

RIVERSIDE WATER QUALITY CONTROL PLANT CHEMICAL PURCHASES

Public Works Department

City Council
June 16, 2020

RiversideCA.gov

1

BACKGROUND

1. The Public Works Department Wastewater Division is responsible for the collection & treatment of wastewater generated within the City of Riverside & the communities of Edgemont, Highgrove, Jurupa & Rubidoux at the RWQCP;
2. To satisfy the US Environmental Protection Agency's (EPA) National Pollution Discharge Elimination System (NPDES) Permit, wastewater must be treated to achieve regulatory water quality standards. The RWQCP treatment processes require the use of various chemicals to achieve water quality objectives;

2

DISCUSSION

1. Under Section 404 (Utilities Exception) of Purchasing Resolution 23256, chemicals are considered to be items 'peculiar to the needs of the Sewer Utility' and can be purchased through informal or negotiated procurement, providing it is in the best interest of the City to do so.
2. Kemira Water Solutions Inc. agreed to provide ferric chloride with an increase of 7% per ton, due to increases in raw materials and freight costs.
3. Olin Corporation agreed to provide sodium hypochlorite with a Producer Price Index (PPI) increase of 3% consistent with the market pricing.
