Subject: [External] Protest to Proposed Trash Rate Increase

07/31/2020

To Whom it May Concern,

When I read the proposed solid waste rate increase I thought it was a bad attempt at humor. During these difficult times the City of Riverside is proposing a rate increase on utility services or any other services for that matter. Most residents of Riverside and the rest of the world are finding it difficult to survive through this pandemic and the City of Riverside is considering increasing the rate charges on trash service? So yes I am PROTESTING THE PROPOSED TRASH RATE INCREASE. Shame on you City of Riverside. Instead of helping the residents of Riverside you thought it would be a good time to increase rates on services provided in Riverside.

I can't believe that the powers that be in the City of Riverside let this proposal move forward regarding this rate increase.

I do not agree and therefore am writing this In protest. I am already on a fixed income, I am on housing and I am the sole provider for my 4 children. I have been heavily impacted by Cov19 and was furloughed since March 15. That furloughed has since then turned into termination of my position. This rate increase would impact my family greatly.

Sincerely,
Amber N. Rodriguez

To whom it may concern:

Please accept this email as a written protest AGAINST the proposed trash rate increases in the city of Riverside. We are all undergoing the COVID-19 pandemic. We receive standard/curbside service, from Riverside Utilities, at our residence located at 4095 Acacia Street. Due to loss of jobs/income, we are already experiencing a tough time paying the waste bill that is estimated at around \$ 82.00/mth, an outrageous amount, given the majority of the bill is the city fees, as opposed to actual usage. Please keep the citizens and families of Riverside in mind, and DO NOT increase rates, while there is no increase in income for many around the world!

Submitted on behalf of tenants Andrea R. Albert and Annsy Vanoukia, 4095 Acacia Street, Riverside, CA 92503.

God Bless

Subject: [External] Protest trash rate increase

Good Morning:

We would like to let the counsel know we are against any increases at this time, or in the near future. I understand the city has wastefully spent millions of dollars, not because you wanted to, but because you were basically forced to with regard to the virus.

Our household is very small, and on a regular basis there is normally only **one bag** of trash in our brown container every week, the other two usually go out once or tops, twice a month. Our total income is probably pretty close to poverty, we most certainly do our best and live within our means. We do not own our home outright, so yes we do have a house payment, and when the city continues to raise the cost it really does hurt our pocketbook.

Considering the outcome of Alessandro I'm pretty sure this letter is a waste of my time and every person writing in. I'm pretty sure you have already made up your mind and will implement the increase no matter what, what a shame.

Sincerely,
Ann Marchand

In protest of the proposed trash rate increase*

Dear public official,

I'm writing in response to a notice I just received in the mail about a proposed rate hike to solid waste. I'm assuming you sent this letter out to all of your constituents after exhausting all of your other options, correct? Adjust public pensions? Eliminate wasteful or superfluous government programs? Contact state officials and beg for additional funds?

But then again, why would you when you have tax payers at your disposal? I won't pretend to know the first thing about running a city or managing its finances, but what I do know is that it's always easier to spend someone else's money.

Please know that I would love to deliver this message in person but since I work in the private sector, I don't have the luxury of taking time off to attend.

Sincerely,

-Ben Millikan

Subject: [External] Rate increase

Hello, I just want to put in my two cents worth regarding rate increases. THIS IS NOT THE TIME TO INCREASE RESIDENTIAL RATES!!! People are already having trouble and landlords are having trouble. Time is now for a break!

Furthermore residents shouldn't be paying more for services like water trash than commercial ventures. And the increases shouldn't be more % wise than commercial either. Why are you penalizing the residential sector with a prices that non proportional delivery of services. So residents get penalized with higher usage and commercial not! Thanks

To: Nicol, Colleen <CNicol@riversideca.gov>
Subject: [External] Protest of Proposed Trash Rate Increase

Good morning,

This email is to oppose the trash rate increase proposed by the City of Riverside. I currently reside at 2314 9th Street, Riverside, CA 92507 and I am the homeowner, Diana Lopez.

I oppose the increase for two main reasons:

1) due to the current deadly pandemic sweeping the nation and affecting Riverside County drastically, it is no secret many people have been left without a job or hours have been reduced. It is unfortunate that the City of Riverside is looking to increase the trash rate during this time. This increase can lead someone one step closer to homelessness because they can't pay their bills. Riverside is already facing a homelessness issue, this will only increase that.

2) The utility bill is already high as is. As a single person living in a single household, I put my trash bins out for collection maybe every other week. For the last couple of months, when I do put my trash bins out, the bins have been left uncollected. I have brought this to the attention of the city various times and it has continued to happen. We shouldn't have to pay an increase in services when the city can't adequately deliver the services.

Thank you for your time.

Subject: [External] Protest to solid waste rate increase

Good day,

I want to vehemently oppose this increase to the rates for solid waste pick up, the service is expensive as it is and in the year of Covid-19 while people are out of work you think a rate increase is a good idea?!?!?

For a snap shot of the kind of service the city is providing I will refer back to just last Friday, July 24, 2020. (below)

I have been without a Green bin for over a week because your trash truck operator let it slide into the trash truck and then shrugged crushed it and drove off (I know this because I watched it on my home cameras) when we called the operator said " it happens all the time," so for a week because of an apathetic employee I am already without what you are charging me for.

City services are already canceled i.e. (No fireworks on the 4th) and I have been informed it had nothing to do with Covid but budget. There has been no relief for the tax payers yet the city keeps spending on the homeless and all the other entitlement programs, cut into those programs for your money they are not putting into the tax base and I want **them** and **you** out of my pocket.

regards,

Dirk Kenny

Subject: [External] Regarding City of Riverside Notice of Public Hearing Proposed Solid Waste Rate Increase

Hello,

My name is Isa Akcayoglu and I reside at 8487 Hayloft Pl., Riverside CA 92508.

I am writing to protest the rate increase on solid waste services. While many of us are losing our jobs I feel this rate increase is unacceptable. In addition, working in the private sector we rarely get any salary increase even to offset the annual inflation. Moreover, we already pay one of the highest overall taxes in Riverside County and in the state of California.

Because of the above reasons I am protesting the proposed rate increases regarding the solid waste services.

Sincerely,
Isa Akcayoglu

Subject: [External] Proposed Solid Waste Rate Increases

We are protesting the proposed rate increase that is scheduled for the coming year and beyond. Our service address is 13301 March Way, Corona, CA 92879.

My husband is currently receiving disability retirement and I just retired at the beginning of this year. We are on a fixed income and cannot possibly afford any additional increases in this area.

Currently, our trash per week is less than the one regular trash and one recycle trash. We returned the green waste trash can back in May 2020 after speaking with a customer service representative and explaining that we never ever had a need for the trash can. Our property is 80% - 85% concrete and we have very little green waste.

There is just the two of us and we recycle or re-use many items. Those that we do not re-use, we put into the the recycle trash can or take to the recycle center.

We really can't afford any more increases, especially since we just had one at the beginning of this year.

Sincerely,

Ken & Judi Delfs

Subject: [External] Protest is related to the proposed trash rate increases

Hello. My name is Madaline Fornelli. I reside at 875 Huston Drive, Riverside, Ca 92507. This protest is related to the proposed trash rate increase. I do not want my trash Bill to increase. I am against this action!! I can barely pay for any bills right now. Please do not increase my trash bill. Thank you, Madaline Fornelli Sent from my iPhone Protect yourself and those around you. Wear a face covering, stay home, and avoid gatherings with people outside your household. [RiversideCA.gov/COVID-19](http://riversideca.gov/COVID-19)<<http://riversideca.gov/COVID-19>>

Subject: [External] Protest against proposed trash rate increase

To whom it may concern,

We are protesting the proposed trash rate increase for a variety of reasons. While we understand that the cost of living goes up along with the cost of doing business, everyone should be aware of the decrease in income that most everyone has experienced as well as increased costs in mandatory items such as groceries and health insurance as the supply chain tries to keep up with demand.

Currently it is very difficult for many to pay their bills given the decimation that covid-19 has caused to many families. Our family is no exception. At one point for several weeks, our household of 6 had only one person working. We have had to be very careful with paying our bills, and doing without. At this time, we currently only have two people back to work full time and given that schools are not open and many businesses are closed, additional commercial rate charges may be greatly reduced since no waste will be generated as no businesses are open. We know that this translates into less income for the city and Public Works, but it also means less that you have to do.

As many of us know, unemployment has not been paid for months to many people who are struggling to pay their mortgage or rent and other utilities. Add to that the struggles of having to continue to homeschool their children or pay additional costs to provide them with the ability to do virtual learning, and these additional charges every year will just increase the amount of time it will take for the economy to recover, and it may mean the difference between recovery and total loss for many families.

While we know increased costs are inevitable, we request at this crucial time of economic instability, that the city hold the line on any increases and address this next year at the same time. This will allow the city and the county to do additional studies and also watch how the economy is doing amid Covid-19.

We have already had reduced services with dry street sweeping happening only once to twice a month for years, Road repairs being delayed and many county and city services being restricted throughout departments amidst this pandemic.

To avoid adding salt to the wounds of unemployment, reduced income, high housing costs, and the struggle to provide basic necessities for families, we ask that City follow its own framework plan, providing its citizens time to "streamline" their own lives, "remain fluid" given the economic strictures placed on citizens, allow "restarting the economy" before raising rates, and thereby "Facilitating a thriving business community, healthy community."

Response: The city should respond accordingly to the needs of its citizens. They need a break from increased taxation and service charges amidst their current struggles. This will lead to a slow but steady...

Recovery: Allowing the citizens and businesses time to recover from this pandemic by not raising costs for essential services will allow the city to flourish and...

Thrive: A thriving citizenry means a thriving City, one that can continue its journey to innovation and one of the cities in the county where people actually do love to live.

How much does Riverside truly love and respect their citizens and how much do they want them to succeed and recover from this and future economic attacks?

Respectfully,

Maria Alvarado and family

Subject: [External] Protest trash rate increase

I Maria Gaona at 4325 Via San Luis protest the trash rate increase. Increase of almost 4 dollars Due to Covid is not caring of your residents with income issues. People are unemployed. Adding additional income needs which some people are not working full time . I dont agree to increase and reject proposed increase on trash.

Thanks,

Maria Nunez

Subject: [External] PROPOSED SOLID WASTE RATE INCREASES

For God's sake, have you been noticed that we are in the MIDDLE OF A CATASTROPHIC CRISIS ? Do you know that too many people are struggling in the face of difficulty ?

Before opening this notice I thought that maybe the City Council could have good news for the Riverside City residents. I was wrong.
I insist that your rate increase proposal "IS A COMPLETE JOKE".

I propose to you, to work in a real moratorium of any kind of rate increases up to the end of this chaotic situation. And maybe the Council members of this great city have some good ideas to help the residents instead.

PLEASE BE REALISTIC, THIS IS NOT THE TIME TO PUNISH OUR COMMUNITY!

Thanks,

This is Rafael L Valenzuela with address of 20898 Millbrook St Riverside CA 92508

I definitely oppose to the fee increase do to this year has been very hard for all the community Starting with the pandemic covid 19. the lost of Jobs and the difficulties to do business in this times. and companies that have concessions wanting to race the rates. it is definitely not fair or right fo rOur community.

It should be a deduction in the present rates!!!!!!!!!!!!!!

Subject: [External] Trash increase--protest

To whom it may concern:

Today, I received a notice from the City advising of a meeting to "increase the trash rates" in Riverside.

I am a retired widow living off my social security and pension. California already has the highest taxes and living expenses in the Nation. My property tax is so high I can hardly pay them each year. My utility bill last month for water, electric, and city services totaled \$1150 for the month. The home I live in was built long ago for retirement purposes. I do not see that I can stay here long term if my daily needs continue on this pace of constant increases. Further, the notice states this is to help with the State mandate to recycle trash. To my personal knowledge, the City and State no longer recycle trash as it was not profitable for them to do so. Also, we now have to pay for bags at the grocery store. As a widow and only person in my home, I don't need my trash picked up once a week, how about proposing allowing some residences to have a pick up ever two weeks, to save money? These nickel and dime charges constantly reduce the meager living seniors live on already. California must learn to live within budgets like everyone else.

Therefore, I adamantly opposed any new increases to trash collection or any other City services.

Subject: [External] Rate waste rate increases protes

I live at 5878 Norwood Ave, Riverside, CA 92505 and this new rate increas should be held until the economy gets back on track. Rising any kind of rates in this pandemic is like a slap on the face to the city residents when most are unemployed or are stugling to make end meet. Every cent counts to us . \$4 to a low income person is a gallon a milk, cereals or a small meal. Pleas put yourself in out shoe's and see our point of view

Subject: [External] Protest of Proposed rate for trash service

Hello,

I am writing this letter to protest any increase proposed trash service rate in Riverside , i have lived and owned a house in Riverside since 2011, the rate is keeping going higher every year more than more than the inflation rate or any minimum wages increase in the last ten years.

So please stop increasing trash service fees which is already too high (paying \$85 a month).

Thank you

Subject: [External] Something to Seriously Consider

I Theodore Thacker live at 4704 Beverly Ct. Riverside CA. 92506. I am 65 years of age and a disabled Vietnam Veteran of a 100% by the VA also on Social Security Disability. I cannot believe a proposed rate increase for solid waste is even being thought about at this time. With Co-vid 19 residents unemployed, loosing their jobs and cannot make ends meet A proposal of this type is even being considered??? Times are hard and tension is high. By the City increasing anything at this time will frustrate people and who knows what is next. We do not need another Protest in the City. Please reconsider this matter.

Thank You

Theodore Thacker (I moved back to Riverside because this is my home)
