidelines and constraints for the remodel and addition.

The **Design Guidelines** permits construction of contemporary buildings within the District following specific criteria that is compatible with its "Neighborhood Zone". The Guidelines Section 8.5 (Design Guidelines for Contemporary Buildings) articulates specific criteria for remodels similar to the proposed improvements. They are summarized below:

1. Articulate Large Masses:

- The proposed design specifically avoided a "box-like" design by providing horizontal and vertical articulation of the new elevations with deep shadow relief and wood

board siding wall materials. The design also introduced various lower arcade structures to break up the massing.

2. Avoid Blank Walls:

- The home is articulated on all four sides even though the public will primarily only view the street elevation due to the extreme steep slopes and limited vantage opportunities the site presents. All walls are designed to avoid blank wall appearances.

3. Retain Scale of Components:

- The proposed remodel/addition design specifically retained the scale of the existing home. The existing home was a three-bedroom residence and single car garage with extensive roof overhangs, breezeway area, and covered patios. The new proposed two-bedroom home and double car garage expansion are almost entirely within the roof overhead projection of the existing roof except for the expansion of the low roof Master Suite of about 400 SF. The ridge of the new roof is only about 8' higher than the ridge of the original home. The existing homes surrounding the lot and within the Neighborhood Zone of non-contributing homes are of equivalent scale and size.

4. Maintain Similar Proportions:

- The proposed design specifically addresses the unique site conditions of the 360-degree views. The existing extensive patios around the home are being preserved and the remodel/addition will occupy the area directly above the existing lower supporting sub-basement levels which will remain.

5. Limit New Emphasis:

- We introduced various low-roof arcade structures to emulate the front eave line character of the existing home to break up the massing and to be compatible with the adjacent homes within the Neighborhood Zone. The function layout of the remodeled home is very similar to

the original residence layout and preserves the character of the entry arcade that exists in the original plan and elevation.

6. Use Compatible Textures:

- The exterior building wall materials are simple wood siding and stone veneer and will be compatible with the adjacent homes within the Neighborhood Zone.

7. Use Related Colors:

- The original home was white colored plaster and the new home will be painted white wood siding which will be compatible with the adjacent homes within the Neighborhood Zone.

8. Screen Mechanical Equipment:

- No mechanical equipment will be visible on the exterior of the home or the street frontage.

9. Provide Compatible Roof Lines:

- The roof line ridge is only about 8' higher than the original ridge line and is compatible with the appropriate buildings in the Neighborhood Zone. Lower arcade roofs are introduced to articulate the design and to break up taller walls to be comparable to the existing home.

The Planning staff recommended approval of our application at the October 16, 2019 CHB meeting, and found that our proposed design met the design criteria of the Guidelines and was appropriate to the Neighborhood and District. Their findings and recommendations are summarized below:

- The proposed residential style (Modern Farmhouse Ranch) is consistent with other non-contributing structures within the Historic District and the residence uses materials consistent with those found throughout the District including the proposed siding and stone.
- The proposed single-story remodel/addition matches the height, scale, and massing of the existing residence. The adjacent

residences are two and three-story homes in height and the proposed project is consistent with the height, scale, and massing of the adjacent Cultural Resources.

- The proposed residence and garage are situated primarily in the same locations as the original home being replaced. The perimeter and limits of the improvements will be contained within the boundaries of the existing patio decks and retaining walls. There will be no change in relationship to other properties within the District.
- The proposed home does not adversely affect important architectural, historical, cultural, and archaeological features since the new structure is situated directly over the layout of the existing home and no new work is proposed beyond the perimeter of the retaining wall boundaries.
- The proposed Project is constant with the Citywide Residential Historic District Guidelines and compatible with the immediate neighborhood residences.
- The proposed Project is consistent with the Principles of the Secretary of the Interior's Standards for the treatment of Historical Properties and will be compatible with other residences throughout the District in terms of scale, massing and use of materials. The proposed features of the Farmhouse Ranch style exist throughout the District and will be consistent with the neighborhood.
- The proposed residence complies with the development standards of the Zoning Code.

The CHB did not agree with the proposed recommendation for approval of the Certificate and assigned a subcommittee to meet with the Owner and Architect to see if certain design features could be modified to meet their expectations for the proposed remodel/addition. Thus, continuing the review until the November 20th meeting. On October 17th I notified the Planning staff (Scott Watson) that the Owner would be willing to meet with the assigned subcommittee as soon as possible to discuss potential modifications to the Project. On October 21st we were informed that the assigned subcommittee would **not be able to meet** until after the next November hearing date and that the Owner would need to be present to acknowledge his willingness to meet.

11/27/19

At the November 20, 2019 meeting the Owner indicated that he and the Architect would be willing to meet ASAP to get the Project moving forward. After a lengthy CHB discussion the Board withdrew the invitation to have the subcommittee meet for potentially modifying the design. This was extremely surprising and regrettable since the Project application for the Certificate of Appropriateness was subsequently denied by the board at that meeting without the opportunity to obtain additional guidance on the elements of the design that they found incompatible.

Respectfully,

A handwritten signature in black ink, appearing to read 'Randy Neal', written in a cursive style.
