MOTION: Commissioner Mill motioned to continue this item to an undetermined date when the Commission is meeting in person and not by video. He stated that this is a major change in development policy and should have an extensive set of study sessions allowing the commission to hear from everyone impacted by the policy in less formal and more informational/educational setting. He would like to hear directly from builders, developers, business community and environmental groups as well as have a full staff presentation which he believes could not be done during a public hearing. He stated that three minutes is not adequate time to address major policy changes. Seconded by Commissioner Allen.

PUBLIC COMMENT: Ricardo Olan, Center for Community Action and Environmental Justice, addressed the Commission and noted that there are areas in the updates that need to be enhanced. He addressed the tiered approach between sensitive receptors and warehousing and distribution centers and suggested 1000 feet buffer regardless of the warehouse size. A Cumulative Impact Health Risk Assessment should be required for warehouse facilities within 2000'.

### DISCUSSION CALENDAR

CODE OF ETHICS & CONDUCT REVIEW - Planning Commission to consider the Code of Ethics and Conduct and forward any recommendations to the Board of Ethics.

Chair Kirby asked the commissioners if they had any concerns or recommendations to forward to the Board of Ethics.

Commissioner Roberts asked if other commissioners have received calls and emails from developers regarding their projects. She stated she did not feel comfortable speaking to these individuals usually did not speak with them.

Following discussions many commissioners indicated that they have had conversations with developers in the past. The key to these conversations is to remain open minded and not to form any decision before the Planning Commission hearing. This conversation should just be informational and the commissioner doesn't voice opinions nor agree to an outcome. It is also a practice at the Planning Commission meetings to disclose the fact that a conversation was had with the developer at the time of the public hearing.

The Planning Commission did not have any recommendations to forward to the Board of Ethics. No formal action was taken.
